TEN CENT JIMMY—ITS ORIGIN!

On the 24th of January, 1846, Mr. Buchanan accordingly addressed an argument to the U. S. Senate, of which he was a member, in which among other things he said:

"In Germany, where currency is purely *artificial*, the cost of everything is REDUCED TO A HARD MONEY STANDARD, a piece of broadcloth can be manufactured for *fifty dollars*, the manufacturer of which in our country, from depreciation of paper currency, would cost *one hundred dollars*. A piece of cloth sent to Saxony that I could obtain there *for a collection of every manufacturer of the nation to this spot.*

* * * * * * *

What is the reason that, with all those advantages and with the protective duties which our laws afford to the cheaper manufacture of cotton, we cannot obtain exclusive possession of the home market, and successfully contend for the markets of the world? It is simply because we manufacture at the nominal prices of our own inflated currency, and are compelled to sell at the level of the GOLD STANDARD OF PRICES THROUGHOUT THE WORLD AND THUS DEPRIVE OUR COUNTRY WITH BLESSINGS AND BENEFITS!

* * * * * * *

The comparative LOW PRICES at France and Germany have offered such a stimulus to their manufactures that they are now rapidly extending themselves, and would obtain possession, in no small degree, of the New England home market, *if it were not for their protecting duties.*"

Labor is the chief element of cost in manufacturing, from the making of watersprings up to locomotives. The price of raw materials is of small comparative consequence

The next day Mr. Merrick, of Maryland, made a searching exhibit of the ruinous influence upon the workingmen of the United States of the adoption of the policy which Mr. Buchanan had so strongly urged. In the course of his speech Mr. Merrick said:

"Mr. President, as it has been argued in support of this bill that one of the good effects will be to REDUCE THE WAGES OF LABOR, I think GOD FORBID—mechanical, manufacturing, agricultural, and all others, of course—have a deep and material and important to inquire to what extent this reduction was to take place. These wages, we are told, must come down to the *paying standard*; and we have been referred to Germany and Holland, and other European countries, as examples of hard money currencies, and the happy effects of such currencies upon wages.

In France, yearly wages for an able-bodied man range fifty from 45 to 50 pence per day, and whenever they get as much as 60 pence they are considered in the receipt of high wages. In Germany wages are still lower, and ranges by the year between 12 and 100 shillings, and day laborers receive from 4½ to 7 pence per day, and find themselves in food. In Sweden and Holland, farm servants by the year from 200 to 250 shillings, and day laborers from 3 to 8 pence per day, and are found, and so on, &c. Whoever will take the trouble to examine that, in all these countries, the laboring classes are held up to us as such bright examples of hard money countries—France, Germany, Netherlands, Italy—wages by the year or able-bodied, sound, healthy men, nowhere exceed 200 shillings; and, in many instances, fall as low as 40, 50 and 60 shillings, and this daily wages to 10 pence, and *the highest being seven pence a day, and ever, ordinary* upon the hard money policy. What hope is there for a man born in the son of poor parents ever to better his condition! What ray of hope is there to citizens to be left to starve! Alas, alas! He who is there born a peasant shall, and will find the longest life of laborious toilsan procure for them it comes and goes without a change of condition.

Henry Clay took part in the debate, and denounced the scheme, which was a component part of what he AVOWED POLICY TO REDUCE THE WAGES OF LABOR. He was followed by Senator Bayard, of Massachusetts, who cited a mass of statistics, to show the disadvantages of the real prices of labor throughout the world," which Mr. Buchanan wanted the wretched Sandwich Islanders reduced to, was just then TEN CENTS A DAY!

And the Mechanics of the State of Pennsylvania, as taken of their resentment, forthwith defeated James Buchanan for the stripes and sickness of THE TEN CENT JIMMY.

☞ Resolution of the Cincinnati Convention which nominated Buchanan:

RESOLVED, *That the Administration of FRANKLIN PIERCE has been true to Democratic principles, and therefore true to the great interests of the country in the face of the violent opposition he has maintained the Laws at home, and therefore we proclaim* ☞ *OUR UNQUALIFIED ADMIRATION OF HIS MEASURES AND POLICY.*

MR. SUMNER'S SPEECH.—Persons desirous of procuring copies of Mr. Sumner's celebrated speech, "The Crime against Kansas," in pamphlet form, can procure them at this office.

