GAZETTE—CITY DEPARTMENT.

# PITTSBURGH:

WEDNESDAY MORNING, JULY 9, 1856.

THE CENTRAL BOARD OF EDUCATION met last evening.

The President read the monthly report of the High School. Accepted and filed.

The Board proceeded to the election of Tax Collectors in the 1st, 3d, 4th and 9th Wards, which resulted as follows:

1st Ward—Caleb Russell.
3d Ward—Election postponed.
4th Ward—Richard Hope.
9th Ward—Robert Hill.

The committee on Text Books and Studies reported in favor of the introduction of Phonography into the High School, and also in favor of the re-adoption of the same text book for the use of the school for the ensuing, as were used for the last year. Also, in favor of the adoption of Osgood's Progressive Speller into the Ward Schools.

On motion of Mr. M'Master, the Geography in present use was referred back to the committee, and the report was adopted.

On motion of Mr. Miller, the Secretary was requested to notify the Ward Boards that the hour of examination of candidates for admission to the High School from the several wards will be at 9 o'clock, A. M., on Wednesday the 16th inst.

Mr. McMaster moved that three prizes be awarded to the best of the drawing class—$7, to the first best, $5 to the second, and $3 to the third.

The following is the basis of distribution of prizes:

1. The basis of distribution to be the average of the recitation marks received by the pupil previous to July first, excluding those for declamation and composition.

2 That there be given to Section A one ten dollar prize, two prizes of four and two of two dollars each; and to section B three prizes of eight dollars, four of four, and nine of two dollars each.

3. In section A the pupil having the highest average to have the first prize—ten dollars; the next two one four dollar prize each, and the next two one two dollar prize each.

In section B the three having the highest average to have each one prize of eight dollars, the next four one four dollar prize each and the nine next highest each one two dollar prize.

4 That the prizes for the best essays be distributed as recommended in the report of the Principal for March and dated April 1st. That is—one prize of $10 for the best essay, and a prize of $5 each to the two next best.

The essays are now in the possession of the Committee, who will report next Monday. The examination of the pupils commenced on Monday and will continue during the week.

Mr. M'Gowin offered the following:

Resolved, That the Secretary be and he is hereby instructed to notify Prof. J. L. C. McKeown, Principal of the High Schools, that his services will not be required on and after the 1st day of August next, by the Central Board of Education.

On motion of Mr. Miller the salary of the Principal was fixed at $1500 per annum henceforth.

The election of a Principal to succeed Prof. M'Keown was fixed for the second Tuesday of August.

PATENT THRASHER AND SEPARATOR.—We have several times before had occasion to call the attention of the public to the Patent Thrasher and Separator, manufactured by Mr. C. W. Carrol, No's. 568 and 570 Penn street, Pittsburgh, and now as the season of the year when these invaluable machines come into use is approaching, we again briefly allude to their excellent qualities. These machines are beautiful, simple and compact, are easily removed from place to place, and may be used with equal convenience in barn or field. They run light, thrash fast and do the best of work; in these points they excel. More than one thousand are in use in the Western States, and as many East of the mountains. The more they are used, the more they are recommended, they from their construction supporting the severest test of competition, and the proprietor has in his possession, testimonials of the highest character, in addition to the prize medals of many of the most prominent fairs in the country; the committees who awarded them, as may be presumed, having done so with the greatest discrimination. But after all the public are the best approvers. A medal is then merely the endorsement of the public opinion. We can recollect when Mr. Carrol entered into the manufacture of these machines on a limited scale; now he fills orders for the entire West; his agents are to be found in every place of importance, and he has during the past season filled many large foreign orders.

He is now better prepared than ever to manufacture his Thrasher and Separator, and those who may want them can be promptly supplied, by addressing him or applying to his agents.—His address is C. W. Carrol, 568 and 570, Penn street, Pittsburgh.

ADDITIONAL APPOINTMENTS.—The Board of Licensers have granted the following additional licenses:

Frederick Krauss, Eating House, Pitt township

Henry Snyder, to sell with other goods, Birmingham.

F. Shields, do. do., First ward, Pittsburgh.

RE APPORTIONMENT.—The Board of Licensers on Monday, July 7th, reconsidered their apportionment of Hacks, &c., in the townships, and decided upon the following. The number allowed is the same as before, except in Sharpsburg, to which the Board now give two Eating Houses. One Eating House license has been granted to Pitt township.

DEGREES CONFERRED.—At the recent commencement of Allegheny College, Meadville, Pa., the title of Bachelor of Arts was conferred upon the graduating class, the names of the members of which we published some time ago.

