GAZETTE—CITY DEPARTMENT.

PITTSBURGH:

FRIDAY MORNING, JUNE 27, 1856.

SUCCESSFUL APPLICANTS.—We are indebted to the gentlemanly courtesy of the Board of Licensers for the following report. This is the result of their eight weeks' session, and of the evidence of a great number of witnesses, and we believe it will be generally satisfactory. The Board acted up to its standard of morality in their decisions—deeming it immorality to sell liquor on Sunday, or to minors, or to confirmed inebriates. This standard has been objected to, but we believe it will be sustained by nine-tenths of the community:

From the number applying for license to keep Hotels, Inns and Taverns and Eating Houses and to sell Liquor with other goods in the City of Pittsburgh, the Board of Licensers have selected the following named persons to whom license will be granted:

1st Ward Hotels, Inns and Taverns.

Wm. Adams,	Jno. B. Meanor,
Alex. Cuppley,	P. Nicholson,
Ab'r. Greenwood,	Christ. Waring,

By the 10th Section of the act under which the Board are appointed, appeals are allowed from any apportionment, classification or grant of license made by said Board to the Court of Quarter Sessions of this county under certain restrictions therein set forth. *Provided* the same shall be entered within five days after the return of the Petition to the Clerk's office.

Notice is therefore given that in the expiration of five days from and after the 27th instant, all applicants whose grant of license may not be appealed from to appear before us and to satisfy us with regard to their rental and sales respectively, after which we shall require all applicants to execute anew their Bonds and to satisfy us in some satisfactory way as to the sufficiency of their sureties.

As a guide to the Clerk it is ordered and directed that no license be given in any case without an endorsement upon the Bond of the applicant to the following effect, viz: "Approved" "Rental and sales and classification," over the official signature of the President of the Board.

THE ABDUCTION OF MARY A. CROSBY.—*Examination of Parties.*—We gave in full yesterday, the account of the recovery of Mary Anne Crosby, the abducted child. The police on Wednesday evening arrested Mrs. Toner, *alias* Mrs. Curling, one of the women who left the girl at the B. C. Orphan Asylum, at her residence on Grant street, and took her before Mayor Bingham. She there acknowledged that she had taken the child from the Allegheny depot on Monday morning, the 16th inst., a man having given the child into her possession, and that she afterwards left her at the Asylum. She gave bail for her appearance on Thursday morning.

Yesterday morning, John Clover, watchman at the O. & P. depot was arrested for conspiring with Mrs. Toner to abduct the child, and arraigned for examination. Mrs. Curling was also present, with Col. Black as counsel. Mary Anne Crosby, who is an interesting and rather pretty girl of twelve years of age, after being cautioned as to the nature of an oath, then made the following deposition:

"I came with my parents, my mother and step father, from Chester county. We came here last Sunday morning week (16th.) We stopped at a hotel in Allegheny. On Monday morning we got into an omnibus and went to the railroad depot. We were going to Chicago. When we were at the depot the baby was crying. Mother was whipping the baby and me too. The defendant and Mrs. Curling was talking about me when in the office at the cars; the defendant called me out and took me round to the other side of the office. Mrs. Curling came after him, and she took me away by the arm, she made me run; I was willing to go along; she forced me a good bit; she told me she was going to take me to her house. Mrs. Curling had talked to me before the defendant took me to her; she forbid me to look out of the window or go to the door. The defendant did nothing, but told me to come to him, and she took me to her. I am sure this is the man, I cannot be mistaken."

The following witnesses were then called:

Mrs John Sheppard sworn—Stated that she was at the depot on the occasion alluded to and saw a lady about her own age talking to her; she was dressed in a dark dress of some description, and wore a green veil; saw the woman have hold of the girl by the shoulder as she crossed the bridge below the office; there was a crowd in the neighborhood and they all appeared pleased that the girl was got away; did not see the defendant Clever, have anything to do with him.

Sarah Ellen Curling sworn—I cannot swear that I saw the defendant at the depot; saw both parents abuse the child; had no previous conversation with the man who gave me the child; can't swear to the man; do not think I would be safe in doing so; some man handed me the child; I suppose he took her through sympathy as I did; the child said she would go with no person but me; saw many gentlemen there that I have met on the streets since.

