GAZETTE—CITY DEPARTMENT.

PITTSBURGH:

SATURDAY MORNING, OCT. 11, 1856.

Tremendous Demonstration.

CONCERT BY FREMONT GLEE CLUBS.

One of the most novel features in any campaign met with triumphant success last evening—far exceeding the most sanguine expectations. We refer to the Concert of Fremont Glee Clubs, which was advertised to take place last evening in Lafayette Hall. By half-past 6 o'clock every seat in the capacious hall—galleries included—every inch of standing room in the aisles, on the stairways, ante-rooms, and the private stairway leading to the stage was occupied with ladies and gentlemen. We never saw such a brilliant crowd, press, jam, or whatever term will most strongly express the idea. But this was not all. The rush was kept up, and by half-past 7 o'clock Wood street and Fourth street were blocked. The doors to the hall were closed at seven, but the crowd clamorous to hear maintained their position on the outside, until the end of the *Marseillaise*—the closing piece. Some idea may be gained of the crowd when we state that the roof of the hall was also covered with ladies and gentlemen.

The following named clubs took possession of the platform at 7 o'clock:

The Second Ward Glee Club,
The Central Glee Club,
The Pathfinder's Club,
The Excelsior Club of Allegheny,
The Rocky Mountain Club.

Each club sang five songs—all of them good and many of them first-rate. They were of all descriptions—serious, patriotic, sarcastic, funny, witty. The audience were enthusiastic and bouquets were liberally bestowed.

About the middle of the evening, Speaker BANKS, Gen. ROBINSON and several other gentlemen, after great exertion, succeeded in reaching the stage, when the audience gave Mr. Banks a round of three times three, closing with another hearty three for Gen. Robinson, the venerable President of the County Club. Mr. Banks, evidently laboring under ill-health, excused himself from a speech on that account.

After the programme was finished, the audience gave three cheers for Fremont, Dayton, Banks, Sumner and Burlingame each. They then dispersed in the best of humor, delighted with everything. The Clubs that took part in the proceedings have won golden opinions.—Where all were so good, it would be invidious to particularize, and one of the audience manifested a disposition to do so.

The Fremont *Marseillaise* was the closing piece, and was remarkably fine—the performers being nearly seventy in number.

COURT OF OYER AND TERMINER, QUARTER SESSION, &c.—Before Judges McClure, Boggs and Adams.

In the cases of the Commonwealth vs. Robert Bailey and Jacob Sheal on oath of Robert Dunlap, and against Robert Dunlap on oath of Bailey and Sheal, cross suits for assault and battery, taken up jointly, the jury found a verdict of guilty as to Bailey and Sheal, not guilty as to Dunlap. The Court sentenced the first two named, defendants to pay a fine of $5 and costs; and in the other two cases, the same parties, who were prosecutors were ordered to pay costs.

Commonwealth vs. John Barney; indictment, burglary, on oath of Francis Blount. The defendant is the cripple who made no less than two attempts to break jail, since his incarceration in August last. He was charged with entering the residence of the prosecutor on the night of the 14th of August, and stealing therefrom five dollars in bank bills. He plead guilty and was remanded for sentence.

Commonwealth vs. Enoch Cypher, indictment, larceny. The defendant plead guilty to the larceny of a horse and buggy from Jones, South & Co., and was sentenced to two years imprisonment in the penitentiary.

Commonwealth vs. Peter Ackerman; indictment, burglary. The defendant is a lad, and was charged with entering the house of Christian Meyer, in Birmingham. The breaking was not satisfactorily proved, and the jury found a verdict of not guilty.

Com. vs Chas. Gritten; indictment, larceny. Defendant plead guilty to petit larceny, on two charges, and was remanded for sentence.

Com. vs Frederick Wersell; indictment, assault and battery. The jury found the defendant not guilty, but ordered him to pay the costs.

Com. vs Edward Bailey; indictment assault and battery. Verdict, guilty, with recommendation to the mercy of the Court. Sentenced to pay costs.

Goliath Harr, charged with surety of the peace on oath of Catharine Kratz, had a hearing. Each party sentenced to pay one half the costs.

Henry Gernerath, was convicted of an assault and battery upon his wife, and was sentenced to pay the costs.

