EXCITEMENT AT MONONGAHELA CITY.—On Monday night a Democratic meeting was held in Monongahela city, which proved to be a very exciting one. It appears that the Fremont men were all at Finleyville; William Montgomery, the democratic candidate for Congress, arose in the meeting and announced that it was intended to hold a discussion on the merits of the respective platforms of the two parties, but that the Fremonters were too cowardly to meet him. An old gentleman named Alexander said that was not so, being an intimation that he would discuss this question with Mr. M., whereupon a well known citizen knocked him down. The knocker was knocked, and thereupon the fight grew general. The citizens of both parties, became indignant, and chased the candidate all over the county till late at night, with a bucket of tar and feathers, fully determined to treat him to a ride on a rail. He fortunately succeeded in making good his escape.

The excitement was intense, and we are credibly informed that the outrageous conduct of the leading democrats has made at least forty Fremont votes; the good citizens of that village having had a practical exhibition of border ruffianism. A number of Buchanan flags were run down that same night, by their owners, and Fremont flags run up in their stead.

THE FAIR GROUNDS.—We paid a visit to the Fair Grounds yesterday morning, to see the progress made by the workmen under the direction of Mr. O. P. Shiras, Superintendent. The work is not allowed to flag, and already the one hundred and twenty horse-stalls additional have been erected. The race-course is now very fine being one-third of a mile in circumference. The advantage of this is that the horses will have a much larger arena to display their abilities and the entire audience will be able to see the whole performance, whereas, before not one-half could.

The Artist's Hall has been increased in size to fifty-four feet in diameter, and is of three times the capacity it was before.

The old Floral Hall will be given up entirely to domestic manufactures and music. The new Floral Hall will be in a tent which is yet to be erected. The Vegetable Hall of former years will be devoted to moving machinery, and a tent will be erected for vegetables.

There will be several other tents erected for the President, for Reporters, and for other purposes.

Judge Woodward of the Supreme Bench, will be the orator of the day. If the weather be favorable at least 60,000 visitors will be on the grounds.

☞ The Ladies' cloak establishment of A. McTighe, corner of Grant and Fifth streets, seems to have become a permant institution amongst us. We paid a visit to this house yesterday, and are very much pleased to find that we can now give an extended notice of the many beautiful styles we saw there. Mr. McTighe is now manufacturing ladies' cloaks on a very large scale, and to wholesale buyers he will be able to offer better bargains than can be had in Philadelphia. We never saw one style which is really handsome. It is composed of two kinds of cloth, and is of the double shawl shape, and very richly trimmed, which he sells at the low price of $7. The ladies will certainly save money by calling on McTighe. He will also open this morning 2,000 yards plain black silk.

THE NEW SIGN AT KEYSER'S.—We mean the "balm of a thousand flowers" sign. It is really a wonderous article and well worth the attention of the passerby. The Doctor keeps pace with the age, and whenever a new thing comes up, he is sure to take hold of it, if it is worth anything. The Doctor has now in store one of the best and largest assortments of Drugs, perfumery and toilet articles, in the city and those in want cannot fail but get everything at his store that is to be had in the Eastern Markets, and at prices quite as reasonable. The sign alluded to was painted by our fried Flinn, corner of Wood and Liberty streets, who, by the way, is quite a genius in pretty sign painting.

Among the many dry good stores in Pittsburgh, we know of none more deserving of public patronage than that of A. M'Tigh's, corner of Grant and Fifth sts. Purchasers will always find at this house an elegant stock of fancy and staple dry goods, and as M'Tighe buys and sells exclusively for cash, we are forced to conclude that he can sell cheaper than those who buy and sell on credit. Persons therefore who buy for cash should call at M'Tighe's, where all sorts of dry goods are sold at New York wholesale prices.

A FELON.—The Democracy issued a call for a meeting at Braddock's Field, on Monday last. At the hour appointed the Democracy assembled in large numbers, but it appears they were all for Fremont. They elected Mr. Forsyth, a Fremont man, chairman, and then gave three tremendous cheers for Fremont and Freedom. The meeting then adjourned.

On Saturday a very large Fremont meeting was held at the same place, and speeches were made by Dr. Gazzam and R. C. Fleeson, Esqs.

BAYNES' SUSPICIONS.—A note of hand for $343 was sent to this city for collection, and yesterday it fell due. It was to be paid at No. 243 Wood street, but there are only 184 numbers on the street. Of course the Notary Public did'nt collect the money. This looks very much like a confidence game.

THE PROTESTANT ASSOCIATION.—The parade of the Protestant Association to-day will be an imposing affair. Very extensive arrangements have been made by the efficient Chief Marshal, Col. R. P. M'Dowell. It is supposed there will be about fifteen hundred persons in the procession.

