PITTSBURGH:

TUESDAY MORNING, JAN. 20, 1857.

COURT OF QUARTER SESSIONS.—Com. vs. Francis Schermer; indictment petty larceny.

Mr. Collier, the District Attorney, stated to the jury that the prisoner had been lying in jail for a long time, and was a perfect embodiment of abject poverty and destitution, and recommended that the prisoner be acquitted unless the evidence were strong.

Jos. Richards testified—Schermer was sleeping in the same bed with me in a boarding house in the Fifth Ward; he put on a shirt belonging to me, which was at the head of the bed; took it off when requested. The jury rendered a verdict of not guilty without leaving their box.

Com. vs. George Schmidt; indictment selling liquor without a license, on oath of Thomas S. Moore.

Thos S. Moore, sworn.—Went into the house of defendant between the 28th and 30th of December, with a friend; had been up to the house of my companion to register something in his Bible; had the Bible under my arm when I went into the restaurant of Schmidt; called for brandy; defendant brought out a bottle of brandy, we both took a drink; paid ten cents for it; had got beer there a couple of times before; knew he had no license to sell liquor; know he had license to keep an eating house.

Mr. Hampton opened for the defence.

Ex-Mayor Adams testified that he had known defendant six or seven years, and he had borne a good character.

John Chess, constable, testified the same.

Mr. Hampton asked to offer in evidence various indictments against different persons, on oath of the prosecutor, Thos. S. Moore, in liquor cases, to show that the prosecutor had abandoned his regular business, and had become a common informer. The Court refused the application, and stated that the prosecutor would get none of the proceeds of convictions in the cases in which he is interested. The counsel for defendant showed a license to keep an eating house, which had been granted by the Board of License to Schmidt, and stated that if he was convicted of the offence charged he would forfeit his license, and could not, according to the law, obtain another till the expiration of five years, in addition to the penalty of the Court.

Verdict guilty and new trial moved.

Com. vs. Martin Barrett; indictment receiving stolen goods.

John Burns, an employee of Nimick & Co testified that his employers had lost about 200 tons of pig metal, and he had found several pieces on the premises of the defendant, which he identified as belonging to Nimick & Co., by a peculiar mark.

Elizabeth Barrett testified that she had taken several pieces of metal out of Nimick & Co.'s yard and sold them to Mrs Barrett for ten cents; Mr. Barrett was sitting by the fire; Mrs. B. asked me where I got the iron; told her I took it from the yard; this was about the middle of December; Mr. Burns asked me if I had stolen the pig metal; told him I had; he said if I would be a witness against Barrett, he would not have me arrested.

Officer Maxwell testified that he had searched the house for some time; said that was supposed to have been stolen; saw scrap iron in the cellar and up stairs, it was in such a position that any one could see it as they went in; found some of the steel in a wagon at the door; found none in the house; Barrett kept a place to buy and sell old iron.

Mr. Glenn opened for the defence, and called several witnesses who testified to the good character of the defendant.

Officer Wagley was called by the prosecution to rebut the testimony of the last witnesses, and said that the defendant had not a good character among his neighbors.

Verdict guilty and prisoner remanded for sentence.

THE MURDER AT ALTOONA.—It was rumored on Monday, that McKinney, the supposed murderer of Norcross, had been arrested between Altoona and Bedford, Pa., where he was proceeding on his way from Hollidaysburg. At the latter place he had offered a man fifteen dollars to convey him to Bedford, whence he said he intended to proceed to Philadelphia. It was also rumored that part of the money belonging to Norcross had been found on his person.

We ascertained from Altoona, through the politeness of Mr. T. A. Scott, Superintendent Western Division Penna. R. R., that this was also the rumor in that place, but nothing definite was as yet obtained in regard to it.

The body of Norcross was found placed in such a position on the track that it's train should have come along at the time, it would be so disfigured as to lead to the impression that he had been run over, but the watchmen passed by before any had arrived, and found the body as described.

The baggage of both parties was stopped at Philadelphia.

WHITE'S RIFFLE.—We stated a few days ago that the four coal barges sunk some time ago on the flats at White's Riffle, near Sewickly blocking up the river at that point, had been raised. One of them, the Vulcan, has since been sunk by the second time, by the ice, her head lying on the dam and her stern in the middle of the river. She has not yet been abandoned, however, and the Messrs. Lowrie expect to raise her again in the course of four or five days, should the ice not commence running too thickly. Nearly the whole amount of coal in the four barges, some thirty thousand bushels, had to be shoveled into the river, as they were refused a cent a bushel for it by the people in the neighborhood, and asked three dollars a day for the use of the flat-boats necessary to carry it ashore.

