Pittsburgh Gazette.

PITTSBURGH:

TUESDAY MORNING, AUG. 11, 1857.

☞ OFFICIAL PAPER OF THE CITY. ☜

News of the City and Neighborhood.

CAMP MEETINGS.—The season for the out-door gatherings of the Methodists is near at hand, and we notice in our exchanges calls for the following places and times:

A camp-meeting will be held for Ligonier circuit, south of Ligonier, and about eleven miles from Latrobe station on Pennsylvania Railroad, from which place there is an excellent road and a daily hack; commencing on the 17th of August.

There will be a camp-meeting for Warren district, Erie conference, in the town of Bacetta, Trumbull county, O., commencing on Monday evening, 31st of August.

There will be a camp-meeting for Paris and adjoining circuits held near Malvern, on the Cleveland & Pittsburgh Railroad, commencing on Thursday, the 3d of September next.

There will be a camp-meeting held for Bentleysville, Greendale, Hillsborough and Beallsville charges, on the land of Mr. J. Vanhorbis, near Wesley Chapel, on Pigeon Creek, Washington Co., Pa., to commence Aug. 26th.

A camp-meeting for the Steubenville district, Pittsburgh conference, will be held one mile south of Richmond, and ten miles west of Steubenville, commencing on Friday, the 28th of August, and continuing until Thursday, the 3d of September.

A camp-meeting will be held one mile from Rochester station, on Judge Erwin's ground, commencing on the 27th of August.

There will be a camp-meeting held for the Mc-Keesport charge, on the old ground, to commence on Thursday, September 3d.

There will be held a district camp-meeting near Enon Valley station, on the P., Ft. W. & C. R. R., commencing Wednesday, Sept. 2d.

The camp-meeting at Tarentum will commence on Wednesday, the 26th instant and continue until the 31st. The care on the Allegheny Valley Railway and the steamboat Kentucky will run so as to accommodate those who wish to go.

THE PAOLI MONUMENT.—In pursuance with the call which we before noticed some time since, a meeting was held in Paoli on Saturday week, the object of which was to take steps for the renovation of the monument to those who fell on that fatal field, 60th Thos. S. Hall was in the chair and gave a brief sketch of the event which occurred there on the 20th of September, 1777. On the 4th of July, 1817, a company called the Republican Artillerists of Chester county, held a meeting, appointed a committee to raise funds and passed resolutions that said funds be appropriated to enclosing the graves and planting over them a stone with an appropriate inscription. The question before the meeting of Saturday—now 40 years subsequent to that held by the Republican Artillerists—was whether the monument erected by them was worthy of renovation or whether it were better to have a new one erected. The following resolutions will explain what was done:

Resolved, That it is the unquestionable duty of the young men of Chester and Delaware—the old county of Chester—to see that the patriotic work of their fathers and predecessors shall not become to them a "sly hiss and bye-word," by suffering it to sink into ruins for lack of the paltry sum necessary to its restoration.

Resolved, That the renovation of the Paoli Monument should be so effected as to give it the commanding character and stable condition of a National work.

Resolved, That it is expedient a sum sufficient for this purpose be raised in the three counties, and their neighbors, Philadelphia and Montgomery. We accordingly call on our fellow citizens of those counties to contribute to this noble work.

Resolved, That Gen. Thos. S. Bell, Gen. T. B. Trimble, Maj. J. Hodgson and Capt. Robert Irwin be a committee to superintend and direct the renovation of the monument of the parade ground, to be invested with full power to determine the plan and finish of the first and whatever is necessary to the latter object.

MARRIAGE AT THE MAYOR'S OFFICE.—Yesterday afternoon Mr. Silas J. Cover, about whom considerable has been said for a few days past in connection with the abortion case of Louisa Herwig and an alleged case similar in some respects of Maria Hoffman of Davisville, Somerset county, appeared at the Mayor's office and declared his readiness to be joined in the bonds of wedlock with Maria Hoffman. The father of the young woman was there present and declared that he would be satisfied with that arrangement. The daughter also seemed not a bit displeased at the proposition. So in the presence of Messrs. Max Moorhead, Swartzwelder, Hoffman, and several reporters for the press, the Mayor tied the marriage ceremony and declared the couple man and wife.—After this he gave those some very timely and wholesome advice and wished for them that any future trouble they might ever have in life might issue as happily as the present.

