KILLED .- Our local columns this morning record the case of a man shot, probably killed,

within the limits of this city yesterday, while he was quictly pursuing his daily avocations. la soveral instances as we have been walking about the outskirts of the city, we have ob served Companies of boys and men shooting at marks to the peril of passers by. Here now we have a case in point. When we saw the victim of this oriminal careleseness he bad not apparoutly an hour's life in him. He loaves a wife, as we understand, nearly destitute, whom we true the marks-men will see put in a condition of comfort. What with railway disasters, street robbers and sharpshooters a inan has but small assurance in the morning that he will see the setting sun or stnight that he shall ever be permitted to behold its rising. Have we not a stringent city ordinance against target-practice within the precincts of this city? If we hav why is it not rigidly onforced!
