THE HARVEST.—Wheat harvest will generally commence in Northern Obio this week. Last week an immense amount of grain was cut in the Southern part of the State, but the opera-tions were somewhat retarded by frequent show-ers. In central Obio the wheat does not appear to be any further advanced than at the North.— This Buffalo Advertiser complains that the city is flooded with Spanish quarter dollars. The brokers who bought them up in March at 22 or 20 cents, have since paid them out at 25; and

20 cents, have since paid them out at 25: and an American quarter is rarely seen. There is a systematic game played just now with Spanish quarters. They are picked up in New York at 20 cents and then sont into the country, where they are still field at 22, and passed off. It is about time to stop this game. -Alb. Ere. Jour. The heady of Indian names/when translated is all humbug. Mississippi menanso such thing as "Father of Waters," but simply "Big Water, or Big River," and schangeys that Nings Mater. ers. In contral Ohio the wheat does not appear to be any further advanced than at the North.— Indeed, in passing up from Urbana, in Cham-paign county, to Sandusky, (114 miles) on Sat-urday last, the only two pieces of wheat we no-ticed under the hands of the reapers, were in Senece county. On the other hand, corn is full two weeks in advance of us in Champaign and Miami counties, and looks as well as usual, pro-mising a full eron. Wheat, over where, is te-

We week in novance of us in Champingh and in Miamicounties, and looks as well as usual, pro-in mising a full crop. Wheat, every where, is ro-garded as unusually promising. In the central in counties there were heavy rains last weeks which is situations where it was defended from the vi-ofence of the storm, the spiros stand even and thick, and the heads are weighed down with the golden grain. We hear of the weevil only in the south-eastern part of the State, and there is no rust, thus far to produce any serious mis-chief. The harvest is about over in Tennessee, Virginia, Kentucky, Alabama, etc. The crop has generally been gathered in good order and is understood to be large: In southern Illinois there has been no such wheat for a long thme-ly studded with the plumpest grain. Should the weather be dry during the present week an immense amount of grain will be harvested, and

McClure, of the Brit-ish Navy, is the following story of two Ravens, which became domicillated on board the laves-tigator. The Raven, it appears, is the only hird that willingly braves a Polar winter, and in the depth of the season, he is seen to filt through the cold and sunless atmosphere like an evil spir-it, his sullen eroak alone breaking the silence of the death-like segen. No one of the crew at tempted to shoot the ravons, and they conse-quently because very bold, as will be seen from the following story: BANK LANE, (Below the St. Clair Street Bridge,) Allegheny City, Penna., BRADLEY'S WOOLEN ENITTING YABN,