MR. DADLER, whom we noticed, Monday, as having had two young men arrested and taken before Ald. Steel, on a charge of malicious mischief, in having driven the horses of their sleigh recklessly upon the vehicle in which he was riding with his wife and child, by which MRS. DADLER was cut on the head by the horses, and severely injured, withdrew the suit, Monday afternoon, having been convinced that the accident was unavoidable, and not from malicious intent. We are happy to learn that the lady is recovering, though slowly. This sleigh ride cost the young men who had the vehicle in charge about $160.

PARTIES who have subscribed to the Cosmopolitan Art Association up to 14th inst. will receive their certificates by calling on Dr. Keyser, No. 140 Wood street. Over thirteen thousand persons have already subscribed to this popular institution, there is room for a few more who had better subscribe soon, as this is the last week they will be received. Step and look at the fine picture of "Saturday night" in the Doctor's window, alone worth nearly double the price of subscription—three dollars.

SUPPOSED INSANITY.—A young man named B. Gleadall was brought before the Mayor, Monday, on a charge of disorderly conduct, and sent to jail for three days; but it being found from his actions that he was laboring from insanity, he was brought before the Mayor a second time, on a surety of the peace, with the intention of taking the necessary steps of sending him to the Insane Asylum.

Mc-Kee, Esq.; Street Regulator, N. Patterson, Sr.; Borough Tax Collector, John Weitbrecht; Street Commissioner, James Park, Sr.; Clerk of the Market, Solomon Sala; Board Measurers, A. Mellin and G. DISTRICT COURT, January 19.—Before Judges Hampton and Adams.

L. & A. Patterson vs. Robert Robb, administrator of John Tessey, dec'd, and James Harper, a mortage creditor. Verdict in favor of plaintiff for $908,82. There are four other cases of a similar nature pending against the same defendant, to which between $4,000 and $5,000 are involved.

MASONIC HALL was perfectly packed, Monday evening, with a delighted and fashionable audience, to hear the concert for the benefit of PARKHURST'S Infirmary. The music and performance, vocal and instrumental, were admirable and did credit to all engaged in it. The proceeds will be about $500. We would recommend another concert, as there were a great number "crowded out" last evening.

THE City Councils will meet this afternoon at two o'clock, for the purpose of electing City officers. There are a greater number of applicants for offices at the disposal of Councils this year than ever before.

A FESTIVAL of Pittsburgh printers took place on Saturday evening, the 17th inst., in commemoration of the birthday of Benjamin Franklin, where the usual number of toasts were offered and responded to, and all enjoyed themselves.

MAYOR WEAVER had eleven cases before him Monday morning, for drunkenness and disorderly conduct.

In the afternoon, he disposed of one case of vagrancy.

BANK FAILURES.—It is stated that the Gramercy, the Lafayette, and the Shawnee Bank, of Attica, Indiana, have failed. Be careful in receiving this money.

CAPT. ALEXANDER HAY has been appointed Librarian of the Young Men's Library Association, vice John C. Schaad, resigned.

A LOTTERY GIFT will probably come up in the Courts to-day.

A GRAND annual Ball, for the benefit of the Duquesne Fire company, will be given at the armory of the Grey's, on next Friday evening.

THEATRE.—We would refer lovers of the drama to the performances advertised for this evening.

THE Omnibus Line between our city and Birmingsville, we learn, has been discontinued for want of support.

THE cold of Sunday and Monday, in this vicinity, was very severe, and several persons had their limbs frozen.

LATEST FROM EUROPE.

Arrival of the America.

HALIFAX, Jan. 19.—The Canard steamship America, arrived this morning from Liverpool, with dates to the 3rd.

Flour market is unchanged with an active demand. Consols for account closed at 94@94¼ All qualities of cotton have considerably advanced; the advance on the week ¼d; sales for two days 25,000 bales; the sales for speculation and export were 15,000 bales; the quotations for fair Orleans is 7¼, for Middling Orleans 7¼, for fair Mobile 7¼, for Middling Mobile 7¼; the amount of stock at Liverpool was 20,000 bales of which 17,300 are American; on the 16 to day 10,000 bales; Market closed firm; Breadstuffs steady. Wheat has generally advanced 2s. and corn 1s. Provisions closed dull; Naval Stores inactive and generally unchanged; Manchester advices favorable. Baring Bros. & Co. quote iron as firm with advancing tendency. Havre Cotton quoted at 103f. for N. O. tres. ordinaire; Bullion bank England decreased £200,000; Tea has advanced 1½. Sugar firm.

