All the energies of the conductors of the paper will be devoted to the purpose of arousing the people to a stern and firm resistance to the dangerous and alarming encreachments of the slave power, by the election of JOHN C. The people of the United States have the right to elect whom they please to the Precidency; and if, in the exercise of this right, they choose to elect two men from the Free States for Precident and Vice-President, they do nothing but what the Constitutional privilege, it is not worth preserving; and most certainly the man who threatens such consequences for such an act is not only utterly unworthy of the place he seeks, but a subject of scorn to all who love the Republican institutions of the country.