There was no evidence to implicate Mrs. Bischle with the abduction, though the Sisters of Mercy assert that she accompanied Mrs. Toner, or Curling, to the Asylum with the child.

The Mayor, after hearing the above statement, demanded $1000 bail from each to answer at Court the charge of abducting and conspiring to abduct and having feloniously abducted, stolen and carried away Mary Ann Crosby.

VAN AMBURGH'S MENAGERIE, which is to visit this city and exhibit in front of the American Hotel next week, is one of the best and most extensive in the country. The splendid collection of animals has been gathered from the four quarters of the globe without regard to expense, and no man in the world has better judgment in such matters than has Amburgh. The Circus company which forms part of the exhibition is composed of select members of the profession—among them the celebrated Cooke Family. The jester, Dan Stone, is a well known favorite in this city. There will be but one charge for admission to both the Circus and Menagerie. The exhibitions will commence on Wednesday, July 2d and continue during the week.

THE FILLMORE AND DONELSON MEETING.—The Fillmore and Donelson meeting held last evening, was a very trifling affair, there not being more than forty or fifty present. Fillmore resolutions were read and adopted, by a very few of those present, a considerable portion of the meeting, probably a majority being opposed to Fillmore. It was too small an affair for extended notice, and gave evidence that there is really no Fillmore party in this county.

TO THE BAIL.—Sanders, of Sixth street, again appeals to that portion of our community who have no hair where the hair ought to be, and those who are losing their hair. His Scalp Tonic, as we have reason to know, is really an invaluable article, and does all that the proprietor vouches for it.

Card to the Public.

TRIAL OF MOWING MACHINES.—We have every reason to be satisfied with the fairness and impartiality of the Committee who acted as judges on the trial of mowing machines on the 26th inst., at Wilkinsburgh. We are *deeply sensible* that other machines can cut grain under some circumstances by a *liberal use of Ketchum's Patents*, that without them they could not advance one rod.

Purchasers of machines should be cautious as to buying those that infringe, as they are equally liable with the maker.

There were some circumstances attending the trial that demand some notice. There was little difference in the draft of the machines, either in fact or as was showed by the test of the Dynamometer. Such a test generally is far from being satisfactory. All the circumstances should be equal, the speed the same, or of different allowance made for it and the same amount of work done by the different machines. We know the Committee desired to equalize everything. But it was apparent to every one that Ketchum's machine had much greater speed and cut closer, which very much increased the draft.

During the whole trial the speed of the teams on Ketchum's Mower was so great and unequal as to very much deteriorate the work done. We have deemed this brief notice demanded from us, as we intend not only to protect the reputation of our machine, but our rights secured by Ketchum's Patents. We refer our readers to another column for a brief statement of the claims of Ketchum's Machine.

Dated Pittsburgh June 26, 1856.

HOWARD & Co.
Proprietors & Manufacturers, Buffalo, N. Y.

KETCHUM'S MOWER AND REAPER.

We have been furnished with the following description of this machine, and had they not operated the machine with the best team in the county at too great speed, we have no doubt the machine would have fully come up to the claims made for it on the trial, as its world wide reputation has fully established its favor with the public. The agents for the sale of this machine are Messrs. Holmes & Collins, Pittsburgh.

Points of excellence in Ketchum's Mowing Machine, entered by Messrs. Howard & Co., of Buffalo, N. Y., Manufacturers and Proprietors.

The machine exhibited is simply a Mower. It is changed to a Reaper very simply and quickly without any change of gearing, by adding four sections to the driving wheel, which increases its size one-third, and diminishes the motion of the knives and draft of the machine one-third, as the very high motion of the knives required in cutting grass is not necessary in cutting grain.

The price of the Mower in Buffalo is $110 and combined machine $130 00 freight always to be added.

SIMPLICITY.

The machine is so simple that any farmer can put one up and use it.

FACILITY OF MANAGEMENT.

Any boy that can drive a team can manage it. Only one person is ever required to handle it. By means of the wheel on the cutter bar, the machine can be backed easily and turned as on a pivot in a small space.

DURABILITY AND RELIABILITY.

