TWO COLUMNS OF INTERESTING READING MATTER WILL BE FOUND ON OUR FIRST PAGE.

CRIME ADVERTISED.—We do not wish to be considered as setting ourselves up for models of newspaper propriety. We would not put forward any claim to any such position, yet, with our thousand and one short-comings and weaknesses, we do say, that even at the expense of being considered "fogies" in our notions, we regret the prevalent and we might say almost universal custom even among many of the leading newspapers of the country, of parading the most harrowing and disgusting details of crime before the eyes of their multitudinous readers. It is proper and right enough, doubtless, to state for public information the general facts connected with crimes, but for whom, for the gratification of what class is it that all the minutiae, all the devilish cogitancy of crime, the plotting and counter-plotting, of midnight assassins, the manner, time and place of the committal of outrages upon all that is good and just and pure, for what class of readers, we repeat, is all this written? Is it for the fireside circle where the family gather for parental counsel or for mutual instruction, and where the newspaper forms almost always a portion, at least, of the current reading? What parent would wish or suffer a human butcher or a brazen libertine to invade that sacred circle to recount the various steps in his deeds of blood or shame!—And where is the difference whether he do it in person or by proxy? No, it is not for those who have homes and ties of dear affection, and cheerful hearths and interests which rest securely only upon a sound public morality, it is not for such that the details which *must* be drawn out in courts of justice are exhibited in all their awful and hideous deformity to the public gaze. It is the impure and those whose prurient desires clamor for the horrible and the unnatural, who devour with such avidity this garbage.—But at the same time that this class of people are these for whom the immediate supply is provided, let it not be forgotten that this filth cannot circulate every where in a community without defiling somebody; that children and youth are brought in daily contact with this pitch, which, can one touch and not be defiled?

For whose delectation is "Jack Sheppard" put upon the stage? For whom are some millions weekly of copies of trash distributed broadcast through the land, filled with caste and fancies that might make the cynic laugh as they would certainly make the christian weep? Are there those who imagine that these things are not having their silent and deadly influence far and wide? Under the seeming placid surface of society there lies a deadly sewer of filth out of which the young may scoop many a noxious draught. Even while the parent has yet scarcely deemed his child capable of fully appreciating the moral lessons upon which the youthful heart should rest its affections, and

"Lay great bases for eternity,"

these tales and teachings of crime have sown their seeds of corruption, and the young heart which should be the sweet home of purity is already the dwelling-place of impure thoughts, the home of base desires where vicious and unholy thoughts hiss and nestle like young and nimble vipers.

These thoughts were suggested from no inthe performance of our editorial duties we glanced over an article (there are many, generally like it published daily) in a Toledo paper relating all the details of a wife-murderer in that city together with the manner in which the body was destroyed, viz: by fire. The article is republished conspicuously, in the New York *Tribune*. The detail is so horrible that the senses shrink and sicken at its recital, and yet "it makes the papers sell." The *Tribune* in a recent controversy with the N. Y. *Courier* defends the propriety of such publications because it asserts that the public demands such reading and moreover that to depict crime has a tendency to deter those who look upon the picture, from its commission. The *Courier* concludes its response to this argument with the following with which we also leave the matter in the hands of our readers:

"Let every man and every woman for themselves honestly judge whether an intimate acquaintance, however obtained, with the acts of profligacy and crime, and a minute knowledge of the habits of life, modes of speech and turns of thought of the degraded the vicious and the brutal, are not calculated to blunt the perceptions of moral purity, to injure the delicate sense of propriety and honor and right, and to take away the blush that should spontaneously rise to the youthful cheek at the image of anything that is indecent and impure."

LOCOFOCO APPORTIONMENT BILL.—The following is the locofoco apportionment Bill, as it will be reported in the House to-day:

Philadelphia 4 Senators; Chester and Delaware, 1; Montgomery, 1; Bucks, 1; Lancaster and Lebanon, 2; Berks, 1; Northampton and Lehigh, 1; Carbon, Monroe, Pike and Wayne, 1; Schuylkill, 1; Bradford, Susquehanna and Wyoming, 1; Luzerne, Columbia, Montour and Sullivan, 2; Dauphin and Northumberland, 1; Adams, Fulton and Franklin, 1; York, 1; Cumberland, Perry, Juniata, Mifflin and Snyder, 1; Lycoming, Centre and Union, 1; Somerset, Bedford and Huntingdon, 1; Fayette and Westmoreland, 1; Washington and Greene, 1; Cambria, Blair and Clearfield, 1; Allegheny, 2; Tioga, Potter, McKean, Elk and Warren, 1; Venango, Clarion, Jefferson and Forest, 1; Armstrong and Indiana, 1; Beaver and Butler, 1; Lawrence and Mercer, 1, Crawford and Erie, 1.