John M'Clure was arraigned on an indictment for assault and battery with intent to kill, upon oath of a German named Rosenfeil. They quarreled about taking out some ashes from a yard, and in the course of it, both parties were badly hurt—one having his nose bitten, and the other his finger bitten. The question was as to who commenced the assault. On trial.

CORONERS' INQUEST.—Coroner Alexander was summoned to hold an inquest early yesterday morning upon the body of a woman named Carr, residing on Mulberry alley, between Walnut and Factory sts., 5th Ward, who was found dead in her bed about nine o'clock the evening previously. A singular mark upon her neck led to the suppositour that her death had been caused by violence, and there was in consequence, considerable excitement in the neighborhood. The facts developed before the jury were that she had been of very intemperate habits, and on the day of her death she was very much intoxicated.—Her husband deposed that he found her about 9 o'clock on the bed with her clothes on, when he discovered that she was dead. Dr. Corsman held a post mortem examination. He certified that the wound on her neck was of no consequence, and without doubt her death was caused by intemperance. The jury so found.

On the pavement, yesterday, in front of Kimball, Messick & Co's, "Walnut Hall," we noticed a monster turtle, which weighed 140 pounds.—There is immense sea-cats and monsters are shipped from Boston, by sea to Baltimore and thence by Rail—turned upon their backs. In this position they are helpless, and incapable of a change of position. Their tenacity of life, however, is so great that they can be shipped long distances, in this manner, *without packing*.

Messrs. R. M'Co. have recently opened one of the neatest establishments which it has been our lot to discover in this city or elsewhere, in which they serve up at all hours of the day and night, a seasonable Bill of Fare, sufficiently varied to gratify the most epicurian taste. We noticed on the list, among other things, Turtle and other Soups, Fresh Halibut, Trout and Lake Herron, and we are informed that they are in daily receipt of Reed Birds, Prairie Game, &c. which they can furnish at wholesale or retail to invalids or epicures. See their advertisement in another column.

FATAL ACCIDENT.—We regret to record the death of Mr. Joseph Janeway, of the firm of Anderson & Janeway, sail makers. Mr. Janeway was raising a Fremont pole at his residence on Shaw Mill Run, on Thursday evening, about 6 o'clock; the ropes became tangled, and he climbed a distance of forty feet to a cross-piece, upon which he sat down. Unfortunately this was not securely fastened, and it gave way precipitating Mr. J. to the ground breaking his neck. His death was instantaneous. Mr. J. leaves a wife and family. His acquaintance was large, and his many good qualities endeared him to all who knew him. He was forty-one years of age.

DARBY'S MATHEMATICAL COLLEGE.—An examination of two of the pupils—Messrs. Kelly and Simms—of Professor Darby's Mathematical College, Wylie-st., was had last week; the pressure upon our columns since has prevented us noticing it. The result was very satisfactorily, evincing a proficency in that difficult art very creditable to the pupils and gratifying to their teacher. The Professor who is one of the ablest mathematicians in the city, at the close of the examination delivered a lecture on Algebra and Arithmetic, which was listened to with much attention. This College is now in daily session, and the terms are low. We commend it to the attention of parents.

THE CITY.—As election day approaches everything else yields in interest to politics.—Nothing else is talked of. All sorts of calculations are being made of the result. Police offices are as deserted as a church on a week day, and it is quite impossible to extract an item from any of them. After a faithful round, yesterday, involving more labor than if we had an overflowing column, we came to the conclusion the city was very quiet.

FIRE.—On Wednesday the half-way tavern on the Brownsville road, known as the "Slinger Hill House," about 10 miles from the city, was totally destroyed by fire, together with all the furniture. The fire having first been discovered breaking out in the roof, it is supposed to have originated by a spark falling from the chimney. The house was kept and owned by Mr. John Hamilton, and was the only tavern between the city and Brownsville. The loss is about $2,000, on which there is no insurance.

PERSONAL.—Hon. N. P. Banks, we regret to learn, was so ill yesterday, that he would not venture out. His arduous labors in the cause have effected his health very much.

THE FIRE.—The building on Pennsylvania Avenue destroyed by fire on Thursday evening, was occupied by J. M. Kercher & Sons, butchers. The loss is small.