Chinese news are fully confirmed. The Americans were also engaged against the Chinese.—The ships Ship Portsmouth had destroyed one of their forts in consequence of an insult given the American flag.

The Congress at Paris was proceeding satisfactorily. The Swiss difficulty was clearing up, and it was confidently hoped that matters would be adjusted without a resort to arms.

COMMERCIAL INTELLIGENCE.—Breadstuffs generally were steady at a slight advance for all descriptions over the prices current at the close of the week preceeding. The rise in wheat was equal to about 2d per bushel.

Provisions generally were dull without essential variation in prices.

In the London money market considerable activity prevailed. The rates of discount, however, remained as before. Consols for account closed at 94@94¾.

The steamer Atlantic and City of Manchester both arrived out on the 1st January.

The Indian news contains nothing concerning the Persian expedition which had reached Bombay, but reinforcements were to be forwarded immediately.

Dost Mahommed was at the head of the movement. He asks of England the restoration of Peshawur.

The naval force brought by Admiral Seymour to operate against Canton consisted of three frigates, one brig and five steamers.

The details are not different from the news brought by the City of Washington.

Some of the forts taken were burned; others are occupied by British artillery. One hundred and seven guns were spiked.

Notwithstanding the capture of the forts the Governor refused the apology demanded. He, however, sent to the Admiral 12 persons purporting to be captured, but they not proving to be the same, the Encounter opened her fire on the city walls, the seamen co-operating from the captured forts, while a steamer proceeded up the river and shelled the forts on the heights. On the 29th the walls were breached and the city entered and subsequently abandoned.

In the encounter the Barracuta received 80 shots in the hull and rigging. The Bogue forts were captured on the 12th November.

On the 16th the Chinese had romanced the barrier forts and fired into the mail steamer Canton.

The British loss is trifling. The English and American ladies were previously removal to Hong Kong, together with all of the treasure.

A detachment of marniers from the American ship Portsmouth guarded the factories.

The accounts of the American affair with the Chinese are not full. It is said that an American ship was fired into by a Chinese ship at Macao, where upon the Portsmouth proceeded to destroy it at the time, notifying the Chinese authorities that unless instant reparation was made, hostile operations would ensure. The San Jacinto was at Whampoa, anchored off the French Islands, with the Portsmouth and Levant. The British, on the 15th, informed the European community that the Admiral deemed it inexpedient to disclose his future measures, but that he saw no immediate prospect of quiet. The mail steamer met a French frigate approaching the east of war.

The warlike preparations in Prussia and Switzerland continued vigorously, but hopes of peace preponderated. Meantime the American Minister has gone to Berlin to offer, it is reported, the mediation of the United States. Other favorable reports of the offices on the part of the U. S. prevailed.

The President's message to the Swiss federation is published. Its substance is that all the foreign ministers at Berne made proposals that if the Swiss authorities would give up the trial of the prisoners, their respective governments would endeavor to induce the King of Prussia to recognize the absolute independence of Neufchatel. The proposal fell to the ground. The Federal Assembly, before adjournment, passed a decree that the Federal Council will continue the endeavor to procure a pacific recognition of the independence of Neufchatel, approving the military levees as ordered, granting unlimited credit and authority to the Federal Council to take ulterior measures to defend the country to the last extremity, and authorizing a loan of 20,000,000 francs.

It is said that a French army of 6000 under Castrobert is to be assembled on the eastern frontiers to meet emergencies.

Berlin reports, which are probably exaggerations, assert that the French will occupy Neufchatel and Geneva, and Austria the Pas Devand; also, and said these governments unite in the determination to wring from Switzerland the concession that her territory shall be no longer the harbor of political refugees.

The march of the Prussians against Switzerland is postponed to the 15th or later.

Plenipotentiaries, with power to sign a treaty of peace met at Paris on the 25th ult. A programme was read stating that whereas a difficulty had arisen in exercising article 20 of the treaty, the parties had met to consider under what circumstances the difficulties could all be arranged. Complaints were exchanged; a conciliatory spirit was exhibited; a new line will be traced out as the Bessarvabian frontier, Russia renouncing her pretensions to Belgrade and the Isle of Serpents, the Delta of the Danube being given up to Turkey in compensation.

A district of land is to be ceded to Russia towards the north of Moldavia.

The shares of the Atlantic Telegraph Co. appeared on the London Stock Exchange on Wednesday at 30 to 50 premium. Dissatisfaction is again reported in the Neapolitan army.

The Paris Monitear contains a decree for a meeting of the Senate and Legislature on the 17th of February. The Constitutional romances the third sitting of the Congress on Saturday or Sunday.

