Law Booksellers and Publishers,

oct18mwy No. 144 Nassau street, N. Y.

To Druggists and Physicians.

YOUR attention is invited to a new Medicinal preparation called the

CHILDREN'S PAIN ALLEVIATOR.

The proprietor of this article, well aware of the great opposition he must encounter in introducing new in the practice of medicine and especially in the class of cases for which this is intended, invites the examination of medical men, feeling sure that it will only remain a perfect confidence to it. Great care is taken in its manufacture to procure only the purest drugs, and only such as are admitted pure by the U. S. Dispensatory. Each is an ingredient in it that would injure any person, and the whole will combined cannot possibly be injurious. Circulars containing full information and testimonials can be had at the Wholesale Depot, 130 Bowery, second floor. This is the only article of the kind in existence. Its effects are truly wonderful. When used rightly and in the season, it scarcely warrants the sufferings usually attendant upon children, and preserves the mental and bodily strength so the patient is a luxurious desire. It is for sale by, although chiefly local, is in course of establishing to the whole system, and most pleasing in its effect throughout the whole period of confinement.

There are a few testimonials—

BOSTON, Mass., Feb. 20th, 1855.

Dr. Stevens—I have used your "Children's Pain Alleviator" a number of times in my practice, and find it to be a valuable medicine article, and one that I can recommend with every confidence to the public. Its effects are truly worthy denial. THOS. GOWDEY, M. D., Washington st.

CHARLESTON, N. J., Nov. 17th, 1855.

Dr. Stevens—I have on several occasions used your "Children's Pain Alleviator," and find it the best article I have ever seen for the purpose. It lessens the pain and causes the birth to be expelled in a shorter time. I shall constantly recommend it. — JESSE LIVINGSTON, M. D.

New York, Oct. 21th, 1854.

Dr. Stevens—After having been confined several times with great danger and much pain; I was induced to try your remedy by my brother, who had heard of its wonderful effects. I did so, and experienced much beneficial result. You have my best thanks, and I would cheerfully recommend your preparations to every sufferer.

Truly yours, MARY E. BAUGHER.

For sale by all respectable druggists, and wholesale only at 334 Bowery, 34 Cedar, New York. Price $3 per package, with full directions for using. Its effects are truly wonderful.

BELTING

Patent Riveted and Stretched

LEATHER BELTING,

From the Manufactory of Belt & Brothers,

RIVET LEAD.

THE Belting of this manufacture has been awarded the Gold Medal and Diplomas from almost every Fair and Institute throughout the United States the most recent by the American Institute, New York, at their last meeting in the Fall of 1856. Its firm ness quality, every branch of the business being conducted under the personal care of the principal, their sons are associated by themselves at their own request, learning the trade, and scorn, banned at their own tannery, after the belting and shoulders have been tanned, are returned to New York thoroughly tanned, from there to Belt & Brothers' factory, Jersey City, and stretched on machines with every modern improvement, and rivited with their patent copper rivets. The Lead Rivets which make a perfectly even surface on both sides of the band, cannot draw it into grain as the pegging and gluing a power of more than 25 per cent. over those made in the old way. Mechanics of all kinds, to collieries and woolen manufactories, millers, millwrights, makers, tanning and planing establishments, owners of steam saw mills, screw dock works, oil houses, in short to every consumer, this belting is specially recommended as the best in the city, having given to the quality of this belting. Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop keeper in Western Pennsylvania, and Eastern Ohio.

Advance Payments.—Hereafter, no subscription will be taken for the Daily or Weekly Gazette, unless payment is made in advance. Whenever the time is up to which the subscription is paid, the paper will be invariably stopped, unless the subscription is renewed by advance payment. All transient advertising, or yearly contracts are made. sep29dly

Southern Illinois.

[From the St. Louis Leader, Buchanan organ.]

