TREADLY NORTHER PRINTED BY THE COLUMN TO A COLUMN TO A

Brighton, called by the very neat and well chosen name of Moreover devith fallen wood; the riches of the soil were lavished upon unightly branches and useless weeks. Not to death of Thomas Moore who was stabled upon unightly branches and useless weeks. Not to death of Thomas Moore who was stabled and adorred serpentine walks, choice clusters of flowers and fine bedge rows, while the architect has rearred out of the most symmetrical and convenient with gas and supplied with water throughout, and from its casternity with against one of the most strengthout it is as clear as a pin; it is lighted trough at all convenients.

This Morning, at 10 o'clock, in Davis' new houldings any where to be found. Everything in and about it is as clear as a pin; it is lighted trough at state carrenity with against one of the most strengthout, and from its casternistic a most enchanting view opens through at the carrenity with a glimpse of the ilver tread of the Beaver, as it winds past Bridgowater, which is in full view, nestling in the shadow of lotty hills and reposing in the midst of rich foliage and verdant fields.

Mr. Taylor has adopted a thorough system of the season and assistance of mental and moral of the stable of the same of the mental and moral of the stable and responsing in the midst of rich foliage and verdant fields.

Read the Following:
OFFICE OF THE RECEETE STATE INSTRUMC COMPAT,
No. 19 Front st., between Main and Speamore,
Concinnati, Obio, Dec. 10th, 1830.
To all whom it may concern:—This is to certify that I have examined specimens and roofs of W. E. Chinas & Co's Fire and Water-Proof Cement Roofing, and believe it to be eminently subpries to any other kind of Roofing winches and eye winces of a severe trial of one of these roofs, from a large volume of finne from an adjoining building, which struck directly upon the roof and cornice for nearly half an hour. It stood the trial beyond sit expectations, and naved the building.

[Signed]
T. W. HARKELL, President Backers Slate Indurance Co

I have examined W. E. Chilles & Co's Elastic Fire and Water-Proof. Cement Roching, and as far as I can judge, consider a good invention, and as willing to insure buildings thus protected upon the same terms as I insure how covered with tetal.

CINCINIATE. Decomber 12th, 1856. g.

To all sohom if may concern:—This is to certify that we have adopted W. E. Chille & Co's Elastic Fire and water Proof.

Cement Roading upon our store and dweelling houses. It has given the most perfect satisfaction, see an economical it of all wishing Fire and Water-Proof Roading. [Signed]

Gas Fixtures, No. 22 West Fourth street.

Flexible, Fire and Water-Proof Roofing.

ADAIR & GRANT, Proprietors,

No. 57 Water Street, Pittaburgh, and P. Reterson's, Allegheny.

THIS IS AN ARTICLE SUPERIOR TO ANY OTHER IN: THE MARKET. IT IS used extensively in New York and Phillodelphia, and is well approved. It is applicable to covering Foundries, Dwellings, Warehouses, Bridges, Steamboats and Railroad Cars.

It will first longer than Metallic Roofing or Shingles, and resists the various changes of climate—neither affected by cold, heat or damp. Its principal ingredient is of an extraordinary derive nature, and it never losses this classicity. It can be readily applied to all kinds of noise, dat or steep, old or new, on from, tim or wood. It will not melt in warm weather, or crack in cold, and it is not injured by being transpet upon.

It is not injured by neing transper upon.

It is Both Fire and Water-Proof. For further information, apply to the **1857**. TRANSPORTATION. 1857. CAPACITY ONE HUNDRED TONS DAILY. LLOYD & CO., [SUCCESSORS TO LLOYD & LEMON...]
