PITTSBURGH CHEMICAL AND VARNISH WORKS
FINCH & CO.,

RESPECTFULLY inform Druggists and Dealers in Varnishes generally that they have for some time been engaged in the manufacture of Varnishes of Copal and other VARNISHES, and are now prepared to supply their friends and the public, generally with articles of the first quality, which, in point of the best material and finished with the greatest care and on terms unusually low.

FINCH & CO. intend to devote themselves to cultivating a first class trade, and from the character of their facilities, all will prove satisfactory. Their tariff of prices will be found equally low with any of the eastern manufacturers, being determined that no article shall leave their works but of approved and best quality, they only ask a fair trial and a share of public patronage.

To our fine BODY VARNISH we would call particular attention. For some years past the Amber Copal Coach Varnish of the very best kinds, being made exactly after the recipe of the first class English houses by the late Thomas Douglass, who for many years was employed in some of the most extensive establishments in Liverpool and London.

Our Anti-Corrosive BLACK VARNISH we would particularly recommend to Founders, Boilermakers, and generally manufacturers of iron generally, to peculiar qualities of preserving oxidation entirely, which is the great cause from its chemical combination with the iron, and preferable to iron in common and other compounds.

All orders left at Messrs. JOHN IRWIN & SONS' front store will be promptly attended to or will be left at the Office at
oct16dly FINCH & CO.'S.

Just Received and for Sale,

Dealers in all parts of the country are supplying themselves with these goods, and Consumers who want the best article of the kind, will buy no other

Reed's Patent Steam Engine.

THESE IMPROVED ENGINES (for which patents have been granted and first premiums awarded to the inventor, both in the United States and European Exhibitions) are highly recommended for their simplicity and economy, that we have no great hesitation in warranting a saving of fuel and repairs to deliver at the shortest notice engines from two horse power upwards.

These engines have been naturally tested, and have shown an economy of twenty per cent in fuel, and about fifty per cent in repairs over those in which the plan of letting the steam in and cut off on sides of the cylinder through valves, prevails in one or more cylinders, the valves are and allowing no steam to escape or exhaust from the cylinder except when the cylinder is under the full pressure, thereby saving the friction to about half that of the ordinary engines. Also, the smaller sizes are much improved, so as to fit with all the proper materials, and the whole mounted on small wheels convenient to ship to any part of the country, and to work in mines, and for purposes of agriculture, &c. Persons requiring engines will find it to their advantage to call and see them in operation, or further information. Address or apply to

To Consumers of Pickles.

BELIEVING that the Public have become tired of purchasing Pickles in Packages, holding, in many cases, fifty per cent. less than represented, we have commenced putting up, in addition to our present second quality of PICKLES, a first quality, to be sold as "EXTRA WHITE & CLEAR PICKLES," and are filling into half cased jars, which are legibly stamped in the glass, with their exact contents in ounces—thus enabling the consumer to verify their truth.

These Extra Pickles are put up with every regard to style, quality and flavor, and will be sold at fairly remunerating prices.

We have made no change in our manner of Greening Pickles, never having resorted to any calculations means to that end, but use Cider Vinegar, which we have made from sound fruit, and is entirely free from Nitric or any other mineral acid. Such is by the consumers of our "EXTRA
