PITTSBURGH:

THURSDAY MORNING, APRIL 23, 1857.

TWO COLUMNS OF INTERESTING READING MATTER WILL BE FOUND ON OUR FIRST PAGE.

KANSAS OFFICERS.—Emory, who headed the party that mobbed Leavenworth last Summer, and who, it is said, murdered Mr. Phillips, of Leavenworth, has just got an appointment in the Land Office. Mayor Murphy, the Border-Ruffian leader of Leavenworth, has been appointed Indian Agent in Clarke's place. J. O. Anderson, the Border-Ruffian prosecutor and bogus legislator, who resides at Lexington, Mo., has got an important Territorial appointment. Christian, the bogus Councilman, Pro-Slavery, has been appointed Postmaster of Lawrence, vice Mr. Babcock, a Free-State National Democrat removed.

Whitfield and Woodson, too, who are and always have been among the most bitter persecutors of the Free State men, are appointed to positions in the Land Office. Mr. Walker, were he an angel of purity and a model of justice, could find no use for either qualities in the land whither he goes. Is he not to enforce the laws of the bogus legislature? The frauds now being practised in connection with taking the census, the appointment of such men as the above to enforce them, the tying up of the hands of the only officer who may have the disposition to do right, such are the first steps of President Buchanan's Administration in relation to Kansas. Such is the answer to those whose ears were tickled with "Buck and Breck, and *Free* Kansas.

MR. STANTON IN KANSAS.—The new Secretary of Kansas Territory arrived at Leavenworth on the 16th. He will be acting Governor until Walker's arrival, and expects to be elected United States Senator under the bogus Constitution to be framed this summer.

On landing at Leavenworth, he made a speech of course, like all the other newly fledged Governors of that territory, who have preceded him. He told the people that he was a native of Virginia, and a resident of Tennessee, and they might infer from *that* what his "proclivities" were. There was no need of his being so explicit. No person could be an appointee of this administration whose pro-slavery "proclivities" were not fully ascertained and understood beforehand. He thought the Free State men ought to vote at the June election, (—"will you walk into my parlor?" said the spider to the fly—) expressed the opinion that the Constitution adopted by the Convention then elected, would be accepted by Congress, and wound up by informing his hearers that the Territorial (bogus) laws must be and would be enforced.

From this it is easy to perceive what the programme of the administration in Kansas is.—It is to enforce the tyrannical territorial laws, disfranchise the Free State men, thrust a pro-slavery Constitution upon them and force Kansas in as a Slave State. We shall see how the game works.

MOVING WEST.—The Western papers all are speaking about the floods of people now pouring into the new territories of the west. Massachusetts, Connecticut, Rhode Island, New Hampshire, and in fact, all the New England States are sending thousands and tens of thousands of their hardy sons to build up the great West. But not alone from New England come the emigrants. New York and Pennsylvania, and all the Middle States furnish their quota. From the plains of the South, too, come up regiment after regiment to join the army of emigration. The majority of the crowd go to Kansas, of course, but Illinois, Iowa, Wisconsin, Missouri, Minnesota and Nebraska all get a share, and a large share too.

MINNESOTA.—Gov. Gorman has issued his proclamation requiring the members of the council and House of Representatives of the Territory of Minnesota to meet at St. Paul on Monday next for the purpose of providing by law for holding Courts, and for enacting such laws as may be deemed necessary to enable the people to form a State Constitution, preparatory to being admitted into the Union as a State; also, for the purpose of disposing of the grant of lands made by the Congress of the United States at its last session, to aid the territory of Minnesota in constructing certain designated railroads therein.

A JURY FOR THE BURDELL MURDER TRIAL.—The work of drawing a panel of jurors for the next session of the Court of Oyer and Terminer, before which the Burdell murder case is to be tried, was terminated on Monday.

To meet the difficulty of finding a jury of twelve men to sit upon the case, who have not already formed an opinion as to the guilt of the parties charged with the alleged murder, a panel was drawn of five hundred men. This panel was drawn from four thousand names, whereas for ordinary trials at this Court, a panel of forty men only is drawn from two hundred names.