All further action in this matter of the alleged abortion is discontinued, of course, as far as these two are concerned, but they are to appear as witnesses in the trial of Mrs. Gardner and Dr. Oliver.—Mr. Cover is a fine, healthy good looking man about 25 years of age, with black hair and eyes, and is, as we understand, a man in good circumstances, as far as at least as pecuniary matters are concerned. His new wife is an intelligent and sprightly looking woman, who came to the ceremony neatly and simply clad and was evidently as she had a right to be, rejoiced at the happy turn this ugly matter has taken.

So we may wipe out all that precedes the marriage ceremony in this matter, close that record and mark the place with white. They twain are made one flesh. The Mayor appeared to feel highly gratified that through his efforts a life has been opened to these two, in which they may always be happy if they will.

PUBLISHED CRIMINAL PROCEEDINGS.—There is not the least doubt that these are an auxiliary to rum. They corrupt public morals. They render crime familiar to the mind, inflame the passions, develop the meanness and trickery by which diabolical deeds are perpetrated, and thus suggest and lead to the commission of crimes of which otherwise there never would have been a thought. We regard, therefore, the expenses with which the secular press seeks to furnish its readers with the proceedings of criminal cases as one of the darkest of the signs of the times. It argues not only a wretchedly morbid and corrupt public moral sense and taste, but a criminal desire on the part of those who sit idly labor to correct and purify that sense and taste, to gratify and still further the current. What lover of purity and virtue is to be found that would not rather see the "Police Gazette?" Better have a plague visit a town or a city once a year, and carry off scores and hundreds of its inhabitants, than have the regular circulation of such a paper.—*Pittsburgh Christian Advocate.*

HUNT'S MERCHANTS' MAGAZINE, an excellent number for the present month, is on our table. We observe it is no street from the address recently delivered by J. M. Kirkpatrick, Esq., before the students in Duff's College, on the character of a true merchant, which is very readable.

A Magazine which is shining way surely into high favor is Emerson's United States Magazine. In its corps of contributors are found Mrs. E. Oakes Smith, Mr. Soba Smith, the original Jack Downing, who still writes up the acts of which began with General Jackson's Administration, and many other well known persons. This Magazine is very handsomely executed in all respects, the wood-cuts being very fine. It is intrinsically worth double the price which is asked for it.

The same publishing house—J. M. Emerson's, No. 671 Broadway,—also issues the *United States Ladies' Wreath*, a paper of 16 pages, containing a large amount and variety of valuable information and humorous reading matter.

MANCHESTER TAX.—The report of the borough tax collected for 1856 was presented at the meeting of Councils on Friday night as follows:

Paid Treasurer, as per receipts	$1,807 62
Per rentage	90 38
Exhonerations	314 82
	$2,212 82
Whole amount of duplicate	$2,220 96
	8 15
Balance due	
Report accepted.	

THE Bedford *Inquirer* gives a short sketch of an attempt to hold a pro slavery "democratic" meeting in that place one night last week. Our good friend Mr. Roberts was there to address it, but when he got to the Court House she was told by the President of the Club that he was *extremely* mortified that they could not get up a meeting, that there were only *six* in the house, and that they would have to adjourn and have the pleasure of hearing him at a more convenient season." The cause must be in pretty bad odor when Mr. Roberts could only draw six hearers.

MAP OF WYANDOTT CITY.—We are indebted to Mr. John M'Alpin for a fine map of Wyandott City, Kansas, accompanying which is a map of the fertile and well-watered valley of the Kansas river. Wyandott City is at the mouth of the Kansas river, on the Missouri and is one of the most important towns in Kansas. It is rapidly growing in population.

