TONICS WON'T DO!

THEY never did do more than give temporary relief and they never will. It is because they don't touch the cause of the disease. The cause of all ague and bilious diseases is the atmospheric poison called Miasma or Malaria. Neutralize this poison by the NATURAL ANTIDOTE, and all disease caused by it disappears at once. Hunter's Concentrated Cane Brake Antidote to Malaria, and moreover it is a perfectly harmless and delicious cordial. The discovery of the celebrated chemist, J. R. Chilton, of New Jersey. In this elixir, instead of a new body to the system, it does no good it can do no harm.
This is more than can be said of Quinine, Arsenic, or any tonic in existence, as their use is ruinous to the constitution and brings on DUMB AGUE, which never allows a person to feel perfectly well for a single moment of his existence. Some of these truths I annex some extracts from a letter just received from a physician.
GEORGETOWN, Ohio, March 17, 1856.
JAS. A. RHODES, Esq., Pomeroy Bar. Your favor of 21st ult. at hand. The Cure arrived late last year and the difficulty in getting any one to try it was greatly increased from the fact that a remedy had been introduced which was growing in favor with the public, as being better than using Quinine—not knowing, I presume that the remedy I used to escape taking Quinine, contained the Drug itself!
This remedy, (tinct. of "finitely tonic,") would invariably break an ague, but it did not cure it, and it would often relapse with renewed vigor. This is extraordinary, and I deemed in your favor, if I could institute a test comparison between it and your CURE. The following is the result!
Three persons took your Cure, all of which were cases of "Quotidian Intermittent fever," of many weeks standing. They had tried Quinine, and other remedies, occasionally relieving a chill, but it was, (as in all such cases,) only wearing them out, and laying the foundation of other and severer maladies. It succeeds in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases the "Smith's Tonic" has failed, and would, as before stated, break the chill, but after a period or two had elapsed it would return.
I think there will be no difficulty now in giving to your Cure the vantage ground of only other remedy now in use here, &c. &c.
WILLIAM BUCKNER, M. D.
Rhodes' Fever and Ague Cure, or Antidote to Malaria, the only harmless remedy in existence, is equally useful as a Preventive as a Cure. Take it when you feel the chills coming on and you will never have a single one.

MELODEONS AND REED ORGANS.—Charlotte Blume has just rec'd another lot of these unrivalled Melodeons and Reed Organs in elegant rosewood cases, containing 4 sets reeds, comprising 4 octaves and 5 octaves portable style, with swell legs and 5¾ octaves, seraphine or Piano style, with rich moulding, carved music desk, &c. Also, a large assortment of Organs and containing 2 sets of reeds throughout, the one tuned an octave above the others; an excellent instrument for the use of churches, chapels and lecture rooms. Every instrument is warranted to give entire satisfaction in every respect on being sent from the manufactory, and is warranted in every respect. These instruments are recommended as being far superior, both in tone and finish, to any others manufactured.
The chief improvements (upon which the makers have secured Letters Patent,) consists in swinging the wind to the reeds directly upon the rock, as in the common style of the Key valve, the quickest possible vibration, and the sound then passes into a modulating chamber, (enclosed by the swell which modifies the tone, and gives it more melodious, flute-like quality, than is the general property of reed instruments. Three Days Later From Europe.

ARRIVAL OF THE NORTH AMERICA.

QUEBEC, June 20.

The steamer North America arrived this evening with Liverpool dates to the 18th.

Mr. Dallas had not been dismissed, and the difficulties between Great Britain and the U. S. will probably be amicably settled.

Lord Clarendon stated in reply to Lord Derby in the House of Lords that it was not the intention of the government to advise the Queen to suspend diplomatic relations with America.—This announcement was loudly cheered. Lord Derby expressed his satisfaction, but he regarded the government course as humiliating and an acknowledgment of error. Clarendon appealed to the House not to join Derby in pressing the question. The subject was then dropped. The funds rose in consequence of the announcement.

LONDON, June 17.—Consols for money are quoted at 94¼@94½.

LIVERPOOL MARKETS—*Cotton.*—The sales on the 16th were 12,000 bales including 5600 for speculation; prices had advanced ¼.

On the 17th the prices receded from the previous advance and closed at Friday's rates; the sales amounted to 500 bales.

Advices from Manchester are favorable.

LIVERPOOL, June 17—*Breadstuffs.*—The prices of Flour are a trifle higher; Western Canal 35s; Philadelphia 36s@37s. Wheat a trifle higher; sales red Wheat 10s 8d. Corn has advanced 1s.

