TORNADOES. - We have on several occasions a ided to the remarkable number of deaths by lightning which have occurred this summer i arious parts of the country. We have not pretended to keep an account of half of them, but the record crowds upon a reader of the news papers so fast that it is difficult not to observe this fact peculiar to the year now passing. In Utica, N. Y., on Wednesday, a man returning the least, extraordinary. The democratic ora from his field imprudently carrying a pitchfork on his shoulder in the midst of a thunder storm was struck by lightning and instantly killed. On the same day a girl in Richmond was killed by lightning and also a Mr. Kenyon, of Ohio while lying down upon the floor of his house .killed by a thunder-boit, on Thursday last and Mr. Dean, of Walden, Vt. The Windson Journal, of Vt., is informed of four deaths in neighboring town during a single storm. Monday last, a young man of Ripley, Ohio, named Shepherd, was instantly killed, and on Friday last, a man named Hartley, residing nea

Damages to buildings and crops, and ravage among forest trees, have also been great. The Ridgeway (Elk Co.) Reporter, says that county was visited with a destructive storm of hail and wind; on the 20th of July. There was a general thunder storm all over the county and very heavy rain during the latter part the afternoon. But a perfect tempest of wind and hail, coafining itself to a width of from forty-two rods to half a mile, struck the settlement on the Brandy Camp road at M'Intosh's, and passed on east. leaving ruin and desolation in its track, blowing down trees, scattering fences, flattening the grain, corn and potnoe crops on the ground. The destruction to the crop is immense, and in some instances the loss of the farmers will be very heavy, as their entire crops are supposed to be injured beyond recovery. From what we heard and saw, we think the loss to Fox township cannot be less than \$3000. ren (Pa.) Ledger says that a very de-

structive hail storm passed over Sugar Grove and neighboring sections of that county, last Monday. It completely riddled corn, buckwheat and other tender grain, cutting leaves from the trees in some places like the frosts of ing letter to Mr. Packer, challenging him to autumn. Some portions of the wagon were afterwards found nearly a mile from the spot, sticking up in the ground. Expressive Silence-Very. The address of the State Central Committee of the sham democracy, does not contain a single line in reference to the hitherto much abused their grips, signs and pass-words. When it is remembered that denunciations of the "secret order," in the most violent language and by means of extravagent epithets, have within the last three years, constituted the staple of dem ocratic speeches, addresses, editorials and circulars, this obliviousness on an occasion as mo mentous to the party as the present, is, to say cles do not usually abandon a hobby, which they have ridden with the least success, after this un emonious fashion. They denounced the United States Bank for years after the "mon ster" had ceased to exist, and after all the issue

which grew out of that question had become entirely obsolete. It was for more than a dozen of years the "harp of a thousand strings" for the political amateurs of the party. then, can be the meaning and drift of this omison . Is it in contemplation to effect a second "Side door" arrangement, for the benefit of Mr. Packer, who-poor man!-seems to be sadly in need of some material "aid and comfort" it "adopted citizens," in whose behalf the democrats have exhibited the greatest hypocrisy and expressed the deepest sympathy on all occasions, to be so completely ignored as not to be even nentioned in their political bulletins, in order that Mr. Packer and his supporters may make ch arrangement with the oncedespise Nothings," as will induce the latter to throw away their votes on the bogus "American" ticket, of which Hazlehurst is at the head? To suit this very accommodating "balance of pow-er" must the zeal of the Democracy in the cause of 'civil and religious liberty' be permitted to cool down, and finally evaporate—and must all their theories, fine spun and coarse, be laid on the again? These are questions that crowd upon

us in quick succession, and we feel that they must be propounded. Mr. Buckslew, is this silence the result of your own judgement, or is it in accordance with the mandate of the "high contracting powers" of your party? Packer Challenged, and he Backs Out. Hon. David Wilmot has addressed the follow-

This letter is more than two weeks old, and has not yet been answered. Why? The Harrisburg Telegraph says that Gen. Packer, instead of answering the letter promptly, as the hones candidate of any honest party would have done Wherever the tempest went, it blew up trees | laid it before the locofoco State Contral Commitby the roots, demolished barns and houses and tee; and that body, instead of advising their candidate to accept the challenge, gave the letter On the 26th, a thunder-cloud burst above the the go-by, refused to put it in on their minutes, and doing much damage to property. Lightning: about it. Thus Packer, like a craven, slinks the artful dodger to screen him.

This is silly trifling. If the party was not led fury anything of the kind ever known there beforc. The above will serve as specimens of what challenge or give some decent reason for decli has been occurring in various parts of the couning it.