A NEW FIRM.—Mr. Smith, the well-known proprietor of the Pitt street brewery, has associated with him in business Mr. C. Hartwell, a gentleman of undoubted business capacity and tact. They are now prepared to enter extensively into the brewing business, and we can cordially commend them to the patronage of the public.

GRASSHOPPERS.—The Minnesota plague, grasshoppers, are beginning to annoy our country people. They are, we learn, very abundant, and increasing, and they are very destructive to the pastures.

TWELVE new churches are in process of erection in Philadelphia, which will cost, in the aggregate, $240,000. Beside these there is a Roman Catholic Cathedral, of the expense of which no estimate can be formed.

The *Chronicle* says that Manager Foster is in New York making selections for a new Stock Company with which to commence the forthcoming season.—We wish to commence the forthcoming season.—We wish, however, that he has some first class artistes engaged, but of this more anon.

The Bedford *Gazette* (Locofoco) has passed from the hands of Gen. Bowman to Messrs. Meyers and Bonford, attorneys, late of Somerset.

THE Clarion *Democrat* of Friday says that new wheat is being ground at the mill owned by Wm. H. Lowry, Esq., on Mill Creek.

THE new M. E. Church, on South Common, Allegheny City, will be dedicated on Sabbath, the 23d of August.

THE "*Press*," 6th: Forney's paper, is delivered daily to subscribers by Case & Co., Fifth St.

THE CUTTING AFFAIR.—The *Gazette* of yesterday morning contained a notice of a cutting affair which occurred on Sunday evening in the Sixth Ward. The simple fact as there stated was of a drunken *melee* in which one John O'Donnell, who appears to have been innocently drawn into it, received a ghastly slash around the arm, near the shoulder, cutting to the bone. The man charged with the cutting, one James Kemp, was then fled into a house near by, his brother George drawing a revolver, as was said by the by-standers, upon several citizens who attempted to arrest the stabber. The weapon used by Kemp in the cutting was a long-bladed dirk knife, which he flung into a vacant lot as he ran and which was found covered with blood.

The Mayor, Alderman Major, and their officers, were promptly on the spot but did not succeed in arresting Kemp until about eleven o'clock. He was found by the Mayor and some of his police in the third story of a house on Crawford street, occupied by one Mrs. Hayes, and was in bed and asleep when found. That was the end of the matter for Sunday.

On yesterday the Mayor visited O'Donnell at Waller's Hospital, and, in view of the fact that his life is considered to be in great danger from the fearful nature of the cut and the quantity of blood he has lost, His Honor proceeded to take the sufferer's deposition, in substance as follows:

The deponent averred that he was writing a letter at Patrick Dever's, near Washington street, when he heard a fuss in the street; he went along with others to the door when opens into the yard, to see what was the matter; he saw a man very drunk coming into the yard, through the alley from Webster street; took hold of this man and shoved him to one side. Then another man who he was told was Kemp came up with a large knife and struck deponent in the left arm, cutting all the veins; the man who cut deponent was about five feet eight inches in height and had red hair. Further than this deponent said not.

Kemp, who is supposed to be the guilty party, is in jail to await a further hearing, which we understand will take place to-morrow at two o'clock.

MAN MISSING.—A German named Otto Hasenclever, about forty five years of age, left his boarding house on Diamond alley, on Wednesday last, saying that he was going to visit a friend in Manchester, since which time nothing has been heard of him. His friends are afraid that some misfortune has befallen him, there being no ostensible cause for his disappearance, his bills being all settled, and all his wardrobe left at the boarding house. Any information concerning him may be left at the Mayor's office.

IRON CITY BANK.—The Directors of this bank met yesterday and organized by electing JAMES MCALEER, President and JOHN MAGOFFIN, Cashier. Mr. Magoffin has had considerable experience as the Cashier of the Farmers' Deposit Bank, and we in every way qualified for the place to which he has just been named.