ANOTHER STRAIGHT OUT.—The Lebanon *Courier* says that Hon. AMOS H. BOUGHTER, Esq., a lifelong Democrat, and the Democratic candidate for Congress two years ago in that district, when his personal popularity was shown by carrying Lebanon county by a considerable majority, made a speech at the Fremont Club, in that Borough, on Saturday evening the 9th, in which he declared his determination to support Fremont, and in a calm and argumentative way, gave his reasons for so doing, which must have carried conviction to other Democrats present. He showed that the Buchanan men had departed from the ancient faith and policy of the Democratic party, leaving those who consistently adhered to the true Democratic principles, no other resort than the support of Mr. Fremont, who adhered to the true Jeffersonian principles. He also stated that when a delegate to the Democratic convention, two years ago, which nominated Wm Bigler for Governor, he was one of the committee on resolutions, and in that committee resolutions were offered favorable to the repeal of the Missouri Compromise, but they were largely voted down—one of the particular friends of Gov. Bigler exclaiming, "For God's sake do not load us with the sins of this National Administration." Yet Mr. Buchanan is now loaded with these sins and Democrats are now asked to support him.

WHIG CONVENTIONS.—Two "old-line whig" conventions have lately been held, one in Maine and one in New York. In Maine, with a direct boldness which is creditable to them, they have arranged to go over to Buchanan; while in New York, where they dare not be so frank, they have decided in favor of Fillmore. Both of these conventions were frauds. There is no whig party in existence in either state; and the men who composed these conventions were men who have for years past bolted whig nominations and contributed all in their power to break up the whig party. They represent no one but themselves. The masses of the old whig party, too honest to follow such leaders, have enlisted under the banner of Freedom, so congenial to their instincts; and it matters but little where the worn-out and faithless demagogues may go. In Maine, the honest part of the whig party has already come out for Fremont, and the Buchananers are welcome to the refuse; while in New York, the self-styled "whigs" who held the late convention were mere Hindoos in disguise.—They add nothing to Fillmore's strength in that State.

Mr. Buchanan's organ in Philadelphia—the *Pennsylvanian*—is exceedingly fearful that the Fillmore men of the State will be cheated, both in the State and Presidential elections. It seems to have taken them under its especial protection, points out with a fraternal hand the dangers which beset them, and exercises a studious care over their interests. Compared with the furious diatribes which it last year hurled at these same men, it is impossible to put any but one interpretation upon this singular course: the *Pennsylvanian* feels and *knows* that Mr. Buchanan is in a minority in this State and that his only chance of carrying it is by keeping up the Fillmore division. Hence it muzzles the dogs of war which it lately kept howling upon Know Nothingism; abandons the personal defamation of its leaders which characterized that sheet; and embracing them with loving tenderness, makes their cause its own. Is the *Pennsylvanian* so besotted as not to realize that an intelligent people must infallibly see through this *ruse*? Men do not walk into traps with their eyes open.

FREMONT MEETING.—A meeting of the friends of Fremont from the north part of Sewickley township, was held on Thursday last at Esquire Mitchell's School House. It was well attended; many of the old and substantial farmers who seldom attend political meetings, turned out to hear what a brother farmer had to say in behalf of Fremont and Freedom. Dr. Woods presided, and the meeting was addressed by T. L. Shields, after which measures were taken for the immediate organization of a Fremont Club.

REV. D. H. A. M'LEAN, late of Westminister College, New Wilmington, Pa., has been called to the position of Principal of the High School of this city. Prof. M'Lean brings to his work fine abilities and extensive acquirements, with the rare faculty of a good disciplinarian and teacher. We have no doubt that this noble institution, under Prof. M'Lean's superintendence will become universally popular. We welcome him most cordially to a residence among us.

