"A Kun to Nicaragua."

The number of Bischwood for the present month, among a series of excellent papers, contains a very racy sketch of the fillibustering ex-

claimed actulated parielation, and regulated the idea that government has any authority in that territory in any manner whatever.

The surveyor-general has been threatened with yiolone several times, and at last forced to leave for safety. Judge Sillog could not acceute the functions of his office, and concluded to visit Washington to see what could be done.

Mrs. Farnham, of Salt Like City, had been threatened and compelled to leave, and cho came on in the company which arrived yesterday.

The orince alleged against her, was "boarding gentiles," which was contrary to the will of the general government to establish any authority in Utah. That was their country, and no power on earth shall interfers with them.' They had a code of laws made by themselved, and no power on earth shall interfers with them.' They had a code of laws made by themselved, and no power on earth shall interfers with them.' They had a code of laws made by themselved, and no power on earth shall interfers with them.' They had a code of laws made by themselved, and hop should enforce them, establish and maintain their own courts in spite of eposition. This is illustrating the principle of 'squaster' governignty' with a vengeance.'

And it is part of the people, but still prove the part of the people, but still the part of the people, but still prove the thought the country as the last forced to leave and the bene elected.
