By order of the Board of Health

A. C. MURDOCH,
Physician of Board of Health.

OWING to our attendance yesterday at the interesting trial of reapers at Wilkinsburgh, we are unable to furnish the usual variety of city news. Nothing of much public interest transpired.

INTERESTING TRIAL OF REAPERS AT WILKINSBURGH.—The trial of reaping machines on the farm of Mr. James Kelly, near Wilkinsburgh, yesterday, was very interesting. The day was clear and fine, and hundreds of farmers and citizens who felt an interest in agricultural improvements, were present.

About 10 o'clock, the Judges, Col. M'Cabe, Mr. John Murdoch, jr., Mr. O. P. Shiras, Mr. Jno. M'Cluskey and Mr. A. M'Clure, assigned the machines their ground. There were entered the following machines:

1. Atkins' Self Reaper.

2. Ketchum's Combined Reaper and Mower, manufactured by Howard & Co., Buffalo, N. Y.

3. Dietz & Dunham's Combined Reaper and Mower, manufactured by Wardrop, Stout & Williams, Pittsburgh.

4 Manny's Mower and Reaper, manufactured at Westfield, N. Y., by the Chautauque Manufacturing Company.

About two hours were employed in the operation of the machines, and each was followed by crowds. The Manny Mowing machine attracted much attention, from the even cutting which it did. This machine will reap one acre per hour, is of light draft, with no side draft, and no weight on the horses' necks. It can be changed from a reaper to a mower in three minutes, and can be so arranged as to cut stubble fourteen inches high or only two inches. Another great advantage is that whether the horses are walking slowly or are on a run, the machine cuts equally well, though the slower the motion the easier it is for the raker. It is also indifferent whether the ground be smooth or rough, as the knife follows the grades closely. Messrs. Holmes & Collins, Agricultural Implements Dealers Wood street, are the agents for this city. They have now on hand a number of the machines.

Dietz & Dunham's Patent Combined Reaper and Mower, manufactured by Wardrop, Stout & Williams, of this city, did excellent work. At the morning match a couple of weaks ago, it labored under disadvantage, having not been before tried, but these have been removed. The machine cut close both as a reaper and a mower, and clean. The enterprising gentlemen who manufactured the machine have in contemplation further improvements which will add greatly to the merits of the machine. The operation of the machine was gratifying to the manufacturers and to their friends.

Ketchum's Combined Reaper and Mower also attracted much attention from the excellent manner in which it did the work assigned to it. It is worked with a driver and a raker, and can clean from ten to fifteen acres a day. The reaper can be removed and the mower attached in five minutes. There is a ride and an end delivery and the grain is thrown from the swarth to be out of the road on the next return. The cutter is so arranged as to cut twelve inches high or four inches. As with the Manny machine this works as well on uneven ground as on level ground, and makes a clean cut. This draft is very light, and the machine is easy upon the team. Those of our readers who were unable to be present yesterday can have an opportunity of examining the machine at Holmes & Collins' store, Wood street.

About half past 12 o'clock, the large company gathered around two large barrels of sliced bread, a box of cheese, and an indifinite quantity of cold meat, which had been provided by the County Society, and proceeded to pay their attention to these articles that their sharpened appetites required.

In the afternoon a trial of the reapers with the mowing attachment was had. The day passed pleasantly away, and the company returned to the city by the six o'clock train.

We give below the report of the Judges:

To the President and Board of Managers of the Allegheny County Agricultural Society.

The undersigned committee appointed by your Board to test Mowing and Reaping Machines respectfully report:

That in accordance with the public notice given a trial of Reapers and Reaper and Mowers combined was made on the premises of Mr. Jas. Kelly, near Wilkinsburgh this day. The following machines were entered for competition:

By Wardrop, Stout & Williams, a Reaper and Mower combined, patented by Dietz & Dunham.

By Holmes & Collins, Ketchem's combined Reaper and Mower.

By Mr. Culver, Manny's combined Reaper and Mower.

By John Patten, Atkins' Reaper and Self-Raker.

