THE Premium List for the next exhibition of the Horticultural Society has been published.—It is quite an extensive one, and the premiums are large. The Fair will commence on the 17th of June and continue three days. The committees will be authorized in addition to the regular prizes, to award extra premiums for any new or rare fruits, plants, flowers, vegetables, or designs. In fruit, flavor, beauty and size will be taken into consideration by the committee in their awards. The society earnestly invites the co operation and competition of cultivators.

FIRE—SUPPOSED INCENDIARISM.—Friday night about ten o'clock, a fire broke out in the engine room in the rear of the planing and sash manufactory of W. McHendry, situated on the corner of North and Middle alleys, Second Ward, Allegheny City, and soon communicated throrgh a schuto to the third story of the building. The fire was eventually extinguished without much damage to the building, though there was a large quantity of combustible material at hand. It is supposed from various circumstances to have been the work of an incendiary. The total loss of Mr. McHendry will probably not reach $500, which is covered by insurance.

WRIT REFUSED.—Judge McClure, on Saturday, refused to grant a writ of *quo warranto* against Mr. Bell, Alderman of the Fourth Ward, Allegheny city, a statement of which case we published some weeks ago. The Court refused the writ, firstly, because it had no jurisdiction in the case; and, secondly, because, even if it had, the relator, Hartje, could not "file the suggestion," as he was not injured by the course Bell was pursuing, and continued to discharge the duties of Alderman as if nothing had happened.

LARCENY—COMMITTED FOR FURTHER HEARING. A man named Joseph Stephens was arrested on Saturday in Allegheny City, and committed to jail for further hearing by Alderman Neille, charged with grand larceny. It is alleged that the accused stole from the house of the Manchester fire engine, screws, brass and copper pipe, to the value of $150. He will have another examination to day.

GROSS-FIRING.—Michael Martin, a coal haul, er, made oath on Saturday at the Mayor's office, charging Messrs. Jones, Lauth & Co. with blocking up the pavements. They were fined $2 and costs. Mr. Jones then made oath against Martin for depositing a load of coal on the sidewalks, and he was also fined, both parties appearing satisfied with the result.

THE Court of Quarter Sessions meets this morning. A large number of cases are on the calender.

FREE LECTURES IN ALLEGHENY CITY.—Dr. CALVIN M. FITCH, the eminent Specialist and distinguished lecturer, commences a course of Free Lectures at Excelsior Hall, Allegheny City, on this (Monday) evening. Dr. Fitch's thorough acquaintance with his subject enables him to invest it with a much more than ordinary interest. His lectures are illustrated with an extensive collection of appropriate plates and preparations, and we are confident that few will be able to spend their evening more pleasantly and profitably than in attendance upon Dr. Fitch's lecture. Dr. Fitch will deliver his second lecture on Tuesday evening; and on Wednesday afternoon at three o'clock he will lecture to the ladies exclusively.

MAN KILLED—CORONER'S INQUEST.—Saturday afternoon, a man named Christian Walthenour, employed at Tusten's sawmill, on the Monongahela river, just above Dam No. 1, while engaged arranging the belt on the main drum, was accidentally caught by the belt and drawn into the fly-wheel. He was crushed to death before assistance could be rendered. The Coroner held an inquest and a verdict was rendered in accordance with the facts.

SUPPOSED THIEF ARRESTED.—On Saturday evening a Polander named C. Karroskarouski was arrested by High Constable Hagee, on a house adjacent to St. Clair street, and locked up in the Toombs, on suspicion of having robbed a store in St. Louis, a dispatch having been received from the Chief of Police in that city to that effect. He will be kept in custody until further information arrives from St. Louis.

FAREWELL SERMONS.—The Rev. Dr. Riddle said his farewell at the Third Church last evening to the largest congregation we have ever seen in that house. He has lived and labored in this city about a quarter of a century and goes to his new field of labor, with the affections, the regrets and the benisons of every body. May he see many years of happiness, peace and usefulness.

Rev. Alfred Cookman preached his farewell sermon last evening.