HON. N. P. BANKS.—This gentleman remains in our city until Monday, and is the guest of Gen. Robinson. He found himself so excessively fatigued, after speaking so often out of doors, that rest was absolutely indispensable, and hence his inability to fill any appointments between now and Tuesday next. On that day he speaks in Chicago. He visited, yesterday, several of our manufacturing establishments, and expressed himself delighted with all that he saw of our city.

CLOAKS, this season, seem to be all the rage among the fair portion of creation. One can scarcely meet a lady in the street, or elsewhere, without a cloak, or something that is called one, and to our mind nothing is more becoming.—There are many garments which very few can wear to advantage; but a handsome cloak always adds grace and loveliness to the person of the fortunate wearer. A. M'Tighe's, corner of Grant and Fifth streets, is the place where a large assortment of these new style cloaks are kept. Bargains in prices from $3,50 to $40,00.

ANOTHER OUTPOURING.—The Musical Soiree of the Fremont Glee Clubs, held last night at Lafayette Hall, was a triumph. The hall was filled to overflowing at an early hour, and those who went away, unable to get in, were as numerous as those who got in. The singing was very fine and animated, and called down continued applause. Mr. BANKS was present, and when he appeared on the platform he was greeted with rounds of hearty applause.

DON'T neglect to attend the auction sale at Hatfield this (Saturday) afternoon at 3 o'clock on the premises.

Hatfield is a beautiful little village adjoining Lawrenceville, and within ¾ of an hour's ride of market by Omnibusses and 10 minutes by Railroad. Ten lots will be sold each 25 feet front by 100 feet deep. Blakely and Richey are the auctioneers.

TAKEN OUT.—Officer Uhces, of the Allegheny police, went yesterday to Harrisburgh with Fitzpatrick, the individual who has served for some weeks as a kind of foot-ball between the police of the two cities, there to answer for the alleged larceny of ten dollars from a printer named Cassiday.

MAD. JUVENELLI AND THE PANORAMA.—Notwithstanding the great rush to Lafayette Hall, City Hall was filled with an intelligent and brilliant audience. We commend the Panorama of the Russian War, and the singing of Madame Juvenella to our readers, if they desire to pass a pleasant evening.

THE STEAM ENGINE.—The Committee on Fire Engines and Hose we are pleased to say have ordered a new hose carriage for the Neptune company for the use of the steam engine. It is to be completed in four weeks. A Philadelphia firm have the job. It will be built of strength to carry one thousand feet of hose.

JAIL-BIRDS.—George Bell who was arrested some months since for the larceny of a quantity of shoes from John Gippinch, shoe-dealer, and retailing them on Prospect st., and who was held to bail to answer therefor, was given up by his surety yesterday.

We would call attention to the card of Messrs. M'Whinney, Hare & Co., Wood-st, in another column. These gentleman have recently opened a new house, and offer to dealers a fresh and varied stock of goods in their line.

FIFTH WARD FREMONT CLUB.—A meeting of the Executive Committee will be held in Freeman's Hall this Saturday evening at 7 o'clock. A full attendance is requested as business of importance is to be transacted.

W. B. HUNTER, Sec'ty.

PROGRESSING RAPIDLY.—The work upon Odd Fellows' Hall is progressing rapidly, the solid walls of brick having already risen to the heighth of one story. The building will reach the roof of the adjoining building before the winter sets in.

TORCH-LIGHT PROCESSION.—There will be a torch-light procession on Monday night by citizens of German origin, to welcome Hecker the great German Patriot, who will speak in City Hall that evening. The demonstration will be impressive.

ESTIMATE.—At the conclusion of Hon N. P. Banks' speech on Thursday evening, the audience escorted him to Gen. Robinson's mansion, Allegheny. The cheering was tremendous and was sustained during the whole route.

PERSONAL.—The great Hecker, of Illinois will arrive in the city on Monday. He will address the citizens in the evening at City Hall.

FREMONT, THE MUSTANG CANDIDATE.—If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked, in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "That if the Government would send on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Liverymen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses. *Beware of imitations.* The Mustang is sold by all respectable dealers everywhere.

BARNES & PARK, Proprietors, New York.

