PITTSBURGH:

MONDAY MORNING, AUG. 10, 1857.

☞ OFFICIAL PAPER OF THE CITY. ☜

News of the City and Neighborhood.

GREENSBURG ABORTION CASE.—This infamous case was again before the Mayor on Saturday, and developed an amount of filth and crime only equalled by the Burdell baby case. The detail as given in the testimony elicited by the examination of Louisa Herwig is not fit for the columns of this paper. The girl herself is very good looking, though one can see by her looks that she has suffered not a little at the hands of the bawds who keep the abortion house.—The Gardner woman and her assistant, Mrs. Hastings, were present at the investigation yesterday. The former is a sallow, sun-dried looking creature, but evidently feels she is at last in a tight place.

The Mayor read at the opening of the investigation the information against Mrs. Gardner and the crime of which she stands accused. He stated that the Commonwealth intended to use in behalf of justice the testimony of Louisa Herwig, and thereupon proceeded to question her closely as to all matters pertaining to her history as far as the present case is concerned, from the time of her criminal acquaintance with Ludwick to the time of the ease under examination coming to light. The substance of the whole matter was that Ludwick had learned of the house of Mrs. Gardner, of the medicine of Dr. Cooper, and of all things necessary for him to know before sending the girl to the city; that on or about the 20th of July, Ludwick gave her money and all directions necessary to find Mrs. Gardner's, and that on that day she came here and put herself into the hands of this woman who succeeded in her nefarious attempts by administering disgusting medicines, and that a child was born, still alive, which the woman into whose hands she had fallen left exposed to die, or buried regardless of whether it might be dead or alive.

Such are the main facts. It was evident here that the case had begun to take a more serious hue; that it began to look like murder. Louisa Herwig heard Mrs. Gardner say that little child (Herwig's) was not the first one she had destroyed; that they were to be numbered by thousands.

The witness was cross-examined at some length by Mr. Howard, counsel for Dr. Cooper, but nothing of any importance elicited.

Mrs. Hastings was then sworn, from whom it appeared that she had been at the house of Mrs. Gardner about six months. She is a widow. She tried not to seem to know a great deal about what happened while she was there.

After a full examination into the whole matter and some remarks from counsel, Mrs. Gardner was committed to jail on charge of murder, while Cooper, who it is alleged supplied the medicines, and Ludwick, who was the original cause of the medicines being used, were also committed as accessories before the fact. Mr. Cowan, the eminent lawyer from Greensburg, appeared for Ludwick, Mr. Howard, of this city, for Cooper, while Mr. Swartzwelder assists the District Attorney. Louisa Herwig and Mrs. Hastings, alleged partner of Mrs. Gardner, are retained as witnesses for the Commonwealth.

Moralizing has at length grown stale. There is no time to idle, one murder comes so swift on the heels of another. Deeds of blood but an hour old bite the speaker, as stale and flat. To-day our jail holds three persons under sentence of death for murder and seven others charged with that crime in different degrees—as principals or accessories. It is with the extremest regret we record such a list of crime, but we rejoice that we have a municipal government by which prosecutions are sure to their authors and plants the path of transgressors with sharp thorns. Better that all these crimes should be brought to light than that the secret free rein sin should be smouldering under our feet ready to break out in some unexpected moment, leaving desolation and death in their path.

THE American *Engineer* says that at Pittsburgh "the irregularities of the river and the competition of the railroads, are checking the steamboat business. Eighteen steamers were built in 1850,—now only four small stern-wheelers are building." That is rich: that one has to go away from home to hear the news. The cheap itemizer who manufactured that little fib would have done well to add that there have been about four stern wheelers, if you please, building here all summer; that about two new ones per week have been sent away on their business, and the number has held good all the time. Then as to the number built in 1850 we cannot just now tell how many have been built, but there have been much more than eighteen built or finished here this year. Then Pittsburgh is not the point for boat-building; Bellevernon, California and Brownsville are the points.—As the large boats are nearly ready for the trade, after the principal work of the season is over. The way they build them may be inferred from the following, which we *clip from the Shipper*: "A steamboat 156 feet long, 31 feet wide, 4 feet hold, was recently built and launched at the Brownsville boat yard of John S. Pringle, within 26 working days, and two of them lost by bad weather. Our down stream readers will hereafter be still more surprised when we tell them that we can build, launch, and put on board the machinery, finish, paint and send off two steamboats of like dimensions, within thirty-five days from the laying of the keels."

