PITTSBURGH: MONDAY MORNING, AUG. 17, 1857.

READING MATTER ON EACH PAGE OF THIS PAPER.

We hear it reported in various quarters that the Pennsylvania Railroad Company intend to greet, on the property in the neighborhood of their present passenger depot, a large . Hotel for the accommodation of railroad passengors; and the report comes to us so well authendicated that we feel justified in making allusion to it. A quan denial has, we know, been put

States where such a thing as this would be permitted; we are certain it would not be permitmitted; we are certain it would not be permitted in Philadelphia, and that this company that fact so well that it has never once entertained the idea of building a hotel there. Then why do it there? Pitteburgh is as well supplied with good hotels as Philadelphia, and the public have never complained of any lack in public have never complained of any lack in that regard. The company cannot, therefore, have the plea of public convenience to urge in its behalf.

The business of hotel-keeping and of providing for the varies of travelers is one that is not. public have never complained of any lack in fr

glad to hear, of course, that the company entertains no such purpose; and if it shall turn out that our information is incorrect, we shall b gratified in being able to say so.

LOCOFOGO PROMISES WORTH NOTHING .- When Gov. WALKER first went to Kansas he was lavish promises of fairness to the Free State men

In one of his speeches he said : "In October next, not under the act of the Territo-rial Legislature, but under the law of Congress, you the schole people of Kansu, have the right to elect a Delegate to Congress and to elect a Territorial Legis-

election to be held in October: but no sooner was it ascertained that permitting them to do so would result in their triumph, then Gov. Walker set about to break the solemn promise he had given. It is now announced that the election in October will be held, not under the law of Congress, but under that of the bogus territorial legislature, and that no one who does not pay the bogus territorial tax, and who hot not been six months in the territory shall be allowed to vota. To make the triumph of the Border Rufment has been made by which counties contain-

xes are collected and the Free State men

As a part of the same scheme of villsiny, we note a letter from Judge Cato as to the rights of voters under the territorial law. The organic suffrage, without restriction, upon all citizens of the United States and upon all foreigners who had declared their intentions to become such ; the bogus territorial law excludes the latter class altogether and confines the right to such citizens only as have resided in the territory six months and paid the territorial tax. Judge Cato was asked whether the two laws did not conflict, and if so whether the territorial law was not therefore null. The Judge replies that it is null so far as it excludes foreigners who have declared their intention to become citizens; but that in all else the territorial law is in full force .-His reasoning is most singular, for if the Organic l on unnaturalized foreigners the light to vote, it also conferred the same right

on all the citizens of the United States, residing in the territory, without restriction; and if the territorial legislature could not exclude these unnaluralized foreigners from voting neither could it exclude native born citizens by imposing liffons not named in the act of Congress .-But your true Border Ruffian never stops to

It seems, therefore, that every obstacle has been thrown in the way to keep the Free State | that the Fort Snelling reservation had been so men from voting in October. While pretending legislating for themselves, the locofocos are exthem away from the polls.

Onio. The effort of the Cincinnati Enquire and the Pittsburgh Union to make out that the ure is simply ridiculous. The Convention was large, every county being fully represented, an The ticket selected is regarded on all hands as being a most excellent one, and the locofocus are merely whistling to keep their courage up the silly talk of defending it. As as instance of the way the tide is setting in that State we copy the following from the Ohio State Journal of Thursday: "The Republican Mass Meeting in front of the

Prime Republican Mass Meeting in front of the stand House Last night was a glorious winding up of the proceedings of the day. With but a brief notice of the proceedings of the day. With but a brief no of the stand house. At early candidates two or three thousand persons assembled on the steps in front of the State House. At early candidates, a fine band of minale was in attendance. The meeting was organized by electing Hon. John F. Beaver chairman, who on taking the stand made a brief and excellent speech. He then introduced to the andience Judge Warden of this city, late of the Supreme Court of Ohio. Mr. Warden has always been a good democrat and spoke and voted for James Benhaman last fall. He has acted with the party until it engrated the Dred Sects decision into its platform. Judge Warden spoke about one hour, and made one of the best argumentative speeches we platform. Judge Warden spoke about one hour, and made one of the best argumentative speeches we have ever listened to. He reviewed the course of the Democratic party on the slavery question, and showed, how they had departed from the old land marks of Liberty, and had settled down like a sinking ship into the dead sea of vlavery. The speech was well delivered, and commanded the undivided attention of the immense growd from beginning to end. We have heard but one opinion in regard to it, and that is that it was one of the best speeches ever delivered in this city. There was an carusestness and manhood about it which thrilled every heart."

Grand Junes Gong our of Parings.—A proposition to do away with grand juries, so far alreast as London is concerned, is now before Parliament, and receives the support of government. A motion intended to, defeat the bill was rejected by a large majority. That able lawyer, Sir P. Thesiger, defended the bill, and Parliament, and receives the support of govern-ment. A motion intended to defeat the bill what rejected by a large many related to the Trepated representations of grand juries themselves to the effect that they were not only unnecessary but absolutely an

obstruction to justice.