A YOUNG man named Alexander Wallace, employed as an Ironman in Wilson's Carriage Repository, at Two Mile Run, was drowned while bathing in the Allegheny river, on Saturday.

THAT BUNDELL BILL.—The bogus Bundell bubble which turned up in New York, on Tuesday, has kicked up a terrible uproar among the usually serene and unexcitable Gothamites. Lobby was in clover when the police stopped in, and the small fry began to be filled for the slaughter a fine lot of necessaries. The latter consisted principally of baby clothes, which could not have come from the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 Chestnut street, above Sixth, Philadelphia. Rockhill & Wilson have on hand a magnificent assortment of garments for gentlemen and youths, but no baby clothes.

LATE DISCOVERIES IN PATHOLOGY show that very many of the diseases which afflict mankind arise from impurities of the blood. Cases long considered past it is only lately known. In consumption, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Gout, Cancer, Ulcers and Erupsions all arise in diseased deposits of impure blood. Billious diseases and fevers are equally solely by its deranged unhealthy state, and even the decline of life follows a want of vitality in the blood. In view of these facts Dr. Ayer designed his *Sarsaparilla*, especially to purify and invigorate the blood, and hence we believe to arise its unparalleled success in controlling and curing disease.—*Medical Journal.* 1

THE weather is, in south, roasting and oppressive, not to say hot, as a perspiring Micawber might suggest under similar circumstances, and a considerable number of citizens have gone off in search of a temporary abiding place, in the shape of those shady, quiet nooks, with all the trimmings of rustic maids, dancing straw, fresh milk, new laid eggs, of which poets are so fond of singing, but which are so hard to find except poetically. But those who cannot enjoy these blessings, can enjoy a cool drink from Super's silver soda fountain, at the corner of Penn and St. Clair streets.

FOR A FEW DAYS LONGER.—Our sales of Gent's and Boy's Clothing, Furnishing Goods &c., will be continued for a short time longer, and feeling confident that the chances of any of the stock and the rates at which it is selling are real inducements to purchasers, all are solicited to make an examination. J. L. CASE & SON,
New the Post Office, Allegheny.

IMPORTANT.—If ladies wish to restore the roseate hue to their faded cheeks, and infuse new life and vigor into their composition, *Comstock's Sozodont* is the very article they need. It will in time do more to produce a healthy, transparent skin, than all the dark and lily white lotions sole to Atlantic Ocean.

DR. LIPPY'S PILE OINTMENT.—
Dear Sir: I, D. Wolcott, Governor of and United States Senator from Florida
For upwards of twenty years I have been afflicted with the Piles, have submitted to several surgical operations from time to time, and have tried more than fifty remedies. Dr Lippy's Pile Ointment is the first that has given me relief. From the effects already exhibited the cure must be rapid and complete.
JAMES D. WESTCOTT.

From George W. Matsell, Chief of Police, New York City.
I have long been troubled with the Piles, and the use of Dr. Libby's Pile Ointment gave me immediate relief. It gives me further pleasure to say that in many instances among my friends it has been used with like results.
GEORGE W. MATSELL, Chief of Police.

From the late Adjutant General of Connecticut:
I have been afflicted with the Piles in their most distressing and discouraging form for a period of twenty years, and had overcome to the best medical skill within the reach of my purse, supposed the case incurable, and thought that it would destroy my life. Under the circumstances I commenced the use of Dr. Libby's Pile ointment; and the result is a perfect cure. I have no language to command sufficient to express my gratitude.
WM. HAYNES, Hartford, Con.
late Adjutant General of Conn.

Dr. Libby's Pile Ointment.

For sale, Wholesale and retail, by JAMES DARLINGTON, Agent, sole proprietor, No. 140 Wood street, Pittsburgh, sign of the Golden Mortar, and by J. P. FLEMING, Allegheny.

Telegraphic.

QUEBEC, Aug. 9.—The steamship Indian arrived at this port, bringing Liverpool advices to Wednesday, the 28th ult., four days later than those brought by the Europa.