In the House of Representatives the apportionment is as follows:—

Adams, 1; Allegheny, 6; Armstrong and Westmoreland, 3; Beaver, 1; Bedford, 1; Berks, 3; Blair, 1; Bradford, Wyoming and Potter, 3; Bucks, 2; Butler, 1; Cambria, 1; Monroe, Carbon, Pike and Wayne, 2; Centre, 1; Chester, 3, Clarion, Venango, and Forest, 2; Clinton and Lycoming, 2; Columbia, Montour, Sullivan and Wyoming, 2; Crawford and Mercer, 3; Cumberland, Juniata and Perry, 2; Erie and Warren, 2; Dauphin and Lebanon, 3; Delaware, 4; Elk, Clearfield, Jefferson and McKean, 2; Fayette, 1; Franklin and Fulton, 2; Green, 1; Huntingdon, 1; Indiana, 1; Lancaster, 6; Lawrence, 1; Lehigh, 2; Luzerne, 3; Mifflin, 1; Montgomery, 3; Northampton, 2; Northumberland, 1; Philadelphia, 17; Schuylkill, 3; Snyder and Union, 1; Somerset, 1; Susquehanna, 1; Washington, 2; York, 2.

HOW DID THE ABOLITIONISTS VOTE IN ST. LOUIS!—The St. Louis *Intelligencer* thus puts the brand of falsehood upon the story that was so eagerly telegraphed all over the country:

"The Missouri *Republican*, in its usual malignant course towards the American party in St. Louis, asserts that they voted for Wimer for Mayor. This is not true. Ten American votes were cast for Pratte, where one was for Wimer, The entire "River Vote," which is American, was notoriously cast for Pratte—the "River men," with hundreds of other Americans, having believed the *Republican's* silly story that Pratte was the only man who could beat the "Black Republican" ticket."

THE Democrats of Warren county, in this State, drove off their former editor, because he was inclined to favor the freedom of Kansas, and he is now publishing a Republican paper in Nowark, Ohio. His successor was one John Dalley, who, because Warren was a strong Republican county, was disposed to temper with mildness the pro-slavery of the Buchanan platform; but he has, in turn, been driven off, and he charges the Democratic leaders of that county with having tried to bribe him to endorse their ultra pro-slavery policy.

EDWARD RICHARDS, lately of this city, has become a proprietor and editor of the *Buckeye State*, a sterling Republican journal published in New Lisbon, Ohio. He is well qualified for the place.

NEW RAILROAD ARRANGEMENT.—Although the offices of the Pittsburgh, Fort Wayne and Chicago Road is in this city, and it is understood to be a Pittsburgh enterprise, the press here is rarely advised of such arrangements as the following, which we copy from the Cincinnati *Gazette*:

"We referred yesterday to an arrangement entered into between the Cincinnati, Hamilton and Dayton, and Pittsburgh, Fort Wayne and Chicago Railroad companies, of one part, and the Springfield and Mount Vernon Railroad Company, of the second part, by which the latter expects to be able to build its road. We have since learned additional particulars regarding this contract. The first named two companies purchase $300,000 of the bonds of the latter, at eighty cents, about $89,000 of which were taken by the Cincinnati, Hamilton and Dayton Company, and $220,000 by the Pittsburgh, Fort Wayne and Chicago Company. These companies have a contract for running the Springfield and Mt. Vernon Road for a specified time. They are to retain fifty per cent. of the earnings for the purpose of redeeming bonds.

The Springfield and Mt. Vernon road intersects the Pittsburgh, Fort Wayne and Chicago road at Loudonville, and when completed to that point, it would afford a pretty direct line from Cincinnati, via Dayton and Springfield, for Pittsburgh. This would of course be of great advantage to the several roads interested in the arrangement, and it would secure to the Cincinnati, Hamilton and Dayton Company an Eastern connection by way of Pittsburgh, that would enable it to compete with a fair prospect of success for Eastern business, with the Little Miami Railroad.—a road the managers of the former have declared to be able to contend with upon an equal footing for supremacy.

But the Cincinnati, Hamilton & Dayton Companies has another, and to it perhaps, a more important object in view. The Mt. Vernon road intersects the Cleveland, Columbus & Cincinnati Railroad at Delaware, twenty five miles north of Columbus. The completion of the road to that point would enable the C., H. & D. Co. to connect with the C. C. & C. road at Delaware, and so more effectually compete with the Little Miami Road."

