GAZETTE—CITY DEPARTMENT.

PITTSBURGH:

THURSDAY MORNING, JULY 17, 1856.

THE GERMAN TURNERS.—This Society is now very extensive in the United States, branches of it being in existence in nearly every city in the country, and it is estimated that there are at least 60,000 German citizens attached to them. Notwithstanding, the objects and character are but little understood among Americans, and many gross errors in relation thereto are entertained. As a matter of information we publish in this article a condensation of the testimony elicited in the case of Ferdinand Bents, before the Board of Licensers, in which the objects of the Turner Society are fully set forth.

The application of Ferdinand Bents, keeper of an Eating House in Diamond alley, was refused by the Board, as it was understood a society of infidels and immoral men made that establishment their headquarters. Bents moved for a re consideration of this decision, and brought testimony to the following effect:

Dr. Herdsmeier, of Allegheny, being sworn, said he belonged to the Turner association in Switzerland, since his boyhood. The Turners had nothing to do with Mr. Bents; the yard belongs to the Society; there are fixtures there for exercising the body. Members of the Society must be men of good moral character; though it is not required that they belong to any particular church. Witness belongs to the Protestant Evangelical Church. The Society has nothing to do with politics. There was an infidel society organized in this city seven years ago, but this has no connection with it.

Mr. Crepe sworn—The object of the Society is for exercise of the mind and body. To become a member it is required that the applicant be of good moral character and a sober man.—In 1848 the Turners took part in the revolution; since then they have been oppressed and are coming to this country. A Turner or Gymnastic Society composed of natives of this country exists in Cincinnati. The Society meets on the first Thursday of every month; they never meet on Sunday. The younger members of the Society are orderly, though when at exercise they are like other boys; over 60 members are attended to our Society. No gambling is allowed in the Society.

Rev. George J. Crolley, sworn—Am not a member of the Turner Society now, but was in the old country. It belongs to no particular party. The object of it is only to cultivate the mind and exercise the body; never heard of the Society taking steps against the Sabbath or other laws of the country. There was a Society with such objects, and one now exists in Birmingham. There is a great difference between the two Societies. Several clergymen belong to the Turners here. The governments of Germany are very suspicious of what Societies citizens belong to, and if the Turner Society was in any way dangerous to the morals or to the government, men would soon cease to be Turners. The books in the Library are historical.—A committee is appointed to approve of books. Infidel books would be prohibited, and nothing sectarian is allowed in the Society.

C. F. Bauer corroborated the above testimony. The Board have reserved their decision.

THE PROTHONOTARY.—Last Saturday, as usual, we visited the Prothonotary's office to make an abstract of Court news, decisions of Judges, &c., for the *Gazette*. We found on the books a motion by defendant in the case of Com of Penn'a. vs. Ex-Treasurer Rowland, in which the terms were abreviated, as for instance, exception was written *ex*. Upon inquiry, Prothonotary Birmingham, informed us that the *ex*. stood for *excep-tion*, and the motion was to have the exception set aside, and proceeded to give us the case, which affected Mr Rowland's character as a public officer. As in duty bound, having received our information from the highest source, we published the statement. Mr. Rowland called upon us and explained satisfactorily that the transaction was altogether a private one, that he gained a suit on a bond, and the proceeding of Saturday, was a mere closing up of the case. We gave our authority, but upon being confronted with the Prothonotary saw fit to deny what he had said, and give a totally different version of the story. But he had also told the *Journal* law reporter the same, or very nearly the same story, and this he said was a misunderstanding sis. This singular proceeding of the Prothonotary can have but one interpretation, a desire to injure an individual and throw the *onus* of the affair upon other shoulders.

The affair has become so disagreeable to the Prothonotary that he has announced to the reporters of the daily press, that hereafter not a line of information should be gained in his office; that whatever Court news we desire, we must be present in Court to get, though he well knows, that the minute book is in constant use by almost every one, and arrangements are transacted in such manner as to be almost unintelligible to third persons. The consequence is that the papers are henceforth debarred from publishing Court Reports, though in every Court in the Union, custom has made it a law that all facility should be extended to the press. We did ke to have any difficulty with the Prothonotary, whom we always slyly hobbs esteemed; but we cannot rest under the imputation of having injured a worthy gentleman's reputation wilfully, and we must protest against the course in relation to Court reports adopted by this officer.

