FOURTH OF JULY.—Our national holiday will be celebrated this year, judging from the preparations made. From early morning until late at night, every hour will be occupied.—We give below the programme for the day:

At 7 o'clock this morning the rowboats, *Buckeye* and *Minstrel* will start from the old Bridge for a purse of $50. A large crowd will doubtless witness the exciting amusement.

At the same hour the Duquesne Greys, Independent Blues, and Washington Infantry, will parade the streets. Rain may be expected as it is asserted the Greys never turn out but the weather proves wet.

At three in the afternoon, the Hannibal Guards (colored) will make their first appearance.

From 10 A. M., to 12 P. M., the various places of amusements,—German Turners' Ball, mammoth Boy, Giant, Tom Thumb, Arctic Explorations, Snakes, Alligators, Circus, Menagerie—will be open to the public.

At every hour trains will leave the city on the Central, the Pittsburgh, Fort Wayne & Chicago, and the Allegheny Valley Railroads, bearing away thousands to the country. The woods will be alive. Every copse of woods will be occupied. These pic nics, are religious and profane, genteel and very mixed. We hear of them in every section of the country. The German Turners will spend the day on Voeghley's Hill. All the lager beer in the city has been bought up for the occasion, and by this evening will be carried in as large quantities as possible by each of the pic-nic tinkers. Germans never quarrel, and if they are not intruded upon by rowdies, the day will pass with them peacefully and pleasantly. Odd Fellows, Pic-Nics, and Protestant gatherings are also announced.

We cannot omit mention of the kindhearted-ness of those of our citizens who give up so much of their time to the religious instruction of youth. Nearly every Sabbath School in Pittsburgh will go upon an excursion to the woods, the teachers sparing no pains or expense to render the day most agreeable to them.

In the evening, the Merchants' Fire Works on the Allegheny, below the St. Clair street bridge, will attract thousands; the hills will be teeming with spectators. The getters up of this display desire the gratitude of every citizen. The display will commence at half-past eight o'clock this evening. The arsenal will also be the centre of attraction for many. Lieut. Brierton's display of fire-works promises to be very fine.

We hope that we will not have to record in our next issue any of those bloody fights which sometimes disgrace the day. Let all enter upon their pleasures with a determination to enjoy themselves, and to live at peace with the world and all the rest of mankind, although the heat may be oppressive and the annoyances great.—That heat is very unpleasant to think of, and we sympathize with the individual who wished our fathers had made the Fourth of July in a cooler season of the year.

THE PERFECTION SHINGLE MACHINE.—The progress of the age in every department is wonderful, but in none is that progress more visible than in labor, money and time saving mechanism. One of the most remarkable specimens of mechanism which we have yet seen is the Ne Plus Ultra or Perfection Shingle Machine, patented by Stevens & Kidder, and now in operation at the steam works of J. B. Warden & Son, First street. Our readers have doubtless seen many newspaper notices of it, but they cannot have an idea of its wonderful qualities, until they as we did, devote an hour to its examination.

The machine throws off from 2000 to 4000 shingles, perfectly formed, and all alike, per hour. No matter how worthless the wood, whether knotty or interlocked, the shingle is perfect, planed and the sides evened. This quality of the machine cannot be overrated, when the growing scarcity of good timber is considered. Besides this, there is an arrangement to bundle the shingles. One would think that all this work requires very complicated machinery; and here is its second great quality. The machinery is very simple. Its working parts are few, simple, compact and efficient. A third quality is that it occupies but little room, and it is all iron. There is no swelling of wood in warm weather, or shrinking in cold.

For the last two years and a half the machine has been in the Eastern, Northern and Southern markets with distinguished success.—Mr. S. Marshall, the agent, has now for the first time introduced it into the Western markets, and will for three or four days sell machines, county, state and section rights. He may be seen at the St. Charles, or at Wardens' Foundry. Our readers may perhaps think we are extravagant in our praise of the machine.—We can only say we are corroborated by the most scientific mechanics in confirmation of it. But we wish no one to rely upon this statement. Examine the machine carefully each for himself, and even if he does not wish to invest, each one will be gratified and instructed by an examination of its parts, and its perfection as a whole. We will say in conclusion that to the enterprising an opportunity is here offered that may not occur again to them for years, if ever. A few figures will convince any one that this is a surer way to fortune than a gold claim in California.

SHOULD BE POLLED DOWN.—The old "haunted" house on Penn street, Bayardstown, is reduced to its last page; there being but a few bricks between it and its overthrow. It is fearful however, that when it does fall it will be upon the street, thereby endangering life. The owner said to be the first houses ever built in Bayardstown.

A PRICELESS JEWEL.—Stop for a moment, and consider how many hundreds, possibly thousands, of dollars you have spent in dress, &c., for no other purpose than to add to your personal attractions. But would you not sacrifice all this finery for the sake of being freed of that eruption on your face. Those annoying pimples contract more from your good looks than any external embellishments can add to it.

