This was the game so well and so profitably played by some of his friends in the last Precidential election; and it certainly could not be repeated while Mr. Wilmot was present to expose his game.

But under existing circumstances such a course would have been downright treachery to the Democratic party, and would have proved that he placed a higher value upon his own character and feelings than upon the success of locofocoism.

astisfied that the people's money is squandered
in the management of the State improvements,
without any compunctions of conscience. A
system of partizan favoritisism is openly practised, regardless of the interest of the State.—
Two successive Legislatures have each appropriated \$50,000 towards colarging the Delaware
Division, and no one can tell how much more
money will be required to complete this work.

The first \$50,000 were expended on about ten
miles of the canal, commencing at Easton. GRIAII DIOREI & CU., WHOLESALE

John Street, Str money will be required to complete this work. The first \$50,000 were expended on about ten is miles of the canal, commencing at Easton, and the second appropriation may possible carry the work to New Hope. And this is simply placing a quantity of fresh earth on the embankments, many places of unsuitable materials, poorly done, and whidh will wash away the very moment water is turned upon it. The contractors are all political favorites, who have been awarded the contracts because of political services, and who are permitted to go far astroyers, and who are permitted to go far suffer as the specifications call for. This every one knows will wash away at the first contact with the water. All the work is insecurely and improperly oxecuted, and will be of very little service, if ever the water is turned upon it.—Mr. Canal Commissioner Mott, through a near representative of his family is largely interested in one of the contracts, and seems determined to make a fine speculation of the matter.

"This work will, in all probability, require two hundred thousand dollars, and even greater sum than this, before it is completed."