THEATRE.—Mr. Collins, the eminent Irish comedian, remains another week. This evening will be presented a new comedy entitled, "The Soldier of Fortune," and "The Irish Genius," in which Mr. C. appears, and will sing four of his best songs. "The Sports Bridegroom" concludes the entertainment.

DROPPED DEAD.—We learned yesterday, from several sources, that a woman named Mrs. Grace, a widow, had fallen dead on Liberty street, Saturday afternoon. She leaves two children. We could not ascertain the cause of her death.

REV. MCKENDREE RILEY, late of the Baltimore M. E. Conference, has been stationed at Christ's M. E. church in Pittsburgh, in place of the Rev. Alfred Cookman, who goes to Philadelphia.—*Balt. Sun.*

CHILD RUN OVER.—A little child of Mr. J. Hamlin, of the Fifth Ward, while playing on the street, was run over by a cart, on Saturday day evening, and had its leg broken.

STEPS are being taken in Allgheny City, we understand, to have the houses numbered as they are on this side of the river. This is a good movement, and we hope it may be carried into execution.

THE regular monthly meeting of the Young Men's Christian Association will be held this (Monday) evening at 8 o'clock, P. M.

THOS. BAKEWELL, JR. Sec'y.

GAVE BAIL.—J. W. Hasson, one of the parties charged with the pitcher larceny, gave bail on Saturday for his appearance at Court, and was released from prison.

CHRONIC DISEASES, of almost every kind, can only be reached through the blood, where they originate, and as CARTER'S SPANISH MIXTURE is the only true purifier of that life stream, it is the only remedy for such diseases.

We publish as a great curiosity the following characteristic letter, received by our friend Dr. J. C. Ayer, of Lowell, MASS., from the "Rebel Chief," or usurping Emperor of China, in acknowledgment for quantities of his CHERRY PECTORAL and CATHARTIC PILLS, the Dr. sent him as a present.

To Dr. AYER in America—

The great curing Barbarian of the outside country.

Your present of sweet curing seeds (*Pills*) and fragrant curing drops, (*Pectoral*) of the Cherry smell, has been brought to Hugseu Teene—the mighty Emperor (Kwangti) of the terrible stout Ming dynasty, by the grace of heaven received after an interval of ages—Prince of peace (Taping-wang) of China, the central flowery land. He directed his powerful Mandarines to give them to the sick according to what the Interpreters read from your printed papers (*directions.*) Be profoundly happy O wise Barbarian! for I, Yang-seu-Teing, say it. Your curing seeds and sweet curing drops were given to the sick in his Army of the Winged-Sword, and have made them well. Be profoundly happy while you live for this is known to the Mighty Emperor of China, who approves your skill, and permits you to send more of your curing medicines for his fierce armies of myriads of men.

They may be given to Chiang Lee, Chief Mandarin of the Red Banner of Szechuen, who will repay you with Tea or Silk or Gold

The high Mandarins of China, have heard of your great skill, surpassing all other Foreigners, even aspiring to equal the keen wisdom of our own healing teachers, who make remedies that cure instantly. We are glad to know you bow in trembling terror before our Mighty Emperor.

Written by YANG-SEU TEING,

Minister-in chief of the restored Imperial Ming Dynasty, destined by the heavenly wisdom to rule in China.

APPORTIONMENT.—In the Senate, on Friday, the majority of the Apportionment Committee reported a bill apportioning the State for members of the Legislature It gives Philadelphia four Senators and seventeen Representatives, the latter being distributed among the separate representative districts. The amendments to the State Constitution were discussed, and the motion to require sixty days' residence in any district, as a voting qualification, was lost, as also a similar motion for forty days' residence. Pending the question of the apportionment of taxes, the matter was postponed.—Charters were passed for the Union Bank of Philadelphia and the Beaver County Bank.

