SCOTCH BOTTOM LAND FOR COUNTRY SEATS AND GARDENING PURPOSES, At Public Sale—On Thursday afternoon, June 26th, at 5 o'clock, will be sold on the premises that very valuable and handsome lot of ground, containing over fifty acres, situated on the North side of the Monongahela river, in Peebles township, about two and a half miles from the city. The above which has been subdivided into lots, of from two to ten acres each, if more desired, is one of the choicest of the well known Scotch Bottom tracts lying between the Braddock's Field Plank Road and the Monongahela River, adjoining lands of the late James Ross, deceased, and being a part of the Woods Estate. This land is now under cultivation, every foot of it arable and of the very best quality for gardening purposes, and most desirable as sites for Country Residences, delightfully situated on the bank of the Monongahela, within a few minutes ride of the centre of business over a good macadamized road. To gentlemen seeking a beautiful secluded country home easy of access, or Gardeners, a warm and fertile soil could be afforded.

Plans can be obtained at the office of M. Swartzwelder, Esq., No. 142 Fourth st., or at the corner of Wood and Fifth streets.

Title indisputable. Terms, one fifth cash, balance in five equal annual payments, secured by Bond and Mortgage on the premises, with interest payable semi-annually.

N. B.—Omnibuses will leave the corner of Grant and Fourth sts. at 2½ o'clock, P. M. on day of sale, to convey persons desirous of purchasing to the ground.

FARM LANDS FOR SALE.

THE ILLINOIS CENTRAL RAILROAD COMPANY
IS NOW OFFERING TO SELL
FIVE TWO MILLIONS OF ACRES
OF
FARMING LANDS,
In Tracts of 40 Acres and Upwards,

On long credits and at low rates of interest.

These lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The road extends from Chicago, on the north-west to Cairo at the south, and from thence to Dunleith and Dunleith, in the north-west corner of the State, and all the lands lie within 15 miles on each side of this road, ready and cheap means are afforded by it for transporting to the markets of the lands to any of those points, and from thence to Eastern and Southern cities. Moreover, the rapid growth of flourishing towns and villages along the line, and the great increase in population by immigration, also, afford a substantial and growing home demand for farm produce.

The soil is dark, rich mold, from one to five feet in depth, is gently rolling, and peculiarly fitted for grazing cattle and sheep, and for the cultivation of wheat, Indian corn, &c.

Economy in cultivating and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, stumps grubbed, or stones picked out, as is generally the case in cultivating new land in the older States. The first crop of Indian corn planted on the newly broken sod, usually repays the cost of plowing, and fencing.

Wheat sown on the newly turned sod is sure to yield very large profits. One man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at $2 to $2 50 per acre. Experienced management of land may be ploughed and fenced the first, and under a high state of cultivation the second year.

Corn, fat cattle, &c., will be forwarded at reasonable rates to Chicago, for Eastern markets, and to Cairo for the Southern. The larger yield on the cheap lands of the West over the high-priced lands in the Eastern and Middle States, is known to be more than sufficient to pay the difference of transportation to the Eastern markets.

Numerous coal fields at several points along the road, and is a cheap and desirable fuel. It can be delivered at several points along the road at $1 25 to $2 per ton. Wood can be had at the same rates per cord.

Those who think of settling in Iowa or Minnesota, should bear in mind, that lands in any of those States on the water courses and for many miles inland, have been disposed of—had for the actual settlers, and that there are no conveniences for transporting the produce to market. Railroads not having been introduced into those States to send the produce of those lands, one or two hundred miles from water transportation, would cost much more than the expense of cultivating them; and hence, Government lands thus situated, at $1 25 per acre, are not so good investments or the land of the company, as the prices fix them.

The same remarks hold good in relation to the lands in Kansas and Nebraska, for although vast lands may be settled nearer the water courses, the distance to market is far greater, and every hundred miles the produce of those lands are carried either by wagons, or by interrupted water communications, increases the expenses of transportation, which must be borne by settlers, in the reduced price of their products, and to that extent precisely are the incomes from them, and of rents on their investments, annually and every year reduced.

The great fertility of the lands now offered for sale by this company, and their consequent yield over those in the eastern and middle states, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this road, and other lines with which it connects, the operations of which are not in corrupted by the low water of summer, or the frost of winter.

PRICES AND TERMS OF PAYMENT.

The price will vary from $8 to $20, according to location, quality, &c. Contracts or deeds may be made during the year 1856, stipulating the purchase money to be paid in five annual instalments, the first to become due in two years from date of contract, the others annually thereafter. The last payment will become due at the end of the sixth year from date of contract.

