Pittsburgh Gazette.

PITTSBURGH:

DAY MORNING, AUG. 26, 1857.

The City and Neighborhood.

HON. DAVID WILMOT.

[illegible] was afraid to meet on the stump.

The Citizens of Allegheny.

On Friday Night, August 28th,

the people are urged to come and hear the great Champion of Freedom.

Assistant Bank.—At election was held, yesterday, the following officers for this bank. The following were elected by a large majority:

Hopewell Hepburn, Jno. H. Shoenberger, David Campbell, Wm. Bagaley, Vashel L. Graham, Josiah King, Wm. McKnight, James Park, Jr., Charles H. Paulson, C. G. Hussey, R. P. Roberts, Jno. Dalzell, W. Coleman, Peter Peterson.

It is presume the directors will meet on Monday next, to elect a President and cashier. Mr. S. S. Bryan, late of the Peal Mill, is mentioned as a prominent candidate for cashier.

The new plate is a very handsome one, engraved by Wesley Wright & Co. The first have for its centre a steamer, with two handsome medallion figures on the upper corners, a locomotive on the lower left corner, and female bust on lower right corner. The next, or second impression of the mechanics' plate, has a steamer, with two medallion figures on upper left corner, a medallion of female bust on lower left corner, and a bully head on the right. The centre vignette of the Twenties is a representation of agriculture, commerce, and manufactures; large medallion "20" on either corner, a female bust on lower left corner, and a pastoral group on right.

The Allegheny Bank will re-commence business immediately in the building on Federal st. [illegible] in a very appropriate style. We understand that the new plate will be engraved by Wesley Wright & Co., and the very efficient help [illegible] Allegheny Bank cannot fail to meet the expectations of its Stockholders, and of the business men of our sister city.

Fighting for the Sports.—On Monday evening about half-past seven o'clock, a report came to our ears that a highway robbery had been committed on the St. Clair street bridge shortly before, and that the victim had been [illegible] wounded by a cut in the back down to the knife. We immediately hurried to the scene to gather the particulars, and ascertained the following, though too late for yesterday's paper. Between nine and eleven o'clock a man entered the bridge from the Allegheny side, rather intoxicated, followed soon after by a man of a white color. Some minutes had elapsed, the man with the white coat returned at a rapid pace and passed up Federal street. The landlord of the toll-keeper being excited by the sound of the toll, hastened to the bridge, and after passing along to the second lamp met the intoxicated individual, who stated that the man in the white coat had cut him in the neck with a knife, from which the blood was flowing quite profusely. The toll-keeper asked the man to the toll-house, when he stated that he knew his assailant, but would give no intimation as to who he was, as he was his own business. He was taken to Dr. Peterson's office, where his wound, which was merely more than a scratching of the skin, was dressed. Here he would give no information in regard to the affair, merely requesting that his friend, the toll-house keeper who was within hearing distance at the time, heard the man in the white coat saying the other for some money which he owed him, which seemed unsatisfactorily resulted in the cutting alluded to. The wound will probably inflict with a permanent scar. Mayor Weaver dispatched officer Riggs, in the morning, to investigate the affair, and if he can, after diligent inquiry, give it as his opinion that the parties in the assault and occurrence were thieves who had been on some robbing expedition, and had quarreled about the division of the spoils. There are the whole particulars of what was supposedabout a highway robbery and attempted murder by some of the city papers.

Tried Murder of Lightning.—Scene for Love.—We take the two items which follow from the Wheeling (Va.) *Intelligencer* of the 22d:

Wolcott from a settlement just arrived from Marshall county, that on Monday last the barn of Mr. Wm. Emery, on Fish Creek Hills, near Bolton, was struck by lightning. Three men were killed and the barn and its contents totally destroyed. The men were engaged in threshing—with a machine inside the barn, when the electric fluid struck the cylinder of the thresher. John Kelly and Joseph Young were instantly killed. There were some half dozen persons in the barn at the time, among them Mr. Henry Hinsley, who escaped without [illegible] but was stunned for his death. This unlucky affair has resulted in the community of three of its best citizens, has cast a gloom over the whole neighborhood.

We are reliably informed that on Monday last, a young girl named Bartlett, whose father resides on Fish Creek Hills, in Marshall county, committed suicide by hanging. The cause assigned for the act of a desperate resolution disappointment in love. She obtained permission to go to a clearing near her father's house to gather bark for binding wood, and was observed to climb a tree with her. She remained out longer than was her custom and search being instituted, the unfortunate was found suspended to the limb of a tree, quite dead. The girl was about eighteen years of age. The superstitious people in the neighborhood, would not allow her to be buried in the church yard, and her remains were appropriately interred at the Cross Roads, in accordance with a [illegible] custom in the suicide law.

Pittsburgh Industrial Sewing School.—The attention of the benevolent ladies who have taken an interest in the Industrial Sewing School in Pennsylvania Avenue, is earnestly solicited to the quarterly meeting to be held in the school room at three o'clock, P. M. next Thursday the 27th inst., for the purpose of electing a Director and other officers-bearers for the ensuing three months. There are from sixty to seventy little girls in regular attendance, and the good effected by this institution for the nine months in which it has been in operation needs no commendation from the friends who have been engaged in the tuition of those in attendance. The ladies of the different churches are respectfully invited to attend the meeting.