THE frigate Minnesota has been assigned the duty of carrying Wm. B. Reed to China. Mr. Reed is one of the new appointees who conquered his prejudices last fall and went in for Mr. Buchanan. He was a Whig and of the most decided stamp. Of the large number of that party who sided in the election of Buchanan, two only have received their reward, viz: Wm. B. Reed and a Mr. Rencher, formerly Whig Representative to Congress, from North Carolina. He is to go as Governor to New Mexico. J. B. Clay was offered a foreign mission, but would not or did not accept.

WILLIAMSON *vs.* KANE.—The *North American* of Tuesday, says: The last new feature in this case, is that Judge Haines has notified the parties that he will order all the special pleas to be stricken off, leaving the entry of the order and the delivery of his opinion until the ensuing May term. This will leave the case in a position to be tried as a case of ordinary trespass, in which the defendant will have every advantage that he could have had by special pleading, so far as questions of law are concerned, and bring all the facts before a jury, to be considered and judged by them.

A CLERGYMAN DEFENDS THE THEATER.—The Rev. H. W. Bellows, pastor of an Unitarian Church in New York, took a leading part at the anniversary meeting of the Dramatic Fund Association in New York on Monday evening, Mr. Richard O'Gorman delivered a very eloquent speech in response to the third toast—"Shakspeare." The Rev. Mr. Bellows responded to the toast of the "Dramatic Fund Association" His remarks were quite lengthy and received with repeated rounds of applause. A letter which has been going the round of the New York press, purporting to have been written by Fanny Kemble Butler, chiding Mr. Bellows for the course he is taking in this matter was pronounced by the reverend gentleman to be a forgery. He concluded his speech as follows:

"He hoped that he should be permitted, on some future occasion, to say all he had further to say that was grave and thoughtful upon their profession and the theater. Until then he could only wish prosperity to the Dramatic Fund, and that he might be permitted, from time to time, to see it increasing in public favor, and gaining in substance and popularity [Loud applause]."

MYSTERIOUS.—There is always something mysterious in New York and the latest excitement appears to be in reference to an alleged attempt of somebody named Scotchard to procure the release of the notorious forger Huntingdon. The *Herald* of Tuesday says,

To day it is intended to conclude the case for the prosecution, when a witness will be examined who is willing to swear that the accused asked him for material aid to carry out the enterprise, and also informed him that if he revealed the plot his life would pay the forfeit.

NEBRASKA.—A special dispatch to the *Phil. N. American* of April 20, says that no appointment has yet been made for the Nebraska Governorship, but it is understood that the post will soon be tendered to a distinguished South-

THE GRAIN CROPS.—Much anxiety is felt for the growing crops, all over the country. The backward season is general in its prevalence, and is not only injuring the winter crops, but is preventing the planting of spring crops. From a Circular issued in Chicago we extract the following:

The letters addressed to our Reaper manufacturers and Commission merchants from the States of Ohio, Indiana, Kentucky, Illinois and Iowa represent the winter wheat as generally killed, and farmers are putting in spring crops when weather will admit of their doing so. The season is so backward that not more than two-thirds of the usual number of acres can be got ready, and being so late the prospect for what they now is rather gloomy. We are still having continued cold, bad weather. If it does not shortly change for the better, we shall not raise enough wheat to feed our people. The immense emigration to Kansas, Nebraska, Iowa and Minnesota is consuming a large amount in the West. The stock of winter wheat in the country is less than it has been for years. Millers have been paying extreme rates for it in this city to take back to the interior.

In New York the stock is much reduced; probably not over 50,000 bushels in the city.—The millers in the State have light supplies. Receipts of wheat now average four thousand bushels per day.