The frame is of heavy wrought iron, and the only wood about the machine is the Track-cleaner, Pole and Seat. These can be made here in use, and many have cut over two hundred acres of grass each season during four successive seasons, without a single dollar being expended on them. Every thing is made in the best and most perfect manner.

ADAPTATION TO VARIED SURFACES.

This quality, indispensable to a good Mower, is secured by Ketchum's Patent. The knives are on a line with the tread of the wheel, and must follow the varied surfaces of the ground.

ADAPTATION TO CUTTING CLOSE.

The cutter bar is of iron, one half inch thick and about three inches wide, and the cutters may cut as close or as high as desired, by elevating or depressing the pole. With a narrow cutter bar, the machine will not be clogged by the cut grass lying on the bar.

FREEDOM OF THE KNIVES FROM CLOGGING.

This is secured by four very important inventions secured to Ketchum's machine.

1st. There is an oblong hole in each section of the finger to permit the short, fine grass to work through.

2d. The reversed guards prevent the fine bottom grass from being drawn back and wedging in on the top of the knife.

3d. The sections extend back of the rod to which they are riveted, with the corners cut off, thus forming another hole for the fine short grass to work out.

4th. There is secured by Ketchum's Patent, an open unobstructed space below the frame, and between the head of the cutters and the wheel, to allow the machine to pass freely over the cut grass without clogging.

MOTION, POWER, AND TIME OF CUTTING.

A light pair of horses can easily cut ten acres of grass in a day, and the grass is left evenly spread for curing.

IMPROVEMENTS.

1st. The wrought iron frame has been increased in size to give it more strength and rigidity.

2d. A small wheel with a jointed lever has been attached to the rear of the cutter-bar, upon which it bears lightly while mowing, thus lessening the draft of the machine, and upon which it is thrown entirely while back. It is so contrived that the bar may be raised instantly 8 or 10 inches from the ground and held there by slipping in a small wedge at the joint of the lever of the small wheel on the cutter-bar, and the machine can then be moved any where, over the cut grass from lot to lot or along the road.

3d. The guards are very much improved, and purchasers can have either wrought iron or the best malleable iron.

4th. In the Reaper a rod is placed under the cutter-bar, to prevent its springing, a large wheel, adjustable, is attached to the outer end of the Platform, the divider is improved, and the purchaser can have a Platform for the side delivery of the grain or for side raking, out of the way, so as to come round the second time without taking up the grain.

EXCURSION TICKETS TO CHICAGO for the coming Encampment will be sold at the office in the Monongahela House, for the round trip over the Northern plus ure Route, for the sum of $12. This is indeed a great opportunity for persons visiting Chicago. Passengers leaving this city at 8 o'clock, P. M., by the Ohio & Penn'a. R. R., enjoying a comfortable nights rest on board the boat, and arrive in Chicago the next evening. Any persons going there will do well to call on Frederick Knowland, the gentlemanly agent and procure their tickets. He will put them through.

IT IS now universally allowed that no fashionable lady considers herself well dressed without wearing one of M'Tighe's new style mantillas, and as there may be some who have not yet supplied themselves, we would say for the information of such that A. M'Tighe, corner of Grant and Fifth streets, has in store and is now open one hundred more of those beautiful black and colored mantillas at $3, $4 and $5 each.

THE MANCHESTER CHURCH DIFFICULTY.—The Presbytery of Monongahela passed the following resolution in relation to the Manchester Church difficulty:

Resolved, That when this adjourn it adjourns to meet in Manchester on the second Tuesday in August, to instal Rev. J. C. Steel, if the way be clear, and to transact its other business.

A special meeting of Councils will be held this evening, when the Allegheny Valley Railroad question will be fought out.

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath when by the use of "Dr. Sherman's" Lozenges or Dentrifice they would not only render it sweet, but leave the teeth white as alabaster? Many persons do not know their breath is bad, and the only way to learn it is for friends will never mention it. Put a single drop of the Lozenges on your tooth brush and wash the teeth night and morning. A fifty cent bottle will last a year.

Dr. Sherman's Lozenges may easily be secured by using the "Balm of a Thousand Flowers." It will remove tan, pimples, and freckles from the skin, leaving it soft and beautiful as infancy. Use two or three drops, and wash the face night and morning.