TRUSTEES FOR FARMERS' HIGH SCHOOL.—An election for three trustees of the Farmers' High School, Centre county, Pa., will be held on October 6th. The electors are the State Executive Committee, and a delegation of three from each County Agricultural Society, chosen for the purpose. See advertisement.

THE BROWNSTOWN, Peebles township, Fremont Club, organized on the 6th by electing Wm. H. Brown President, W. H. Williams, Peter Brown, Joseph Kennedy, Vice Presidents, and Ben. McGrew Secretary. Excellent speeches were made by Messrs. Fleeson, Gazzam and Collier.

THE NEW TREASURER'S OFFICE.—The City Treasurer, Mr. Davitt, has taken possession of his new office, on the ground floor of Wilkins Hall. The office is rather neat, but not so much so as the business office of a large city should be.

NORTH WESTERN RAILWAY.—The contracts for graduation and masonry on the North Western Railway will be let to-day, at Butler.

CORONER'S INQUESTS.—*Human Bones Found.*—On Saturday last a box buried some few inches in the ground, containing human bones, very much decayed, wrapped in blankets, was found near Woods' Run, Ross-tp. Coroner Alexander was summoned, and on Sunday empannelled a jury of inquest, before which several witnesses testified. Robert Cummins testified, said his suspicions had been excited by discovering fresh clay in a corner of his field where he had before found a coat. On examination he found the box. He had heard that two months ago two men came on shore from a boat, with the body of a man who had died on board, for the purpose of burying it.

George Shields, being sworn, said he saw two men about eight weeks ago row ashore in a skiff, having with them a large skiff. The men were dressed as steamboat hands. Paid no further attention.

Drs. Pollock and Lusk examined the bones, and found them to be those of a male under twenty-one years of age. The body might have been interred about two months. The jury found that the deceased came to his death from causes unknown to the jury.

The cravat found by Mr. Cummins was of London make, and had the dealers' names on it. One of the blankets had "G. D." worked in it with thread. Before the jury dispersed, a gentleman came up who said that a man had died on the *Jacob Poe*, two months ago, while aground on Gass House Ripple.

Sudden Death.—An elderly German was found dead in his bed on Monday morning. He lived in East Birmingham. The jury of inquest found that he died by visitation of God.

Drowned.—A farm laborer, employed by Mr. H. H. Ryan, cabinet-maker, Fifth-st, was drowned in the Ohio, opposite Ohio-tp; on Sunday afternoon, while watering a horse. The animal got into deep water, and the deceased became entangled in the reins. The Coroner held an inquest on Monday, and the jury found that he was accidentally drowned.

ALLEGHENY COUNCILS.—This body held a special meeting last evening.

In the Common Council, Mr. Connolly, of the 4th ward, presented a petition from the Congregation of St. Peter's Church, (Catholic) praying Councils to appoint a special Committee to assess the damages sustained by the grading of Cedar avenue. The petition was accepted, and Messrs. Robinson, Connolly and Martin, were appointed on part of C. C.

A Resolution was passed for the payment of of $1450,50, to the Allegheny Gas Company, for lighting city lamps, Mayor's office and Library; and $100 for gas consumed in the Market and Town houses, for the six months ending July 1st, 1856,.

A resolution was passed requiring the P. Ft. W. & C. R. R. Co., to remove the wooden covering over the gutter at their depot on Federal street, or cover the same with iron castings similar to those laid down on Penn street, in Pittsburgh by the Central road.

The B. C. non-concurred, and appointed a Committee of Conference.

The Market Committee were instructed to rent the old Washington Engine room to the highest bidder for a fruit and vegetable market.

A resolution was passed granting the use of the west Common for the Union Convention, on the 17th. In S. C. action non concurred in.

Mr. Jas. L. Graham, Director of the Poor, presented his resignation. A resolution requesting him to continue to the end of the year was passed.

Mr. A. Hays, having resigned his position as Recording Regulator, the Councils in joint ballot elected Isaac Morley to fill the vacancy.

MAN SHOT—SURRENDERED HIMSELF.—A man named Thomas Lawrence, tavern-keeper, Port Perry, appeared before Alderman Steele, yesterday, with a constable he sought out for the purpose, and surrendered himself on the charge of shooting a man named Bernard Killen. It appears that Killen is a rowdy, and has been in the habit of annoying the family of Mr. L. during his absence from home, to that extent that Mrs. Lawrence visited the city almost two months ago for protection. Yesterday Killen came back and commenced a violent course of conduct, when Lawrence ordered him out, and he refused to go, shot at him with a pistol. The ball lodged in the abdomen, and Killen is lying in a critical condition.