A letter from St. Petersburg in the Debats confirms the account of a considerable military force in New Banco on the Caspian sea, and says the whole Caucasian army is called with a brief notice to act with them.

BREADSTUFFS.—The circulars are somewhat complicating in regard to the markets. The Brokers circular quotes a fair demand at steady prices; other authorities quote 6d @ 1s sale-rance and 8d @ 1s per bushel on wheat; 1s per quarter on corn. the stock being small in respect to Friday's market. The various circulars report a small attendance and quiet market with quotations barely maintained. Red wheat, 8s @ 9s 2d; White, 9s 3d @ 10s; Western canal, 32s@33s; Baltimore and Phila., 33s @33s 6d; Ohio, 25s@26s; Mixed corn, 24s. Corn, yellow, 34s; 6d; white, 36s@36s.

PROVISIONS.—Messrs. Richardson, Spence & Co. report Beef dull and unchanged; holders are willing sellers. Pork is very dull; the stock is large and of poor quality. Bacon, there is a limited home demand and quotations are nominal. Sales at auction were advertised for Saturday the 5th which would rest the market. Lard declined 6s with more sellers than buyers; sales at 72s.

LONDON MONEY MARKET.—No change has occurred although considerable activity was evinced; a reduction in the rates of discount was looked for after the 1st of January. The bullion in the Bank of England had decreased during the week £283,500. Consols closed for account at 94@94¾.

Barring & Brothers report that Breadstuffs were maintained. White 6s@7s4; Red 6s@6s. Flour 32s@37s. Barrings & Brothers state that holders of American securities were chiefly confined to Railroad Bonds; Erie 3d mortage 86¾@87¾; Illinois Central Sevens 85@87; Illinois Central Sixes 92@94; Illinois Central free land 99@100; Erie Convertibles 78@81; U. S. Sixes of 1868, 104@105.

NEW YORK, Jan. 19.—The Cincinnati express train on the Erie Road which left Dunkirk on Friday evening at nine o'clock, ran off the track at Hawkins' station on Saturday evening. The cars were thrown into the Delaware, one of them going through the ice. One passenger was killed and one fireman fatally injured and about 30 more or less injured. The man killed was a sailor on his way from Cincinnati to Boston, where he belonged. His name is unknown.—Among the injured are E.P. Mount of Jacksonville. The passengers arrived here yesterday.

CONGRESSIONAL.

WASHINGTON, Jan. 19.—SENATE.—The chair laid before the Senate a communication from the presiding officer of the Delaware Legislature announcing the election of Mr. Bayard as Senator from that State for six years, and of Mr. Bates to fill the vacancy occasioned by the death of Mr. Clayton.

The Senate then discussed and passed the Diplomatic and Consular Bill.

An ineffectual effort was made to restore the appropriation stricken out by the House, giving a salary $6000 to each of the 25 Consular pupils.

An amendment was added to the Bill repealing so much of the former law as authorized the appointments of such officers.

The Senate adjourned.

HOUSE.—On motion of Mr. Taylor a resolution was adopted instructing the Post Office Committee to inquire and report on the general subject of the transportation of the mail to San Francisco and whether it is not now expedient to contract for weekly mails from New York and New Orleans to San Francisco, by way of Tehauntepec, whenever the said road shall be completed.

A resolution was offered by Mr. Walker which was adopted, making a similar enquiry in relation to a weekly mail from Mobile to San Francisco.

Mr. Morrell offerred a resolution which was adopted, calling on the President to inform the House whether resistance, organized or otherwise, has been made or is to be apprehended, against the official authorities of Utah, and to communicate all the correspondence relative to the appointment and continuation of officers in that territory since January, 1852, and whether the laws thereof are practically administered with impartial justice to all the inhabitants there.

The first Tuesday in February was set apart for the consideration of business in relation to the District of Columbia.

Mr. Campbell of Ohio, from the Commitsee of Ways and Means, reported a bill for the relief of sick and disabled seamen.

Mr. Fuller entered into an explanation of the bill establishing collection districts in the U. S., designating ports of entry and delivery, and for other purposes. The object of the bill was to codify the numerous existing laws on the subject, and to simplify and improve them so as to make them accord with the present condition of commerce.

On motion of Mr. Kelsey, the Corruption Investigation Committee was granted leave to sit during the session of the House. Adjourned.