COUNTERFEITERS AND IMPOSTORS.—The public are cautioned against purchasing articles pretending to be of the nature of the 'Balm of Thousand flowers,' for performing the breath and beautifying the complexion. The popularity of that article has brought forward a host of counterfeiters. None is genuine unless signed by FETRIDGE & Co. [From the Boston Saturday Evening Gazette.]

A Perfumed Breath.—What lady or gentleman would remain under the curse of a disagreeable breath when using the "Balm of a Thousand Flowers," as a dentrifice would not only render it sweet, but taste of the teeth white as alabaster? TELEGRAPHIC.

PHILADELPHIA, Oct. 10.—The whole city was alive last evening with political meetings. All three parties had large demonstrations. The Fillmore men made a torch light procession, estimated by the *Inquirer*, (Fillmore organ) at 40,000.

The Fremonters had an immense gathering on Independence Square. If both vote unanimous for the Union Ticket, it will doubtless receive a large majority.

Some trifling disturbances occurred during the procession, and at one time fears were entertained of a riot in front of the *Pennsylvanian* office, where Captain Martin, a Democratic member of the Common Council, was wounded in the leg by a pistol shot.

The crowd, however, was soon dispersed by the police, and quiet restored.

Last night the woolen factory of Erwin & Stinson was destroyed by fire. Supposed to be the work of an incendiary. Mathew Hamilton was crushed to death by falling walls, and two others, missing, supposed to be beneath the ruins. Four or five others were injured.

BALTIMORE, Oct. 9.—There were two more shooting cases this afternoon John Roach was shot through the thigh at the corner of Baltimore and South streets. The shot was fired from a party of men in an omnibus. Roach was a member of Empire Club, the assailant, who escaped; is supposed to belong to one of the American Clubs. To-night a political quarrel occurred at Fish Market between Peter Kelly and John Hughes, a watchman. Hughes fired on Kelly three times; at the last discharge the ball penetrated the brain causing immediate death. Hughes surrendered himself, alledging that the act was committed in self-defence.

ZANESVILLE, Oct. 10.—The Republican County meeting held here to-day was the largest ever held in South Eastern Ohio and the demonstration and display was the most imposing ever witnessed here. The crowd is variously estimated at from 8,000 to 10,000. There was not room enough in the streets to form into procession; there were countless numbers of wagons, carriages, flags, banners and devices; the trades were finally represented, the city decorated beautifully, and immense enthusiasm prevailed. The speaking was from four different stands.—There will be a grand display of fire-works tonight.

NEW YORK, Oct. 10.—The Republicans of this city have nominated Anthony C. Bleecker for Mayor. The Republicans of Brooklyn have nominated Francis B. Stryker for the same office.

The stores of Hare's & Co. and Van Lieu & Price on Peck slip were partially burned last night and a large amount of Groceries and Produce injured by the fire and water. The loss is between $30,000 and $40,000.

NEW YORK, Oct. 10.—The Astor, Globe and International Insurance companies suspended to-day, with but a slight prospect of resuming.

MONETARY AND COMMERCIAL

At Boston there is an increased activity in Money transactions, caused by the shifting temporary loans, but there is no variation in the rates of discount. Best class names being quoted at 9@9½, and second grades 10@12 ¾ cent ¾ annum.

The Rochester papers notice a purchase in one lot of 112,000 lb Wool, made on account of H. Hoag of this city, from Stewart, Cameron & Dean, of Livingston County. The price paid was 45c ¾ lb.

The Money market shows increased activity, and the supply is gradually lessening. The Western bank balances are being largely drawn down, which keeps the banks poor which have three months. Private capital just now is more abundant than bank capital. Paper is more plenty in the street in consequence of being thrown out at bank; but still the supply is not very large. The discount rates are 9@10 ¾ cent for first class, with not many names below 10 ¾ cent, unless the paper is very short. Rates are about 1% ¾ cent higher than they were three or four weeks ago.—N Y Trib.

OHIO.—English Linseed, under favorable advices per Arago, reporting Oil in London at 54s, has been again quite excited, and re-sales of 30 tons of October, November and December shipments have been made at 58s, and for these months 60s is now asked. For September shipments 8l is demanded, with 80s refused for a large parcel. On the spot it is difficult to name a price as the Barrel Trade is very backward, with a strong upward tendency.—American is in limited supply. Most of the mills here and in Boston are now idle for the Want of seed, and unless we have some immediate arrivals every mill in this city and Brooklyn will be "laid up idle," and when once stopped it will require some time to set them under way again; consequently it is now difficult to purchase any large lots even at a great advance, but crushers are still supplying their customers at $1,02, which is the lowest selling rate. Sales to-day of 2,000 gallons at this price.