CONGRESSIONAL.

WASHINGTON, June 30.

SENATE.—The bill authorizing the issue of an additional number of arms for the army to California was passed.

Mr. Douglas, from the Committee on Territories, to which was referred various bills relative to the affairs of Kansas, made a voluminous report on the subject.

It contains elaborate argument in favor of the new bill reported by the Committee, which provides for the appointment of five Commissioners to be selected from different sections of the Union, to represent fairly all political parties. They shall take a census of all the legal voters in the territory and make a fair appointment of delegates to be elected in each county to assemble and make a Constitution and apply to the government. When the appointment be made the Commissioners are to remain in session every day except Sunday, at a place most convenient to the inhabitants of said territory, to hear all complaint, examine witnesses, and correct errors in said list of voters, which shall be previously printed and generally circulated through the territory, and posted in at least three of the most public places in each voting precinct of each county. So soon as all errors shall have been thus corrected in said lists the Committee are to cause a corrected list of the legal voters to be printed and furnished to each judge of election, to be put up at the places of voting and circulated in every portion of the territory before the day of the election. No person will be allowed to vote whose name has not appeared as a legal voter. The election for delegates to take place one day preceding the election, and the Convention to assemble on the 1st Monday of December, to decide first whether it be expedient for the state to come into the Union at that time, and if so, shall proceed to form a Constitution and State government which shall be in a republican form, and admitted on an equal footing with the original States.

The Bill provides that no law shall be of force and enforced in the Territory infringing liberty of speech, or of the press, or the right of the people to bear arms, &c., and also for punishing illegal voting, or fraud and violence at the elections and the use of a military for that purpose. The main point is that the present inhabitants shall decide all points in dispute in Kansas at a fair election without fraud or violence, or any other improper influence. All white male inhabitants over the age of 21 years will be allowed, if they have resided in the country and territory three months previous to the day of the election, and no other test shall be required; no oath to support the Fugitive Slave Law or any other law, nor any other condition whatsoever.

Mr. Douglas gave notice that he will ask for a vote on Wednesday.

Several private bills were passed and the Senate adjourned.

HOUSE.—Mr Grow made a closing speech, in favor of the bill for the admission of Kansas into the Union, opposing all substitutes for the measure under consideration.

Mr. Stephens moved to commit the bill with instructions to report instead there of the substitute he offered, providing for an appointment of five persons by the President to make an enumeration and appointment with view to a convention for the formation of a State Constitution &c.

Mr. Dunn moved an amendment restoring the Missouri Compromise, which was adopted by 7 majority.

Mr. Stephens ineffectually endeavored to withdraw his proposition, it being opposed to Mr. Dunn's amendment.

The House voted down the motion to commit with the above instructions.

An ineffective motion was made to commit without instructions, which was rejected by 100 against 109.

Mr. Jones, of Tenn; moved to lay the bill on the table, which was negatived by 2 majority.

ST. LOUIS, June 30.—The Chicago Co. Kansas emigrants arrived on Saturday night. Report says they offered the Captain of the boat $1,000 not to land at Lexington. All the arms taken were placed in a warehouse for safe-keeping, and a receipt given for them. During the scene no hard words nor disrespectful language passed on either side. On the arrival of the boat at Kansas, Gen. Jones, with a company of 80 South Carolians got aboard and on their way up the river, Atchinson, Stringfellow and Russell also boarded the steamer. When these gentlemen learned what had occurred they requested an audience with the leaders of the company and told them that as their order had been given to disband all armed parties in the territory, and advised them to return home. This advice was considered good, and before the boat reached Leavenworth, the whole company determined to return. When the boat touched at the latter point, a large crowd were assembled on the shore, but being informed that the party had concluded not to land, gave a few cheers and return with the boat, they were satisfied and made no demonstrations of any kind. An escort was sent with them from Leavenworth to Weston, where they did not attempt to land, having given up all idea of settling in Kansas.

A committee was appointed at Leavenworth and Kansas, to escort the company to the river. On the passage down, the Star of the West met the steamer Sultana, on her way up with forty more emigrants belonging to the same company.

The Republican learns from a reliable source that this company were to be paid by the Society at Chicago $100 each for going to Kansas, part of the money to be expended in arms and ammunition and the remainder remitted to them after their destination, with 30 days provisions, but after landing at Alton, they found that the contract would not be fulfilled, which caused much dissatisfaction among them.
