[illegible] DISPATCHER.

PITTSBURGH:

FRIDAY MORNING, MAY 8, 1857.

OFFICIAL PAPER OF THE CITY.

FREIGHT, May 6th, 1857.

A large and enthusiastic meeting was held in the Public Schoolhouse, in this borough, on Wednesday evening. The meeting came to order by calling Dr. Wm. T. Logan to the chair.—Wm. Frisby, Esq., Vice President, and John Alter Secretary. The object of the meeting was explained by Wm. P. Fullerton, and a committee of three, consisting of James B. Fullerton, Wm. Moorhead, and Joseph Griffith, were appointed to draft resolutions. In the absence of the committee the meeting was addressed by James A. McCullough, Esq., in his usual clear and forcible manner, after which the committee reported the following resolutions, and they were unanimously adopted:

WHEREAS, The Commonwealth of Pennsylvania has, at an enormous cost, constructed a line of public improvements connecting the Eastern with the Western portion of the State, to be used and enjoyed by her citizens as a great thoroughfare for travel, and an outlet for the products of her industry; and whereas, in view and in consideration of these advantages, and upon the faith of their continuance, the citizens of the Commonwealth have not only contributed their money toward the construction and maintenance of the said public works, but have also granted the right of way through their lands, either gratuitously, or for a very inadequate consideration. And not only this, but have invested large amounts of capital in the various business operations of civilization along the line of this thoroughfare, upon the very reasonable belief, that the government would never depart so far from her integrity as to commit any act calculated to cripple or ruin the industrial pursuits of her citizens. And whereas, one branch of our State Legislature has, in violation of one of the first principles of civil government, which is to protect all its subjects, passed a bill for the sale of the aforesaid public works, for nine millions of dollars, to a "SOULLESS" corporation, whose policy it seems to be, to build itself up, not only at the expense of other portions of the State, but at the expense of the honesty and integrity of the members of our Legislature. And whereas, it is our duty as citizens of this Commonwealth, and as parties having a legal, as well as an equitable interest in these improvements, to resist all invasions of our vested rights, whether they proceed from the cupidity of individuals, or the usurpations of a State, therefore,

Resolved, That we enter our solemn protest against the passage of the above or any other bill which will have the effect of defrauding the State out of her public works, and laying waste and valueless the possessions of the citizens along the line.

Resolved, That no government has the right to plunder any portion of its subjects for the purpose of creating, enlarging or sustaining a corporation, be it a Railroad Company, or what it may.

Resolved, That the citizens of this Commonwealth have a vested interest in all her public works, and that they cannot, either honestly or constitutionally, be delivered of such interests, without adequate compensation being made them.

Resolved, That the bill now before the Senate which has been conceived in dishonesty and passed thus far by corruption—contains in it the elements of robbery and the seeds of devastation, and its passage will have the double effect—first of relieving the State of their improvements without fair compensation, and afterwards of procuring their abandonment, which latter will, for miles in width along the line, diminish the value of property, darken and wither up mechanical and agricultural pursuits, and drive thousands of citizens from the State.

Resolved, That whilst we do not oppose the sale of any portion of our public works, we condemn all attempts either directly or indirectly, to close them up for the sole benefit of a monopoly.

Resolved, That whilst we earnestly urge our members in the Legislature to oppose the progress of this monster iniquity, we also invoke the executive veto to stay the hand of such reckless and hasty legislation.

Resolved, That a copy of these resolutions be forwarded to our members at Harrisburg, and that they also be published in one or more of the Pittsburgh newspapers.

DR. WM. F. LOGAN, *President.*
JOHN ALTER, *Secretary.*

FELL DEAD.—Coroner Alexander, Wednesday evening, held an inquest on the body of an old man, named John Wilson, a farmer who resided in Franklin township, who had died very suddenly. It appeared from the evidence that the deceased, who was over seventy years of age, started from his house on the Perrysville and Zellenople Plank Road, in company with a respectable farmer of the same township, Mr. George Mealy, and, after proceeding a short distance, fell down on the road and expired immediately. A verdict was rendered of "death from the visitation of God."

A YOUNG MAN, aged 16 years, a son of Esquire Bennett, of Westmoreland county, left home a few days since, mysteriously. A valuable horse was also missed from the stable. Several persons went out in search of the young man—one of whom was in our office yesterday, to inquire for tidings of the prodigal. We learned at a late hour last evening that the young lad had written to his father, from Hookstown, Beaver county, stating that he was well, was going West, and would write again, in a few days, giving his reasons for going off so quietly, and informing his friends how he managed to elude their vigilance.

