The Pennsylvania dele-gation is largely in favor of McLean, but there emphatic declaration, without a shadow of qual-ification. Under this great panoply we all imaare some Fremont men in it. Ohio will give a nentary vote to Chase, and after that its vote will be divided between Fremont and McLean the former preponderating. New York will at first vote for Seward, and after that, it is said the bulk of it will yote for Fremont. Vermont Deloware, New Jersey, Michigan and Indian will go for McLean, the rest of New England and the Northwest for Fremont. These are the ndications now; the canvassing to-morrow may change matters materially. Kentucky, Virginia, North Carolina, Marylan

and Delaware will be represented, besides all the Free States. S. N. Wood and Lieut. Goy. Rob erts, of Kansas, are both here. The Convention will convene at the Musica

Fund Hall on Tuesday, at 10 o'clock. There is a very manifest chauge in the publi

delphia, since the attack on Sumopinion of Phil ner. There is a general desire to throw Fillmor overboard and unite, if possible, on the Republi the public sentiment now prevailing, which is er oredingly refreshing to to these of us who can remember the freezing pro-elsvery coldness in his usurpations. A STROK OF TROUBLE .- The Charleston Herbeen appointed Sheriff by the border ruffian Leg- | cury takes strong ground against the allibuster isisture, and under his order the writ was exe- plank in the Cincinnati platform. We quote a cuted. These facts are as notorious as any facts single sentence, which contains the gist of the editors argument: "The Mource doctrine, as now interpreted, is a pure figment of poluical dema-

gogues and fillibusters." The statics are ours. Now what is going to be done with that plank? The Mercury says the declaration of President Monroe was "made to meet an exigency, and made at the suggestion of the British Govern-ment itself. It was Mr. Conning, the British Premier, and not Mr. Monroe, who originated and suggested it," and appeals to the authority of Mr. Rush, who was minister to England at the time, and to Mr. Calhoun, for the truth of

its declaration. THE AMERICAN CONVENTION .- The Telegraph will keep us advised of the doings of this impor-tant body, but here is a short extract that will etter convey the spirit that prevails there. Mr.

Baker of Massachusetts is the speaker: "How what did they want to do? They had a | Beliance Mutual Insurance Company a construction of the second state of the second the

There is a very healthy tone to other hand the military forces of the govern-