THE City Commercial College.—One of the most flourishing and attractive schools of learning is the Iron City College. It numbers among its students young gentlemen from various States of the Union, and even from the large cities, where there are similar institutions—but this one has emphatically overshadowed them all. We boldly assert that there is no city in the Union which has a commercial school, where the branches of a business education are so thoroughly taught, as in the Iron City College of Pittsburgh.

On entering the beautiful and commodious college hall, we were surprised to witness the great number of students in attendance. Every desk in that large room appeared occupied, and the close attention of the students, and the delightful order, were in fine harmony with the place.

The energy and consummate skill with which this institution has been managed, despite the opposition it has encountered from its predecessors and contemporaries, reflect the highest honors upon its gentlemanly Principal, P. W. Jenkins, Esq. It has acquired the position, (which it can now maintain with ease,) of being the very foremost and most efficient Commercial College, not only in this city, but in the United States.—*Evening Chronicle.*

HABEAS CORPUS.—On application of George S. Lowrie, a writ of *habeas corpus* was granted by Judge Lowrie returnable at 9 o'clock Saturday morning for Mrs. Jones, alleged mother-in-law of James Jones, charged with the murder of Campbell. Mrs. Wilson was committed by Ald. Major on the 9th of April last as a witness on the part of the Commonwealth against Jones. Selden claimed her discharge on the ground that the case should have been tried at June term but was continued on account of the absence of Judge Shalter for Commonwealth in absence of Mr. Collier,) read an Aff. of Ald. Major setting forth the fact that Mrs. Wilson is a material witness for Commonwealth, and if the prayer of the writ were granted they were apprehensive that she might depart the jurisdiction of the Court.

Judge Lowrie, on a hearing, refused to discharge the prisoner and remanded her to the custody of the jailer. The Judge said that the proper place to apply for her discharge on bail was before the Court of Oyer and Terminer.

SINGER'S SEWING MACHINE.—We were present at an examination of the I. M. Singer Sewing Machine, on Saturday, at the rooms, corner of Market and Second sts., and were much gratified to witness this well-known machine in operations.

It differs materially from most Sewing Machines we have seen, having a larger platform on which the article to be stitched rests, and a different motion by which the needle is driven. The inventor and manufacturer is a man of considerable genius, as the great variety of patterns of his machine proves—each being best adapted to some peculiar kind of stitching. We noticed for instance, an elegant piece of embroidery, accomplished by an embroidering machine, for the right to use which in France Mr. Singer received the handsome sum of 500,000f, or about $100,000. We would call attention to the advertisement of this machine in another column. Mr. Richard Straw, corner Second and Market Sts., is the owner of the Patent for this county, and has a good assortment of the machines on hand which he offers to the trade or to families at manufacturer's prices.

AMONG the passengers by the steamer Indiana which departed for Europe on Wednesday, we notice the name of Rev. Dr. Black of Sewickley, who goes from the General Synod of the Ref. Presbyterian Church, as a delegate to the Evangelical Conference to be convened at Berlin in Prussia, on September 9. Dr. Black preached with the greatest acceptance in New York, on the Sabbath previous to his departure as above. The wishes for his health and safe return of many friends will follow him on his journey.

MRS. R. A. HOGAN, of Temperancerille, charged before Alderman Carnahan with assault and battery was committed to jail in absence of bail on Saturday afternoon. Her husband was committed on Friday night, and the wife made such efforts to defend him when he was arrested as have brought her also into limbo.

Leah Williams, of Birmingham, (white) charged before the same magistrate with surety of the peace, was also committed for want of bail.

THE M'KEESPORT TRAGEDY IN ITS LAST STAGE.—Thomas Howard, and Thomas M. Marshall, Esqrs., counsel for Fife, Stewart and Jones, were present in the Court before Judge Lowrie on Saturday to take the preliminary steps for obtaining a writ of error to carry the record of the trial before the Supreme Court. Owing to the fact that the record is not yet complete the application was deferred until some day this week, as the Judge will be in town for some days to come.

THE *American Examiner*, a leading railroad paper, is complimentary upon Pittsburgh as follows: "The connection of the Pennsylvania and the Pittsburgh, Ft. Wayne & Chicago roads at Pittsburgh, is nearly effected—the final union being delayed by the stubbornness of the City Council. This will be overcome at last, although the city of Pittsburgh, in all matters of public spirit and corporate liberality, *is one of the most old fogy concerns in the country.*"

THE Wheeling papers have accounts of the arrest of a gang of counterfeiters in that city. A man named Joe Miller was arrested and no less than $1,620 in counterfeit bills on the "Chippewa Bank" Wisconsin, "Northwestern Bank," Wheeling, and "Farmers' and Drovers' Bank," Waynesburg, were found in his possession.