Sherman's Hair Restorative—Wet your shaving brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers" rub the beard well and it will make a beautiful soft lather much facilitating the operation of shaving. Price only fifty Cents.

Principal Depot, 289 Broadway, N. Y. Sold by DR. SHERMAN, 324 Canal st., New York, and by all Druggists and Perfumers.

We learn that the City Treasurer yesterday negotiated the temporary loan of $30,000, authorized by the late ordinance, on favorable terms. The interest on the City debt, including that on the Steubenville Railroad bonds, will be promptly paid on the 1st of July.

THE WHEAT HARVEST.—The Warren and Tan (Ironton) Chaser—Since our last, the weather in this State, and as far as we can ascertain, throughout the Western States generally, has been dry, and the last three days have been intensely warm, the thermometer ranging, about noon, from 90 to 100 degrees in the shade. Monday and yesterday we had some heavy showers, and the indications at present are that we will have more rain.

The Wheat harvest has been progressing quite rapidly during the last ten days, and in Kentucky and Tennessee is about drawing to a close. In the southern counties of this State, Indiana, and on the prairies, will be all cut out the present week. There seems to be no doubt entertained that the crop on the whole, is above the average. In Illinois, it is light; and, in Tennessee and Virginia, the fly has injured it seriously, but the grain fully matured and the quality is therefore, very superior; and the great increase in the breadth of land sown will swell the quantity considerably beyond an average yield. The weather is of the most favorable character for securing it in the very best condition.

As far as our information extends, the Rye and the Barley crops are good, the grain fully matured and the yield is above an average.

The grass and oat crops have generally failed, particularly in light, sandy soils, and the yield promises to be very short. The corn crop, and in many sections it will be very light. The cold, late spring has been very much against corn in this vicinity, and the plants not over nine inches high. Immediate rain might be of considerable advantage to it.

Flax is a most botiful crop, and promises to be very light until it looks very bad—just over sown or eight inches high, and not distributing. Some in bloom. Experienced persons who have been travelling through the flax growing districts inform us that the yield for the present season cannot be under any circumstances, over half an average.

Corn is suffering in all sections we hear from; the plants are small, and in many places are turning yellow, under the effects of the cold weather. Should rain come in the first part of July, and the weather during that month and August be favorable, no fears need be entertained in reference to the fate of this crop—July and August are the months in which the corn crop is made or lost.

Potatoes is dried up, and are generally suffering. This leads to an increased disposition to operate in futures, and the market, we should say, was nominally dull. The article during the last six weeks, has become quite active, owing to all things into consideration, the fear of danger of a general scarcity even should the corn crop be partially saved. There is a enormous quantity of old corn in the country, and the indications are that the present demand next season, will be light, except at low prices. Bears will be taken freely to-day at the present demand. A gentleman who has been travelling in Northern Ohio for the last two weeks informs us that the thousands of acres of last year's corn is still standing in the fields unhusked, and in the neighborhood of Cleveland, thus standing, at three to five cents ₩ bushel, according to its contiguity to the Railways.

Large quantities of new wheat have been sent us from three different counties in Indiana. The head is short, but well filled, but the yield we should suppose in proportion to the straw could not be over three bushels an average. We have not yet received any new Rye. The Rye crop is short and the grain small, but the color is excellent.

Chi. Price Current.

There has been a heavy demand for Potatoes and further large advance has been established—some 75c per bbl since last week, and last, and also for the corresponding week in last year, compare as follows:

Mess Pork,	This Week.	Last Week.	Last Year.
Bacon Sides,	$17 00	$17 00	$18 00
Shoulders,	10	9½@9¾	9¾
Bulk Sides,	9	8¾	8¾
Dry Shoulders,	9	8¾	
Barrel Lard,	10¾@10¾	10	10
Keg do,	11¾@11¾	11	11

The sales data last week was very little Bulk Meat in market, and there were no transactions except in Bacon. This week the business has been light, and the sales of but a small portion of the past week's half a million of pounds in a single day of the past week's half a million of pounds in a single day of the past week had a million of pounds in a single day of the past week had a million of pounds

The demand has been chiefly from the East, and this being good and the stocks in those markets being reported light, leaves do not yet see that prices have reached their highest point.—Chi. Dem.