WASHINGTON CITY, March 21.—Messrs. Sickles, Houck, and many others from New York, had a long interview with the President this morning relative to the appointments for that city and State. The door was then thrown open to more than one hundred persons in waiting, including a fresh Maryland delegation. Large numbers rushed up and hurriedly put their papers into his possession, while others contented themselves with merely shaking his hand. The President excused himself by saying he would listen to them all separately were it in his power, but the Cabinet would meet in a few minutes. They would, he said, have before them one of the most important subjects ever brought to the attention of the Government, and in this connection he said he had received the resignation of Governor Geary, to take place on the 20th instant, and that time is past. Hence, he remarked, you see it is impossible for me, gentlemen, to attend to your cases now

The following, among other officers assigned to the steamer Niagara, have been ordered to report to the Navy Department on the first of April: Capt. Hodson; Lieutenants North, Todd, Gust, Wells, McCauley, Whiting and Kennon; Surgeon Palmer, and Assistant Surgeons Lynch of Washington; Purser Eldredge; Chief Engineer Everett.

Col. Wheeler, who has held the commission of Minister to Nicaragua ever since the cessation of diplomatic intercourse, has recently resigned it.

The Hon. John McClernand, of Illinois, has been recommended by prominent politicians of that State for a mission to Russia.

WASHINGTON CITY, March 21.—The Cabinet to-day had under consideration the Dallas Clarendon treaty and approved of it in the form amended by the Senate. It was also conveyed to our Minister at the Court of St. James by Alexander H. Evans of Washington, who, as special messenger, will leave Boston for Europe on Wednesday next, and return to this country, after visiting London and Paris.

The resignation of Gov. Geary was not received until to-day. The former intimation of his determination had been sent hither by telegraph. The Governor was not here last night, as reported His resignation has not been acted upon, though it will be accepted. No successor has been designated.

The principal California appointments are:—Col B F. Washington, Collector at San Francisco; Frank Filford, Naval Officer; William B Dambro, Surveyor; Major Solomon, Marshal of the Northern District. Elder succeeds Foreman as Postmaster at Sacramento and Lester is Collector at Stockton vice Scofield. Charles W. Winter is appointed Judge Advocate of the Naval Court of Inquiry, vice Carlisle resigned. The office is worth $20 per day.

Ex-Governor Bigler, of California, has been appointed Minister to Chili, vice Starkweather.

NEW YORK, March 21.—A report prevailed at Panama that Minister Bowlin and commissioner Walker had commanded passports in consequence of New Granada having rejected the overture for the settlement of the question of the Panama massacré.

The Chinese at Canton had captured an American cutter, and also great uneasiness was felt concerning the fate of forty United States sailors who were up the river for supplies but have not returned.

ANTIPHLOGISTIC SALT;

PERFECT SUBSTITUTE

For the Lancet, Leeches and Blisters.

OF ITS INTRINSIC VALUE, THE ENLIGHTENED COMMUNITY, AND NOT THE DISCOVERER, MUST MEASURE THE DEGREE.

MANY medicines offered for sale are accompanied by doubtful certificates, (their chief virtue) and claim to be universal remedies, curing all maladies—but this is common sense As the discoverer of this SALT solemnly professes a belief he has placed in the category of frauds and deceptions, he has received that it shall go forth to the world like its predecessor, "Let it be decided, with its own true verdict." If the public find it genuine they will receive it—if spurious, they will reject and condemn it, instead of being a panacea for all ills, it has its sphere; but one thing is—has the one aim and accomplishes but one thing, to wit: it cures Intermittent or Bilious Fever, ever in its form or locality—who her in the head, throat, chest, abdomen, spine or limbs.

When the discoverer, after a long series of laborious and costly experiments, became fully confirmed in the opinion that the Antiphlogistic Salt which he now has the unlimited to present to the American people, was a

PERFECT SUBSTITUTE

for Bloodletting and Mercurials. His mind was so agitated that he could not sleep for many nights. The cause of this agitation was the striking fact that the manner of the administration of the virus Diaphoretic, could not be satisfactorily explained upon any known principle. How, in what way, it so speedily subdues inflammatory diseases and no others, was at first wholly inexplicable—but, in further experiment, it was proved that by its power over the veins, arteries and glands, it equalized the *flow of the blood*, the source of all exhilitration in which is the sole cause of inflammation. It starts, by its intrinsic power, an extraordinary influence over the circulation—resulting in a gradual decline of inflammation as indicated by the pulse, which soon resumes its natural state, as the heat and pain disappear. Such is its potency, that like the virus just mentioned, it requires what mercury starts in the constitution of a patient, a solution of it, to affect the entire system—but must be in the system to prevent disease—it cannot excite its full virtue. Three quills in acute, and two in chronic cases, in twelve 24 hours, all the heat and fever have subsided and a perfect cure effected. Where it fails, it is from evidence stimulating ointments and blisters in local inflammation, (except Gilbert Miller, of Allegheny City, A. D. 1857, a case of administration is twofold *See directions for dispensing*

