A special train will start from the Federal street station at 33 o'clock A. M., and return at 93 r.m. All the trains passing over the read during the day will stop at Kilbnek, so that those invited will have an opportunity to attend at almost any hour. A T COST. Media, Delaware County, Penna. Miss Maria L. Eastman, Principal THIS SEMINARY, SITUATED IN THE delightful and beautiful village of Media, thirteen miles from Philadelphia by Railroad, offers to young ladies, the most perfect combination of advantages for the attainment of a thorough and accomplished education.
The large and commodious building lately erected, containing all the modern conveniences of baths, gas, &c., is, with its estantive grounds, a model in all that perfains to the health, comfort, reducement and improvement of the pupils. The sleeping rooms are high, well ventilated, and hurshabed with comfort and elegance, and but two pupils for the same anorthment. The number of pupils is rich our history or perhaps illustrate points hitherto in obscurity.

On Saturday night iast, the lightning train westward, ran over the body of a man lying on the railroad track about one mile east of Alicona, and, horable servered the head entirely from his body, cossing it some 30 or 40 feet away, and also catting off one of his legs and one of his arms. At the time the train passed over him the engineer had no thought that the object on the track was a human being, but a pile of dirt left by the repair hands, or the soot and sakes drawn from a locomotive at the spot. On the train's arrival at Altoona, however, some tora clothes were noticed on the engine, and search down the track was at once male, and the body discovered in the condition noticed. It proved to be the body of a man named Conley Rush, from the neighborhood of Boll's Mills, who had been up at Altoona. Further than this nothing was known of him. He was shout 22 years of age, and a sober man. The watchman had passed over the road where he lay but about a quarter or half an hour before the train, and noticed nothing of him. The engineer and direman are quite sure he was lying on the track, and from a terrible gash in his bead and other chrountaineas; it is thought he may have been unrefered and placed there. But he is not known to have money and a motive is wasting. Btill the people of the neighborhood have strong apprehensionate that he was mardered.

P. B.—Since the above was just in type, we are taid that Rushrad some \$15 or \$20 when he left boms at noon. The number of pupils is 'limited to farty, for whom seven teachers are employed.