Lawrence, as we said above, immediately hunted up a constable, and gave himself into custody. Alderman Steele committed him to jail for a further hearing on Saturday.

ENTHUSIASTIC FREMONT MEETING.—The citizens of the Fourth ward met last evening in large numbers, on Penn-st, opposite the St. Clair Hotel, J. S. Craft, Esq., in the Chair.

The speakers, D. L. Eaton, Esq., Governor Johnston and Gov. Roberts, made exceedingly able addresses, and enchained the audience from first to last.

Col. Holliday, of Kansas, not arriving, the Second ward meeting, adjourned *en masse* to the Fourth ward meeting. The evening passed off nicely.

THE DEMOCRATIC CONVENTION.—The Democracy have erected two platforms for speakers on the vacant ground adjoining the Fair Grounds. If it should happen to rain, the ground will be covered with water, as it is a marsh, and but poorly drained.

SWALING A TRUNK.—Christian Clare, a lad, was arrested and taken before Alderman Cummings, yesterday, for the larceny of a trunk from Michael Delaney, of Seventh st., four months ago. The accused was committed for another hearing.

LARCENY.—Ann Soane, charged as an accomplice of Margaret Emmett in the larceny of some clothing from Johanna Rourke, was arrested and committed to jail yesterday, by Alderman M'Kenna for trial.

PERRY'S VICTORY.—To-day is the Anniversary of Perry's Victory, and it will be observed by a parade of the Protestant Association and the Pennsylvania Battalion.

INCENDIARISM.—Four large stacks of hay, belonging to Col. John Scott, of Ross township, were fired by an incendiary about midnight on Monday last, and were totally consumed.

FILLMORE CONVENTION.—The Fillmore nominating County Convention will be held to-day, and

(From the Boston Saturday evening Gazette.)

☞ A Fortunate Breath.—What lady or gentleman would not be delighted to have a fragrant breath when by using the "*Balm of a Thousand Flowers*," as a dentrifrice would not only render it sweet, but leave the teeth white as pearls? Moreover, if the teeth be decayed their breath is bad, and the subject is so delicate their friends will never mention it. Put a single drop of the "Balm" on your tooth-brush and wash the teeth night and morning, a few cent outlay will last a year.

A BEAUTIFUL COMPLEXION may easily be secured by using the "Queen of Roses" Pearl and Camphor Wash. It removes *tan, pimples, and freckles* from the skin, leaving it of a soft and roseate hue. Use a towel, pour on two or three drops, and wash the skin night and morning.

COMMITTEE OF ARBITRATION, FOR SEPT.—Jas. M. Cooper, V. P.—S. Wilmarth, Jas. O'Neill, John F. Peace, Wm. Dawson.

REVIEW OF THE PITTSBURGH MARKET.

For the Week ending Sept. 9, 1856.

The season continues dull, although there is considerable animation in the streets. The jobbers are tolerably busy in filling orders from country merchants, and if the rivers were in good condition we should now be in the midst of an active business.

The Penna Railroad is bringing in a large amount of merchandize from the East, which the Pittsburgh, Fort Wayne and Chicago road is taking out to the West in large quantities. We have never seen our roads more busy in this department.

The produce market is as active as the limited supplies will permit it to be. Flour has stiffened up since last week under the stimulus of the news from Europe, and holders anticipate anything but a decline from present figures.—The stock in the city is light, and receipts are quickly disposed of. Grain is in good demand, and at rather better prices.

The weather continues exceedingly dry in this locality, and the corn and potato crop has been permanently injured. Potatoes are said to be, generally, a failure.

The Commercial Intelligence from the East indicates no change. The imports of last week are about the same as the corresponding week of last year, and the export of specie $750,000. Of the money market the Tribune says:

The week ends with considerable relief in the money market as compared with the previous week, but more pressed on call loans than on paper. It is supposed that the banks are increasing their loans at the expense of their discounts, in order to have their funds more immediately under control. The relief in the market has rather surprised the street, as taking place during the continuance of the Bank connection. The offerings for discount have somewhat increased at the large Banks, but the street paper of first class does not seem to increase, on the street paper of first class does not seem to increase, and the rates are falling at 6@10 ₰ cent., with but little below 9 ₰ cent. The largest stock houses are well supplied with money on call, and borrowers with good throughout have no difficulty in supplying their wants at 6 ₰ cent.

ASHES—we understand that large transactions have taken place during the week at 7¾, cash; the ruling rate appears to be 8, four mos. Some small sales of Pots at 6¾, cash. Soda Ash is steady at previous rates.