THE BOGUS LAWS.—The assertion so frequently made that the Bogus legislature of Kansas has repealed its obnoxious and bloody "laws," enacted at the former Session, is false. A single one of those acts—that imposing a political test-oath on voters—was repealed, with one section only (the twelfth) of "An act to punish offenses against "Slave Property"—the section which punishes as a felon "any free person" who shall "by speaking or by writing, assert "or maintain that persons have not the right to "hold slaves in this Territory," or who shall circulate any paper or pamphlet asserting that same. Twelve other sections of that same atrocious act are unrepealed and in force to-day, so far as the enacting body can give them force—among others, these:

"SEC. 11. If any person print, write, introduce into, publish or circulate, or cause to be brought into, printed, written, published or circulated, or shall knowingly aid or assist in bringing into, printing, publishing or circulating within this Territory, any book, paper, pamphlet, magazine, handbill or circular, containing any statements, arguments, opinions, sentiment, doctrine, advice or inuendo, calculated to produce a disorderly, dangerous, or rebellious disaffection among the slaves in this Territory, or to induce such slaves to escape from the service of their masters, or to resist their authority, he shall be guilty of felony, and be punished by imprisonment at hard labor for a term of not less than five years.

"SEC. 18. No person who is conscientiously opposed to holding slaves, or who does not admit the right to hold slaves in this Territory, shall sit as a juror on the trial of any prosecution for any violation of any of the sections of this act."

Scores of such enactments remain, and new ones of like tyrannical and partisan character were added at the late session. And yet thousands of well-meaning citizens have been made to believe that the despotic partisan acts of that Legislature, intended to uphold Slavery, have all been repealed.

THE N. Y. OBSERVER.—On the 25th of March we made a quotation from the New York *Observer*, stating incidentally at the same time that it was an old school Presbyterian organ. The following in the quotation, and Dr. Cheever the person referred to:

"This preacher has taken more atrocious and treasonable ground than the most radical newspapers of the day. Whether we regard the decision of the Supreme Court as sound or not, we should be recreant to the plainest principle of the New-[illegible] we refused to [illegible] and government of God, and the civil government under which we live, if we did not express our unqualified abhorrence of the doctrine of resistance in this discourse. It is a disgrace to the city and to the nation, it is a disgrace to the pulpit and to the religion of Christ, that a man professing the spirit of the gospel should thus prostitute the sacred desk, the ministerial character and the house of God.

We have received from a Reverend gentleman of this city whom we esteem very highly, the following in reference to our classification of the *Observer*:

In the *Gazette* of March 25th there is an editorial, with a quotation from the New York *Observer*. It is there stated that the *Observer* is an Old School Presbyterian paper. This is not quite correct. One editor is old school, and another new school, but the paper does not claim to belong to either school, nor is it recognized by either school as speaking their sentiments. The *Gazette* will please make the correction in such way as may be becoming."

The correction, then, is, that the *Observer* is neither Old nor New School, but a little of both, and claimed, by neither.

In justice to ourselves we ought to say that we intended no slur upon any sect by stating what we had always supposed was the fact in relation to the *Observer* and what we were prompted to repeat on the occasion above alluded to, because the quotation came to us through the columns of another paper, the *Tribune*, we believe, in which the *Observer* was mentioned as an Old School paper.

THALBERG'S CONCERTS.—Some outcry has been made in this city against the agent of M. Thalberg, on the ground that he has fixed the price of the Concerts at Two Dollars, and that he intends to compel every person who buys a ticket to buy for *both* evenings.

Those who make these complaints have totally misapprehended the facts in the case. In the first place, no price has yet been fixed for the concerts, and none will be announced until the programme is forthcoming; and in the second place, the agent instead of forcing people to buy tickets for both nights, has simply announced that those who wish to secure seats for both nights can do so by leaving their orders at Kleber's. He does this as a mere act of accommodation. After the tickets are brought here for sale, which will not be for some days yet, purchasers can buy for one or both evenings, as they may prefer.

As to the price of the Concerts, we presume it will be fixed at a figure that will ensure remuneration to the manager of them. He has a right to put it at what he pleases; and if any one thinks it too high, he is not compelled to buy.

The assertion of our neighbor of the *Union*, that Thalberg is a *humbug*, is simply ridiculous. He has earned a world-wide fame, which has stood the test of many years. His reputation is fixed beyond the possibility of question.