INTEREST WILL BE CHARGED AT ONLY 3 PER CENT PER ANNUM.

As a security for the performance of the contract, the first two years' interest must be paid in advance, and it is not to be understood that one-fourth of the land purchased shall yearly be brought under cultivation, it merely specifies the time when the principal price will be deducted for cash. The Company's construction bonds will be received as cash.

Ready Made Farm Buildings, which can be set up in a few days, can be obtained on reasonable terms.

They will be 12 feet by 20 feet, divided into one living and three bed rooms, and will cost, complete and on the ground chosen anywhere along the road for $150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing lands with stoves, tools, and all farming materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest wholesale cost.

It is believed that the price, long credit, and low rates of interest charged for these lands, will enable a man with a few hundred dollars in cash, and ordinary industry, to make himself independent before all the purchase money becomes due. In the mean time the rapid settlement of the country will probably have increased their value four or five fold. When required an experienced person will accompany applicants to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, elected by responsible and well known farmers living in the neighborhood of the Railroad lands, throughout the State—also the cost of fencing, price of cattle, expense of breaking, ploughing, &c., by contract—and any other information will be cheerfully given, on application, either personally or by letter, in English, French or German, addressed to JOHN WILSON,
Land Commissioner of the Illinois Central R R Co.
Office, up to the first of May, No. 52 Michigan Avenue after that date at the Passenger Depot, foot of South Water st., Chicago, Illinois.

Parkersburg Mineral Wells.

THE undersigned, proprietor, respectfully announces to his friends and the public, that this well known watering place is now open for the reception of invalids and visitors generally. Since last season, considerable refitting and repairing has been done, and the subscriber is prepared to entertain a larger number of guests than ever before. Of the virtues of these waters, he deems it wholly unnecessary to say anything. They are widely celebrated by the many cures of chronic maladies effected. Indy suffice, that, in cases of dropsy dyspepsia and kindred diseases, the benefits derived from of these waters are unrivalled. Every attention extended to boarders, to promote health and comfort.

COX & ROBERTS' PATENT THRESHER AND CLEANER,

WITH LATE IMPROVEMENTS,
MANUFACTURED BY
BOLLMAN & GARRISON,
PITTSBURGH, PENNA.

THE undersigned, having purchased the right to manufacture and sell the above Machines, in this and the adjoining States, are now prepared to furnish them to Farmers and others, on short notice.

These Machines clean and THRESH the Grain ready for market, and are considered by those having them in use, to be the BEST PORTABLE AND DURABLE MACHINES offered for sale. They have been thoroughly tested for more than two years, and several hundred have been made and sold, giving the most entire satisfaction. Having increased facilities for manufacturing these machines, and with improvements which have been added, we are determined that the workmanship and materials shall not be excelled. We offer them to the public, believing they are the best machine now made for the farmer.

Our Low P Power Horse are a convenient size for use, being the most portable and simple one manufactured.

The Endless Chain or Railroad Power is very durable, wrought iron links being used instead of cast iron, consequently they are not liable to break or wear out.

Any further information, by letter, or otherwise, will be cheerfully given.

Persons wishing to examine these Machines, can do so by calling at our Works, in Birmingham, or at the Warehouse, No 119 Smithfield st., Pittsburgh, Pa.

Cottage Grand Piano.

SPECIALLY adapted for use in STEAMBOATS, COTTAGE HOUSES, &c, and in all places where a neat and compact size of instrument is desirable. They occupy but very little room, their length being five feet, their breadth four feet and depth two feet, and are much superior to the square or Boudoir Pianos, in fullness and sweetness of tone. The style of furniture is unsurpassed for elegance and tastefulness of construction, and their durability is doubted, being iron fastened throughout, and made of the most substantial materials. They are from one of the first manufactories in Europe, where they are last superseding all other styles in favor. Purchasers and the public in general are invited to call and examine.

MELODEONS AND REED ORGANS.—Charlotte Blume has just rec'd another lot of these unrivalled Melodeons and Reed Organs in elegant rosewood cases of every variety of style, containing 4, 4½ and 5 octaves portable style, with scroll legs; 5 and 5½ octaves, semi-double or Piano Action, with scroll and carved music desk, 5½ octaves, piano style, with 2 stops, and containing 2 sets of reeds throughout; the one tuned an octave above the other; an excellent instrument for the use of churches, chapels and lecture rooms. Every instrument is subjected to a thorough examination previous to being sent from the manufactory, and is warranted in every respect. These instruments are recommended as being far superior, both in tone and finish, to any others manufactured.