The following gentlemen members of the class of 1856, received the degree of Master of Arts, A. M., in course:—J. C. Cotton, John F. Eberhart, John H. Gray, John C. High, James H. Hopkins, W. P. Jones, Russell F. Keeler, Julius Lee, P. M. M'Farland, Philo P. Pinney, Asa M. F. Randolph, John M. Sullivan, Robert D. Wallace, Thomas L. Williams.

The following gentlemen received honorary degrees:

Rev. William L. Harris, A. M., Professor of Chemistry and Natural History in the Ohio Wesleyan University, at Delaware, O., received the degree of D. D.

Rev. Marcellus A. Rater, of Brookville, Indiana, Rev. David Grow, of Bellona, N. Y., Rev. Enoch Shippen, of Chicago, Ill., severally received the degree of A. M *in honorem*.

A MOMENT OF SUSPENSE.—The serenity of the Police Committee of Councils was much disturbed the other evening, by the extraordinary behavior of an elderly gentleman, noted for anything but lightness of demeanor. Business was about over, when the attention of the Committee was directed to the fixed gaze of the gentleman referred to. His hand was slightly raised, and his back just on the bend as if he was about to make a spring. A moment elapsed, when the entranced gentleman brought down his hand with great force upon his leg, and uttered a stentorian "ah-ha; I've got you now!"

The dreadful idea that he was deranged flashed upon the mind of the Committee, as there appeared to be nothing to call for such a display of intense feeling, but they were much relieved to see the gentleman drew from beneath his pantaloons a MOUSE, flattened by the blow, and their fears exploded in a perfect "cigar" of laughter.

UNION.—Separations are no longer fashionable; factions are yielding up their citra notions. Even in Manchester, the spirit of fraternization exists, and the leaders of those rival clubs, the "gad-abouts," and the "plow" fraternity, have "buried the hatchet for the sake of harmony, to bury their past differences and unite for the public good. The good men who have this object in view, resolved to consummate the union in a grand picnic yesterday, but the windows of the clouds were opened to such an extent that the plan was not feasible; but the rival factions assembled in the public Hall, and there on the light fantastic toe tripped themselves into a delightful state of friendliness. Several gentlemen called upon us to announce this important matter to the world, and we feel sure the world will be pleased to know that the internal divisions of Manchester have been healed, and she will henceforth be at peace.

CHEAP DRY GOODS.—A McTighe, corner of Grant and Fifth streets is now selling off his entire stock of fancy and staple dry goods, embracing mantillas of every description, black and fancy silks, French lawns, challis, chintzes, ginghams and housekeeping goods, shawls, sleeves and collars, gentlemen's ware, calicoes, &c. Persons calling at this establishment may expect great bargains as McTighe is determined to close out his present stock at first cost.

NEARLY COMPLETED.—The new Coal Scales on the wharf, one of the number authorized by a recent ordinance to be constructed, will be completed by Monday next.

THE funeral of the Irish woman, Mrs. Hopkins, who was supposed to have been murdered by her husband, on Monday, took place yesterday, and was largely attended.

HABEAS CORPUS CASE.—B. P. Flenniken, Esq. yesterday sued out a writ of habeas corpus for the release, on bail, of Joseph R. Dawson, confined in jail on two charges, Larceny and Burglary, in both of which true bills had been found at the June term. The case came up for hearing before Judge Adams yesterday afternoon, in chambers, when M. I. Stewart, Esq., appeared on behalf of the commonwealth. His Honor granted the application and upon the suggestion of Mr. Stewart, fixed the amount at $1000 for the burglary and $300 for the larceny, good freehold security.

The prisoner produced bail, but was not deemed sufficient, and the prisoner was remanded.—The charge of burglary is brought by Mrs. Sophia Beck, of the Diamond, and that of larceny by Dr. Backus.

A FINE PAINTING.—Those of our readers who are fond of a fine painting by a master can be highly gratified by calling at the office of M. I. Stewart, Esq., 5th street. The painting is very old, the canvas being nearly rotten, and the paint on the sides has partially pealed off. The frame is also antiquated. The painting represents a child reclining its head upon its arms, which are supported upon a table, with its eyes turned up and a smile on its lips. The foreshortening, the coloring, and the expression are admirable in our opinion, which though of itself, is no authority, is supported by those who are really judges of art. It is said that the painting is by Sir Joshua Reynolds. It was purchased by a gentleman of this city in Europe, but sold with other articles, in a moment of embarrassment.