NEW YORK AND THE DRED SCOTT CASE.—The special Committee of the New York Legislature, appointed to draw up an expression of the opinions of that body on the Dred Scott decision, and the proper course to be pursued relative thereto, have made a report, with resolutions and a bill. The joint resolutions are as follows:

Resolved, That this State will not allow Slavery within its borders in any form or under any pretense, for any time, however short, let the consequences be what they may.

Resolved, That the Supreme Court of the United States, by reason of the decision of a majority of its Judges having identified itself with a sectional and aggressive party, it has lost the confidence and respect of the people of this State.

Resolved, That the Governor be requested to transmit a copy of the report and bill and the resolutions to the respective governors of the States of the Union.

The bill provides in Section 1 that descent, near or remote, from an African, whether slave or free, of any color, shall not prevent any person from becoming a citizen of the state, nor deprive him of the rights of citizenship.

Section 2 provides that every slave brought into the State involuntarily or by consent of the owner, shall be free.

Section 3 makes it felony to hold as a slave, under any circumstances or for any time, in this State, any person mentioned in the second section, and punishes the same by imprisonment for not less than two years nor more than ten.

The resolutions and bill will undoubtedly pass.

IMMENSE CATHOLIC CATHEDRAL.—In the recent debate in the New York Senate upon Trinity Church, it was stated that the Roman Catholics of New York are about building, and have made the necessary preparations for a Cathedral at the upper part of Fifth avenue, of size exceeded only by St. Peter's and St. Pauls of the Old World, and the two towers of which are to rise one hundred feet above that of Trinity.

TOM Portland, Maine, municipal election indicates a great popular change there. A year ago the vote for Mayor stood 1837 Republican to 2115 anti. This year the vote is 1955 to 1550 anti. The City Council last year was four Republicans to 23 antis. This year it will stand 24 Republicans to four antis.

A CURE FOR

SCROFULA, TUMORS,

LIVER COMPLAINT, RHEUMATISM,

GOITRE, FETTER,
WHITE SWELLING.

The following article is from the pen of one of our most celebrated physicians, and one whose name, if we were permitted to mention it, would carry instant conviction to the public mind of the truth of all he states:

NEW YORK, Sept. 2, 1856

Messrs. Editors:—Permit me to occupy a little of your space in doing an act of humanity—for it is simple humanity—to place the afflicted and disheartened in the way of easily acquiring good health and spirits. I have had more than a hundred cases of consumption on my hands at one time. I have had liver complaints without number among my patients. I have had a dozen cases of fever and ague at once; a terrible case of scrofula, or king's evil; bilious disorders of every type, and one case recently of yellow fever. Nearly all of these I have safely treated, without the aid of calomel, or any of the poisonous articles of quackery. It is a genuine article of the materia medica, administered by every regular physician; and when it can be obtained pure, in a pure solution of Iodine, I know of nothing so powerful as an agent for the removal of disease. In consumption its effects are startling. In all bilious affections Iodine produces a specific cure. In scrofulous diseases Iodine is certain to extirpate the hereditary taint. I therefore warmly recommend Dr. Henry Anders' Iodine Water.

Prepared by Dr. H. Anders, New York, and sold at DR. REYNER'S Drug Store, No. 140 Wood street, Sign of the Golden Mortar.

Prof. Wood's Hair Restorer.—A Real Hair Restorer.

Mr. Samuel Jones, a Methodist clergymen, residing in Murrayville, Westmoreland county, says that his hair had been getting gray for the last twenty years, and was disposed to fall out. He used two bottles of Prof. Wood his Restorer, which entirely stopped the falling out of the hair all the hair resumed its original color, and has kept the color now for nine months. This is a common case, but we publish it because it is near home, so that the public may be assured that Wood's Hair Restorer is what it purports to be. Sold at one, two and three dollars per bottle, at DR. GEO. H. KEYSER'S, mh2:d&w No. 140 Wood st., Wholesale and retail Agent.

As a general remedy for diseases, to which all families are subject, *Hoofland's German Bitters* cannot be surpassed.

PHILADELPHIA, March 2, 1854.

Dear Sir—I would state for the benefit of the afflicted, that I have used your "Hoofland's German Bitters" myself, and in my family for a long time, and have always found them to do all you represent. I have found the 3 a great benefit in cases of Headache, Pains in the Side and Breast, Colds and Nervous Diseases, and earnestly recommend them to all who may be afflicted with diseases for which you prescribe them.