A STATEMENT.—Having seen a statement of the settlement of and information against Wm. Morgan for selling liquor on Sunday, in the Daily *Union*, of the 16th inst., which mentions my name as a party concerned, I have to say that at the instance of John B. Wells, I did make an information against Morgan for selling liquor on Sunday. My object was to relieve myself as I believed it my duty to do; and I state further that the settlement of the case was done without my connivance, and without my knowledge or consent, and that when I heard of it I expressed my decided disapprobation of it; and further, I say now, that any person persisting in the expression of a contrary statement, is wilfully falsifying. I also deny having any agency in settling any cases where legal prosecutions were instituted in or about the Mayor's office.

BENJ F KING. High Constable.

Mayor's office, Pittsburgh, July 16, 1856.

We refrain from saying anything in relation to this statement till it comes up judicially for investigation. The innocent members of the police should use every exertion to have the whole affair thoroughly investigated.

THE Birmingham Public Schools closed on last Friday with an examination of the pupils in the High School. The classes were large and acquitted themselves in a manner that reflected much credit on both scholars and teachers. This school has long ranked among the best in this part of the State, and with its present efficient band of teachers must still maintain a respectable position.

On Friday evening the "Young Ladies Lyceum" connected with the school, and under the charge of Miss M. A. Buffum, gave an exhibition in which the performances, consisting of declamations, dialogues, &c., were done in a manner very creditable to the Society

At the close of the exercises one of the young ladies, on behalf of her classmates presented Mr. W. B Frew, the Principal of the school with a most beautiful ALBUM. After the presentation address was spoken in concert by the class, Mr. Frew made a brief but beautiful reply. The whole affair was a pleasant one and evinced that Mr. Frew holds an enviable place in the affections of his pupils.

THE PENNSYLVANIA STATE FAIR.—The Executive Committee of the Pennsylvania State Agricultural Society are in session now at the Monongahela House.

Members present—James Gowan, President; A. Byrd Hamilton, Corresponding Secretary; George H. Bucher, Treasurer; Robert C. Walker, Recording Secretary; and Vice Presidents, John P. Rutherford, James Miles, John Murdoch, Jr., Wm. Mattis, Sr., and John McFarland.

The committee appointed the following gentlemen a committee of arrangements:

William Martin, Sr., Chairman; J. McK. Snodgrass, Benjamin Kelly, John Young, Jr., John Murdoch, Jr., B. H. Walker, Judge Miles, John McFarland, John H. Ewing.

FIRE.—About eight o'clock yesterday morning a fire broke out in the roof of a three story brick building, No. 180 Third street, occupied by Augustus Schmerts as an umbrella factory. The flames extended to the adjoining building, No. 128, owned and occupied by Otis Kuns, chemist. The engines were promptly on the ground, and soon extinguished the fire, but the water thrown did a good deal of damage. Mr Kurz is insured for $1050 on the building, and $800 on his furniture in the Franklin Company, Philadelphia. Mr. Schmerts is also insured in the same Company, but we did not learn the amount. The amount of loss is not ascertained.

The steam engine was on the ground and threw for a time, when some part of the wheels gave way, and let her to the ground.

HORTICULTURAL SOCIETY.—A special meeting of the Society will be held on Friday morning, when a proposal to unite the Fall Fair of the Society with the State Fair will be taken up for discussion. The Executive Committee of the State Society have appointed Messrs. Martin, Young and Jno. Murdoch, jr., as committee of conference.

MALICIOUS PROSECUTION.—A woman named Seely, of Allegheny, brought suit against a man named Thomas Dixon, before Alderman Cummings, yesterday, for malicious prosecution. The accused had the prosecutrix arrested for disorderly conduct last week. A warrant was issued.

RIOT.—Two parties of Irishmen became engaged in a riot at a tavern at Port Perry on Sunday last. Three or four were seriously injured. The difficulty originated in the loss of $2,50, alleged to be stolen by one of the party.

AN OUTRAGE.—The particulars given below have given rise to a suit for slander, and we might therefore be justified in giving names, but a consideration for the lady insulted, and for other reasons, we withhold them.