A TEN CENT JOKE.—The Lebanon *Courier* tells us that an omnibus bearing the name of "James Buchanan," ran between that place and the camp-meeting grounds, last week, and put the fare at *ten cents*. It went well enough for a time, but pretty soon the name and the price began to excite comment, and the remarkable fitness of the two was admitted all round, with a titter. Some of the followers of the Ten-Center seeing that the thing was exciting too much attention, called the 'bus man aside and after a few minutes whispering, he returned and proclaimed that "the fare is now twelve and a half cents!" Our Buchanan friends wear a ghastly smile whenever ten cents are mentioned. The coin should be abolished.

ARKANSAS.—A late dispatch from Little Rock, Arkansas, says:

To the House, as far as heard from, there are elected 65 Democrats and 10 Americans, and to the Senate 20 Democrats and 5 Americans.

To Congress, Greenwood, Democrat, is certainly re-elected from the first district, and Warren, Democrat, from the second.

Conway's majority for Governor will, it is now believed, reach nearly 10,000.

According to the accounts which might be seen any day in the Philadelphia *News* and the N. Y. *Express*, two weeks since, there could be no doubt that the Fillmore men were carrying all before them in Arkansas. Col. Yell, the Fillmore candidate for Governor, we were told, was *sure* of an election. There appears to have been some mistake in the calculations, as in all the Southern States.

☞ We saw, on Saturday, a copy of the Weekly "Freedom's Friend" (German,) which had been sent back from some Post-Office in Louisiana, by the Post Master. On the margin was scribbled profane and offensive remarks. There is no evidence that the subscriber of the paper was dissatisfied. This is a land of Free Speech and Free Press! Democratic Postmasters cannot permit Fremont newspapers to penetrate the darkness of the South.

NOMINATIONS.—In the Senatorial district composed of Mercer, Venango and Warren counties, the Fremont men have nominated Geo. W. SCOFIELD, of Warren, as their candidate for Senator. Mr. Schofield is a straight-out democrat. The representative ticket in the same district consists of Samuel Kerr, of Mercer; S. P. Mc Oalmont, of Venango; and Thomas Struthers, of Warren.

The "*Mormon*," the Brigham Young organ published in New York, comes out against Fremont and for Buchanan. There is a fitness in that. The Republicans denounce Polygamy and Slavery as twin relics of barbarism; while the Buchaniers, who sustain Border Ruffianism, have no difficulty in coupling polygamy with it as an institution to be protected and extended.

MASS MEETING IN MASSILLON.—A Young Men's Republican Mass Meeting, is to be held in Massillon, Ohio, on Wednesday, the 27th August. Distinguished speakers are engaged, and the Railroads have agreed to put excursion tickets at half price. It will no doubt be a great and glorious meeting.

BIGLER ON FREMONT.—When any thing peculiarly mean is to be done at Washington, a Pennsylvanian is always picked to do it. So, when a dirty effort was to be made to assail the integrity of Col. Fremont, by a resolution of the Senate, the chosen instrument was Senator Bigler, of this State. After engineering a bill through the Senate for the pecuniary benefit of his relative (if not of himself,) at the expense of the U. S. Treasury, it might have been supposed that he would have been chary of so exposing himself; but a Pennsylvania democrat at Washington is not permitted to stickle at anything, and so the meanness was accomplished through a fitting instrument.

For a thorough and hearty execration of the debased Senator from Pennsylvania, read the speech of Henry Wilson in to-day's paper.

Upon this subject the N. Y. *Evening Post* says:

"A more shameless proceeding, has rarely, if ever, occurred in Congress. Gov. Bigler knows, and his principal, James Buchanan, knows still better, that the insinuations conveyed in the resolution of inquiry offered on Saturday are maliciously unjust; that Col. Fremont's accounts have all been passed upon by a Committee of Congress, among whom were several of his political opponents; that the only accusations which ever reached Washington in regard to Governor, came through Col. Mason, while Governor of California, an avowed enemy of Col. Fremont, and an ally of Gen. Kearney in his warfare against the Colonel, and who, while underlying a challenge from Col. Fremont for using insolent language, begged to have the meeting postponed for three years and a half, and pending that period, trumped up charges and sent them home for the purpose of prejudicing him with the Court Martial to be convened for his trial; they also know that the Court took no notice of his charges; that President Taylor a year afterwards appointed him a Commissioner to run the Boundary line between the United States and Mexico, thereby practically pronouncing the accusation referred to malicious and groundless; and that subsequently to that event, he was chosen Senator of the United States, on the first ballot, by the legislature of California, when the facts in regard to these accusations were well known and thoroughly canvassed. They know these facts perfectly well, but they think that the mere fact of an inquiry of this kind being instituted by the Senate may prejudice him with those who are not aware of the vulgar and unmanly spirit in which it originated. Col. Fremont's accounts were settled a year ago or more; they were carefully canvassed by a committee of the House of Representatives, one of whom was Extra Billy Smith of Virginia, notorious for his strictness in such matters, and were unanimously passed upon and settled by the concurrence of the House. Not a complaint has ever been laid before the public by the federal officers, nor an intimation that his accounts were open to exception; but now, when he is a candidate for the Presidency, his antagonism chooses to avail himself of the control which his party has over the government archives, to institute an inquiry designed to impeach his official integrity. It is a cowardly proceeding, and will harm none but those by whom it is instituted, for there is nothing required to insure Colonel Fremont's election but familiarity with his life, which like a key in one's pocket, grows brighter the more it is rubbed.

We are surprised that it did not occur to some of the opposition Senators, when Senator Bigler sat down, to invite a senatorial inquiry into the use of the seal of the American legation, during Mr. Buchanan's mission in England, for the dissemination of red Republican documents through Europe; and in regard to the issue of free passes to abandoned women from the same legation; also, for a copy of the letter which Mr. Buchanan, while Secretary of State, wrote to Mr. Polk requesting $50,000 to be deposited in Simon Cameron's bank; for the purpose of being used to buy up the Washington Globe, and establish the Union newspaper in its place. This latter letter is now on file in the departments at Washington. It contains sufficient evidence, we are credibly informed, to send its author to state prison, under the sub-treasury law, and was one of the grounds, if not the grossest case of malfeasance in office which has occurred since the Sub-Treasury law was passed. Why is not that letter called for and produced, that the country may see the kind of men that are presented and supported for the highest office in its gift by the whole combined forces of the

THE GERMAN PRESS.—The *Daily Union* of Saturday, makes an assault upon the Republican German press of this city. It says the "Democratic party is under no obligations to these German gentlemen for their support of the Democratic ticket last fall!" "They did us," says the *Union* "but little good last fall, and will not do us much harm this." It denounces them as "Swiss editors," "who are in the market," and "who only want their price!"

It is very clear what estimate the Buchanan Democrats place upon the Germans, when they speak of them in this way. What right has the *Union* to infer that men who have long maintained as respectable a character as the editors and proprietors of the "*Courier*" and the "*Freedom's Friend*," can be swayed by no higher motives than bribes? Do these charges not spring from an ill-concealed contempt for the German character, and is not the charge a reproach upon Germans generally? We regard it as such, because there is nothing to justify it in the character and the past conduct of the German editors who are charged with being governed wholly by mercenary motives in supporting the cause of Freedom and Fremont. From our knowledge of the German character, they are the last people it would be safe to offer a bribe to, to induce a change of principle; but the Democratic press bandies about the charge of mercenary motives, as if the only question of German votes was that of an election. There appears to have been some mistake in the calculations, as in all the Southern States.

REYNOLD'S POLITICAL MAP.—The best electioneering document of the campaign is a map published by W. C. Reynolds, No. 195 Broadway, New York, showing the comparative area of the free and slave States, and the vast territory left open to Slavery by the repeal of the Missouri Compromise. It ought to be hung up in every factory and public place throughout the country, and be in the pocket of every one engaged in talking politics. It costs only 25 cents, and is a most efficient campaigner.

If the various factions opposing the election of Col. Fremont could be brought within range of each other, and their arguments discharged, a scene of confusion confounded and an operation *a la* Kilkenny cat, would ensue. The charge that the Republican candidate is a Know Nothing would be met by the averment that he is a Catholic. The theory that he is perfectly reckless and amazingly obstinate, would be destroyed by the insinuations that he is personally a coward, and that he has no will of his own; but is and is to be the tool of Seward. The respective assertions that he is a slaveholder and an abolitionist, might be trusted with each other; and so also might the fables as to his Mariposa gold with which Wall street has been secured, and the weak inventions that his "paper" is not worth a mill on the dollar in Wall street.—*Cin. SPECIAL NOTICES.