Money matters have continued to improve, and the markets have more confidence in the future than for a long time past. The regular discount houses take all the good paper offered at legal rates, from 6 per cent and the offerings, generally, on the street have been very light, excepting, of course, unacceptable paper.

MEDICINE.

OR, PLEASANT FAMILY PHYSIC—
This entirely vegetable preparation, pleasant to the taste, unrivalled in its action upon the Liver, Stomach, and general system. As an Anti-bilious and Alterative Physic, this Medicine

HAS NO EQUAL IN THE WORLD.

I have used it constantly in my practice for upwards of 10 years in all cases where a good Physic and Alterative was required, and would not now do without it. It is the

PHYSICIAN'S ASSISTANT,

as well as the safest family medicine in use. *Children drink it with pleasure. It will not nauseate the weakest stomach. It produces no griping, but operates easily, thoroughly, and is sure to eradicate all impurities from the system. Of it is properly taken. Already*

THOUSANDS OF LIVING WITNESSES

are ready to testify to its superior virtues, independent of its purgative and anti-bilious qualities. It has cured the worst cases of Scrofula in a few days. It is a

NEVER FAILING CURE

for Headache, Liver Complaint, Jaundice, Kidney Complaint, Bilious Fever, Pains in the Side, Back, Breast and Limbs, Colds, Croups, Worms, Lumbago, Blotches on the Skin, Pimples, Cutaneous Eruptions, Obstructions in the System, Constipations of the Bowels, Dysentery, Mercurial Diseases, Pluratisy, Female Irregularities, Bowel Complaints, Fevers of all kinds &c. It cleanses by its superior medicinal virtues, the ulcerous humor from the blood and corrupt bile from the stomach, carrying it off through the natural channels it PENETRATES THE BLOOD and leaves the system healthy. I ask my friends to try this above Medicine, and pronounce a verdict as they shall be impressed; I only request that those who know it is professionally, but doubt its worth.

Since its first introduction, no medicine has attained such wonderful popularity and its sales have increased beyond the most sanguine hopes of its friends. Numerous testimonials can be seen at my office. *CHILDREN* will find Physicians carry it with them. *CHILDREN* will *TAKE NO OTHER.*

after one trial, and parents should use no other in their families. People living in low and marshy countries, subject to deadly miasma, where Fevers, Ague and Fever, and bilious complaints are more apt to be, will find the "Liquid Cathartic" the most potent remedy yet tried.—Give it a trial.

BOERHAVE'S

HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR

DYSPEPSIA,

DISEASE OF THE KIDNEYS,

LIVER COMPLAINT,

WEAKNESS OF ANY KIND,

FEVER AND ACUE,

AND the various affections consequent upon a disordered Stomach or Liver. Such as Indigestion, Acidity of the Stomach, Oddity Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Billed and Bleeding Piles, in all Nervous, Bowel and Liver Complaints. In fact in all cases where a good Physic and Alterative is required, as in numerous instances proved highly beneficial, and in others effected a decided cure.

Nature finds no new enemy to combat, with this delightful tonic in the system. Its effects are almost magical, yet the cure *permanent.* It communicates no violent shock to the system, but by arousing its energies to their normal action, enables it to throw off the cause, and thus thoroughly and radically cures the illness.

When its medicinal virtues are so universally acknowledged, and particularly here where it has become so popular as a family medicine, that it is sold by many of the grocers, as well as all the druggists, it would seem needless, to offer further evidence, yet as there are many persons who have tried many advertised remedies, and still suffer from Dyspepsia in one or more of its dreadful forms, we subjoin the following certificates, the authenticity of which cannot be doubted, coming as they do from persons so well known.

What it is doing for the Sick.

Wm. Schoonmaker, Jr., who resides near Poughkeepsie, says "I have frequently used Boerhave's Holland Bitters, and find it invariably relieves indigestion and debility."

Rev. Samuel Babcock says "I found especial relief from its use for a severe headache, which I had long suffered from."

J. W. Woodwell, Esq., says: "I have used Boerhave's Holland Bitters myself, and recommended it to others, knowing it to be just what it is represented."

Jos. Jonathan Seely, of