FINAL HEARING IN THE MURDER CASE—PARTIES CONVICTED HOR TRIAL.—Charlotte Jones' Henry Fife and Monroe Stewart, charged with the wilful murder of the Wilsons, had a final hearing yesterday afternoon.

Five witnesses were examined—Alexander Speers, Wm. Allen, Dr. Penney, Wm. M'Connell and John Hutchison—but nothing new or important was elicited, except disconnected circumstances.

The parties were fully committed for trial.

NEW SPECIES OF HOSE.—Mr. John T. Whitten, Chief Engineer of the Fire Department, yesterday received from the East specimens of a new kind of hose, denominated the Grenoble Hose, made of hemp. It is said to be one-half cheaper, lighter and to be superior in several respects to the leather article. We understand it is manufactured in France. A specimen may be seen at the Mayor's office.

THOSE who relish a fragrant Havana or a morsel of "Anderson's Solace," or anything else in the way of choice smoking or chewing, will do well to drop in of a leisure hour, at corner of Penn and St. Clair streets, opposite St. Clair Hotel. Carlos Garcia, our clever Spanish friend, continues to sell this kind of article.

UNITED STATES DISTRICT COURT.—Before Judge Irwin.

In the case of the United States vs. Thomas B. Lukehart, charged with embezzling moneys from the United States mail, the jury retired last evening, and were directed to bring in a sealed verdict.

BURGLARY AND LARCENY.—Mayor Dehaven, of Allegheny City, last evening, committed to jail for trial two colored boys, named Knox Smith and William Wynn, charged with burglary and larceny, on oath of Priscilla Rodgers. The burglars entered at the cellar door, and stole a considerable amount of money, a gun, and several other articles.

THE ALTOONA MURDER CASE.—VERDICT OF GUILTY.—By a telegraphic dispatch from Hollidaysburg, received last evening, we learn that the jury, in the case of David Stringer M'Kim, indicted for the murder of Samuel T. Norcross, returned into Court after a short absence with a verdict of "GUILTY OF MURDER IN THE FIRST DEGREE." A motion for a new trial has been made and will probably be argued to-day.

THEATRE.—To-night is the benefit and the last but one of the engagement of Mr. Couldock, when he appears in the thrilling tragedy of "Ion," in which Miss Couldock makes her first appearance on the stage as "Ion." The performances conclude with the laughable farce of "Lend me Five Shillings."

PROFANE SWEARING.—John Mooney was committed to jail yesterday, for thirty days, by Alderman Boyd, of the First Ward, for drunkenness and disorderly conduct and profane swearing.

IMPORTANT INFORMATION.—Young men preparing for business action, should be qualified to take notice of transactions, lectures and contracts, in a form that will enable them to be correct and legible, and this must be done as rapidly as words are spoken. Heretofore this education has been confined to reports of papers only. But now this art which is styled Phonography, is taught to the large classes (153 Students) attending the Iron City College, Pittsburgh, opposite the Post Office, free of charge."

DR. BAUERBACK, in his travels on the cape of Good Hope says: I found very frequently among the Dutch Boers of the back country, *Ayer's Cherry Pectoral*, which they keep hung up by a thong around the neck of the bottle to a peg over their hammocks. Indeed this seems to be their sole protection against the throat and lung disorders which are quite prevalent among them. I thought it a speaking comment on the practical genius of the American people, that they should furnish the staple, I believe the only remedy this people buy to use. Asking if they used the same manufacturers Pills, they told me that better purgatives grew all around them than any body could prepare.

DAVIS has now arranged for examination, the valuable catalogue of antiquarian books, to be sold on next Saturday evening, on the second floor of his fine new Auction Buildings. None but valuable good books will fail to appreciate the the peculiar interest of this sale.

EPIDEMICS of every kind may be avoided by the free use of CARTER'S SPANISH MIXTURE, the greatest blood purifier ever known to man, for no contagious disease can find a lodgment in the human system, when the stomach, liver and bowels are in a healthy condition, and entirely free from all improper secretions, none of which can exist when brought in contact with this great Mixture.

