THE STEAM FIRE ENGINE "CITIZEN."—The Chronicle of Saturday, speaking of Lowry's steam fire engine. It says:

"Her original gear having been pronounced too light for the proper support of the engine on streets as rough as ours, has been removed, and his place supplied with material of a heavier character. She is now ready for service, and Mr. Lowry, as well as to sustain his own reputation as to display the idea that the 'Citizen' is not what it is claimed she is—a valuble acquisition to the fire department—proposes a trial between her and the other engines, in the following manner. He suggests that the horses be placed near the engine house, which is the proper location, and when the bells ring, that such engines as choose to enter the contest, start for a given point. He proposes to hitch the horses and start also for the scene of action, and maintains that he will have the 'Citizen' in operation as soon as the foremost of the hand engines, while she will throw treble the volume of water that any of the latter can project.

"Mr. L. is satisfied that he can effect all this from a trial made with the engine since her new running gear was put on. A few days since he had the horses hitched, and in ten minutes he had steam up and was prepared to throw water, at a point one mile from where he started.—Other experiments proved equally successful—the great strength of the running gear enabling the horses to travel at a rapid rate without danger of breaking down, while additional improvements on the furnace, &c., hastens the generation of steam, and renders the engine ready for action in nine or ten minutes from the time of the alarm."

POLE-RAISING.—A fine graceful pole was raised by the enthusiastic Fremonters at Stewartstown on Saturday evening. The banner of our country was run up to the music of "The Star Spangled Banner." The Brass Band, an excellent one, every one of whose members are working men of that vicinity, was present, and fine music it made. The hardy workmen of Spang & Co.'s Works were out in force, and one may be sure that every thing was well done about the pole and in getting it up. Messrs. Knox and Gaston of the city were present, and made eloquent speeches, the former in English, the latter in German. Mr. Wilson made some remarks.—The right spirit is abroad up there. We learned that an effort to raise a hickory pole in Shrappsburg on the same day proved vain. There was not forch enough to get it up. We intended to have mentioned above, that the pole is 175 feet in height.

PROPOSED CONNECTION OF THE CENTRAL AND STRUBENVILLER ROADS.—Workmen are now engaged in cleaning out the old Tunnel, at the end near 7th street, preparatory to making a survey of the proposed route for connecting the Pennsylvania with the Pittsburgh and Steubenville Railroad. The Tunnel, although regarded as very important to the interests of Pittsburgh by a large number of citizens, has for many years been nothing but a common nuisance, and would doubtless be much more valuable for the purpose of railroad extension, than a mere nominal channel of water communication between the Monongahela River and the canal basin.

DISTRICT COURT.—Before Judge Williams.

SATURDAY, September 27.

The jury in the case of Anderson and wife vs. the Pennsylvania Railroad Company, appeared in the morning, and, being unable to agree on a verdict, were discharged. The case will probably be tried at the term

The day was occupied hearing motions, &c., none of which were important.

A large number of foreigners were naturalized.

To Persons Attending the State Fair.—The regularly licensed Public House of John S. Miller, will be open for the accommodation of visitors to the Fair during the week, and the proprietor will be happy to extend its facilities to all who may call upon him. It is situated on the bank of the Allegheny river, sign of "Our House," and is within two squares of the Fair Grounds.

Grand Rally at Connellsville.—The friends of Fremont and Freedom will assemble in mass meeting, at Connellsville, Fayette county, on the 7th of October next. Our readers who can conveniently attend, should bear this in mind. A general invitation is extended to the Republicans of the adjoing counties. A large delegation be expected from this city. Able speakers will be present, and a lively time may be anticipated.

Fire near Perrysville.—On Thursday evening last, the tavern kept by Mr. Haupiman, a private dwelling, and a stable, with a large quantity of grain, hay, and a valuable mare, were consumed by fire. The buildings were located on the Zelienople Plank Road, about seven miles from the city. The property was owned by Mr. John Keown.

Larceny of a Quarter.—A German named Michael Fuchs, was committed to jail on Saturday, by Esq. Hageman, of East Birmingham, for the larceny of "a quarter of a dollar, of the coin of the United States, the property of Geo. and Sophia Acerman." Poor Mike, he has certainly got into a world of trouble, on a small scale.

Mass Meeting at Greensburgh.—The Mass Meeting of the friends of Fremont which has been advertised for the 10th of October will come off on the 9th. We would call attention to the fact of the change. We hope a large delegation will go out from this city. Let the meeting be a good one.

We have to acknowledge the receipt of a package of very neat "Fremont Envelopes," sent forth by the Messrs. Putnam, Boston. The agent may be found at the Mansion House, Liberty st.

Hides—There is not so much activity in the trade as last week, more heavily than for years, and now buy at steadier rates; the demand for Rio has caused the larger part of Angostura, we received here, comprising 1,000 bbls arriving last evening. The B. Wilson has just arrived with a cargo of Porto Cabello, which we believe arrives. We notice sales of 4,000 Monte Videos, Ayres, 24@24½, to arrive in May Francis, at 26c.

Hops—The demand continues brisk; we notice further sales of 40,000 lb, (200 bales) at 9c for Prime Western. We quote the range of prices as 8@9½, as to quantity and quality. Old are dull and nominal.

Provisions—Mess are tad and buoyant; sales of 2,000 bbls, mostly Cuba, at 8@8c, including some Porto Rico at 8 9-16c.—N Y Trib.

Boston Fish Market—The market for Codfish has been very firm the past week, with a good demand. We quote Grand Bank at $3.62½ ¶ qtl, in bond; Bay Fundy at $3.75@3.87½ ¶ qtl; Western Bank at $3.62½, and small at $3@3.25 ¶ qtl. Sales are former, and have been in good demand at $17@18, and No 2 do at $15.00@15.87½ ¶ qtl, as to quality. Mackerel continue scarce and firm. No 1s are 19 ¶ bbl in the market of any consequence. Small 1s are selling at $11@12 ¶ bbl, and No 2 do at $9.50@10 ¶ bbl. Salmon is dull at $15@16 ¶ bbl for large, and $5.75@6 for small. Some 1000 lbs are selling at wharf. Shad are in demand at $5@6 ¶ bbl. Pickled Herring there have been sold at $4.25@4.50 ¶ bbl, and Alewives at $3@3.25 ¶ bbl.

There is no marked change in the Money market. The demand for first-class and sub-t temporary purposes is active, but it is fully met at 7 ¶ cent. The offerings at that rate are not excessive, and in the street first class paper 12@24 months is much more freely offered at 8 ¶ cent and below the lower rate. The supply of paper offering is limited.—N Y Tribune.

STEAMER WESTERNER SUNK.—A dispatch to this effect was received yesterday, and read on 'change.

We carry particulars to-day. The Steamer Western, of Louisville, Captain Hamilton, was sunk on her down trip, below Vicksburg, she was insured for $15,000 in the Louisville Insurance Co., and $5,000 in the Louisville Underwriters. There is very little hope that any part of her cargo will be saved. The amount of her cargo is not known, but is probably about $30,000, or more. She was insured for two years ago, at a cost of some $20,000.—St. Louis Intel.