HEAVY GRAIN.—As an evidence of the abundant yield and the heaviness of the grain of the present year, we may state that a lot of new oats, measuring 200 bushels, which was sold here on Friday, turned out 220 bushels by weight, at 33 lbs. to the bushel.

ACCIDENT AT THE OTTER DEPOT.—An accident occurred Saturday afternoon at the outer depot of the Pennsylvania Railroad, which will probably cause the death of a young man named James Dawson, residing in the Ninth Ward. He was assisting in shifting cars from one track to the other, at the place mentioned, when he was accidentally thrown upon the track, and one of the cars ran over him, breaking both his legs and inflicting other serious injuries. He is not expected to recover.

P. S.—Since the above was in type, we learned that the injured man died at four o'clock the same afternoon. Coroner Alexander held an inquest and the usual verdict in such cases was rendered.

AN AFFRAY occurred last evening in a yard at the rear of a house on Webster street, above Washington, in the Sixth Ward, which almost resulted in a murder. A quarrel took place between a young man named John O'Donnel and a rowdy named George Kemp. During the difficulty, James Kemp, a brother of George, aimed a blow at O'Donnel with a large dirk-knife, inflicting a horrible wound on the left arm. Both the Kemps, who are notorious ruffians, made their escape immediately, though the police were not far behind them. O'Donnel was conveyed to Dr. Walter's Hospital.

ARMSTRONG COUNTY BANK.—The following gentlemen were elected directors of the Kittanning Bank, on the 3d inst: Robert Brown, James E. Brown, John Painter, Robert Orr, James Douglass, J. B. Finley, Abner Reynolds, R. L. Brown, C. Neale, E. Golden, J. S. Bennett, John Crawford and Thomas M'Connell.

BALOON ASCENSION.—Steiner, who got ducked in Lake Erie on the 4th of July, made another ascension from Erie on the 1st of August. He failed to get gas enough to fully inflate his new monster flying ship, and was forced to descend about six miles from Erie.

MAMMOTH TOMATOES.—Yesterday, we saw at the Hand street bridge nine tomatoes of the largest size, on one stem. They were raised by J. Fries, of Moon (p., and weighed two pounds seven ounces. They are "some tomatoes."

THE Massillon *News* of Friday says that the first load of new wheat was brought into this market on Tuesday by Mr. Wm. P. Clay of this town, from his farm. There were several buyers offering, and the prospect is that the market will be brisk for a time at least.

SILAS J. COVEN, of Davisville, Somerset county, charged with being implicated in the Hoffman abortion case, was brought to the city on Saturday night, by officer Moon, and held to bail in $1000 by Mayor Weaver for further hearing.

IN the last week in July, the Phœnix Iron Company, Phœnixville, Pa., rolled several wrought iron beams of 44 feet in length, 9 inches deep and averaging 60 pounds per yard. This is the greatest beam rolling yet done in this country.

DOMINIC MAGUIRE was committed to jail for trial, yesterday, in default of bail, by Mayor Weaver, to answer a charge of assault and battery with intent to kill, on oath of Ann Jane, his wife.

THE brilliant star (or comet?) to which we alluded on Saturday, rises between ten and eleven, and can be seen about eleven, to-night, if the sky is clear, a little to the north of east, just above the horizon.

NEW WHEAT.—The first car load of New Wheat on the western road, came in on Saturday from Canton, Ohio, consigned to a miller of this city. It was a prime article.

THE Columbiana County Horse Exhibition will take place at Salem on the 9th, 10th and 11th of September, proxime. R. H. Patterson of this city has been elected President.

THE woman whose head was nearly cut off by a murderer-in Cleveland on Thursday, is likely to get better.

THAT BURDELL BABY.—The bogus Burdell baby which turned up in New York, on Tuesday, has kicked up a terrible uproar among the usually serene and unexcitable Gothamites. The Herald is beseiged when the police stepped in, and the stars found provided for the sham heir a fine lot of necessaries. The latter consisted principally of baby clothes, which could not have come from those fine Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth, Philadelphia. Rockhill & Wilson have on hand a magnificent assortment of garments for gentlemen and youths, but no baby clothes.

