Squatter Sovereignty Ignored.

The line of distinction, which the leaders of the pro-slavery Democracy have been compelled to draw between Utah and Kansas—Mormonism and Slavery—in the application of the sublime doctrine of "popular sovereignty," which has been promulgated, with so much unction by the savans of the party on both sides of Mason's and Dixon's line, must be highly edifying to the disciples of that political school who are presumed to swallow platforms and gulp down political manifestos, "in all sincerity and truth." We can infector, "in all sincerity and truth." We can shall yield it a composed to state that the Legislature have Constitutional authority to repeal the tonnage tax.

We will presume that this individual has had the advantages of the teachings of the greater and the lesser lights of the ocracy in the last Presidential campaign, and has, consequently, at his finger ends the luminous notions advanced by that party during its great struggle in behalf of Slavery extension and Southern Aggression. How he can reconcile the position, maintained in the annexed extract, with all the other positions assumed by his party lenders on this subject, is a self alone to determine. In a recent speech at Springfield, Illinois, Senstor Douglas thus disposes of his former teachings,

Virginia slave-husbands, as a common circumstance, have a plurality of wives, and no apologist for slavery has ever presumed to say that the domestic relations of the negro married parties are respected either by the customs or laws of slave-holding communities. Husbands and wives, and children at a tender age, are placed under the hammer of the auctioneer, and sold off to various sections

of the country, and separated for ever. When the free-state men of Kansas made an effort to save their territory from this blighting curse by invoking the interference of Congress, "pop-ular sovereignty" was the stumbling-block

This "popular sovereignty" doctrine is indeed wonderfully mysterious in its operation, and poor Mr. Douglas will have a sorry

time before he gets through with it. THE ANTI-RESTERS AGAIN.-A new trouble has arisen in the Anti-Rent District, in the town of Berne, about twenty-two miles from Albany. Sheriff Brayton, with several deputies, on Saturday afternoon was proceeding there to make a sale of property held by a man named Shultz, when they were fired upon by some persons conccaled in the bushes by the roadside. No one was injured, though one of the party received a Shot through his hat. They immediately gave chase, and succeeded in capturing Shultz's son, who had a gun in his possession. The Sheriff then proceeded to Berne and made the sale without further trouble. Subsequently several other arrests were made, and young Shultz was

committed after a preliminary examination.

ELECTION IN KENTICKY.—The election for ELECTION IN KENTCERY.—The election for Appellate Judge in the Louisville District is yet undecided. The District contains twenty-one counties, and the returns come in slowly. Accounties, and the returns come in slowly. tempt which the Five-Point Democracy of New York (we speak of them to mark a distinction between them and what decent men are left in the party) under the lead of Mayor Wood have been making to bring that great city into a condition of anarchy, and to treat with contempt the enactments of the properly constituted as thorities, seems likely to result in complete confusion. The New York Times says we have good reasons for stating that we believe the decision of the Court will be given in favor of the con-stitutionality of the bill by a very large majority. Such a decision will disappoint no one but Mayor Wood and the deluded men who have trusted implicitly in the power and wisdom of that functionary. Of course he will not attempt to make any further opposition to the law after the decision of the Court of Appeals shall be made known; but he will quietly take his seat in the Board of Commissioners, and endeavor to

obtain the control of the body which he has and turns his back upon the confiding Mormon heretofore refused to recognize.

"Mr. Douglas said ho had heretofors advocated popular covereignty for all the Territories, but that he had now become conjunced that the Mormons were traitors—ententies of the Union—were treacherous secundrels and murderers. He was compelled to revere his old opinion. The organic act of the Territory should be repealed. He said that the cational governent onglit to not with vigor—move quickly—and when there it "onglit to apply the knile and cut out this pertiferous cancer which was growing within, and would destroy the body public."

Alas and alack! for the great Democratic doctrine: the saving clause in the creed of modern Democracy, and the soundest of planks in the famous Cincinnati Platform! The mutability of the principles of the party which elevated Mr. Buchanan to the Presidency passes all understanding! morrow—"sometimes pig and sometimes puppy"—no one can predict what its position will be a year hence. It is only unchangeable in its attachment to the "flesh pots", of this great nation, and to secure them there is no evil too monstrous for them to inflict on their country.

We regard Mormonism with its hundred and one abuses, as merely an exaggeration of the evils of slavery as tolerated in the Southern States. It seems as though Utah with its harems and its disregard of the social and domestic relations, is but a reflex of the condition of Southern plantation life and servitude. Polygamy is by no means original with the followers of Brigham Young, who practice it on the shores of Handword and St. James's," and the successful plays of "Time Work Wonders," and "The Bubbles of the Day."