ALBANY, N. Y., Jan. 19.—The train which left Syracuse at 8 o'clock this morning ran off the track through the displacement of a rail near Spencerville, about 5 miles from this city. The train was going at a good speed at the time of the accident. The locomotive upset, the baggage and first passenger car ran into the wreck, badly smashing both. The second car also ran off the track. David Hamlet, of Utica, extra brakeman, who had been exchanged from the up-train jumped from the platform and was caught by the head between two cars and instantly killed. The top of his head and face was cut off. Jeremiah Mahony, of Albany, a brakeman, was caught between the cars, and both of his legs were cut off close to the body; he cannot survive. Lewis J. Smith, of Utica, town, a passenger in the first car, had both legs broken. These were fortunately all the serious injuries, but several passengers were bruised more or less severely. Owing to the severity of the storm those injured suffered before aid could be sent. The engine ran down to the city and returned instantly with medical assistance.

The storm continues but is not so violent as it was this morning. The train for the South has gone out.

BOSTON, Jan. 19.—The ship Wallsford from St. Johns for Liverpool was wrecked Dec. 26th on Cape Race. Capt. Hilfield and 26 of the crew were lost.

We had last night the most tempestuous storm known here for years. The streets are blocked with snow. The railroad travelling will undoubtedly be suspended for some days.

The thermometer yesterday at Woodstock, Vt., was 20 degrees below zero and at White River junction 27 degrees below. The snow is very heavy in that vicinity.

ALBANY, N. Y., Jan. 19.—The weather here is terribly stormy and cold. Over a foot of snow fell during the night, and the storm is still on. The thermometer stood, yesterday, at 19 and 20 degrees below zero. The Railroads are all blocked up.

Gov. King has issued a proclamation offering a reward of $500 for the apprehension of the murderer of Samuel Carman, on Long Island.

No train has left here on the Hudson River Railroad, and none will leave until the arrival of one from New York.

NEW YORK, Jan. 19.—All unknown brig went ashore at 11 o'clock yesterday, near the Ocean House, Island of Neversink.

Every effort was made by the wreckers on the beach to succor the unfortunate crew, but several of them at the last accounts had perished and there were faint hopes of saving the remainder. Six men were seen on board when the brig struck.

ST. LOUIS, Jan. 19.—The Territorial Legislature of Kansas was organized on the 12th. Thos. Johnson was chosen President of the Senate, and W. G. Matthais Speaker of the House.—The Governor's message was to be delivered on the 13th.

The thermometer here was 14 degrees below zero yesterday, and four above this morning. A large quantity of hemp for sea running in the river, which will doubtless gorge to-day.

WASHINGTON CITY, Jan. 19.—The snow is about 18 inches or two feet deep on a level, and is drifted in the cuts. There are no trains from the North or likely to be in some time. The agent thinks he will start a train for Baltimore at 3 o'clock, P. M. There will probably be no train from the South.

ALBANY, Jan. 19, 1 o'clock 30m. P. M.—The storm continues with unabated violence. The Cleveland Express train over the Central Road is just in, eight hours behind time. The snow drifts between here and Schenectady are five and six feet deep.

WASHINGTON CITY, Jan. 17.—The President has accepted an invitation to be present at the National inauguration ball, saying that he has no doubt but that it will be a credit to Washington.

Mr. Giddings has nearly recovered from his late sudden illness.

BALTIMORE, Jan. 19.—Snow fell very heavily last night accompanied with a violent gale. The drifts in some places are six and ten feet deep. On a level the snow is about two feet deep. The streets are impassable for vehicles. The thermometer indicates 14 degrees above zero. The train which left Washington last night has just arrived.

MONTREAL, Jan. 19.—The weather yesterday was the coldest of the season. The thermometer indicated 22 degrees below zero, to-day it stands at 16 below and has been snowing and blowing a terrible gale from the west. At Quebec yesterday the thermometer was 30 degrees below zero.

NEURALGIA, one of the most painful, as well as debilitating diseases known to the human family, is readily cured by that popular medicine, *Carter's Spanish Mixture.* Hundreds of persons have testified that they have found speedy relief from this distressing affliction by the use of the Mixture, after the most skillful physicians had utterly failed to do them any good.

We see by the Court records that the two Counterfeiters, White of Buffalo, and Lawrence of Epping, N. H., have been placed under ten thousand dollar bonds, each, for making and selling imitations of Ayer's Cherry Pectoral. This is right. If the law should protect men from imposition at all it certainly should protect them from being imposed upon by a worthless counterfeit of such a medicine as Ayer's Cherry Pectoral. We can only complain that the punishment is not half enough. The villain who would for filthy gain, deliberately trifle with the health of his fellow man, by taking from their lips the cup of hope, when they are sinking, and substituting a falsehood—an utter delusion, should be punished at least as severely as he who counterfeits the coin of his country.—*Green Co.