PARIS STYLES OF GENTS' AND BOYS' CLOTHING carefully transferred from the best French reports of fashion can now be had at Carnaghan's, near the Post office, Allegheny city. Great care is taken in the manufacture of every article that buyers may readily see the peculiar neatness of style and perfection of the workmanship with which the whole stock is prepared. Custom work for men and boys attened to with care.

CARD.

ON THE DAY OF THE FIRST CONCERT of Mr. Thalberg in Pittsburgh, an article appeared in one of our city papers, and afterwards inserted in nearly all our newspapers, daily and weekly. Its insertion was literally paid for, and intended evidently to affect in some way or other the reputation and sale of Chickerings Pianos.

The article had been previously contradicted in *official form*, in the paper in which it first appeared, which was doubtless well known to parties interested. The object of these attacks must be too obvious to any person, being a corner about the subject.

Having been the agent for the Messrs. Chickerings in this city, upwards of twenty years, and I consider the members of that firm incapable of dishonorable action either in the manufacture of their instruments or the means used to promotetheir sale, I have still in this city and neighborhood alone, nearly one thousand of their Piano Fortes—the sale of their Grand Pianos in the city has been exclusively theirs to some of the finest Grand Pianos, and as far as I know to the entire satisfaction of their numerous purchasers.

Some of the most expensive Foreign Pianos have been brought here, and upon trial, have not been found to stand our variable climate. When a better article than Chickerings makes its appearance, I shall gladly offer the one, it will then be proper for purchasers to compare the two. Meanwhile I leave neither the instrument to my doings or means; all the quack advertisements that may appear upon the subject, trusting for the future that the merits of such advertisements from other sources they may come, will be properly understood.

JAMES H. MELLOR,
Agent for Chickering & Sons for Pittsburgh, Western Pennsylvania and Eastern Ohio, No. 81 Wood street between Diamond alley and Fourth street.

To the Public.

AN ATTEMPT HAS BEEN MADE BY interested parties to induce the public to believe that the Pianos which Mr. Thalberg uses in his concerts in the West, are the best in the world that he can procure of them, solely on that account and from disinterested motives. Now this belief is simply untrue and contrary to fact, it is positively false in every particular. Mr. Thalberg never thought or said any such thing. On the contrary, he makes no secret of his preference for the Risley Grand Piano, and it is only because Risley's Agents were unable to supply him—the instrument of that name having not yet been sold many weeks ago—that he was obliged to make use of the offers of other makers. It is neither fair nor generous to take advantage of a casual preference for it, to the disparagement of other and superior manufactures, which it is no compliment to the maker to have done in behalf is done. Mr. Thalberg's high estimation of the Pianos of Clark Piano, as his very favorable opinion of them during his visit here seems to have provoked considerable chagrin in certain quarters.

As to the Grand Pianos of RISLEY, PARK, it is quite sufficient to compare some of the instruments. They are above all censure. A splendid lot will shortly arrive in this country, when I would respectfully call attention of the Concerts to his tuner, MORR. RISLEY, and by the latter recorded to half a dozen gentlemen of this city, who will testify a different story, and warrant all that we have said in favor of the piano. Thalberg, of course, will play on "one and let free."

DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON,
FOR THE PERMANENT CURE OF SUFFERING FEMALES.

"The Woman's Advocate," of Philadelphia, (Mrs Anne M'Dowall, editor,) says:—This is the most valuable medicine for the diseases peculiar to women that we know of. A friend of ours, who for many years has been a sufferer, noticed the advertisement in the last number of the paper, procured a bottle. She found relief, and feels that she can most heartily recommend it to all who are suffering in a like manner. We have heard many say that it was a true remedy, but this is the case in which we have seen its effects. Our friend will be very glad to give Dr. Marchisi a certificate of its value to her if he desires one."

Pamphlets containing much useful information touching the nature and symptoms of the above diseases, together with testimonials from ladies of the highest respectability, as certified by the most satisfactory authority, to all which the attention of ladies and practitioners is respectfully invited, can be had gratis at the store of R. E. SELLERS & CO., and FLEMING, BROTHERS, druggists of Pittsburgh, who are satisfied with merely reading this notice, but call or send for a pamphlet. It will pay you and them to do so.

Great Cure of Piles.

CAMDEN, N. J., March 12, 1855.