We give an extract from a letter dated Peru, April 8th:—"Last year all the spring ploughing was done before this, and spring wheat, barley and oats sown before 20th March. Now nothing is sown, and ground has not admitted of one fourth the necessary plowing. You can rely on this. Also, if the next ten days are not very favorable, there is not one chance in ten for either spring wheat, oats or barley the coming harvest. The winter wheat is all killed in this vicinity." This is the tone of letters from all parts of the State. Also, dated Davenport, April 13th:—"In Rock Island there is no wheat and no stock of flour. As to the stock of grain held on this River it is extremely light, the greater portion of it having been shipped South. As to the growing crop, a small amount of winter wheat is grown in this section of Iowa, and and what little there is in the ground appears poor indeed. Little or nothing has yet been done towards putting out the spring crop, the weather having been unfavorable. Fully two-thirds of last year's crop has already been marketed."

In Michigan, the prospects for winter wheat are represented to be better than in any other State.

The same Circular states that the amount of corn in all the North-Western ports and along the Illinois roads is 985,000 bushels against 2,168,000 bushels at same time last year; and that all along the western railroads corn is not only scarce, but is going westward and southward instead of eastward.

The amount of wheat in store in lake ports, at this time, is 2,170,000 bush. It is reported scarce along the lines of all the railroads.

We take with many grains of allowance the statements of Circulars issued by grain merchants in the northwest; but it is not to be concealed that the present prospects of crops, all over the country, is any thing but favorable.

ASTONISHED.—The St. Louis *News*, a pro-slavery paper is "astonished" at the appearance of matters in the free city of St. Louis, and thus laments over Mr. Taylor:

Mr. Taylor is a Southern gentleman, an eminent citizen and a man of wealth—facts which, it was supposed, clinched him to anti-Bentonism forever. Judge of the astonishment and anguish of his old friends then, at seeing him give a hearty response to the sentiments of the Mayor, and declare that Kansas will be a free State, that Missouri is bound to follow, as her climate and economy are not adapted to slave labor!

What next? Anything. Surely the word "impossibility" ought to be erased from the vocabulary of politics, when the Missouri *Republican* becomes the confidential organ of Col. Benton, to defend him against the designs of the Missouri *Democrat*, and when the novel spectacle is presented in this city, of all the prominent National Democrats turning Fre esoilers and Emancipationists.

DEATH OF JAMES DUNLOP, Esq.—We regret to hear of the death of JAMES DUNLOP, Esq., which is announced in our paper of to-day. Mr. Dunlop was a gentleman who stood very high in the legal profession, being well-known all over the State. He was for several years a member of the State Legislature, and was the author of a Digest of the State laws and several other law books. He has been a practising lawyer in this city for many years, and was regarded as a very able and learned jurist.

A NEW YORK critic finds Madame Gazzaniga's upper notes "a little prickly." Owing to her having sung in Philadelphia first.

HON. W. W. WALRS(Republican) was on Monday week elected Mayor of St. Anthony, over Stauuchfield, Dem.

For the Pittsburgh Gazette.

Court of Quarter Sessions.

For some time past this Court has been very zealous in reforming the morals of the community by enforcing the law, in its most vigorous form, against crime and criminals. The poor miserable grog seller has been fined $100 for the offence of selling a little bad whiskey—others that are still poorer and little able to pay anything, have been fined $50 and $20 for the same offence. This is all right and not to be complained of at all—but why is it that those persons who are able to give bail for their appearance at this Court should go scot free; giving bail for their appearance being a nominal thing, for it appears during the past two or three years there has not been a single recognisance estreated to the County Commissioners, as far as we can learn. Now why is all this? Is the law made to oppress the poor and screen the rich, or is there a gross neglect of official duty somewhere in not enforcing the criminal law impartially?

From the Reading Press of Tuesday.

THE GREAT APRIL SNOW STORM.—THE DAMAGE AT READING.—It commenced snowing on Sunday evening last, with great earnestness, and in a very short time every exposed object was covered to the depth of many inches. It snowed during the night, uninterruptedly, fast and thick, accumulating on the roofs and by the great weight, causing many of them to crack under the pressure. On Monday morning the snow was fifteen inches deep, and on account of its solidity, nearly as heavy as lead.

