have been but seven deaths, or a ratio of 97-100ths per cent. We are assured by the physician in his report that the three years above referred to are not selected because more favore

able in this respect than others. The Moral Instructor, Mr. Crumpton, gives an encouraging view of the condition of the unfor. discharged during the year, not one has been returned, which is a solid and favorable fact. More particular attention is being given to the made a subject of tabular report, but we have been unable to find such report here. It is stated, however, that very commendable progress in the rudiments of knowledge has been made by many who on entering the prison were Young, 107 Walnut street, Philadelphia, a voleven ignorant of the alphabet. We find that of ume entitled "Leading Pursuits and Leading the 171, persons now in the penitontiary, 184 Men." were of intemperate habits, 22 moderate drinkers, and 15 temperate persons.

The balance of accounts is against the prison. This is attributed to the high cost of the raw material used by the workmen and the high

material used by the workness and the high price of provisions.

Upon the whole the report is highly satisfactory we think, and trust that each year may add to the bendicence of the system and decrease, the number of these subjected to its discipline.

This Christian Sugar and French and success the number of those subjected to its discipline of the property of the system and decrease, the number of those subjected to its discipline.

This Christian Sugar and French and Survey of the public of the system and decrease, the number of those subjected to its discipline of the system and decrease, the number of those subjected to its discipline of the system and decrease, the number of those subjected to its discipline of the system and decrease, the number of those subjected to its discipline of the system and decrease, the number of those subjected to its discipline of the property of

are latending to plant the seeds we have distribuild. We have now a few words more to stay

I. Do not run mad about this thing. Try

It it is and see what it will do. We hope that the
silk-worm humbug may not be repeated. Be
sure you get good seeds. There are men who
will the saling anything that looks like sheen for
the real article.

2. A writer in the Tribune says et planting.

Choose a warn, mellow soil, such as good
would confidently expect to grow a tested and the
would confidently expect to grow a test any
play deep and theroughly. Plant as early ay
you could venture to plant corn.

3. Harvesting.—Whenever the seed shall be
hard and block, cut off the upper part of the
stalks, say three feet long, and hang then up
like broom corn, in a dry chamber, suppended
from the celling, so as to be not of the war of
the stalks, say three feet long, and hang then up
like broom corn, in a dry chamber, suppended