We are glad to note this morement. For many years we have been convinced that grand juries are of no service in furthering the ends of justice but mirely aid in complicating judicial heriness. but merely aid in complicating judicial business. The institution of the grand jury is one of the The institution of the grant jury is one of the relies of the past which it would be gain to get a contact in consequence of the great of Dr. Keyer's Tooth Achs Benedy. THE MISSOCKI ELECTION. - A strange atmos phere of doubt has been thrown around the result of this election within a day or two, pre nitory, as is suspected in the Free Soil party of St. Louis, of some terrific fraud of the wire pullers, and freedom-hating set, calling themselves the "Democratic" party. As it was in this abused State, which was given to the locofocos last October, by hideous frauds since disovered by legal investigation, and at the time well-known to everybody; as it was in Illinois last lovember, when the returns from Egypt were made to tally with the necessities of the case;

box stuffers are in a position to be circumvented Here is the way the case stood on Wednesday. Ninety-two out of 108 counties had been heard rom, giving Rollins, according to the Democrat, majority of rising 2800. At that time, if every county yet remaining to be returned gave Stew forward; but those best posted in such matters art the same relative vote that Buchanan receiv do not seem to regard the denial as author, ed in November, Mr. Rollins would be elected by about 600 majority. On Thursday The Re-

tative.

The question at once arises—what right has a Bailroad Company to engage in the business of Hotel keeping? It was chartered to build a railroad, and to do nothing else! That object secomplished, it has no call or right to engage in anything else.

We judge that the company would not venture to undertake such an enterprise, if they did not presume upon their—chances of jutting is through without stirring up much notice or opposition among our citizens. The people of Pittsburgh are slow to move and hard to rouse; but we hazard a suggestion that it would be best not to calculate too much upon their bishifual immobility.

We do not believe there is a city in the United States where such a thing as this would be personal figures, and so the day closed."

we believe, was the result of their consultations, liberations and figurings, and so the day closed." In another place it adds this, in another tone

The Democrat of Thursday says:

ing for the wants of travelers is one that is properly left to private enterprise. A railroad company has no more right to engage in it than it has to engage in the sale of groceries or produce. There need be no fear that the traveling public will suffer for want of hodily accommodations. There are always men eager enoughments to eager) to invest their money for that purpose. Let the railroad company confine themselves to their legitimate business, and leave to individual effort, whatever does not come within that category.

The Democrat of Thursday says:

"We stated on yesterday that unless fraud were proposed that frauds are formed for advices from the City of Jeffron and Skin, Female Complaints, Gravel, de., sent by main and postage prepaid, for 40 cents. JUDGE THOMPSON.—The Union comes to the rescue of Judge Thompson for his course on the Fugitive Slave Bill when a member of Congress. It does not think that there was any harm done by the Judge when he prevented discussion on that bill, since none but the opponents of the democracy wanted to dicuss it, and it is always right for democrats to gag them when they can, if the state of the ing one-half the population of the territory get | right for democrats to gag them when they can. but three members, and the rest, bordering Discussion is a thing which the democracy has an especial aversion to, as we have lately seen the whole U. S. force in the territory to see that in the skulking of Proken from the challenge of It loves gag laws; and when they are not available, violence is easily resorted to But, says the Union, if Judge Thomyson de vote for the Fugitive Slave bill, Judge Wilmo did not vote against it, and that amounts to the same thing. Not quite. Judge Thompson had, act creeting the territory conferred the right of in 1848, professed strong anti-slavery views and claimed that he, and not WILMOT, was entitled to the honor of what is known as the Wilmot pro viso. He was elected on the strength of these tive Slave bill came to the House from the Sente, he availed himself of the opportunity offer ed by a thin attendance of the opposition men

bers, to call it up before it could be either re ferred or printed, moved the previous question and forced it through in a few minutes withou permitting a word of discussion, or allowing the members an opportunity to read and examine it It is this piece of infamy we hold him responle for. Judge Wilmot was a member of the House that year, but, like many other members he was not present, on that day, not being aware that the bill would be called up. No revious notice had been given, and the whole thing was forced through so suddenly and so uickly that the absentees were taken by su nrise. Had Judge Wilmotheen present we have

o doubt he would have voted against the bill. THE FORT SERVING SWINDLE .- We copied of Saturday from the Detroit Advertiser a stateme: for an unknown sum to political favorites of the resent administration, including sundry men ers of Congress, but presumed to be vastly Tribune that the sum obtained for it is bu \$90,000 !

This is a most iniquitous swindle. The re ervation consists of 23,104 acres, inclupublic buildings thereon, which did not cost less than \$50,000, and is the finest spot of land i finnesota. Its real value, at the present rates of land in that territory, is at least \$2,800,000 This immense and valuable property, which is spidly augmenting in value, has been privately sold under a clause smuggled by a locofor namber of the last Congress into the appropriaion bill, for the beggarly sum of \$90,000, the administration thus deliberately swindling th national treasury out of more than \$2,000,000 for the purpose of enriching political favorites It is too much, we suppose, to hope that the next Congress will investigate this piece or robbery, seeing that none but locofocos are en gaged in it. No Congress has ever yet thous it a crime for members of that party to filch do

lars from the treasury.