The roof of the Reading Railroad workshops, extending from Franklin street to Chestnut, gave way between 7 and 8 o'clock in the morning, just the as workmen had commenced their work. The cast iron columns, supporting the roof, of great thickness and strength, snapped asunder like pipe stems. The iron roof came down upon the men in the shop, but fortunately the crash gave warning before it came, in time to enable them to escape, or find protection under the engines and iron frames, among which they were working.

The entire roof, rafters, and supporters of the vast building is a complete wreck, and the brick wall in many places is crushed outwardly, and also at the top, broken and thrown down.—The escape of the workmen, several hundred, without loss of life, is indeed miraculous. A few of the mechanics, however, were injured. The loss to the Company cannot fall short of $30,000.

The Potomac fishing season is about half gone, and less perhaps has been done within that time, says the Intelligencer, than during any similar previous period. Shad at from $14 to $16 per hundred, and herrings at $9,50 and $10 per hundred, are almost unparalleled prices. Indeed so dear are fish that intending buyers are in many cases holding back for cheaper purchases or no purchases at all.—*Balt. Sun.*

THE NICARAGUA ENGAGEMENTS.—We learn on good authority that the leader of the Nicaragua emigrant organized in this city has resolved to disband it, on account of intelligence received yesterday from New Orleans that no vessel would leave Nicaragua till the 15th of May. It is stated that on that day 500 men will leave New Orleans for the purpose of joining Walker. —*St. Louis News, April 17.*

WHEAT AND CORN.—The auditor of Ohio has made his report on the grain statistics of that State for 1856 to the Legislature. The number of acres sown with wheat was 1,407,778; bushels gathered, 19,569,820; the average yield, 18,81 bushels. The whole number of acres of corn planted was 2,205,282; bushels gathered, 87,782,434; the average yield, 39,71 bushels.

MAPLE SUGAR.—A correspondent at Coudersport, Potter county, Pa., writes as follows:

"More maple sugar has been made by the farmers of this county the present Spring than ever was made here before in one season. I think we have made 325,000 pounds, worth in cash 10 cents per pound, and really worth to the farmer 12 cents."

THERE has been a storm of thirty to forty hours all over the country. In some places a heavy snow has fallen. Hereabouts we have had floods of rain. Last night it was warmer than for a week before, and there seemed to be some prospect of Spring weather at the next clearing up.—*N. Y. Trib.*

A GERMAN COMPANY FOR KANSAS.—A German society in Chicago, numbering 800 members, are about to start for Kansas to form a city and settlement. Several weeks since they sent out three commissioners to Kansas, in company with Dr. Evans, whose purpose it was to select a site and make preliminary arrangements.

Correspondence of the Pittsburgh Gazette.

HARRISBURG, April 21.

Editors Gazette:—The following bills have passed the House to-day. An Act to incorporate the Allegheny Coal Company; an act relative to fees for copying books of records and indexes, in Allegheny county; an act authorizing the levying of a special tax in the borough of South Pittsburgh; an act to authorize the election of a clerk of the Orphans' Court in your county, and to create a separate office of clerk of said Court; a supplement to the act to incorporate the New Brighton Female Seminary at New Brighton, passed both houses finally, and goes to the Governor, and an act passed the House to incorporate the Cold Spring Water Company of New Brighton, in Beaver county; an act to authorize the School Directors of Fairfield township, Crawford county, to build a town and school house; an act to repeal an act annexing part of the farm of Elisha Robinson, situate in Butler county, to Ferry township, Armstrong county, for school purposes; an act to vacate a certain part of the State road leading to New Brighton, from Allegheny city; an act relative to roads in Indiana county; an act to charter the Allegheny Turnpike Road Company; an act to lay out a road from a point at or near Shannon's bay house, in Washington county, to McNeill's Saw Mill in Allegheny.