MEDICINE.

DR. PLEASANT FAMILY PHYSIC—An entirely vegetable preparation, pleasant to the taste, unexcelled in its action upon the liver, stomach, and general system. As an anti-bilious and Alterative Physic, unrivalled by any.

HAS NO EQUAL IN THE WORLD.

I have used it constantly in my practice for upwards of 10 years in all cases where a good Purgative or Alterative was required, and would not now do without it. It is the

PHYSICIAN'S ASSISTANT,

As well as the safest family medicine in use. *Children drink it with pleasure. It will not nauseate the weakest stomach. It produces no griping, but operates easily, thoroughly, and is sure to eradicate all impurities from the system of it is properly taken.* Always

THOUSANDS OF LIVING WITNESSES

are ready to testify to its superior virtues, independent of its purgative and anti-bilious qualities. It has cured the worst cases of dyspepsia in a few days. It is a

NEVER FAILING CURE

for Headache, Liver Complaint, Jaundice, Kidney Complaint, Bilious Fever, Pains in the Side, Back, Breast and Limbs, Colds, Cramps, Worms, Rheumatism, Blotches on the Skin, Pimples, Cutaneous Eruptions, Obstructions in the System, Constipation of the Bowels, Dimness, Mercurial Diseases, Pleurisy, Female Irregularities, Bowel Complaints, Ulcers of all kinds &c. It cleanses by its superior medicinal virtues, the humors from the blood and leaves it pure and healthy. Yesterday Killen came back and commenced a violent course of conduct, when Lawrence ordered him out, and he refused to go, shot at him with a pistol. The ball lodged in the abdomen, and Killen is lying in a critical condition.

Lawrence, as we said above, immediately hunted up a constable, and gave himself into custody. Alderman Steele committed him to jail for a further hearing on Saturday.

Dr. L. B. WRIGHT'S

VEGETABLE LIQUID CATHARTIC

For the cure of Scrofula, all diseases of the Blood, and Impurities of the System.

THIS wonderful preparation and certain remedy for that most dreaded of all complaints, has now obtained a reputation in private practice, and without the aid of advertising,

WHOLLY UNPARALELLED,

by any other medicine hitherto known.

It is just designed in this short advertisement, to give it a true line as a scrofulous or tuberculous disease, as that is now ready for perusal and can be had of all our agents, for 25 cents.

I will merely say that it has

CURED CONSUMPTION,

when all other remedies have failed.

Amongst the many diseases that this medicine has made the most remarkable cures are the following:

Consumption,
Pleurisy, Bronchitis
and all diseases of the chest
and lungs; pain in the Chest, a
never failing remedy, Canker of the
mouth, Catarrh, Consumption, Fluor Albus, and other diseases of the Womb, Nervousness, Convulsions, all cutaneous diseases, Dyspepsia, Inflammation of the Eyes, Erysipelas, Goitre, Tumid Face, Spitting and Vomiting of Blood, Fits, Whooping Cough, Dropsies, Hysterics, Jaundice, and all diseases of the Liver, Impotency, Incontinence of Urine, Influenza, its best remedy, Sovereign Cure; Chills and Fever, Gravel, or Stone in the Bladder, Lumbago, and all forms of Rheumatism, Marasmus, Palpitation of the Heart, Tetters and Ringworm, Anemia or Deficiency of Blood; Atrophy or Wasting of the Body, and Emaciation, Boils and Carbuncles, Painful Diseases of the Spleen and Kidneys, Dizziness of the Head, Shortness of the Breath, Flatulence, Bad Headache, Discoloration of the Skin and Eruptions, Impurities of the Blood, Sores generally, & all impurities of the blood from whatever cause.

HOW IT CAME TO BE KNOWN.

When I first commenced practice in New York some 20 years ago, my attention was almost immediately called to the study of this remedy. Its effects are almost magical, yet the cure *permanent.* It communicates no violent shock to the system, but by a mild, yet vital energy of the normal action, enables it to throw off the cause, and thus thoroughly eradicates the disease.

When its medicinal virtues are so universally acknowledged, and particularly as a "Scrofulous Antidote" in my practice, with the *MOST REMARKABLE SUCCESS.* It hasnow been known in my practice for more than a dozen years, and the demand becoming, (without advertising in the newspapers) from reports of its miraculous cures, which have come from month to month, that I have determined to offer it to the suffering throughout the country, the benefit of its wonderful curative properties, that I am fully assured it may be relied upon. I am therefore disposed to try it, that it is perfectly wholesome, and a

Purely Vegetable Preparation,

and has made more permanent cures than all other medicines put together. I have now living in my desk over
