ALETTER FROM LEUY, GOV. BATHOND OF HEW YORK CINCINSATI, Tuesday, August 5, 1856. The following letter from Lieut. Governor Rayarger, as the emigrants who settled in Iowa in mond of New-York, on the subject of Col. Fre-

Missouri and Kentucky appear to have gone for the Buchanan men. The Fillmore men were calculating that both of these States were certain for them; and if they have gone against them, it is difficult to see what other southern States they can carry, or what good they can possibly accomplish by throwing their votes away in the northern States. On this subject we submit the following pertinent extracts from the Cincinnati Convercial:

To a man not totally stillified by the heat of party warfare, it would seem perfectly demonstrable that the loops which the Fillmore men have entertained of gaining the State of Kentucky; and thereby carrying the Presidential election into the House, is baseless. The returns of the election of Monday tell a story that it is idle to disregard. A party press may make very ingenious essays to explain away the cataetrophe, and editors give most excellent reasons why it is a sit it; but experience has often taught that their efforts, in that behalf, however brilliant, are of too slight materials to form the basis of future operations. The trath is, that in the mest reliable Fillmore State in the Union, the Fillmore a reasonable probability to obtain a single electoral vote? If there has been any State in the Union counted upon as sure for him, that State is Kentucky. A rational examples to the case, it seems to us, will place Kentucky not merely out of the list of the proba-

Just the other day, the third Fillmore Gouvertion called in Massachusette has endorsed Fremont. The first was a meeting of the State
Council, estled at Springfield, in June; it endors
that the other day, the third Fillmore month of the state of the horses, when he came to a low place or gutter in the field, the heavy, sharp knives all the while being in active operation, one arm and one leg fell directly before the knives, which took them off at a single cut. The arm was cut off just above the wrist, and the leg a short distance are writtened and Hollance and Hollan

BRIGHT HOURS AND GLOSKY.—Ah, this beauill world!—I know not what to think of it.
Sometimes it is all sunshine and gladness, and
heaven itself lies not far off, and then it suddenly changes, and is dark and sorrowful, and the

when the fire will not burn on our hearths, and
all without and within is dismal, cold and dark

The High Price or Praymons.—A letter from France says, sustains much anxiety in our provincial relations, yet the prospects of the North, East and West of France are quiet favorable as regards the harrests. Our manufactures are rather languishing in the market except silk goods, which are lively. The Bourse is at ebb tide and quite dry. The Spanish nows influences all exchanges unfavorably.