Several weeks ago, a young lady, daughter of an old patron of the establishment, called at a Market street dry goods store, early in the morning to purchase a corset. She was going to take the early western train. With the consent of the proprietor she took three of the corsets home to try them on, but found that none fitted, and she gave them to a younger sister to take back, and she immediately went to Hare's Hotel with a gentleman attendant to take the omnibus for the cars. It appears the storekeeper had set a boy to watch the young lady, and seeing her and the gentleman getting into the omnibus ran around to the store, to tell his employer. He rushed to the Hotel, and found the young lady in the crowded omnibus, when he said he wanted the corsets; he was up to such tricks; she couldn't steal things from him in that way; and continued to talk in this strain for some time. The young lady burst into tears, and could only say that she sent the corsets back.—Her companion asked whether five dollars would pay for them, and when told it would, paid it, to relieve the young lady from her most mortifying position. When the storekeeper returned he found the young sister with the corsets in the store. He said they were paid for, there was a mistake, and the girl took them home again. He afterwards refunded the money.—Suit for slander has been brought, and he will doubtless suffer heavily for his unmanly and cruel treatment

MASONIC HALL.—Dr. Beale announces that his Arctic Panorama will close on next Saturday night. Our citizens should embrace these last opportunities of visiting the greatest and most interesting work of art ever exhibited in the United States. Go early to secure a seat; for they will be crowded.

SERIOUSLY INJURED.—A man named Patrick M'Cann, a workman at Curling & Robertson's Glass House, 6th Ward, fell through the hatchway in an upper story, yesterday morning, and injured himself very severely. He was taken to his residence on the corner of Fulton and Wylie streets.

BOARD OF LICENSERS.—The Board of Licensers will after this week meet but once a month, so that those successful applicants who have not filed their bonds, should do so at once, or they may be obliged to wait a month for their license.

LOST OR STOLEN.—Mr. St. Clair Gray, of New Brighton, lost or was robbed of $800, while returning to the cars from the Republican meeting on Tuesday night.

LICENSE GRANTED.—The Board of Licensers yesterday granted to Frederick Walker, of M'Keesport, license to keep a hotel in that borough.

(From the Boston Saturday evening Gazette.]

A Perfumed Breath.—What lady or gentleman would remain under the curse of disagreeable breath when by using the *"Balm of a Thousand Flowers"* as a dentrifice would not only be rid of this disease, but have the teeth white as alabaster? Many persons do not know their breath is bad, and in order to tell them their friends will never mention it. Put a single drop of the "Balm" on your tooth brush and wash the teeth night and morning. A fifty cent bottle will last for years.

A CHAPPED COMPLEXION may easily be required by using the *"Balm of a Thousand Flowers."* Pimples, tetters, pimples, and *freckles* irrupt the skin, leaving it of a soft and tender hue. Wet a towel, pour on two or three drops, and wash the face night and morning.

SHAVING MADE EASY.—Wet your shaving-brush in either warm or cold water, pour on two or three drops of "Balm of a Thousand Flowers," rub the beard well and it will make a beautiful soft lather, and the razor will glide to the operation of shaving. Price only 25 Cents.

MONETARY AND COMMERCIAL.

The money market continues unchanged. The supply is amply adequate on call at 6@7 cent. First class paper is quoted at 8@9 cent.

The Specie line of the banks, according to the annexed weekly statement, shows not the decrease, in round numbers, that we suggested yesterday—two millions—but the aggregate average is more than a million larger than was freely predicted in the street would be the result. The amount shown—nearly fifteen millions—after the large shipments of the last ten days, is considered quite satisfactory, especially as we have an addition to mention of specie coming forward to-day. The following is the statement, as compared with the previous week, is as follows:

	Specie.	Circulation.	Deposits.

HOW IT CAME TO BE KNOWN.

When I first commenced practice in New York some 20 years ago, my attention was almost immediately called to the many distressing cases of Scrofulous complaints, and for which no certain or successful mode of treatment could be adopted, save that of mercury, and even to apply it in all its most virulent forms, and after two years of attention to this subject, I prepared and came to supply the "Scrofulous Antidote," and by proper, with the name of my medicine, that it is sold by many of the Druggists throughout the United States, and Canadas, and I am happy to say it has been known to cure the worst cases of Scrofula, and that without the use of mercury, or any other mineral preparation, and I am proud to say that my medicine has restored more than one thousand to perfect health, who had been given up by their friends to die, and who had tried every other remedy without success.

REMARKABLE SUCCESS. It has now been known in this city for all the diseases that it has been claimed it does become, (without advertising in the newspapers) from recommendations of persons who have received remarkable cures, that I have determined to give the suffering throughout the United States the benefit of its wonderful curative properties. I can fully assure those who may feel disposed to try it, that it is perfectly genuine, and a

Purely Vegetable Preparation.