LIBERTY STREET SCHOOL, PIC NIC.—The children and teachers of the M. E. Sabbath School spent the 4th at M'Kee's Rocks, the superintendent, Mr. E. Heazelton, having made many preparations for their pleasure, one eight feet and wards evening two balloons, one eight feet and the other sixteen feet, were sent off. The latter had the inscription upon it, "Liberty street, M. E Sabbath School, July 4th," and when last seen was twelve miles distant. The balloons were made by Mr. J. W. Bender, one of the teachers.

A TESTIMONIAL.—Mr. F. M. Love, the retiring partner of Love Brothers, dry-goods dealers, in Market-st., takes with him a beautiful testimonial of the esteem in which he is held by the clerks lately in his employ. The testimonial to which we refer is a massive and costly watch key, bearing on one side his initials, and upon the other the inscription :—"Presented to F. M. Love by the clerks of Love Brothers, July 1st, 1856."

RE COMMITTED.—William McDonald, William Kernan, Sarah Evans and Mary Youngblood, the parties arrested in the house of Mary Burke, on the Diamond, on Thursday night last, charged with the murderous assault upon David Fitzgerald, were re-committed by Alderman Mejor, yesterday, for a further hearing on Saturday. The prosecutor is still suffering so much from his injuries, that he was unable to appear yesterday.

LARCENY.—A man named Samuel Shirley made oath before Alderman M'Kenna on Monday that he had been robbed of $22, and that he suspected an individual, whom we will not name, as being the thief. A search warrant was issued, and the suspected party arrested, but nothing was found to convict him with the theft and he was discharged.

MASONIC HALL.—Dr. Beale's Arctic Regions. Crowded houses and universal approval attest the fidelity and superiority in execution of this rare combination of art and of historic interest. An afternoon exhibition to-day at 3 o'clock.

BACK BROKEN.—Bernard Crow was brought to his residence in this city yesterday with his back broken by a fall of slate in a coal mine near Johnstown. Dr. Emerson of that place, did all that lay in his power to relieve the sufferer.

REVIEW OF THE PITTSBURGH MARKET.

*For the Week ending July 8, 1856.*

Business has grown quite dull, the only activity notable being in breadstuffs and provisions.

The rivers are low—too low for heavy transportation, and receipts from that quarter are quite light.

The weather for harvesting has been quite fine, and wheat cutting is just beginning. The crop looks well on the ground, and although there is some reason for complaint on account of the weevil, the yield will be fully up to the average. There is besides, a prospect that it will be secured in much better condition than last year. The corn has much improved in appearance within the past two weeks, and the Oats crop seems also to promise well, in spite of the backward spring.

The intelligence from eastern Ohio is still burdened, with complaints of the ravages of the weevil; but we are firmly of the opinion that the real damage will be found to be much less than anticipated.

The tone of the foreign news, and the light supply, have together forced up flour to a point considerably beyond last week's quotation. Our receipts are confined mainly to the Monongahela river and the arrivals by wagon; and these are not just now, equal to the daily sale. This will probably continue to be the case until after harvest.

Money is in steady demand, and the banks generally have their discount lines pretty full; there is no special pressure to note, however, and No 1 paper is placed without difficulty. On the street negotiations for first class paper are made at 10@12 P cent, and other qualities up to 24. Eastern Exchange is quite scarce and in request; while western is super abundant. Eastern time bills are negotiated at ¼ P cent exchange as interest off.

The stiffening noted in bacon last week has continued and prices have advanced a fraction. The supply is light and no present probability of its increasing.

The N. Y. Tribune of Monday says:

The imports of the week, other than Dry Goods, were $2,001,005 against $2,910,660 same week last year. The aggregate for the week is very large, $4,902,927 against $3,198,874 same week last year.

The exports of the week were $1,118,795, against $1,187,552.

The exports of Specie from this port for the week ending this day and for the year 1856 thus far were as follows.

| | |
|---|---|
| Total for the week. | $280,871 49 |
| Previously reported. | 16,743,918 87 |
| Total, 1856, | $17,226,790 37 |
| Same time 1855. | 17,074,946 50 |

The Money market continues as before noticed. The supply on call is in excess of the demand at 6@7 P cent. The leading bankers are all abundantly supplied. The banks are free lenders, and have probably again increased their loans during the week. Paper of first class charges to-day is in demand and scarce at 8@9 P cent.

Th. N. O. Picayune of June 28, says:

SUGAR.—There has been a fair demand during the greater part of the week, and with light receipts holders have sold a full price, especially for the fair and medium grades. Sales in all amount to about 1800 hhds, including some lots from second hands, the market closing at about the range of our quotations of last week, but very full:

Fair Common 5¾@6¼; Prime and Choice 6¾@7¼; Common to Fair Clarified 7¼@8; Fair to F. F. 8¼@8¾; Prime to Choice 9@10¼.