The chief improvements (upon which the makers have lately secured Patent Rights,) consists in swinging the wind to its directly upon the reed, and so producing a purer tone in the key valve, the quickest possible vibration, and the sound then passes into a sounding chamber, and is struck by the swell which mellows the tone, and gives it more of the character of the human voice, than in the ordinary style of reed instruments. TELEGRAPHIC

CONGRESSIONAL.

WASHINGTON, June 21.

HOUSE.—Mr. Burlingame defended Massachusetts against general and specified charges, claiming that in all that constitutes true questions she is the first State, and that her present performances are superior to her past patriotic recollections. He was sorry to find at the head of the list of assailants the President of the United States, who had deliberately prevented her history to eulogize the South at the expense of the North, and become the chieftain of sectionalism. Massachusetts believed with South Carolina the Fugitive Slave Law to be unconstitutional.

Mr. Keitt asked Mr. Burlingame for his authority relative to South Carolina.

Mr. Burlingame cited the remarks of the Charleston Mercury which spoke of the Fugitive Law as an infringement of one of the most cherished principles of the Constitution. In conclusion he referred to Mr. Sumner's speech and its purity and nobleness; its sentiments and severity and its strictures against tyranny. Mr. Sumner never had a personal enemy; his character was as pure as the snow which falls on his native hills; his heart overflowing with kindness for every human being, bearing the upright form of man; he was an accomplished scholar and a chivalrio gentleman. A member of the House who had taken an oath to support the Constitution, stole into his, the Senate, and smote his brother.

Mr. Keitt—It is false. (Sensation.)

Mr. Burlingame replied that he would not bandy epithets, but was responsible for his language only and doubtless the gentleman was responsible for his.

Mr. Keitts—I am.

Mr. Burlingame after describing and severely condemning the assault asked; call you that chivalry? In what code of honor did you get authority for that? If we are not to have freedom of speech what is all this government worth? If we are to be called to account by some distant nephew of some gallant uncle for something which does not suit their sensitive nerves, we want to know if it will conflict to be transferred from a peaceful intellectual field where honors are equal and easy; we want to know if the time may come when Massachusetts may withdraw her Representatives to her own bosom, when safety is not to be found for them under the flag of our common country. But while these Representatives are here they will speak, when and how they will speak, unawing for consequences; if they are pressed too long and too far they will not shrink from a defence of the honor of the Commonwealth of Massachusetts and the freedom of speech.

Mr. Keitt sought the floor, which was awarded to Mr. Carlile, who declined to yield it.

Mr. Keitt gave notice that he should on Monday reply to some points in Mr. Burlingame's speech.

Mr. Burlingame was privately congratulated by his friends.

Mr. Carlile condemned the Cincinnati resolutions, or as he said, the filibustering platform. Everything could not receive the electoral vote of any district except that represented by Mr. Giddings. The contest is between Fillmore, the candidate of the National party, and Buchanan who is supported by a faction.

Mr. Washburn of Maine urged the necessity of Union among the opponents of the administration and those adverse to the extension of Slavery in the territories. He examined the platform of the Cincinnati Convention with its principles; the antecedents of Mr. Buchanan and the doctrines of the Democratic party, and concluded by saying that it was an inexpressible relief to emerge from this dark and fetid atmosphere, reeking with shames and wrongs, into clear light and the healthful breezes of truth and liberty. He spoke of Freemont as the standard bearer of Freedom in this contest; a man of true man whose aim will be to maintain the principles of the Constitution and bring back the government to the policy of Washington and Jefferson. Mr. Washburn triumphed in the faith; say he had an unfaltering conviction that the proceedings of the Republican Convention will be sustained by a large majority of the American people.

The House then adjourned.

NEW YORK, June 21.—The committee appointed by the North American Convention had an interview with Ex-Gov. Johnson, who promptly accepted the nomination for Vice President made by the Convention; returning thanks for the honor in an appropriate speech.

NEW YORK, June 21.—The market for common and inferior grades of flour is heavy and is inclined to droop, while in the medium grades there is a fair business doing for export and home consumption without material change in prices; sales 13,000 bbls at $4,70@5,25 for common to good State; $5,60@6 for extra State; $5,40@5,75 for common to good superfine Indiana, and $5,75@6 for common to good extra do. and $6,00@6,75 for fancy and extra; the market closing dull and the tendency of most descriptions being downward; there is no change in the market for Canadian flour; and transactions are only to a moderate extent; sales 700 bbls at $5,40@5,75 for common to good superfine and $5,80@6,75 for fancy and extra, the market closing heavy.

