INTERESTED ABON MEXICO.—Our regular Mexicon mail, at band this morning, brings fuller and later intelligence than we had last evening—to the let tost from the city of Mexico. The Sonora fillbusters had been completely routed near the village of Coborco, sixty of whom were taken prisoners, and among them Capt. Crabb binnelf, who was severely wounded. The engagement, says the Trail a' Union, was severe and bloody. The prisoners were all to be shot. The Estandarte publishes the following official account brought by the Extraordinary

ing official account brought by the Extraordinary of the 21st from Maxatian: ing official account prought by the Extraordinary of the Zist from Massitan:

The first of April, a body of the National Guarde, under Capt. Radigners, met at the village of Caborca, the filliboaters who entered the State of Bonora by way of Bonoyta. The fillibusters had seized upon the village. The Guards attacked it vigorously. In the first conest, Capt. Rodrigaes fell mortally wounded. Capt. Crabb also was wounded and eight of his men killed. The Guards, however, finally succeeded in getting possession of the church, which proved an advantageous position.

On the 2d the fillibusters found themselves in possession of two houses in face of the church, but surrounded by a force of 200 to 800 men. Talings remained in this condition about four

Things remained in this condition about four days, the Sonorians meanwhile strengthening themselves. On the evening of the 6th one of the houses in On the graning of the 6th one of the houses in possession of the fillibusters was fired. The flames communicated rapidly to the other, and in half an hour both belidings were in a blaze. An attack was also made upon the besieged from without, and, among other things, two barrels of powder belonging to the fillibusters exploded, doing dreadful ascaulton. Finally, they surrendered at discretion. The number of prisoners was fifty nine, and among them Capt: Orabb himself. Twenty four rifles and some munitions also fell into the hands of the Sonorians.

This is the substance of the account given by the Mexican papers, whatever truth there may be in it. The number of fillibusters is estimated by the 'same authority at one hundred and fifty: the Sonorians, on the 6th, numbered seven