The whole day has been spent in the House upon the private calendar.

The Senate passed a bill and sent it into the House to-day authorising the election of a sixth Judge of the Supreme Court. The reason assigned for the passage of this bill is that a Judge is needed to sit constantly in the Court of Nisi Prius in the city, whilst the other five are also needed to sit in bane.

The Allegheny City Bank passed to night finally by a vote of 52 to 28. As this is the Senate bill it has now passed both Houses, and will go to the Governor for his signature. I presume he will sign it. It is said the Iron City Bank will also pass. The McKeesport bank bill was defeated.

The bill for the sale of the Main Line will pass to-morrow afternoon I doubt not. B.

DIED—On Wednesday morning, April 22d, JAMES COOPER, aged 57 years.

The friends of the family are invited to attend his funeral, on Friday, the 24th inst., at 10 o'clock, from his late residence, in Ross township, without further notice. SPECIAL NOTICES.

A Wonderful Remedy—Mr. B. D. Woods, late Justice of the Peace, East Birmingham, Pa., says:

"I have been afflicted with a disease of the stomach, palpitation of the heart and nervous headache, for nearly 15 years, and have spent upwards of hundreds of dollars in order to effect a cure, but to no purpose. After having used three bottles of your Holland Bitters, I feel myself entirely restored. I can eat and sleep well, and attend to my business with pleasure, and would therefore recommend it to all those who are similarly afflicted."

What is Iodine Water! - A gre at deal o excitement prevailsin regard to this new medical discovery, and you hear people say, Why, Iodine is not new certainly not. Iodine was discovered as long as forty-five years ago, by a soda manufacturer of Paris named Courtois. It is not a mineral substance. It is found in sponge, oysters, seaweeds, in various mineral springs, and many persons attribute the medical properties of Cod Liver Oil to Iodine, which it contains in small quantities. The trouble hitherto with it has been that it would not dissolve in pure water, without combining with something else, which injured its medical properties The Iodine Water than a solution of Iodine in pure water, and nothing else. It was discovered by Dr. Anders of New York, and is used in the same diseases as Iodine would be used for. It is a great *alterative or purifier* of the blood—drives out bad humors. Rheumatism is said to go hold on the Joints, and drives it out of the marrow of the bones. It is good in the weak nerves, and cures Neuralgia. It opens the liver and carries off the superfluous bile. It cures dropsy and diseases of the bladder and kidneys. I do not pretend to cure all diseases, but only those where an alternative medicine would be required. Dr. SAWYER, 140 Wood street, will tell you all about it. Price $1 per bottle.

Will be at the ST. CLAIR HOTEL, Pittsburgh, Pa., FROM
Monday Morning, March 16th.
TO
Saturday Evening, May 16th, 1857.

WHERE he may be consulted daily, Sabbath excepted, for Consumption, Asthma, Chronic Bronchitis, &c. Also, for Dyspepsia, Female Diseases, and other affections connected with or predisposing to Consumption.

If from any cause Dr. FITCH should be unable to remain during the whole of the period above named, the appointment will be concluded by his associate, Dr. J. W. STEES.

Those intending to consult Dr. Fitch are particularly requested to apply as early as possible, for on the occasion of his former visit Dr. Fitch has found it utterly impossible to give all the attention he would have desired to the number who delayed visiting him until the last, and so thronged upon him during the last few days of his appointment.

And Dr. Fitch wishes it furthermore distinctly understood that although he considers Common Sense a curable disease, and treats it as such, still that he does not pretend to raise the dead, nor to cure patients who have neglected the things our constitution left, and those who wish treatment from him must apply reasonably early in the course of their disease. And he would advise that both himself and his specialty are accustomed to tell those applying their real situation, nor need any apply who are unprepared or unwilling to learn the truth. A curative treatment will of course only be undertaken in cases where their aid is some one may remedy. In cases where there is none the treatment must of course be merely palliative.

Consultation personally or by letter Free.