WOOL—The market for native Fleece and Pulled Wools remains quiet, the transactions for the moment being restricted, owing to the small stock and the extreme prices asked. Buyers and sellers are somewhat apart in their views, but it is more than probable the former will have to submit in a measure to the demands of the latter as soon as the Woolen machinery stopped. There is no denying but that the stock in this and the other markets of the country is entirely inadequate to the wants of consumers, and the prospect is, that it will participate the maintenance of future good prices. Manufacturers, on the other hand, are timid purchasers, seeing no change in the present or future state of the market to warrant them in meeting the pretended views of holders, and proclaim they cannot safely meet their demands, but like the shepherd boy, who was at all times unjustly cryed out wolf wolf until at last no reliance was placed in his utterances, and the wolf came and devoured the flock, the producers are not believed when they tell the truth often. If we were to believe, says one well-known, all we hear concerning the scarcity of wool, manufacturers receive for the goods, there would not be the shadow of a profit in the country, and yet they dividend and thrive annually. We must admit, however, there is some truth in the assertion; at the same time we should not wish to be placed in the present position of the producers. Wool is going up, up; but we do not perceive they obtain any better prices for their fabrics than when wool was low, nor can they so long as they have a colossal specialism at valorem system. Which is admitted on all sides to work contrarily against the interests of the producer and consumer. The rates for the week do not exceed 56,000 lbs fine in new at 57@58c, and in pulled, the ruling sums low grades at the inside figures and 52@55 for 30@36 No 1 Pulled at 53@56c, including 5,000 lbs of Lamb's Wool at 46c cash. some low grades of old fitted sold at 50@51 50c. The demand for the latter kinds and low grades both Pulled and Fleece continues, and as soon as the Woolen Mills start will be found ready buying. We also hear of some large sales in the interior of the State, but did not ascertain the particulars.—N Y Trib.

The shipping Railroads leading from Boston, probably only four will make any dividends at this time, namely: The Western 7%, and the Maine, Worcester and Old Colony 6 each. It requires the latter to do a large business to only know how to manage rail roads profitably, to deep cuts and expensive repairs, and the unwise owners in other parts of the Union deemed it important to have a road to the seaboard, and hence from the New England States. If Railroads there was profitable, why should they not be elsewhere? None, however, has shown that as roads are worked, they will ever pay less per cent. profitable. When construction accounts are closed, and current expenses are paid from current receipts, it too often happens that little or nothing is left for shareholders. The cry of hard times, and the reduction of income the whole country over, whether there is not some fallacy in the whole system—whether chances are not too low, or the rate of speed too high.—N Y Post thinks

Foreign capital is said to be much more abundant in New York, a fact that contributes materially to the relief of the money market. The decline in the price of cotton, it is said, has checked materially the export of coin—there was freely sold for the Western part of the country, and the specie immediately passed back on the security of the cotton. As the season advances, and the money demand increases, foreign capital will flow in as freely as before. The private banking houses at New York are very ready bankers on call as well as on time loans. The Post thinks the pinch of the pressure has not yet come.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

IT has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are especially adapted to the relief of WEAK, the NERVOUS, the DELICATE, and the INFIRM of all climes, ages and constitutions. Professor Holloway's surprising researches in the various quarters of the globe have established the fact that the various manufactories recite for the goods, there would not be the shadow of a pretext in the country, and yet they thrive and flourish annually. We must admit, indeed, there is some truth in the assertion; at the same time we should not wish to be placed in the present position of the producers. THESE PILLS PURIFY THE BLOOD,

They are composed entirely of roots and herbs, and are perfectly innocent. Many persons who have been dosing themselves with Calomel for years, under the impression that it was necessary to their existence, have been astonished to find that these Pills, in a few days, entirely eradicated the poisonous drug from their system, and left them in the enjoyment of health. Calomel is a deadly poison, and should not be taken into the system. These Pills are purely vegetable, and may be taken with perfect safety by any one.