Baron Rothschild had been returned to Parliament from London without opposition.

Spicy debates in the House of Commons, originated by Mr. Disraeli, resulted in an address to the Queen, promising every support to the Government during the India difficulties.

E. Peguntsan, a Greek merchant of London, has suspended. His liabilities are for a quarter of a million of pounds.

Ledru Rollin and others indignantly denounce the charge made by the *Moniteur* that they were engaged in the recent conspiracy to assassinate the Emperor.

Dates from Calcutta to the 21st of June, from Madras to the 28th, and from Bombay to the 1st July are received.

The mutiny was spreading among the troops of the Bengal army.

The ex-king of Oude had been arrested and imprisoned, proofs of his complicity in the revolt having been obtained.

From Madras it is positively stated that Delhi had been captured, but the intelligence is regarded as premature, not being confirmed from Bengal.

The native troops at Calcutta and Barrackpoor had been quietly disarmed.

Nearly all the parties charged by the Paris Moniteur with complicity in the recent conspiracy against the life of Napoleon emphatically deny the charge and appeal to the British courts of justice.

Letters from Paris intimate that there is sufficient evidence that Fraget can demand their extradition but will content itself by simply asking England to transport the parties convicted.

Letters to the London *Times* state that the English and French Ambassadors at Madrid had notified Spain that she could not rely on assistance from their governments in the event of war with Mexico; consequently Spain had acceded to offers of mediation. A representation from Santa Anna had arrived at Madrid.

The Chinese force had been destroyed after two severe engagements. The dates from Hong Kong are to the 10th of June. The Chinese fought with unexampled obstinacy. The British had 83 killed and wounded. Major Kearney is among the killed. All was quiet in the north.

LONDON, July 28th.—Consols closed at 90¼@90¾ for money and 90⅛@90⅜ on account.

LIVERPOOL MARKET.—Flour is dull; Richardson, Spence & Co., report Western Canal at 29s to 30s 6d; Philadelphia and Baltimore 31s; Ohio 32s. Wheat, red, 8s 2d@8s 9d; white 9s 8d@9s 2d. Corn, mixed, yellow 38s 6d@39s; white 39s.

The circulars report Provisions steady. Beef closed firm. Pork quiet. Bacon firm. Lard firm at 66@67s. Tallow is without change.

WASHINGTON CITY, Aug. 10.—The Postmaster General has nearly completed arrangements by which to concentrate at Cincinnati by the most prompt and expeditious means the great Northern and Eastern Mails there to be distributed throughout the Western States and Territories generally. He is also endeavoring to improve the Southern Mail Service.

Advices from the War Department from Fort Ridgely to July 26th, state that as soon as Maj. Sherman's command repaired to the Yellow Stone River, Minnesota, the Sioux Indians were overawed and became submissive.

No further information in relation to the Iskpadutahs has been received.

ST. LOUIS, Aug. 10.—The receipts of the Pacific Railway for seven months ending July 31, amount to $356,714, an increase over the same months last year of $180,359.

NEW YORK, Aug. 10.—Cotton closed firm, sales sold at 12¾ for middling orleans. Flour firm; 5000 bbls sold. Wheat unsettled, 2,000 bush. sold. Corn closed with a declining tendency; 40,000 bush. sold. Provisions firm. Whisky firm at 25c. Sugar quiet. Coffee quiet. Freights firm. Bacon firm; the supply is scarce. Hams are quoted at 12. Shoulders at 11½. Lard is dull. Sales and all interests reported last is only lately known. In consumption, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Gout, Cancer, Ulcers and Erupsions all arise in diseased deposits of impure blood. Billious diseases and fevers are equally solely by its deranged unhealthy state, and even the decline of life follows a want of vitality in the blood. In view of these facts Dr. Ayer designed his *Sarsaparilla*, especially to purify and invigorate the blood, and hence we believe to arise its unparalleled success in controlling and curing disease.—*Medical Journal.* 1

BRITISH WEST INDIES.—A letter from Port Spain, Trinidad, dated June 27, says:—"It has been indeed a golden year to the sugar planters. The crop here is nearly all in; it cannot fall short of 10,000 hhds. Most of it has been sold at the rate of $7.50 per 100 lbs. The peoples, it is expected, will work near as well as Negroes, and three-fourths of the former sugar estates still lie barren.