Dear Sir—It is with much pleasure I tak this opportunity of informing you of the great benefit I have derived from the use of a few bottles of *Hoofland's German Bitters*, for a complaint of many years standing. Being afflicted with pain in the stomach, attended by severe attacks of the Piles, for which I tried a great many popular remedies, without affording me relief. Being advised to use the German Bitters a friend also, using in connexion for the Piles, your Ointment, I was induced to send for one bottle of the Bitters, by the time I had used which I found myself much relieved, and I would advise all the afflicted to use your valuable medicines, &c.

Respectfully, yours, MARGARET REPSHER,

The Best Cough Medicine—A Man 80 YEARS OLD CURED.—Some time ago, an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had not been expected any better account of without benefit; his talk on every occasion was to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral Syrup, which I gave him, and it entirely cured him to the astonishment of all,—and this after the case more remarkable is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

TELEGRAPHIC.

NEW YORK, May 7.—This afternoon the prosecution closed against Mrs. Cunningham. Judge Dean moved that the case be dismissed unless the District Attorney would call as witnesses Eckle, Snodgrass, and Helen and Augusta Cunningham. The court refused. Judge Dean then moved the dismissal of the case, on the ground that the court was not properly constituted. The motion was not entertained when the court took a recess.

SECOND DISPATCH

NEW YORK, May 7.—The Burdell murder case opened for the defence. Dr. Carnochan stated his theory that the whole affair was committed by a right handed person. Two other witnesses were examined whose testimony was wholly with reference to the alleged marriage.

WASHINGTON, May 7.—At the session of the Academy of Medicine last night, Dr. Wayne of Baltimore, made a communication concerning the National Hotel disease, accompanied by a letter to Dr. Hall, of Washington, showing that the disease originated from putrid exhalations.

Mr. John F. A. Sandford, the known nominal plaintiff in the Dred Scott Case, died in this city on Tuesday.

AUGUSTA, Ga., May 5.—A tremendous storm of wind and rain occurred at Mobile and its vicinity on Friday and Saturday last. It is estimated that two feet of water fell on a level. The city was inundated, and several persons were drowned in the flood. The supply of drinking water and gas were cut off in consequence.

ST. LOUIS, May 7.—The river is swelling slightly at this point. The rise is supposed to have come from the Upper Mississippi, as the Missouri and Mississippi are falling. The weather is clear and warm. The Galena Advertiser says the steamers St. Croix and Falls City sunk in Lake Pepin, and that five other boats (names unknown) had been cast ashore.

BOSTON, May 7.—The ship Walpole, which arrived here yesterday from Calcutta, rescued, on the 26th of January last, the captain and crew, fifteen in number, of the British bark Sir Colin Campbell, and landed them at Capetown. The bark sank two hours after the crew were taken off.

WASHINGTON CITY, May 7.—The New Orleans mail of the 30th ult., is received. Opinions are divided as to permanent injury of the sugar crop. The cotton crop is materially damaged

WASHINGTON CITY, May 7.—James G. Campbell has been appointed Marshal of the Western District of Pennsylvania vice Frost, whose commission has expired.

NEW YORK, May 7.—The steamer Leopold I. left Southampton on the 23d and arrived here today. Her news has been anticipated by other arrivals.

CHICAGO May 7.—The old Oswego line propellor Kentucky arrived at Milwaukee this morning with the first freights through from New York.

NEW YORK, May 7.—Cotton unsettled; 800 bales sold; buyers demand a reduction of prices, but holders remain firm. Flour is buoyant; 2,-800 bbls sold; State has advanced 5@15c. Wheat is unsettled; 13,000 bus sold; all qualities have slightly advanced; sales of Southern White at $1,65, red $1,65. Corn buoyant; 89,000 bush sold at 89@94. Pork closed buoyant at $23,-50. MONETARY AND COMMERCIAL

There has, for the most part, been a heavy demand for money during the week, and the market has continued quite stringent, but the pressure has not been very severe and subsequently to the payment of the 6th matters appeared a little easy aspect. We are now approaching the dull season, and this, with a comparatively easy market on the Eastern seaboard, will tend to equalize the demand and supply, so that we may reasonably expect an easier market from this time than has been experienced for two or three months past. The favorable crop prospects are exercising a favorable influence and should these continue to prevail, the effect upon the money market will be very decided. Rates of interest have not varied. The regular discount terms do business 6 to 12 per cent. Outside the range is from 12 to 24 per cent. The street supply of good paper has been fully equal to the demand, but this is now on the decrease.—Chi. Gaz.

