Sr. Louis, July 18 .- Gov. Walker's proclar Sr. Louis, July 18.—dor. Walker's proclamation to the people of Lawrence is received here. Its issue grow out of the fact that a committee, acting in behalf of the citizens of Lawrence, had framed for submission to the popular vote a City Chartor differing estentially from that granted by the Territorial Legislature, thereby bidding defances to the Territorial Covernment. This action of the committee Governor Walker pronounces to be treasonable, and he has ordered a body of troops to the vicinity of Lawrence, in order to prevent further proceedings in the premises, and to enforce the law.

That is treason! When did ever the people of Lawrence acknowledge that ruffian Legislature? Show us the place. When did they ever say they would be governed by a set of ruffians elected at the point of the bowie knife by a foreign horde from Missouri? We trust they will show themselves the men their fathers were and stand for their rights at every hazard, and let Walker and his ambitious toadies howl abou treason as they may...

Here is another item of news by telegraph : "In accordance with the express wholes of Gor-ror Walker, Gen. Harney, and a sufficient force of the Dragoons and Light Artillery will be detained at fort Leavesworth until after the October elections. Ol. Albort S. Johnston, of the Second Cavairy, now a Texas, will be ordered to proceed in command of the troops in Urah."

These troops under Harney-Harney is the man known as the woman-whipper—are the Republics to partition Nicaragua among t same that were destined for Utah. But to put but this has now been changed. "As before remarked, I am satisfied that the he before remarked, I am satisfied that the two best employments, that is, the two well known and long established employments by which one can get rich the soonest, are banking and hotel keeping. I can illustrate by an incident which I know to be true. A hotel keeper was brilding a new hotel, of large dimensions, in a city where he was certain to do an immense business, having beef a sight cents. in a city where he was certain to do an immense business, buying begf at eight cents a pound, and getting \$2,50 per day, and sauer at that.—He needed \$8000 more than he had, to finish and furnish. For this he applied to a banker, who lish him the amount on first mortgage, at thirty per cent. per annum, the borrower agreeing to keep it for three years, and pay interest quarterly. Now, the banker had received that money from Philadelphia only the week before, with the agreement that if he invested it safely at twenty per cent. anything more that he obat twenty per cent, anything more that he ob-tained for it should be his. And this sum of \$8000 constituted but a fraction of a large bus-ness he was doing in the same way. The hotel

over such a small affair, and magnify a legiti-mate exercise of "Squatter Sovereignty" into treason, insurrection and revolution As an evidence of the use that is to be made of this by the locofoco press we copy the follow-ing dispatch from Washington to the New York Times-the organ of Walker:

"The news la confirmed that the President has re-ceived a dispatch from Governor Walker, of Kansas, that be had issued a proclamation commanding the peace, and had sent a large military force to Law-

peace, and had sent a large military force to Lawrence to quell disturbances.

"Governor Walker is determined to maintain the
laws and Constitution at all hazards, and the people
will find that he is the man for an emergency. Cool,
calm and determined, he possesses great nerve, and
is of undaunted courage. It is fortunate for the
peace and harmony of the country that an occasion
has occurred to give Governor Walker an opportunity
to manifest his courage and ability, and to demonstrate his fixed resolution to carry out his instructions
at support to the letter the provisions of the Nebraska-Kansas bill. His prompt action will have a
great moral effect npon the people, and will no doubt be the means of preventing hereafter all acts which might have a tendency to lead to riot and bloodshed." Now here is an attempt not only to make a great, cool, courageous, commanding and able general out of a puny political whipper-snapper, out to instil into the people's minds the idea that

the people of Lawrence have been guilty of a terrible offence in exercising their rights of selfthe course he has taken is the only one that can, possibly, lead to eauguinary results. Upon him, then, and not on them, will rest the responsibility. As to the motives of this Lilliputian giant, we clip the following from the St. Louis Democrat : cup the following from the St. Louis Democrat:

"It is the opinion of the principal men there, that
Gov. Walker does not intend to disturb the people,
but that his design is to retain the troops in Kansas,
as it is well known that a very hostile feeling exists
between him and the leading pro-elavery democrats.
Others assign the present movement as a more pretext for the administration to back out from the
Utah expedition."

THE FILLIBUSTEES AND THE ADMINISTRATION. The Washington correspondent of the New York Times, which is now to all intents and purposes an Administration paper, says that the Presiden had determined some time since to resist by force any attempt on the part of the Central American depublics to partition Nicaragus among them

to practically recognize on Nicaraguan Görernmen which may now be found in existence, by negotiating a treaty with it, regardless of any claim which Costa Rica may sot up by virtue of her assumed con-quest, and heedless of her protests. Readds: "tet me suggest one other idea for your consideration. The telegraph has announced that Gen. Walker
has notified his officers to report to him immediately
at New Orleans, with a view to recruiting for an
early return to Nicaragus. I am much mistaken if he
is not encouraged to this sudden movement by assurances that the Government of the United States will be
glad to have his co-operation in the promotion of the
diplomatic scheme which I have set forth."

The Faculty will be the same as in the past years.

jyZilaid J. F. McLAREF, Frincipal. GAS FROM ROSIN OIL

THE HIGH LIAUMINATING PROPERTURE of the from Rodin and the Control of the Contro THE HIGH HILUMINATING PROPER.

THES of Gas from Rosin and oleaginous substances have always made them a favorite material for the manufacture of illuminating Gas. Many Gas Companies ness Rosin with coul, in order to supply their customers with a Soperior Quality of Gas.

ROSIN UIL is entirely free frum all dross and refuse substances, and yields at once, its Brilliant Illuminating Gas.

The greater original cost of the apparatus for the manufacture of coal gas together with the attention and expense constantly required, and the difficulty, if not impossibility of entirely separating the unwholesome, deleterious and offentive gases, generated in coal, render the ROSIN OIL.

A [VALTES, of 375 Broadway, New York, has devoted his cuitie also also the the control of the manufacture and sheel of Fortable Gas Americant and to the manufacture and sheel of Fortable Gas Apparatus and he respectfully calls the attention of the populate to his present complete and efficient macilian Prefect satisfaction to the purchaser guaranteed in every case.
