Pittsburgh Gazette.

SUGAR MADE FROM THE CHINESE SUGAR CANE.—The following interesting piece of information we take from the New Orleans Delta, of the 21st. It is the first recorded evidence we have seen of the production of sugar from the species of Chinese sugar-cane so extensively planted in the United States. It has been asserted that the cane will produce molasses only, probably because those who attempted to make sugar were not well skilled in the method of producing it. But if the fact mentioned below is well authenticated, sugar is as much a product of the cane as molasses, and a better knowledge of the treatment of the plant, with improvements, which will, grow out of experience, will probably make it all that is desirable in the production of that common necessary of life.

The Produce of the Chinese Sugar Cane.—Mr. J. D. Layton, connected with the extensive sugar refinery of Belcher & Bro., of St. Louis, furnished us yesterday with samples of sugar and syrup, which can be seen at our counting room by those curious in such matters, the produce of the Chinese sugar-cane from the plantation of Col. Ives, of Terre Bonif. In May last year, Col. Ives put one-fourth of an acre under cultivation, which ripened by the first of August, producing two barrels of syrup and fifteen bushels of seed. In December, following the second crop was matured. This season Col. Ives has, we learn, some two hundred acres under cultivation, which he expects will be ready for cutting down in August, and will yield at least forty thousand dollars.

Mr. Hedges publishes in the National Intelligencer, a correspondence with the American Legation at Paris, containing the opinion of M. Louis Vilmorin, one of the most learned (theoretically) agriculturists of Europe, who has made a particular study of the sorgho plant. This gentleman says, in substance, that the plant must have attained maturity to enable its juice to be crystallized. The sugar is preceded in the juice by a gummy principle, which seems to be transformed at a later date, or its proportion diminished in exact correspondence with the increase of the sugar. The gummy principle obstructs in two ways; for, besides being a serious obstacle to the commencement of crystallization, it afterwards renders it almost a matter of impossibility to purge the sugar of that obtained. This difficulty only presents itself in unripe canes, for, as soon as the juice attains a density of 1,080 and more, they contain little else than crystallizable sugar, and their treatment presents no difficulty. Mr. Vilmorin's experiments have been on a small scale, and he says it is necessary to be very prudent before applying the experiments of the laboratory to practical operations.

Rolling Mill for sale.
BY AN ORDER OF THE COURT OF COMMON PLEAS of Scioto county, Ohio, to me directed and issued upon application for the dissolution of the Copartnership of the SCIOTO ROLLING MILL COMPANY, with, ON THE NINTH DAY OF JULY, 1857, offer for sale to the highest bidder THE SCIOTO ROLLING MILL, together with all of the Real Estate, Machinery and Tools thereunto belonging. Sale to commence at 10 o'clock, A. M. and to be made at the office of the Scioto Rolling Mill in the city.

This Mill has been in operation about two years, and is in good repair and perfect running order. It has one 18x 36 Mill with two Heating Furnaces; one small Mill with two Heating Furnaces; one Sheet and Boiler Iron Mill with four Heating Furnaces, together with a full assortment of Rolls for all of the mills. It has one Forge all complete, with nine Rolling Furnaces and one Scrap Furnace; one Wrought Iron Hammer and one Squeezer. It has a capacity to turn out twenty tons of manufactured Iron per day, with power and room enough to almost double its capacity. It has two large Engines, with cylinders twenty-six inches in diameter, and one small Engine or Doctor. The fly wheel is ten feet long by 153 wide. There is a 8-plate Mill attached containing two Machines with a Double Heating Furnace, capable of turning out thirty kegs of nailes per day.

This Mill is very advantageously located for the purchase of pig metal, inasmuch as eighteen iron Furnaces make this city the depot for their iron, which is brought in on the Scioto & Hocking Valley Rail Road.

The terms of sale are:—One-fourth cash, one-fourth in six months, one-fourth in nine months and one-fourth in twelve months from the day of sale, with approved security and interest at the rate of six per cent. per annum on the deferred payments. Possession will be given immediately to the purchaser.

For farther information apply to the undersigned at Portsmouth, Ohio, June 3, 1857. LEWIS C. DAMARIN,

RESOLUTION

Proposing Amendments to the Constitution of the Commonwealth.

Resolved by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met—That the following amendments are proposed to the Constitution of the Commonwealth, in accordance with the provisions of the tenth article thereof.

FIRST AMENDMENT.

There shall be an additional article to said Constitution to be designated as article eleven, as follows:—

ARTICLE XI.

OF PUBLIC DEBTS.

SECTION 1. The State may contract debts, to supply casual deficits or failures in revenues, or to meet expenses not otherwise provided for: but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one or more acts of the general assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars, and the money arising from the creation of such debts, shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SECTION 2. In addition to the above limited power the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts, shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SECTION 3. Except the debts above specified, in sections one and two of this article, no debt whatever shall be created by, or on behalf of the State.