We has noticed the sale of two or three cargoes on planters' account, including one of 160 hhds strictly choice at 9c and 150 of the market prices on the Levee. Week's receipts 1607 hhds.

MOLASSES.—The market has been very dull during the greater part of the week, and the inquiry limited to the wants of those who have lost the better qualities, which is the 1st fair and ordinary descriptions have been largely offered in consequence of the principal refiners having withdrawn from the market. The sales embraced 1,200 to 1500 bbls at the close at prices of 25¢@26c for inferior to fair ordinary, 27¢@28¢ for prime, and 29¢@30¢ for choice to choice reboiled. To-day we hear of only a few small lots sold at about this latter rate. Week's receipts 1922 bbls.

ASHES—nothing doing. Pearls are nominal at 8, four mos, and Pots at 5¾. Soda Ash is steady at 3½ for ordinary quality.

BEANS—Choice offering; prime small white would probably bring $2.00.

BUTTER & EGGS—There is no butter selling, and prices are altogether nominal; we quote as before at 11@12. Eggs are in regular demand at 10¢@11¢.

CHEESE—The demand continues steady and prices have a rain advanced. We quote prime Shoulders at 9¾, Sides at 10¢@10½, plain Hams 10¢@11, canvassed do 11¢, and Sugar Cured do 12½@13. Factory stock is light, and must continue so until the fall weather sets in.

BRICK—a fair and regular demand for Bolivar Fire Brick at $25@$40, common and extra.

BUCKETS & TUBS—are quiet at factory prices at New Brighton and Fallston. Buckets, common 1,65@$1.75, extra do $1.85; extra large tubs, 2 3 and hoops, $1.25 @$1.50; common sizes from $6.50 down to $4.25; keelers $3.75@3.00; half bushels $1.25.

CANDLES & SOAP—a regular demand; Mould Candles at 12¢@13¢; Sperm do 21. Common Rosin Soap 5; Palm do 5½@5½; Sawyer's Toilet and Castile do 10.

CHEESE—very little offering, and the inquiry quite light. Sales in small lots at 9@9½.

DRIED BEEF—has advanced; it is selling in small lots at 18¾@19.

DRIED FRUIT—sales of Apples are reported at $1.10@1.12, and of Peaches at $2.00@2.12, but the demand is not active.

FEED—country feed is available on arrival at 40 cts ₱ bu on the levee, and Shorts at 60@90; very little coming in.

FISH—there is a pretty active demand for Mackarel No 3 large, which are selling in the trade at $3.50, and to the country at $3.00. Mackarel, No. 2, at $7.00@$7.50; Herring $3.00@$3.50; Codfish 5½; Lake Fish—White 10,50@$11.00 ₱ bbl. Trout $9.00@10.00; half bbls White $5.50@6.00; do Trout $3.00@$3.50.

FLOUR—there is an advance of about 62½ cts ₱ bbl on the week's transactions, and sales are now making on arrival at $5.62½@5.75 for superfine, principally at $5.75, and extra at $6.25. Some sales of family extra are reported on arrival and to arrive, at $6.50@6.75. From store, superfine is selling at $6.00, and extra at $6.50. Extra family $6.75 @7.00. The supply is light, being drawn almost exclusively from the neighboring country, and the stocks in hands of dealers are unusually small.

GRAIN—the trade dull and in high supply; sales at 24@25. Corn is not offering to any extent, but commands 85 free by. Rye is steady at 47@50. There is no new wheat offering but small lots from wagon as canal, or which sales are reported at $1.05@1.16.

GROCERIES—sugar is firm, and dealers are selling to the retail and country trade at 9¾@10¾ by the hhd and 10@10½ by the bbl. Molasses is also firm at 47@48, with an upward tendency. Coffee is steady at 12½@12¾, and Rice at 4¾@6.

Subject to the disc unt of 10 per cent, for cash Country trade rates at 6¢ cts per box less.

WHITE LEAD—firm and in steady demand at $4,50 ₱ keg for pure in oil, and dry 9 cts ₱ lb, subject to the usual discount. Red Lead, 8¾@9, pat. and Litharge, 8¾.

WHISKEY—sales of raw at 26@27, and rectified at 27 @28 in small lots.

WOOL—the receipts are still large, but are not for sale; and though well kept up, the aggregate for the season is considerably behind that of last year. There seems to be no doubt, now, that the yield will be short, owing to the severity of the winter having killed off a great many sheep, and to the fact that less attention is now paid, year by year, to Sheep raising, other branches of industry paying better. Our dealers are still buying freely in the country at 34@35, but it is probable that the bulk of the year's clip has already passed to the numerous buyers in the field.