This stronghold of Democracy came up nobly to the work at the late election, and prevented Illinois from being carried by the sectional candidate. The following is a specimen of voting in Egypt:—

Counties	Buchanan.	Fremont.	Fillmore.
Johnson	1144	2	74
Pope	704	3	50
Hardin	392	4	228
Franklin	1051	5	251
Massac	630	5	551
Saline	1004	5	228
Williamson	1419	10	188
White	1062	27	845
Alexander	404	15	280
Jefferson	1278	60	426
Effington	874	90	163
Clay	781	29	540
Wayne	1218	129	401
Total	11,818	388	3,894

So it seems that Fremont was scarcely known in the race at all, while in Northern Illinois which was carried by Fremont, Buchanan polled a handsome vote. The Northerners—the offscourings of all the filth of New England Black Republicanism—affect to sneer at the ignorance of the inhabitants of the Southern portion of the State, but the best proof of their intelligence is that they know how to vote right. We wish we could find a little more of such ignorance at the north, and we should have more hopes of the permanence of our government. By the way, cannot our friends of Southern Illinois devise some means of separating from the Black Republican part of the State? If they were to do so, and vote to establish slavery, as they would most assuredly do, we might see grow up on our Eastern border a young, conservative State, that would equal any other State in the West in prosperity and intelligence. As it is, North Illinois will always prove a drawback to her, and continually place her people in a false position.

To this, the *Anzeiger des Westens*, German Republican, replies, as follows. We translate from that journal:—

What do our German Democrats think of this proposition of the acknowledged organ of the National Democracy of Missouri?

In the 9th Congressional District of Illinois, whose vote is pronced by the *Leader* as a pattern of patriotism and intelligence, there are, according to the census of 1850, almost 10,000 grown up persons who can neither read or write—nearly all emigrants from the Slave States. The *Leader* wishes that more ignorance of the same kind could be found in the North; and we may therefore expect that it will next, following the example of Berks county, Pennsylvania, declare itself in favor of abolishing all schools.

The assertion that the flourishing North Illinois is a drag or drawback on South Illinois is the boldest that the *Leader* has made up to this date. The whole of the foregoing article follows properly in well known declaration, that Irish Catholicism is the support of the American Republic.

NEW CALIFORNIA POSTAL ARRANGEMENT.—A simple but effective system of registration of California letters has been sanctioned by the Post Office Department. It consists merely in sending to the New York post office a slip of paper upon which is copied the address of the letter you have just deposited in the mail. The slip of paper should be cut to fit an envelope loosely, and must be enclosed without folding, together with a three cent postage stamp, in a pre-paid envelope, and directed to the "Pacific Mail List," New York post office. The address on the slip of paper thus received at the New York post office will be entered in its appropriate place in the "Pacific Mail List," which list is printed, and, being sent by each mail to each and every post office in California and the Territories of Oregon and Washington, it will point out to those persons whose letters are published therein the post office to which the letters were sent. The letter itself must be deposited in the mail as usual. The enclosed stamp defrays the cost of publication. Over one hundred and twenty thousand letters sent during the past year to post offices in the Pacific region were never received by the persons for whom they were intended, and consequently became dead letters, causing thereby, doubtless, much anxiety of mind to persons expecting letters from home, and rendering all the care devoted to writing the letters, and thousands of dollars paid on pre-paying postage on the same, so much useless expenditure. If this arrangement be generally adopted, the number of dead letters it is supposed, will be considerably lessened.

IMPORTANT.—A KEY TO A FINANCIAL MYSTERY.—The New York *Register* of last Friday says:

"Only a few days since a modern chemist took a thousand dollars in eagles and put them in the crucible; the next day he deposited the bullion in the assay office, and the day after received a bar marked $1060."

The plain English of this is—Some other metallic substance can be combined with gold, and such combination will stand the assay tests of our mints." The secret of science of doing this was discovered in France, and communicated to this country early last summer. The one cited above is only one of repeated experiments made, with like results, at the assay office in this city, and at the mint in Philadelphia. As the same assay tests are used in the European mints, the same results would undoubtedly follow. Hence, we irresistibly come to the conclusion that operators, bankers and capitalists generally, having their headquarters in France, are engaged in the *appreciation* of the precious metals. This, to our vision, solves the great financial mystery of the premium paid for bullion without coining, all parties engaged in it.

Although this alloyed bullion will stand the usual mint tests, yet it is quite certain that time, use, and other influence will make their mark upon coin made of it.