SECTION 4. To provide for the payment of the present debt, and any additional debt contracted as aforesaid, the legislature shall, at its first session, after the adoption of this amendment, create a sinking fund, which shall be sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars, which sinking fund shall consist of the net annual income of the public works, from time to time owned by the State, or the proceeds of the sale of the same, or any part thereof, and of the income or proceeds of sale of stocks owned by the State, together with other funds, or resources, that may be designated by law. The said sinking fund shall consist of such public works, unless the same shall be sold or disposed of, as aforesaid, and may, from time to time be increased by additions to the sinking fund established by law, until the amount of such debt is reduced below the sum of five millions of dollars.

SECTION 5. The credit of the commonwealth shall not in any manner, or event, be pledged, or loaned to, any individual, company, corporation, or association; nor shall the commonwealth hereafter become a joint owner, or stockholder, in any company, association, or corporation.

SECTION 6. The commonwealth shall not assume the debt, or any part thereof, of any county, city, borough or township; or of any corporation, or association; unless such debt shall have been contracted to enable the state to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the state in the discharge of any portion of its present indebtedness.

SECTION 7. The legislature shall not authorize any county, city, borough, township, or school district, by virtue of any law passed, or to be passed, to become a stockholder in any company, association, or corporation; or to obtain money for, or loan its credit to, any corporation, association, institution or party.

SECOND AMENDMENT.

There shall be an additional article to said constitution, to be designated as article XII, as follows:

ARTICLE XII.

OF NEW COUNTIES.

No county shall be divided by a line cutting off over one-tenth of its population, (either to form a new county or otherwise) without the express assent of such county, by a vote of the electors thereof; nor shall any new county be established, containing less than four hundred square miles.

THIRD AMENDMENT.

From section two of the first article of the Constitution, strike out the words, "*of the city of Philadelphia, and of each county respectively;*" from section five, same article, strike out the words, "*of Philadelphia and of the several counties;*" from section seven, same article, strike out the words, "*nor the city of Philadelphia nor any,*" and insert in lieu thereof the words, "*nor any;*" and strike out the words, "*four, same article,*" and in lieu thereof insert the following:

—SECTION 4. In the year one thousand eight hundred and fifty-four, and every seventh year thereafter, representatives to the number of one hundred shall be apportioned and distributed equally, throughout the state, by districts, in proportion to the number of taxables in each district as the several parts thereof; except that any county containing at least three thousand five hundred taxables, may be allowed a separate representation; but no more than three counties shall be joined, and no county shall be divided, in the formation of districts. Any city containing a sufficient number of taxables to entitle it to at least two representatives, shall have a separate representation somewhere, and shall be distributed into districts of adjacent and contiguous territory, of equal taxable population as near as may be, each of which districts shall elect one representative.

At the end of section seven, same article, insert these words, "*the city of Philadelphia shall be divided into single senatorial districts, of adjacent territory of compact form and as nearly equal in taxable population as possible; but no ward shall be divided in the formation thereof.*"

The legislature, at its first session, after the adoption of this amendment, shall divide the city of Philadelphia into senatorial and representative districts, as above required; provided, such districts to remain unchanged until the apportionment in the year one thousand eight hundred and sixty-four.

FOURTH AMENDMENT.

There shall be an additional section to the first article of said Constitution, which shall be numbered and read as follows:

SECTION 28. The legislature shall have the power to alter, revoke, or annul, any charter of incorporation hereafter conferred by, or under, any special, or general law, whenever in their opinion it may be injurious to the citizens of the Commonwealth; in such manner, however, that no injustice shall be done to the corporators.

IN SENATE, *March 27*, 1857.

Resolved, That this resolution pass. On the first amendment, yeas 24, nays 7; on the second amendment, yeas 25, nays 6; on the third amendment, yeas 24, nays 6; on the fourth amendment, yeas 23, nays 4.

Health and Strength Must Inevitably Follow its Use.

Boerhave's Holland Bitters,
THE CELEBRATED HOLLAND REMedy for Dyspepsia, Disease of the Kidneys, Liver Complaints, Weakness of any kind, Fever and Ague, and the various affections consequent upon a disordered Stomach or Liver, such as Indigestion, Pedids or Stomach Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others affected a decided cure.

Nature finds in new country to combat, with the delightful toniz in its system. Its effects are almost magical, for the cure permanent. It communicates no violent shock to the system, but by arousing the vital energy to normal action, enables it to throw off the cause, and thus thoroughly eradicates the disease.

When its medicinal virtues are so universally acknowledged, and particularly here, where it has become so popular as a family medicine, that it is sold by many of the grocers, as well as by all the druggists, it would seem needless to offer further evidence; yet as there are doubtless some who have tried many advertised remedies, and still suffer from Dyspepsia in some of its dreadful forms, we will give the following certificates, the authenticity of which cannot be doubted, coming as they do from persons so well known.

