FARM LANDS FOR SALE.
THE ILLINOIS CENTRAL RAILROAD COMPANY
IS NOW PREPARED TO SELL
FIVE TWO MILLIONS OF ACRES OF
FARMING LANDS,
In Tracts of 40 Acres and Upwards,
On long credits and at low rates of interest.

These lands were granted by the Government to aid in the construction of this Railroad, and include some of the richest and most fertile Prairies in the State, interspersed here and there with magnificent groves of oak and other timber. The road extends from Chicago, on the north-east, to Cairo at the south, and from thence to Galena and Dunleith, in the west. every alternate section of land on all the lands in within 15 miles on each side of this road, ready and at these terms are offered by it for transporting the products of the lands to any of the Eastern markets, thereby opening the Eastern and Southern markets. Moreover, the rapid growth of Cities, Towns and villages along the line, and the great increase in population by immigration are sufficient assurance and growing home-demand for farm products.

The soil is dark-rich mold, from one to five feet in depth is gently rolling, and peculiarly fitted for cultivation by small farmers, as well as for the cultivation of wheat, Indian corn, &c.

Economy in cultivation and great productiveness are the well known characteristics of Illinois lands. Trees are not required to be cut down, underbrushed, or stumps pulled out, as is generally the case in cultivating new land in the older States. The first crop of Indian corn may be planted on the newly broken sod, usually repays the cost of plowing, and fencing.

Wheat sown on the newly turned sod is sure to yield very large profits. One man with a plow and two yoke of oxen will break one and a half to two acres per day. Contracts can be made for breaking, ready for corn or wheat, at $2 50 per acre. By judicious management on the newly broken sod, usually repays the cost of plowing, and fencing.

Corn, cattle, &c., will be forwarded at reasonable rates to Chicago, for the Eastern market, and to Cairo for the Southern. The larger yield on the cheap lands of Illinois over the high-priced lands in the Eastern and Middle States, is much more than sufficient to pay the difference in the cost of transportation, especially in view of the facilities furnished by this road, and others with which it connects, the operations of which are not in terrupted by the low water of summer, or the frost of winter.

PRICE AND TERMS OF PAYMENT.

The price will vary from $5 to $20, according to location, quality, &c. Contracts for deeds may be made during the year 1856, providing the purchase money to be paid in five annual instalments—the first to become due in two years from date of contract, the others annually thereafter. The last payment will become due at the end of the sixth year from date of contract.

INTEREST, WHEN COMPUTED, IS ONLY 8 PER CENT PER ANNUM.

As a security for the performance of the contract, the first two payments must be paid in advance, and it must be understood that one-tenth of the land purchased shall yearly be brought under cultivation. Twenty per cent. from the credit price will be deducted for cash. The Company's construction bonds will be received as cash.

Maps, Pamphlets, and Information, which can be had in a few days, can be obtained from responsible persons.

They will be issued in 20 feet, divided into one lining and three bed rooms, and will cost complete set up on ground chosen anywhere along the line for $150 in cash, exclusive of transportation. Larger buildings may be constructed for at proportionate rates. The Company will furnish all the materials for such buildings whenever their need promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and an outfit of provisions in any quantity, at the lowest cash prices.

It is believed that the price, long credit, and low rates of interest charged for these lands, with the payment of a few hundred dollars in cash, and ordinary industry, to make Model Independent School, all the purchase money becomes due. In the mean time the rapid settlement of the country will probably have increased its value four or five fold. When required an experienced woman will accompany applicants to give information and aid in selecting lands.

Circulars, containing numerous instances of successful farming, signed by responsible and well known farmers living in the neighborhood of the Railroad lands, throughout the State, showing the cost of farming, price of cattle, expense of harvesting, threshing, etc by corn or wheat, and other information will be cheerfully given, on application, either personally or by letter, in English, French or German, to JOHN WILSON,

Land Commissioner of the Illinois Central R R Co.

Office, up to the first of MAY, No. 57 Michigan Avenue, after that date at the Passenger Depot, foot of South Water st., Chicago, Illinois. jy21-m&w1m

New Supply of Piano Fortes.

CHARLOTTE BLUME has just received a further supply of Hailes, Davis & Co's Piano Fortes, with patent suspension Bridge, and Overstrung Scale, and with improved Grand Action.

As a proof of the superiority of these Pianos, is the following extract of report, at the late Mechanics' Fair at Boston, in competition with Chickering, Jonas Chickering, who was President of the Association:

"The Committee on Musical Instruments, to whom was referred this Diploma with a Silver Medal to Hailes, Davis & Co. for the best Grand Piano Forte contributed to the exhibition of 1855, respectfully report, that they have had also one of his best Grands on exhibition in competition with Hailes, Davis & Co.)

The committee, Professors Geo. J. Webb, H. K. Oliver, Jno. Zerrahn, &c., say of this Grand "in tone, it is powerful, round, full and well balanced. * * *
