There has been change enough in the twenty-four counties enumerated below, to neutralize the entire majority given to Gen Pierce. But this is not all. On Friday last there was a very large public meeting held here to express the indignation of this community at the assault upon Senator Sumner. It was a highly dignified and exceedingly respectable assemblage, embracing the leading business men and citizens of the place, and in weight of character it has never been excelled by any meeting ever held in the city. The telegraphic reporter for the press, here, it seems, was altogether oblivious of the fact that such a meeting was held; but he was wide anough awake to telegraph about "the universal joy" dansed here by Bushanan's nomination, and about the tremendous demonstra-tions at the ratification meetings held on Satur-day and Monday evenings. A Reign of Terror in Kansas.

A Reign of Terror in Kansas.

LAWREGE, Saturday, May 31.

Editors of Chicago Tribusa:

There is a Reign of Terror in Kansas. The prospects of freedom are gloomy. The Northern squatters are yielding to despair. Their only hope is in Northern resolution. If the people of the North command their Representatives to stop the supplies, unless Kansas be transdictly admitted into the Union, they will fight and struggle till the end; but if the supplies are granted, without this proviso, they was yield to the overwhelming foreign forces united to subdue them.

The position of the Northern people of Kaneas is one of imminent peril. The troops, the Courts, the Blue Lodge and the Southern army under Buford and others, are incessantly employed in robbing and harassing them.

If Northerners unite for unitual protection, the troops immediately disperse them, and a party of Missouri or Alabama ruffians, following in the footsteps of the soldiery, plunder and insult them with impunity.

Socuta ride all night in several districts.

Missouri is marshaling her forces again.

Lies, malignant and innumerable, are sent in legions along the border counties, to exasperate the people of that State against the Free State settlers and their political opinions.

A civil war or submission to arbitrary rute, to despotism on the Bench, military dication and armed mob law, are the only alternatives before the people from the North, in this Territory, who are resolved, at all hazards, to remain shere.

Some angry words passed between the parties. Wilkinson then seized on the squatter, and told him that, as he refused to acknowledge the Territorial laws as valid enactments, they would give him a lesson to teach him what his principles would lead to. But they had disappeared as suddenly and mysterion by as they came.

We have confined ourselves in this list to counties, that have always heretofore been democratic, in order to show the change more palpably.

A similar change might be shown in many other counties, in which the opposition majority can now be largely increased over that of 1852.—
We need go no further than Allegheny county in litustration of this. It will give a much heavier majority against Bachanan than it did agamst Pirroe; and this is doubtless the case with most if not all the old Whig counties.

We do not cite these figures for the purpose of ciphering out future election results; but to afford our Buchanan friends some substance for a cult which they can chow and ruminate over.