A Prize to Every Purchaser!
WHEN? WHERE? HOW?
WHY AT ALL TIMES—Because we have the largest and best assorted stock of Boots and Shoes in the city, and are determined to sell at the lowest cash prices. Our stock is entirely new, having been purchased within the past month from 2 cents to 50 cents advance of those bought at the former rates. Our facilities for manufacturing are unsurpassed, employing as we do the celebrated Mail and Express Co. The Rock contractors and Miners supplied upon bill of lots all over the country. Our prices are such as must allow to the retail trade a profit equal to three times the cost of goods, and we are determined to sell at these prices or not at all. Agents wanted to promptly, and agents allowed a fair commission.
Catalogues with full explanations sent free by applying a
my26dtf&w3 MARSHALL & SHINKLE.

Mount Union Cemetery.
THE TRUSTEES OF THESE GROUNDS are now prepared to receive proposals for the disposal of, in lots, family and grave ground, certain to be disposed of, in lots, ranging in price from $12 to $125, and a portion of which is beautifully situated on the brow of a hill, and will be laid out under the superintendence of Adcock & Hicks, who are now engaged in the work of beautifully arranging and decorating and stocking with flowers and ornaments.
This Cemetery possesses advantages over any other in this vicinity, it is now but one-fourth of a mile from the line of Allegheny City, it is easy of access by the Allegheny and New Brighton Turnpike Road, and from the Borough of Manchester, to the north side. It is a beautifully elevated and yet a retired spot, and will be found a most desirable one, whether for a family lot or single burials in such a convenient and appropriate spot, can be supplied by application to the undersigned, Manager, at the office on the north side of the Diamond, Allegheny City.
It may be necessary, for the information of those who are or may be interested in said cemetery, to state here that the Trustees have now a sinking fund of three to four thousand dollars, and it is the intention of the present Board to increase this amount to several thousand more, which the interest will be amply sufficient to keep the grounds forever in good repair, and that no holders will be forever freed from all expenses for that purpose.
JOHN M'CLINTOCK,
President of the Board of Trustees.
JAMES M'KEE,
Secretary.

OAKLAND SEMINARY.—The Board of Managers of THE OAKLAND SCHOOL ASSOCIATION respectfully announce that they have secured the service of
MR. AND MRS. B. M. KERR,
of Mansfield Seminary, who will commence the School on TUESDAY, the 15th of September next, at their residence, on the south side of Fifth street, between the families residing at Oakland, and a limited number of females from the city, will be received.
For the accommodation of the latter, an arrangement will be made to convey them to and from the school every morning and evening.
For terms &c., see circulars at the different Book Stores or apply to the principal, Mr. KERR, who can be seen at A. H. English & Co.'s Book Store every SATURDAY, from 10 o'clock A. M. to 4 o'clock P. M.

Weekly Review of the Pittsburgh Market.
[Reported specially for the Pittsburgh Gazette.]

PITTSBURGH, MONDAY, AUGUST 10, 1857.

There is a fair amount of activity for the season in the produce and grocery trade, but others see the market is very dull and stagnant. The rivers continue in good navigable order, and there is a moderate amount of freight going forward.

There is a regular inquiry for money, but there is not much first class paper afloat outside of the banks, and we hear of several transactions at 2 @ cent. The brokers generally charge 12. The N. Y. Tribune of Saturday says:

"The demand for money to-day has been active with a good supply. A large line of prime, 90-day acceptances of a leading house were taken to-day at 8½ @ cent without breakage, which is a decline. The quotations are 8@9 @ cent for first class, and 9@10 for second. 9@12 for unindorsed notes. Call loans 6@7."

