Grant Project.—We have just learned the completion.

From distant portions of this cocean-bound the present useightly bridge over the Allegheny river, at St. Clair street, and replacing it with a knowledge will be brought together: these difficulties and alregions bridge. The plan is been well matured, and has received the supportance, or sweather that the start here is the start to the sort is moving forward to the sort is moving forward to completion.

The Present bridge was built in 1819. It is the store in content that it was to be the project that the bill for the any thing of the sort is moving forward to completion.

DRAWING THE LIERS.-We learn by the New nlinety-two new members were proposed immediate and the register of the bridge is such, that it cannot be longer esfely need, without immediate and therough repairs of the arches and chord timbers.

In order that the necessary repairs may be made properly and without interruption, we recommend that the carriage-ways be closed forth with; to prevent the passage of all vehicles until the completion of the repairs. The sidewalts and the most be made properly and without inconvenience for 'oot passengers, as usual.

Grow R. Kichhaum, Givil Engineer.

J. W. Kerr, Archites.

If we remember the direct and immediate cause of this tempest, it was a successful attemp on the part of a majority of the members to excash end; to erect a new and substantial pier, of Freeport Stone, in the middle of the river; and to construct a splendid wire Suspendion and to construct a splendid wire Suspendion latest step in the absence of power to rule the clude the New York Espress from their reading Association.

Foreign Money Marker .- Portions of & letabuttments now standing would, in this case, be ter from London, published in the N. Y. It is proposed, also, to build the bridge in the most wolld and substantial manner, with in the most solid and substantial in the sides, cuspending it on four by the way is also the money editor of the Lon-strong wire cables; and it is estimated that it can be built for \$250,000.

Such a bridge, every one will see, will be an ernament of which the city might justly be proud. The bill also provides that the rate of toll for foot passengers shall be reduced from two cents to one cent, and that females shall always pass free. The increded travel over the bridge, it is rightly estimated, will more than compensate for this reduction.

Seak is a general sketch of the proposed enterprise. The bill to carry it into affect is now before the legislature, and we hope it may pass prompily.
