BELTING

Patent Riveted and Stretched *LEATHER BELTING,*

From the Manufactory of Hoit & Brothers, *NEW YORK.*

TO the Belting of this manufacture has awarded Gold Medals and Diplomas from almost every State and institution where it has been tested; the most recent by the American Institute, New York, at the late Fair of 1855. It is of the superior quality, every branch of the business being conducted under the personal care of the principals who themselves select by themselves at their own receiving house. Having first class foremen, they are served, turned at their own tannery, after the bellies and shoulders have been taken off, received at their new York thoroughly tanned, fresh from the vats, curried immediately, and then stretched on machines with every modern improvement, and then riveted and oiled on their patent copper rivets, and burrs which make a perfectly even surface on both sides of the belt, and prevent it from slipping. Truly on the principle of giving a power of more than 20 per cent. over those made in the usual manner. To meddlesome kinds, to cotton and woolen manufacturers, rolling mills, machine makers, sawing and planing establishments, owners of steam boats, &c., &c., these belts do honor. In short to every consumer, this belting is especially recommended. The best of workmanship and stock used. It will not bind. For sale by M.