Yours, &c., B. M. PALEN,

Fire Proof Safes,

A Safe that will be safe against the ravages of fire can be had at DURFEE & BARNES' in this city. The following testimonial, which appears in the St. Louis Republican, of the 10th, speaks eloquents in their favor. The bullions of these Fire Proofs have established an enviable reputation through the extensive manufactures therefor.

To the Merchants of St. Louis and the Public generally.—In order to store with safety, Messrs. Durfee & Co., and their successors, Messrs. William Ivan & Co., who are agents for the sale of Durfee & Peet's Fire proof Safes, we hereby certify that upon opening our safe that was in the great fire of the 3d inst. [fire of the 3d inst.] on the morning of the 10th of November, 1854, that our books and papers have come out almost as perfect as they were on the 2d of August, and can cheerfully recommend them to the public.

The book and paper safe was this day opened in my presence, and I hereby certify that the large amount of books and papers therein contained were in good order and the writing perfectly legible. B. M. RUNYAN,

What is Iodine Water? A great deal of excitement prevails in regard to this new [illegible] ery, and you hear people say, why, Iodine is not new to us—we discovered it long ago—it was only five years ago, by a soda manufacturer of Paris named Courtois. It is not a mineral substance. It is found in sponge, oysters, seaweed, in various mineral springs, commingled with bromine. We attribute the medicinal properties of Cod Liver Oil to Iodine, which it contains in small quantities. The trouble hitherto with it has been that it was not put down in pure water, without combining with something else, which injured its medical properties. The Iodine Water then is a solution of Iodine in pure water, and nothing else. It was discovered by Dr. Anders' of New York, and is used in the same diseases as Iodine would be used for. It is a great alterative or purifier of the blood—drives off bad humors; makes Rheumatism let go its hold on the joints, and drives it out of the marrow of the bones. It traces up the weak nerves, and cures nervousness. It cures disorders of the secrets abundant life. It cures dropsy and diseases of the bladder and kidneys. It does not pretend to cure every disease, but only those we can administer medicine would cure. Dr. REYKER, 140 Wood street, will tell you all about it. Price $1 per bottle. my13:d&wT

TO INVALIDS.

Dr. Calvin M. Fitch

Author of the Invalid's Guide and Consumptive's Manual, &c., &c.

Will be at the ST. CLAIR HOTEL, Pittsburgh, Pa.

FROM

Monday Morning, March 16th,

TO

Saturday Evening, May 16th, 1857.

WHERE he may be consulted daily, Sabbath excepted, for Consumption, Asthma, Chronic Bronchitis, &c. Also, for Dyspepsia, Female Diseases, and other affections connected with or predisposing to Consumption.

If from any cause Dr. FITCH should be unable to remain during the whole of the period above named, the appointment will be contended by his associate, Dr. J. W. SYKES.

Those intending to consult Dr. Fitch are particularly requested to apply as early as possible, for on the occasion of his former visit to Dr. Fitch has found it utterly impossible to give all the attention he could have desired to the number who desired visiting him until the last, and so thronged was he upon him during the last few days of his appointment.

And Dr. Fitch wishes it furthermore distinctly understood that although he considers consumption a curable disease, and treats it as such, still that he does not pretend to raise the dead, nor to cure patients whose vital functions nor constitution is left, and those who with treatment from him must apply reasonably early in the course of their disease, and he would add also that both himself and his associate are accustomed to tell those applying their best friend, or medical man, does not apply who are unprepared or unwilling to learn the truth. A curative treatment will of course only be undertaken in case there exists a cure of remain. In cases where there is none the treatment must of course be merely palliative.

Consultation personally or by letter Free.

The following extract from D. C. Linsley's Book on Morgan Horses recently published by C. M. Saxton of New York, will show the estimation in which the "Wiley Colt," now the "Vermont Morgan," was held in the region where he was bred, and by men who were competent to judge:

"The Wiley Colt was foaled in 1843, the property of Mr. Hutton, of Canton, St. Lawrence Co., N. Y., bred by Mustapha Eaton, grandson of Norman, great grandson, by Justin Morgan. Dam by Harmon's Cock of Rock. Wiley proved a first rate trotting horse, and was sold in 1846 to Mich. and Merrill, of Litchfield. When a suckling colt, Mr. Hutton sold him to Mr. Wiley, of Canton, N. Y. In August 1850, Mr. Wiley sold him to Hon. Silas Bennett, of Burlington, Vt., who sent him to Virginia, and kept him in Augusta county, till the autumn of 1852, when he sold him to a company at Greensboro, Pa. He was a fine spring horse, and his stock is equal to any."
