Court Conversion or the Democracy.
This body met in the Court House yesterday, telect representatives to the State Convention test in Harrisburg in March next, to nominate the Conversion of th The following categates were enced by the Covention:

First District—Hon. P. C. Shannon and Jas. Wherdman. Second—W. H. Magoe. Third—Andraw Burke. Fourth—Dr. J. C. Huey. Fifth—E. Thompson and Dr. Blackbarne.

After the passage of a series of resolutions, cans of which instructed the delegates to use all honorable means to secure the nomination of Samuel W. Black for the Governorship of Pennsylvania, and the transaction of some other unamportant business, the Convention adjourned. THE STREET WE STAND ON.—Have our readers over taken notice what a magnificent thorough-fare Kifch street is fast becoming! We have nearly all the handsome buildings of the city-situated upon it—the Court House, Cathedral, several fine bank and church buildings, Custom House, Masonio Hall, New Odd Fellows' Hell, Theater, as well as many other fine locking business edifices. This will soon be the great street of the city. By the way, what has become of the project to continue Kifch street into Pennsylvania Avenue on, vice versa, Pennsylvania Avenue into Fifth street? This should not be permitted to go into oblivion without an effort to carry it into effect. Now is a good time to consider the subject, and it can be acted on as THE BIRTHDAY OF BEN FRANKLIN, the philospher and printer, comes on Esturday, the 17th of January. Whilorn, the corps typegraphical of our city celebrated his birthday with a festival, but within the past year or two we have had nothing of the kind. The printers of Pittburgh should not permit his glorious memory to fade away, after so often, in glowing language, having portrayed his good qualities, and expressed their great admiration of him as a man, of unblumbed name, who had represented their craft in higa offices of honor and trust, and has been an incentive to many a poor but worthy lad to push forward and procure the laurels of earthly fame. We would like to ese another celebration, as these typographical re-unions have a good effect on all participating. Profession Armes.—This gentleman made a rather surprising and quite satisfactory exhibition last evening in Lafayette Hall, of the efficiency of his system in siding and strengthening the memory. A young lad—son of Prof. Thompson, of this city—who had been under his training but a few bours, answered questions from half to three-quarters of an hour, put with great rapidity, promiscuously from Chronology, History and Geography, ancient and modern, with a degree of promptitude and correctness truly astonishing. a degree of promptitude and correctness truly astonishing.

The Professor comes highly recommended from all parts where he has heretofore given lessons, by men of high standing in the religious, literary and scientific world. We are pleased to find that an effort is made to secure his services by some of our citizent, and hope that our School Directors will turn their attention to the matter. The subject specially olaims the attention School Directors will turn their attention to the matter. The subject specially claims the attention of teachers and all the friends of Education, while it cannot fail to be of great importance to all in every department of business.

We understand the class will commence this evening, 8th inst, Prof. Thompson's Institute, 8t. Clair st., opposite 8t. Clair Hotel, at 7 o'c'k, where tickets for the course may be had. THE PALMER CARE —Heary Palmer who had been arrested for the killing of John Grant near Bisireville on the 6th of Daember was tried at Indiana week before last and after the examination of a number of witnesses was convicted of manslaughter. The jury retired at 6 o'clock on Saturday evening and remained out until 100 o'clock on binness word, and the was conducted by Messre. Woode, Dist Atty., and White and Coffee of Indiana, and Drum of Pittaburgh for the Commonwealth, and Messre. Stewart and Taylor of Indiano, and Messre. Foeter and Cowan of this County for the prisoner. The case excited much interest and a motion for a new trial is pending. — Westmoreland Intel. Our foreman goes ahead, in this latter particular, of all others. Two Schoones, designed for the coasting trade is the Gulf of Mexico, are now lying in the Monongahela river, at Elizabeth, where they were built, and are to be delivered at New Orlesus as 500n as the rivers will permit. All the requisites to build almost any kind of recasts are to be found within the bounds of Alleghany co. The Fivehal Ossaquies of the late Col. Consumprives have found in Garier's Spanish Mixture, a certain and speedy cure, after the prescriptions of many of the most acientific physicians had proved abortive. Mr. Turner H. Ramssy, of Frederickeburg, Va., whose certificate will be found around the bottle, acknowledges his indebtedness to this medicine for the prescription of his life and do account. preservation of his life; as do scores of others who have been equally benefited by its effects. Wa see by the Court records that the two Counterfeiters, White of Bufalo, and Lawrence of Epping, N. H., have been placed under ten thousand dellar bonds, each, for making and thousand dollar bonds, each, for making and selling imitations of Aper's Cherry Pectoral.—This is right. If the law should protect men from imposition at all it certainly should protect them from being imposed upon by a worthless counterfeit of such a medicine as Ayer's Cherry Pectoral. We can only complain that the punishment is not half enough. The villain who would for pairry gain, delibrately triffs with the health of his fellow man, by taking from their lips the cup of hope, when they are sinking, and substituting a falsohood—an utter deliusion, should be punished at least as accordy as he who counterfeits the coin of his country.—Grem Co.
