OTELS, PUBLIC INSTITUTIONS LOUISVILLE, KY. some addition of territory, and reduced the amount of the indemnity from twenty to ten milsome addition of the indemnity from wenty to ten millions of dollars.

The provision of the treaty which produced most excitement and opposition in the Sensit, was its recognition of the Wilmot Proviso. The Provisio is incorporated in the convention with Honduras, which stipulates that inasmuch as Slavery does not now exist in the Bay Islands, it shall never be introduced there, but shall be perpetually prohibited. Agen. Ruck discovered "this nigger in de fence," and denounced the Treaty under consideration with great severity, for committing the Government to that doctrine.

Mr. Douglas summed up the case against the Treaty with elaborate vehemence. For two mortal hours he thundered against British interference in American affairs, and advanced ideas analogous to the most extreme pretensions of exclusiveness set up under the Monroe Doctrine, at the close of which, to prevent its immediate rejection, the Treaty was referred.

This transaction proves that Fillibusterism is really a powerful element in our Government, and will have much influence over the coming Administration. Great British will now perceive that all her well meant exertions to settle the perplexing questions, growing out of the convention of 1850, have failed, and that she is forced hook to her original position as an initial and tapestry in proposition. made copious extracts:

All things considered, I believe that the prosperity of Texas, measured by the rapidity with
which the inconveniences and discomforts, inwitable only in a wilderness or an uncivitized
state of society, are removed, would have been
ten times greater than it is, had it been, at the
date of its annoxation, thrown open, under othcewies equally favorable circumstances, to a free

Agents, ROBERT LOGAN & CO. H. M. WARREN & CO., MANUFACTURERS AND DEALERS IN WARREN'S IMPROVED to see where this supply is to come from. They indid that over nearly half of Europe the harvest has not procured enough to supply the wants of the respective countries themselves. France is not supplied, and must compete with Great Britain in the general market. Bwitzerland and lais in the general market. Bwitzerland and lais may be importers. Spain and Portugal are the worst of all. Bussis, Egypt, and the supplies can come.

It would seem that the prices in Kussia rule so high that but little grain can be expected from that country. The advance to be realized will hardly cover freight and insurance. The United States and Egypt are therefore the only practicable markets open to Europe; and under this state of things it will not be hard to predict that prices of grain and flour here will not be materially lower than they are at present. There is a prospect, in fact, that the entire prodoct of the country will be cleaned out before we reach the next harvest.

THEOLOGICAL SEMIMARY.—The committee of ministers and elders of the Old School Presbyterian Church of the West, have been in session in Chicago for a day or two past, having in charge the removal of the Theological Seminary of that church from its present locality in New Albany, Indians, to this city. We learn that so far as the action of the committee can accomplish it, the new eite has been determined on at Hyde Park, in the southern suburbs of this city, on the Lake Shore. A valuable donation of lands has been tendered to the church by property holders in that locality, which has been considered sufficient to determine the committees choice.—Chicago Tribune.