But no such sacrifice is required. A few applications of PALMER'S COSMETIC LOTION will accomplish this desirable object, at trifling cost, and with no inconvenience whatever. It is really priceless to all that wish the rosy beauty of childhood.

The most distressing and unsightly cutaneous diseases are speedily removed by its use, giving conscious beauty and blooming health in the place of ugliness and soul-sickening disease.—All this can be proved when necessary, by witnesses almost without number. Price 50 cents, or six bottles for $2.50. Sold by Dr. George H. Keyser, No. 40 Wood street, sign of the Golden Mortar.

RAPE.—A young woman named Mary Jane Agan, of Beaver, aged twenty-two years, and of respectable character, appeared before Mayor Adams yesterday and made oath to a statement of which the following is the substance: On Tuesday night William, *alias* Red-bird, Dixon, after much persuasion induced her to go to an ice-cream saloon in the vicinity of Manchester. Their route lay through Patterson's board yard, and when there Dixon threw her down and violated her person, she being unable to prevent the accomplishment of his intentions as she is quite small in stature. He injured her considerably. She therefore prayed for his arrest to answer.

Dixon was shortly afterwards arrested, a committed to jail to answer.

HENRY M. MURRAY, Esq., has been appointed cashier of the Exchange Bank of Pittsburgh. Mr. Murray has been for many years in the Bank, and possesses excellent business qualifications for the position which has been assigned him.

A Card to the Ladies.

DR. J. DUPONCO'S GOLDEN, PERIODICAL PILLS FOR FEMALES, infallible in correcting irregularities, and removing obstructions of the Monthly Turns, from whatever cause.

All Medical Men Know

As well as many others, that no female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptive among the female portion of the human family. Pain in the side, palpitation of the heart, loathing of food and disturbed sleep most always arises from the suppression of the menses and whenever that is the case, the PILLS will invariably remedy all these evils.

Full and explicit Directions accompany each box, which must be strictly followed, and all diseases peculiar to females may be speedily cured.

Price $1.00 per Box, and sold by all the Druggists and Agents throughout the country. Sole Agents for DUPONCO'S PILLS by SAMPLE & REED, Agents and Importers, 251 Liberty st. PITTSBURGH CHEMICAL AND VARNISH WORKS.

FINCH & CO.,

RESPECTFULLY inform Druggists and Colors in Varnishes generally that they have for some time been engaged in the preparation of all descriptions of COPAL and other VARNISHES, and are now prepared to supply their friends and the public generally with articles of the very best manufacture, made of the best materials, and cleaned with the greatest care and on the most favorable terms.

FINCH & CO. intend to devote themselves to cultivating a first class trade and have no doubt that their articles, on trial, will prove satisfactory. Their tariff of prices will be found equally low with any of the eastern manufacturers, and being determined that their articles shall leave their works in the best condition, they confidently ask for a trial and a share of public patronage.

To our fine Body COPAL VARNISH we would call particular attention. This article is equal to any English Coach Varnish of the very best brands, being made according to the process of the first class English houses, by Mr. Thomas Stoneham, who for many years was manager in some of the most extensive establishments in England and Scotland.

Our Amber Carriage BLACK VARNISH we would particularly recommend to Founders, Boatbuilders, and Manufacturers of iron generally. Its peculiar qualities prevent oxydation entirely, which is a great desideratum to those using varnish for iron, and purchase is to save rust and other commonds.

Orders left at Messrs. JOHN IRWIN & SONS' Front street, will be punctually attended to, or with J. FINCH, First st. jy2:3mos

SPLENDID EXHIBITION FOR SALE.

ONE of the finest Exhibitions in the United States is now offered for sale, or will be exchanged for other property, country or city.

THE ILLINOIS RIVER.—This river has been so low as to be impassable for steamers, for some days past, except the smallest and lightest boats. The Altoona came in on Tuesday, and yesterday evening, having got no further than Spring Creek bar, which point the river was so filled up with sand as to arrest her progress. There are now about 30 boats with sand bars around them. The Altoona was left for a start of 2 miles, and was compelled to leave her freight there. The barge and the freight will be sent to Lasalle as soon as the river rises. It contains will be sent to Lasalle as soon as the river rises. It contains 1000 tons. The Lasalle passed this point the water is so clear of sand bars. Spring Creek bar, there being only twenty-seven inches in the channel in either of them.

Upper Illinois—Low Water.—The Arcola, from St. Louis, arrived last evening, and left this morning for the east. She had no trouble getting low and failing fast, and several boats around on the way up and down. The Minnesota and Ben Bolt were hard aground on the Saddle in Rough Run. Bills of the Metropolitan Bank was also aground on the Rapids.—St Louis Intel.

NEW WHEAT.—In the heart of a few sales of choice new red wheat, reported in Jefferson and Oldham counties, to purchasers in the city at one dollar per bushel.

The first wheat brought in this season was sold at Nashville, on Thursday, at 76 cts per bushel. It was of the Golden Chaff variety.

We have heretofore mentioned sales, in St. Louis, of new wheat at $1.30 and $1.35. The latter is now the ruling rate.—Lou. Cour.