We take this opportunity to give an expression of our thanks to the friends by whose aid we have been enabled to carry on the good work. We anticipate a continuation of this benevolence.

By order,

J. C. SINCLAIR.

Change of Name.—A young German girl, named Catharine Blass, about twenty years of age, appeared before Mayor Wagner, yesterday, and made complaint charging a young man named Frank Dorrington with rape. She alleges that, on Monday night last she went to the house of Joseph Dorrington, on Water street to make some purchases, when the defendant entered her up stairs, and committed the alleged offence, holding his hands on her mouth so that she could not scream. She also avers that she had not lately recovered from [illegible] sickness. The defendant was arrested and held to bail in $2,000 for trial.

Wm. McKnight, for three years editor of the Mercer *Press*, gives notice that the paper is to be taken from him by Garvin, from whom he leased it for six years, by virtue of a clause put in their agreement by Garvin, authorizing him to take it at the end of *three* years, provided any thing went wrong. The "wrong" of which advantage is now to be taken was the refusal of McKnight to support Cameron when he deserted that party.

Mr. John Wetherbee, of Birmingham has placed on exhibition for a few days at the Merchants Exchange, one of L. L. Dungerford's Movable Comb Hives, containing a stock of bees; those interested, or who would like to keep bees will find Mr. W. in attendance, during the day.

Two additional charges of assault and battery with intent to kill have been made before Alderman Johns against Edward Colcord, of West Pittsburgh, by Thomas Carroon and James D. Wilson. Committed in default of bail.

Tickler Tried.—A friend who went to get shaved the other day found the barber asleep. "How is this?" enquired he. "De fact is, sah," said the barber, "de ted bugs tickled me so last night dat I got no sleep."

Police News was unusually dull yesterday. The Mayor had some ten or twelve cases of disorderly conduct before him, but there was nothing in them worthy of special note. The Aldermen were generally without even a common case.

Funeral.—We learn that at the dedicatory services at the South Common M. E. Church, on Sabbath last, the collections and subscriptions amounted to the very handsome sum of $2,300.

The Continental Insurance Company, whose agent for this city is Mr. Joshua Robinson, 24 Fifth street (up stairs), is, we are pleased to learn, doing a good business.

The Theatre opens for the fall season on the fifth of next month. In the meantime a large corps of workmen are engaged repairing and renovating the building.

High School.—The candidates for admission to the High School will meet this morning, at 9 o'clock, at the School Rooms on Smithfield St.

Late Discoveries in Pathology show that very many of the diseases which afflict mankind arise from impurities of the blood. This has long been suspected but its only lately known. In consumption, tubercles are found to be a sedimentary deposite from the blood. Dropsy, Gout, Cancer, Ulcers and Eruptions, all arise in disordered deposites from the blood. Billious diseases and fevers are taken solely by its deranged nutritive state, and even the decline of life follows a want of vitality in the blood. In view of these facts Dr. Ayer has [illegible] his *Cathartic Pill* especially to purify and invigorate the blood; and hence we believe to ensure its unparalelled success in controlling and curing disease.—*Medical Journal.*

For a Few Days Longer.—Sales of Gent's and Boys' Clothing, Furnishing Goods &c., will be continued for a short time longer, and feeling confident that the character of the stock and the rates at which it is selling are real inducements to purchasers, all are solicited to make an examination at T. T. Carnaghan's, Near the Post Office, Allegheny.

Telegraphic.

New York, August 25.—The President of the Ohio Life and Trust Company has published a card, in which he states that the capital of the Company, two millions, is sound and reliable, exclusive of the anticipated losses from insufficient securities. The *Tribune*, however, states that the liabilities of the Company are estimated at from five to seven millions.

It is reported that two heavy banking firms, on Wall street, viz: John Thompson and Delaney, Iselin & Co., have suspended.

The panic in Wall street is increasing. Besides those named, the failure of other prominent houses is whispered.

Legal proceedings against the Ohio Trust Company have already been commenced by the agent of a foreign house, who are the chief creditors. The failure is believed to be disastrous.

T. S. Munroe, banker, has suspended. An attachment has been issued for nearly $2,000,000 against the Ohio Trust Co.

Later From Europe.

New York, August 26.—The mail steamer North Star, from Southampton, with London papers to the 12th, arrived here last night.

It is now thought probable at London that the session of Parliament would close on the 22d.

The American horse Fryoress ran for the Sussex County Cup at the race which took place at Lewes, on the 11th, and came in fourth best.

The *Times* city article of the 12th says that funds show an increasing heaviness. The possibility of a loan of ten millions of pounds sterling being required to be raised by the home government for the East India campaign was the chief apprehension that weighed on the stock and money markets. The question, however, is not so imminent as to cause a serious depression for the moment.

Washington City, Aug. 25.—The Hon. Chas. E. Sinclair has been appointed one of the Associate Justices of the Supreme Court of Utah vice Stiles removed.

