with her daughter was carour for the continent, and who according to her position in society, might have claimed precedence, gracefully yield ed her claim for a room quite inferior. When we were transferred to the second steamer, the best rooms were seized by those first on board, without any regard to the tickets. And when two genelemen were appealed to, to allow two ladies, who were in feeble health, to occupy the room similar to the one they had occupied on the other vessel, one of them, who was a French man, consented; but the other, a stout, portly Englishman, absolutely refused, and threatened to sue the company if he were displaced. In spito of all entreaty he maintained his position, and the sick ladies were compelled to take very inferior lodgings, and a number who had first it ickets slept on the floor. HOLLAND—Early in the morning the low coast of Holland was seen upon our right, as we ap-proached the western mouth of the Scheldt. As we entered the river, upon our left was the island of Walcharen, the largest of the fine is-lands which constitutes the province of Zealand. This laland, as well as the adjacent islands and the sin and, las well as the adjacent islands and the main land, lies a number of feet below the lerel of the sea, and is preserved from being overflown partly by such fills or dance service.

Sun says, that on Friday; the 10th instant, a movement will be made to levy on the court house, jail, court house square, and other public property of the county, at the sait of the Ohio and Mississippi Railroad Company, for the in-tarest due on \$200,000 of the county bonde, for which bindrment was obtained at the last U. The court house and jult are to be sold; the court house grounds will be held from sale till the action of the county authorities are known. The Sun thinks a public meeting ought to be called, to concentrate "action on this vital question." To pay the debt, will double the present taxes, which the "people won't stand."