WHAT IT IS DOING FOR THE SICK.

Wm. S. Stanley, Esq., the well known Engraver of Philadelphia says, "I have frequently used Boerhave's Holland Bitters, and find it invariably relieves indigestion and debility."

Rev. Samuel Babcock says: "I found great relief from its use for a severe headache, with which I had long suffered."

J. W. Woodwell, Esq., says: "I have used Boerhave's Holland Bitters myself, and recommend it to others, knowing it to be just what it is represented."

Ald. Jonathan Neely, of Lower St. Clair, says: "I have derived great benefit from its use for weakness of the stomach and indigestion."

Jas. M. Murphy, says: "After several physicians had failed Boerhave's Holland bitters removed the pain from my heart and effected a cure from indigestion."

The editor of the Kittanning Free Press, says: "After one of the best physicians in the place had failed, three years' old Holland Bitters cured me of the worst form of Dyspepsia."

Francis Felix, only manufacturer of the original "Extract of Coffee," says: "I know that your Holland Bitters is one of the best medicines in the world for a disordered stomach or liver."

Dr. Harding, editor of the Packet, Baltimore, pronounces it "a medicine deserving the confidence of the public."

Mr. Fisher, of the leading Clothing House of Penna. has prescribed it frequently during the past thereе years with marked success in debilitated states of the digestive organs, or of the system generally.

The manager of Ballou's Vinegar Factory, says: "I used it myself, and was therefore induced to try its effect upon my wife. (Consider with what great delicacy we must act in such unsympathize habit,) and really it is doing her more good than anything she has ever taken."

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, and of singular remedial properties.

CAUTION.—The great popularity of this delightful Arcana, has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

☞Price $1.00 per bottle, or six bottles for $5.00 by the sole Proprietors. BENJAMIN PAGE, Jr., & CO.,

Dr. Libby's Pile Ointment.

DR. LIBBY'S PILE OINTMENT—
From J. D. Westcott, Governor of and United States Senator from Florida:

For upwards of twenty-five years I have been afflicted with the Piles, have submitted to several surgical operations for their removal, and have tried more than fifty remedies. Dr. Libby's Pile Ointment is the first that has given me relief. From the effects already exhibited, the cure must be rapid and complete.

JAMES D. WESTCOTT.

From George W. Matsell, Chief of Police, New York City:

I have long been troubled with the Piles, and the use of Dr. Libby's Pile Ointment has given me immediate relief. It gives me further pleasure to add that in many instances among my acquaintances it has been used with like results.

GEORGE W. MATSELL, Chief of Police.

From the Adjutant General of Connecticut:

I have been afflicted with Piles in their most distressing form, a discovering form, for a period of twenty years, and have had recourse to the best medical skill without benefit. I supposed the case incurable, and thought I must endure my life. Under the circumstances I commenced the use of Dr. Libby's Pile Ointment, and the result is a perfect cure. I have no language at my command sufficient to express my gratitude.

WM. HAYDEN, Hartford, Conn.
late Adjutant General of Conn.

Witness my hand and the seal of said office, this twenty-second day of June, one thousand eight hundred and fifty-seven.

THREE GREAT LIGHTS!

MANKIND HAVE LONG BEEN ENsulphed in darkness, as regards the true means of securing health—ridding the human body from disease, and preserving life. The sick, under the fallacious treatment of the regular faculty, are subject to a continued practice of probabilities and uncertainties. There is nothing certainer fixed in the treatment of the sick either in the old or new school of medicine.

Dr. Radway has succeeded in producing three remedies—known to the world as Radway's Ready Relief, Renovating Resolvent and Regulators. These Remedies are not only established facts in such as they have never yet failed in their special or combined efficacy in producing fruitful and beneficial results—but, they are facts establishing a science —as they have in all cases, "when tried" succeeded in restoring to health—and ridding the body from disease after all other medicinal treatment had failed—and the most skillful physicians had given up the sick as beyond the power of human means to cure—and pronounced the dreadful mandate—incurable.

Radway's Remedies are therefore fixed facts in the archieves of medical science—they have been "often tried"—"never denied"—and are ready "to be tried again."

FIRST GREAT LIGHT.

RADWAY'S READY RELIEF

As a Special Remedy is to be used in all cases where the human body is seized with the torturing pangs or paroxysms of pain—no matter what the cause of the pain may be, or where it may be located—an application of the Ready Relief, either internally as a drink, or externally as an alleviator, will in a few minutes restore the afflicted body to ease and comfort.

In all cases of Bowel Disorders, Dysentery, Cholera, Bloody Flux, Sick Headache, Nervous Headache, and other Nervous Affections, Neuralgia, Rheumatism, Sprains, Strains; Toothache, Burns, Scalds, Wounds, Shot Wounds, Bruises,