LIFE DISCOVERIES IN PATHOLOGY show that very many of the diseases which afflict mankind arise from impurity of the blood. This has long been suspected but is only lately known. In consequence, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Consumption, Fevers and Eruptions, all arise in disordered deposites from the blood. Billious diseases and fevers are caused solely by its deranged unhealthy state, and even the severest Pulmonic affections originate in the blood. In view of these facts DR AYER designed his *Cathartic Pill* especially to purify and invigorate the blood, and hence we believe to arise its unparalleled success in controlling and curing disease.—*Medical Journal.* †

THE weather is, in sooth, roasting and oppressive, not to say hazy & perspiring. Meanher tonight augurs fair under similar circumstances, and a considerable number of citizens have gone off in search of a temporary blubbing place, in some of those shady, quiet nooks with all the trimmings of rural scenery, including streams, fresh milk, new laid eggs, of which poets are so fond of singing, but which are so hard to find practically. But those who cannot get away to the blessings, can enjoy a cool drink from Super's silver soda fountain, at the corner of Penn and St. Clair streets.

FOR A FEW DAYS LONGER.—Our sales of Gent's and Boy's Clothing, Furnishing Goods &c., will be continued for a short time longer, and feeling confident that the character of the stock and the rates at which it is selling are real inducements to purhasers, all are solicited to make an examination. J. L. CURNAGHAN,
Near the Post Office, Allegheny.

IMPORTANT.—If ladies wish to restore the roseate hue to their failed cheeks, and infuse new life and vigor into their composition, *Carter's Spanish Mixture* is the very article they so much need. One bottle will do more to produce a healthy, transparent skin, than all the chalk and lily white this side the Atlantic Ocean.

WASHINGTON, Aug. 8.—The Navy Department this morning received a letter from the Hon. James Armstrong, dated U. S. ship San Jacinto, at Hong Kong, May 23; in which he says from the enormous force the English are collecting at this station, and the arrangements they are making for its permanency, it is clear that China is to be compelled to three or four more treaties to fulfil and thoroughly. There is also for those who deserve it a partial or Commercial course of studies. Annual charge from the end of September to the early part of July, two hundred and fifty dollars, ($250) covering all academical and domestic expenses.

ADJOURNED SALE OF THE RESIDUE OF THE JOHN GEO. WOOD'S SCOTCH BOTTOM FARM.—On Thursday, 20th August, A. D., 1857, will be sold by order of the Trustee, at 3 o'clock, P. M., upon the premises, the remaining one hundred and fifty-one acres and thirty-seven perches of Scotch Bottom Land, in Lots to suit purchasers. The property is situate 2½ miles from the city line, lying on both sides of the Braddock's Field Plank Road, to wit: Seventeen acres between that road and the Monongahela River, and one hundred and thirty-three acres across the road.

For building or gardening purposes it cannot be surpassed in the vicinity. The brick road leading to it is now being repaired and improved so that the property will be as readily accessible in the winter as in the summer. The title is indisputable and the terms of sale (to wit: One-fifth cash in hand, the balance in 1, 2, 3, 4, and 5 years, secured by bond and mortgage on the premises, with interest) payable semi-annually, are such as to bring it within reach of the most ordinary means. It will be sold according to draft made by R. F. M'Govin, Esq., and regularly recorded, copies of which may be seen at the office of M. SWARTZWELDER, No. 145 Fourth st., or upon the ground on the day of sale.

N. B.—Omnibuses will start from the corner of Grant and Fourth sts., at 2 o'clock P. M., by which purchasers will be conveyed to the ground

P. M. DAVIS, Auct'r.

THE TRUSTEES OF THESE GROUNDS would respectfully inform the public that about one-half of said grounds remain to be disposed of in lots, ranging in price from $12 to $22, and a portion of which is eligible and well adapted for vaulting purposes. The grounds, under the superintendence of Alexander Henry, are now in fine condition, and the lots beautifully arranged and decorated with flowers and shrubbery.

The Directors possess advantages over any other in this vicinity, as it lies but one-fourth of a mile from the north line of Allegheny City. It is but one mile from the Allegheny and Birmingham Turnpike found to the northeast corner, and by Sedgwick street, from the borough of Manchester, and is beautifully situated between the two (formerly J. Kidd & Co.) corner of Wood and Fourth streets, I will continue to carry on the business in all its various branches.

To my friends as well as to the patrons of the house I have pursued, and the public generally, I give the assurance that not shall be wanting on my part to accommodate and please