In Southern Flour there is not a great deal doing, and the market is without important alteration. Sales 600 bbls. at $6,10@$6,70 for mixed to choice, and $6,75@$8,75 for Fancy and Family brands; sales Philadelphia at $4,60 for fine and superfine. Corn Meal firm—sales 700 bbls. Brandywine at $3,18@$3,25. Whiskey—prices have again advanced—sales 350 bbls. at 29½c.

There is less export demand for Wheat, while there are large receipts, and holders are more anxious to realize; the advance of one or two days ago is nearly lost; sales 60,000 bus at $1,60 for fair white Canadian; $1,22 for Chicago Spring; $1,66 for white Ohio; $1,45 for red Genesee; $1,35 for common red Indiana; $1,65 for China Canadian; $1,40 for mixed Western; $1,71@$1,75 for white Southern; and $1,37½ @1,55 for red Southern.

Rye scarcely so firm and prices without important change; sales 5000 bush. at 83 for fair Northern. In corn there is a fair business doing at prices in favor of purchasers; sales 61,000 bush. at 43@46 for distilling Western mixed; 50@52 for common to good do; there being no strictly prime in the market 66 for yellow Southern and 62 for fair white do; there is no change in the market for oats and business is quite moderate. Pork is a shade firmer and in fair demand; sales 1200 bbls at $19@19,25 for mess; $16,60@16,75 for prime mess and $16,37@16,50 for prime.

Beef firm and in pretty good demand, with sales 600 bbls at $7,25@$8 for country prime; $8@9,50 for country mess, and $8,75@$12 for repacked mess; Beef Hams and prime Mess Beef quiet and nominally the same. PITTSBURGH CHEMICAL AND VARNISH WORKS.
FINCH & CO.,

RESPECTFULLY inform Druggists and Dealers in Varnishes generally that they have for some time been engaged in the preparation of and description of Copal and other VARNISHES, and are now prepared to supply their friends and the public generally with articles of the very best manufacture, made of the best material, and selected with the greatest care and on the most favorable terms.

FINCH & CO. intend to devote themselves to cultivate a first class trade, and have no doubt that their articles will prove satisfactory. Their tariff of prices will be found equally low with any of the eastern manufacturers, and being determined that no article shall leave their works but of approved and tested quality, they only ask for a trial and a share of the public patronage.

To our fine BODY COACH VARNISH we would call particular attention. This article is equal to any English Coach Varnish of the very best brands, being made exactly after the process of the first class English houses, by Mr. Thomas Douglass, who for many years was engaged in some of the most extensive establishments in England and Scotland.

Our Anti-Corrosive BLACK VARNISH we would particularly recommend to Founders, Boatbuilders, and Manufacturers of iron generally. Its peculiar qualities prevent oxydation entirely, which is a great desideratum to those using varnish for iron, and prefrank s to asphaltums and other varnishes.

All orders left at Messrs. JOHN IRWIN & SONS' Front st. will be punctually attended to, or with J. FINCH, 127 Third st.

A MARVELLOUS REMEDY!

FOR A MARVELLOUS AGE!!

HOLLOWAY'S OINTMENT!

THE GRAND EXTERNAL REMEDY.

BY the aid of a microscope we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the Kidneys, disorders of the liver, affections of the heart, inflammation of the lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt cannot freely impregnate one piece of meat or one thickness of cloth without the aid of water. This healing Ointment far more readily penetrates through the bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

ERYSIPELAS, SALT RHEUM & SCORBUTIC HUMORS.

No remedy has ever done so much for the cure of diseases of the Skin whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Head, Scrofula or Erysipelas, can long withstand its influence.—The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

SORE LEGS, SORE BREASTS, WOUNDS AND ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swellings and tumors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large supplements of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

PILES AND FISTULAS.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:

Bunions	Lumbago	Sore Legs	Swelled Gland
Bowel Complaints	Mercurial Erup-tions	Sore Breasts	Stiff Joints
Chil'd Hands		Sore Heads	Ulcers
Chilblains	Piles	Rheumatism	Wounds of all
Fistulas	Rheumatism	Sore Throats	Venereal Sores
Gout	Salt Rheum	Scrofula	Sores all kinds
	Scalds	Sprains	Worms of all kinds.
	Skin Diseases	Scalds	Liver Complaint

**Sold at the Manufactories of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London; and by respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cts, 62½ cents and $1 each.

Purchasers should look to the address of Professor Holloway, 80 Maiden Lane, New York, and 244 Strand, London, as all spurious imitations are here they will speak, when and how they will speak, unawing for consequences; if they are pressed too long and too far they will not shrink from a defence of the honor of the Commonwealth of Massachusetts and the freedom of speech.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot. jel4 not sowly