☞ The peculiar excellence of this Salt is that without the useless loss of blood and mercury, it so radically cures inflammatory diseases (no others) by producing an equilibrium of the flow of the blood and a consequent uninterrupted circulation. You will find in a few hours that the unbalanced fluids steams, and many not born of the inflammation, will be relieved by the Salt, and perfectly subdued by the Antiphlogistic Salt as fire is extinguished by water.

1—Cases where the unbalanced fluid affects the HEAD and THROAT—is with Brain Fever, Headache, Fits, Inflammation of the Brain and Membranes, Neuralgia, Catarrh, Erysipelas, Bronchitis, &c.

2—Cases where the unbalanced fluids affect the CHEST and ABDOMEN—is with Pleurisy, Coughs, Dyspepsia, Gravel &c.

3—Cases where the unbalanced fluids affect the EXTREMITIES—is with Rheumatism, Gout, Sciatica, Ulcers, Chicken and Small Pox, Salt Rheum, Scrofula, Fever and other Cutaneous Eruptions.

THE Salt nearly alleviates the inflammatory pains peculiar to married ladies, (before and at the time of confinement) and may I speak complaisant and I may offend—in Fevers, Ague, Wounds, Nervous and Spinal Affections, and any other forms of disease, *Inflammatory disease*, attended with heat or febrile symptoms.

☞ Persons who have a tendency of blood to the head and heart, or lead inactive lives, or breathe the impure air of manufactories and the poisonous fumes of metals and minerals, (the latter especially) are exposed to a peculiar *situation of the fluids of the body*, which one dose, without interesting with diet or business, once in *three months*, would invariably PREVENT. It is believed to avoid protection from infectious diseases and, therefore, it is recommended to travellers, sailors and soldiers.

☞ Persons in the community from imposition by counterfeits the proprietor will simply to say that, he makes such arrangements that he can send the most late in any quantity, by *Mail or Express*, to any part of the United States or foreign countries. Its prime cost to the discoverer is $1.50 per drachm—price $2 per drachm—and is put up in drachm packages for acute disease, (with directions for use) at $1, three drachms, for chronic case. A single drachm do. for families, $2—a net profit of *fifty cents* on each package.

☞ While many nostrum makers victimize the good natured and pill ridden public by ordering from six to a dozen to or fifteen of any quackery, no matter what the ingredients, the undersigned is happy to bring aids to state, that the severest forms of recent inflammatory diseases are overcome by one acute package, and the most obstinate and long standing cases by one chronic package. Although thirty days have not elapsed since this new medicinal agent became partially known to the citizens of Boston and a few neighboring towns, it has been tried in the severest of its trial, that during the past week, nearly 400 packages were sold in that city, and orders received by mail and express for 163 family, 47 chronic, and 265 acute packages. In one instance six persons within the together and wrote for six packages, [of the "Little Giant," *see circular*] to be forwarded in one package—thereby saving expense to themselves and the proprietor.

☞ If any citizen of any city or individuals with money (if over $10) should be *registered* at the post office, they can get it it costs but five cents, and will insure their safe arrival.

☞ The discoverer now humbly submits his Perfect Substitute for the lancet, leeches and buttons, to the tribunal of an intelligent public, reiterating that it does just what it claims to do—no more, no less; *reduces inflammatory diseases*, (no others) whatever be its form or locality, by *equalizing the fluid volume between the blood and solids*. Family package $5, chronic $5 and Acute 2 in a box Free of expense to any address, by addressing him through Box 322 Boston, Mass, or at his office, No. 9 Winter street.

☞ Cut this advertisement and his communication in each case in a column, for the perusal of your friends and your own future use.