The Philadelphia North American says:—

"The money market is easy, and prime paper, particularly of short date, is scarce and wanted at 7 @ cent @ annum, the bank taking nearly all the first-class paper offered."

The annexed statement shows the freight business of the Pennsylvania Railroad, during part of the month of July, 1857, compared with the corresponding month in 1856, 1855, 1854 and 1853:—

Wagon and [illegible] items of interest concerning crops and prices:—

THE CROPS IN GRAIN.—We learn that great competition is going on in Indiana up the new line of southern wheat, which has resulted in orders being placed to-day in proportion than present prices could and at the power, expectation of no change is that flour must decline also, the new crop promising to come in this movement extensively consumed, for it is felt that an effort of speculators can sustain prices in the absence of a foreign demand and with a full crop.—From the Genesee country, our advices reporting the new wheat crop, are very unfavorable; and it will be [illegible] appear that the farmers of that locality must especially turn their attention to other products.—*Y. Comr. & Exp.*

DESPERATE WHEAT.—The Jo Inster Democrat of the 4th says:—

"We are informed that a Buffalo firm has just closed a contract for the delivery of one hundred thousand bushels of Chicago spring wheat at a decline of about fifty cents from present prices. A large decline in breadstuffs is inevitable."

WHEAT.—We have been quoting wheat at 81 to 81.10. But the last is just for immediate delivery higher prices are paid, in those especially purchasing for Northern markets. The crops are generally kept private. As soon as the North-western mails come in the market [illegible] will doubtless decline materially.—*Louisville Journal.*

THE CROPS IN TEXAS.—A cargo of Manilla sugar [illegible] sold in New York on Wednesday at 9¾ cents, on the credit, to be divided among five refiners, each receiving 300 bags. The Post says the cargo was damaged, and in addition to its arrival [illegible] went in it was offered at 8¾ cents. The difference between this offer and the price now—all at a month to more than $50,000, exclusive of the difference in duty.

PROVISIONS.—We learn from Mr. Murray, who is now purchasing for the New Orleans market, that he has engaged 1,000 barrels of pork and 1,000 kegs of lard, ranging from $13.50 to $14.00, the former, and $12.00 to $13.50 a barrel for the latter. He bought a crop of ten acres of potatoes from Dr. Carmichael, of this county, which will yield, he thinks, at $1.00 a barrel, delivered here by the 15th inst., the seller furnishing the barrels. The potatoes are those in the Silver Lake—*Lanes. Jour.*

The packet ship Sarmine, from Philadelphia for Liverpool, has on board a cargo of cargo 415 bbls [illegible] Rosin, 1,000 bbls spirits turpentine and 50 tons tar, valued at [illegible] in all, within a few hundred dollars, drawn against sugar shipped there for England, by parties who no doubt wish to stave off the 1 a which longer, hoping before the shipment reaches England for a reaction in the price. The long passage of the Sarmine, 54 days since at New York, was about 250 a bbl. to the importer.

ASHES—Pots nominal at 6¾; there are no sales reported. Pearls are dull at 6¾ four months. Sales of the week are 30 bbls at 6¾ for ordinary.

BEANS—Sales are very little doing; an occasional sale is made in the small way at $2.62.

BUTTER AND LARD.—There is nothing doing in Butter packed or altogether nominal at 12@14. Lard continues in free supply and low demand at 10.

BACON.—Receipts are a shade higher than last week: the cash prices for [illegible] shoulders are 11½@11¾ for sugar plain Hams 13 Sugar cured do 14@15, as to size. Lard is dull and nominal at 10@10½ for No. 1 to prime.

BEESWAX.—Sales of Shoulders at 12, Sides at 14, and Sugar Cured Hams at 15.

CHEESE.—The Eastern manufacturers are selling in lots to the trade at 9½ cent @ annum, the bank taking nearly all the first-class paper offered."