A Good Comparison.—The Rev. William Rouiatt, a well known Methodist clergyman, residing at Nap ee, draws the following sensible and forcible comparison between Dr McLane's celebrated Vermifuge, prepared by Fleming Bros., of Pittsburgh, Pa., and a ferret:

"The ferret enters the mouth or the entrance of a rat hole, enters the apartment, travels through the passages, seizes upon the animal, destroys his existence, and draws the animal from its concealment. And in like manner does Dr. McLane's American Vermifuge so operate upon worms. It penetrates the remotest recesses of the stomach and bowels, finds every worm, and destroys them. It kills promptly, like the ferret, enters the remotest parts of the system, travels down the crooked intestines, hunts round the stomach, lays hold of the worms, attacks them to the death, and draws them out of the system. It is certain death to worms, but does not injure the system. It is the ferret of the Vermifuge upon my children."

A neighbor of Mr. Rouiatt, Mr. John Briggs, adopts the ferret as the reverend gentleman, thus both giving the most unequivocal approval of this great specific, after having tested its operation upon their own children. Let others try it and be satisfied.

☞ Purchasers will be careful to ask for Dr. McLANE'S CELEBRATED VERMIFUGE, and take none else. Other Vermifuges, in comparison, are worthless. Dr McLane's Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States, and Canada. None genuine without the signature of

Rheumatism—To any who have been afflicted with this malady, the very reading of the above heading will call to mind the remembrance of the most excruciating pain and prolonged agony. The joints swelled, stiff and unyielding, rack turn of the body accompanied by a shock that would induce the belief that every bone in the human anatomy was about to be dislocated. From two to three bottles of "Kennedy's Medical Discovery" will cure the worst case of Rheumatism. We would refer to the cure of J. Frostwort or Rock Rose.—For the cure of scrofulous Diseases.

NEW HAVEN, Jan. 1, 1853.

My son Charles has been afflicted with inflammation of the hip joint. At the age of 5 he was first attacked; inflammation increased until the hip was very diseased, and the joint seriously affected his leg, drawing it up so that it was impossible to straighten it; a professional surgery gave it as his decided opinion that the leg would never heal, and that the young man would never walk again.—The disease increased so rapidly that for two and a half years he only walked with a crutch, and the efforts to exercise the limb were attended with great pain, so that he could not sleep. I watched him so attentively, that for 6 months, did not have one full night's rest. He had been treated by distinguished medical practitioners, by leeching, blistering, &c., he had also been before the Medical Clinique of this College. The remedies they recommended were most faithfully tried, but without avail. The was his disease and dreadful condition 18 months ago when a friend of his commenced taking Myers' Rock Rose. One bottle was then taken when he was much better, continuing until three bottles had been taken, when a cure was entirely completed, now he is in excellent health. This is the testimony of and can be corroborated by addressing Mrs. Catharine McGill, 81 Wallace st., New Haven, Conn., or can be fully substantiated by hundreds of witnesses, or by addressing a line to Rev. W. W. Bailey, New Haven, Coan.

Dr. Keyser's Shoulder Braces—From Pittsburgh Dispatch, April 10th, 1856.—For more than 8 years past we have constantly worn the Washington Suspender Brace, manufactured by Dr. Geo. H. Keyser, of No. 140 Wood st., in this city, and would heartily recommend it to all who are compelled to follow a sedentary occupation. As we have before remarked, in calling attention to its merits, it answers for a brace and suspenders, the weight of the pantaloons being so placed as to continually tend to bring the shoulders to their natural position and expand the chest. Women, hundreds of whom are annually injured by the weight of enormous "skirts," should also procure these braces. Be particular in procuring the kind mentioned, as many of the braces sold are humbug. Sold at Dr. GEO. H. KEYSER'S, Wholesale Depot, 140 Wood st, sign of the Golden Mortar.
