THE SOUTH WARTS A NEW PARTY.—The Richmond Whip and Louisville Journal, since it has become evident that the American party is used up and cannot be resuscitated, are extremely anxious for a new and "National" party of some

with that settlement, and stirred up agitation more facetely than ever by repealing the Missouri Compromise. And so it will ever be—Slavery is a question which cannot be "settled" so long as the South Ands it worth fighting for it has been for many years and will continue to be, in some shape or other, the great and leading question before the country. It was Slavery and the South and has just killed off the "Whig party in the South and has just killed off the "Whig party in the South and has just killed off the American party; and it is Slavery, and not Democracy which killed off the American party; and it is Slavery and pot Democracy which has nearly if not altogether lost Missouri. "There is evidence too that the bill has been carefully prepared. It was closely examined in the Honse of Lords and strenuously opposed by some members of that House. The strongest argument brought against it is that it does not place both soxes on the same footing as to the ground on which divorce may be obtained, it requiring more aggravating circumstances from the one than the other. But it is nevertheless an improvement upon the old system, and should therefore be halled with satisfaction rather than be met with opposition. There is every probability that it will pass the House of Common during the present session. We cannot help thinking that if it becomes a law much that is now a sexadd and a reproach to the social and legal institutions of Great Britain will cease to be. We are no advocates of a too easy sundering of the marriage tis, but where there is real, substantial cause for divorce why should not poor men as well as rich have a remedy by law? The majority for the second reading of the bill in the House of Commons, on the 31st ult, was 111." fine. "There is evidence too that the bill has been care-

Coming Home to Roost.—Curses are not the only thing that, like chickens, come home to roost. The boastings of the locofoco press of this State of Packer's prowess on the stump, before he was challenged, may be instanced as illustrative of this fact. We quoted the other day, from one of his party papers, the statement that he professed his willingness, to the convention which nominated him, to meet his opponent on the stump. In his speech, as revised in the Gazette, of 18th March last, the same thing is implied, in more reserved terms,