RIVER TRADE.

Yesterday was a delightful day. May has come at length indeed. The river raced down yesterday as rapidly as it ran up on the 1st of January last. It was falling so rapidly that the fifteen foot mark was disclosed.

The J. C. Fremont, and the Jacob Poe from St. Louis and the Forest City and Melrose from Wheeling and Lasalle, respectively arrived yesterday morning. They all had very light loads. The Melrose was talking about hanging up a little. The loads of boats going out are larger than of those coming in, but it takes considerable time to pile up the freight. The J. H. Done, for St. Louis and the Rochester for Cincinnati, went out yesterday, both of them loaded down with freight and carrying a very fair lot of passengers.

During this river more than 40 barrs of coal boats, loaded down have gone out. We are not able to state the exact number because the water was so high that many of these went over the Monongahela dams and thus were not counted at the locks. The number is however more than fifty

The pleasant weather of yesterday gave a little stimulus to business on the landing. Iron, nails, glass etc. were passing on board the boats with some spirit.

The next little steamer for Cincinnati, Captain Reed, will be the Monongahela bridge and will probably soon be towed. We hope Captain Reed her robust commander may be successful in his enterprise.

The New York, Capt Gordon, to Cairo Dean, Capt Reed, Nash Holmes, Capt Rummell, were to leave Cincinnati for Pittsburgh on Wednesday.

The Memphis packet Belfast has been fully repaired at Cincinnati at a cost of a little over $12,000, and is in good order as ever. Southern freights are scarce at Louisville, and boats leaving there necessarily go out light.

The Cincinnati Gazette of Wednesday says:

On the Levee yesterday, because of the continued inclemency of the weather, business was very dormant, and but little was accomplished. The Wellsboro brought in 400 tons of freight all Eastern goods, for this port. The St. Louis' freight is very much behind. She has only 200 tons freight. Also the New York, from St. Louis, with 15 casks of Lard, and a few Dry Hides. The W. H. Russell has also come up from St. Louis, with 500 sacks of Rye. She reports trade as exceedingly dull, and her cargo consists, that has reached the wharf. St. Louis are offering to carry ground freights to Pittsburgh for 15 cents and other freights in proportion. And not able to get it if they would carry it for nothing. The trade above St. Louis is also getting exceedingly dull, and rates are becoming distressingly low.

THE SMALLEST STEAMBOAT WE EVER SAW.—The smallest boat ever built, ever built, has arrived. She came to the Levee, Cincinnati, some time on Thursday night—remained all day yesterday—and is so small, that we doubt whether a dozen persons, altogether, could be her at the landing—and yet she is propelled by a large sized steam engine. Size is her name. She is so small, that were she a living thing, we would have supposed that all her blood came from one pimple on the wrist. The name of this steamer is the "Midget," and she is from the head waters of the Ohio. She accomplished the trip in less than a month, never running during the night, and slackening her big "ching like speed at every dangerous place. This wondrous steamer's crew, including cradle, mates, pilots, engineers, clerks, cabin boys, and wench, cooks, and steamboat maid, consisted of three men and one boy. The Midget's dimensions are the following: Length of keel, 13 feet; length of hull, 25 feet. She draws 9 inch light. Has one boiler, each 3 inch in diameter, with two chimneys, which, when in full blast, are the best probably left for St. Paul, between which, and a place called Minneapolis, she is destined to be employed as a packet. Although she has to be towed, she supplies one general cooking, sleeping, cooking and writing apartment, which has been fitted up with every comfort, and pronounced by her larger sisters to be a luxurious little affair.

While on board, we could see that Capt. Hart and his crew of two men and one boy were as happy and proud as the Midget boat was the largest and finest on the river. Capt. John Hart seems to have a penchant for small boats and small crews. We never saw one of the kind which never, to our knowledge, appeared in print!

About eight years ago he built the command of a diminutive craft at Pittsburgh—named down the Ohio and the Mississippi to New Orleans—from there to through Red River, Texas, to Marshall, Texas. He returned by the same route and up the Brazos river. Capt Hart, his small boat, and his small crew, attained a high interest in the country, and the smallest establishment of the kind ever seen there—and the smallest ever seen anywhere. We have had no dissolution will arise on your deck, or in your small circle and that you will have success among the Minnesotians.—St. Louis Pun.
