BELTING

Patent Riveted and Stretched

LEATHER BELTING,

From the Manufactory of Hoit & Brothers, *NEW YORK.*

TO the Belting of this manufacture has been awarded the Gold Medal and Diplomas from almost every Fair and Institute throughout the United States, from the first Fair held in the city of New York, at their last meeting in the year of 1853. It is of superior quality, every thread and fibre having undergone the personal care of the principals; their hides are selected by themselves at their own receiving warehouse in Spanish Town, Jamaica, and tanned at their own tannery, after the hollow and shoulders have been trimmed out, and the whole carefully assorted. Every piece is then stretched on machines of their own invention and manufacture, which make a perfectly even surface on both sides of the band, causing it to run truly on the pulleys, and giving a power of more than 20 per cent. over those made in the ordinary manner. To machine of all kinds, for connecting wood or iron machinery, rolling mills, paper makers, sawing mills, flax mills, cotton gins, bleach works, die houses, in short to every consumer, this Belting is especially recommended, as a saving of power, given in the quality of this Belting.