We are unanimous in awarding the silver medal to Atkins's Machine for Reaping, as combining most of the points of merit required, and the silver cup to the Manny Machine, as being the best Reaper and Mower combined. We feel it but just before closing our report to say that both the Reaping and Mowing done by Ketchum's and by Dietz & Dunham's patents were highly creditable, and rendered general satisfaction. The draft of the different machines shown by the dynamometer was as follows, viz:

Dietz and Dunham's	400 lbs.
Atkins'	425 "
Ketchums'	300 "
Manny's	300 "

The draft being taken while reaping.

PITTSBURGH, July 10, 1856.

FIVE IMPORTED CATTLE.—On Thursday there was shipped on board the steamer Dunleith a splendid lot of short-horned Durham cattle, which were purchased at Atherlstine in Scotland and imported by the Society of Shakers at Union Village, Warren county, Ohio. They were bred by Jas. Douglas, Esq., one of the most celebrated cattle breeders in Scotland, and have been imported to this country at an enormous cost by the Society at Union Village, who already are in possession of some of the best thorough bred blooded stock in the State of Ohio.

The present importation consists of the "King of Crumps"—a very fine yearling bull which cost about $700; a three year old cow—"a perfect beauty" weighing over fifteen hundred pounds, known as "Hawthorne Blossom," which cost $1,000; and another three year old cow, two two year old heifers, two yearlings and two calves. We never saw a finer lot of cattle. In Philadelphia, where they were landed a few days since after a seven weeks' voyage, they were universally admired for their unusual excellence by the most skillful judges of cattle, and here they have attracted an equal degree of attention.

The Dunleith will not leave until sometime during to-day, and the admirers of fine animals can yet see them by visiting the boat this morning. This matter of attention to the improvement of breeds of cattle, although expensive at the start, will prove amply remunerative in the long run. The thrifty and cautious people of Union village never make foolish investments of their money.

—We find we were mistaken in saying that the boat would not leave until to-day. It started last night; we regret our readers will miss so rare a treat as an inspection of these cattle would be.

BOARD OF LICENSURES.—Yesterday, the Board considered a number of bonds and rentals, after which they gave notice that no more bonds would be approved until the objections to granting license to Peter Connolly, of Sharpsburgh, be heard.

The Secretary of the Temperance League, J. Heron Foster, Esq., appeared for the remonstrants and T. B. Hamilton, Esq., for the applicant, when testimony was elicited to show that the applicant had sold liquor to boys on different occasions.

Objections having been urged upon the Board, by Mrs. Danks, and others, against Mrs. Hannah, (formerly Mrs. Morris) of Shaler township, near Spang's Mills, her bonds had not been approved; and the case was kept open for a hearing. Mr. Danks was present, and signified his readiness to proceed. He alleged that gambling, etc., was permitted in the house, and witnesses were called to substantiate the charge.—The case was postponed until Saturday week, the 19th inst.

MASONIC HALL.—Beale's celebrated Panorama of Dooter Kane's Arctic Expedition in search of Sir. John Franklin, is attracting immense audiences every night. If you have not seen it, go at once. It is the best exhibition of the kind ever given in the city.

THE REPUBLICAN CLUB, for the city of Allegheny, will meet this evening at Excelsior Hall, at 8 o'clock P. M. Robt. M'Knight, Esq., will address the meeting. Let there be a full turnout of the friends of Free Speech, Free Kansas and Fremont.

BACON—60,000 lbs. Hams; 60,000 " Shoulders, in smoke and for sale by DAVID C. HERBST, corner Liberty and Hand sts.

DR. J. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES, infallible in correcting irregularities, by imparting immediately the monthly Turns from whatever cause.

All Medical Men Know

As well as many others, that no female can enjoy good health, unless she is Regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food and dizziness almost always arise from the injunction of nature, and whenever that is the case, the Pills will invariably remedy all these evils.

Full and explicit Directions accompany each box, which must be strictly followed, and all diseases peculiar to females will be cured.

Price $1.00 per Box, and sold by all the Druggists and by SAML PAUL & BRO., Agents for Allegheny, and JOHN'S Drug Store, Birmingham; JOHN P SCOTT, 251 Liberty st., and by W. A.