The Southern mail which reached here this afternoon furnishes New Orleans papers of the 18th inst. They contain intelligence from Texas. The Galveston News of the 18th inst. states that H. R. Runnels, the Democratic candidate for Governor, has received a majority of less than 11,000 votes.

Encouraging accounts of the cotton crop in the interior are furnished. The picking had fairly commenced, but the effects of the drought on the frontier are deplorable.

Brooklyn, N. Y., Aug. 22.—The American State Camel of New York met here to-day. The following officers were elected: President, Wm. Bagaley, Vashel L. Graham, Josiah King, Wm. McKnight, James Park, Jr., Charles H. Paulson, C. G. Hussey, R. P. Roberts, Jno. Dalzell, W. Coleman, Peter Peterson.

RIVER NEWS.

The river was falling rapidly yesterday, and there was not, last night, over 4 feet in the channel.

The Mary Cobb and Hazel Dell both arrived from below with good cargoes. There are several other boats now over due.

Freight outward continues scarce, and if the river continues to fall, there will be a check given to receipts from below.

The Hazel Dell has her sign up for Louisville. The other boats advertised continue to load slowly.

The Cincinnati Gazette, of Tuesday, says:—

Business on the levee yesterday was dull—there being but little freight received, and not very much discharged.

The Pittsburgh there was not over fifteen tons received; with the Modestian, Venona and Arizona loadings and the J. B. Done for Wheeling. To St. Louis there was not over 75 tons offered, with the Ray City, Martha Putnam, Anglo-Saxon and Hibernia receiving.

We learn that the Colo. Perry, after making another trip to St. Louis, will enter the trade from Pittsburgh to Memphis. She will have agents in Philadelphia, New York and the East, and accept for freight direct through to Memphis and all the Southern ports, which they will put on be an immense rating to Southern merchants over the present method of sending to Eastern cities.

The Commodore Perry, Arizona and Moderator cleared for Pittsburgh, yesterday with only moderate cargoes. The J. H. Done left for Wheeling yesterday, and the Hibernia went to St. Louis. The J. H. Done has laid up at Louisville.

To the Graefenburg Company.

GENTLEMEN:—I look upon it as an act of gratification as well as of duty, to inform you of my experience with regard to the Medicine, which you put into my hands. I have been a practitioner of medicine for some twenty-five years, and have always found a standard imposition to the above diseases known as Uterine. My brethren of the medical profession have always looked upon these complaints as incurable, and they have much to answer for in their inability to discover a remedy. Having heard of your preparation, Marshall's Uterine Catholicon, and having tried it in my practice, I am prepared to say, without a shadow of doubt, that it is the only remedy that will cure these complaints. The following is the result of four years careful trial. I have always found the catholicon successful in cases characterized by any of the following symptoms: Great heat, pressure and bearing down in the uterine organs, sense of weight on the bladder, accompanied by very urgent and frequent desire to pass water; great nervous excitement about the time of the monthly period, with irregular discharges, it being sometimes abundant, and at other times scanty and difficult. Weakness and soreness across the back, irritability of temper, dullness, listlessness, and extreme irregularity in the bowels, burning of the stomach, weight in the groins and small of the back, tearing and tearing in various parts of the body, and a general prostration of the system. There are many other symptoms connected with these complaints, and I have observed them well-detailed in the various certificates and publications of your Company. I ought to say that in the complaints caused by the "return of life" in elderly females, as well as in the case of young girls, in just coming to Marshall's Uterine Catholicon is infallible.

Yours truly,

BENJ. KITTREDGE, M. D.

A young female friend of mine has been afflicted for four or five years with uterine difficulties, which produced violent hysterics. Two bottles of Marshall's Uterine Catholicon cured her entirely.

HARVEY PERRY, Providence, R. I.

A female friend of mine, who had been suffering for nearly ten years with uterine difficulties, (irregular, suppressed and painful menstruation,) by four months use of Marshall's Uterine Catholicon, better than also ever anticipated to be in her life, and confidently expects a perfect cure.

F. HITCHCOCK, New York City.

Thousands of other certificates are on file at the office of the Company, where all interested are invited to call.

DR. LIBBY'S PILE OINTMENT.—Dr. Libby, Governor of and United States Senator from Florida:

For upwards of twenty-five years I have been afflicted with the Piles, having suffered in several surgical operations for their removal, and have tried more than fifty remedies; Dr. Libby's Pile Ointment is the first that I have ever found relief. From the effects already produced, the cure must be rapid and complete.

JAMES D. WESTCOTT.

From George. W. Matsell, Chief of Police, New York City.

I have long been troubled with the Piles, and the use of Dr. Libby's Pile Ointment gave me immediate relief. It gives me further pleasure to add that in many instances among my acquaintances it has been used with like results.

GEORGE W. MATSELL, Chief of Police.

From the late Adjutant General of Connecticut:

I have been afflicted with Piles in their most distressing and discouraging form for upwards of twenty years, and had recourse to the best medical skill without benefit. I supposed the case incurable, and thought that it would destroy my life. Under the circumstances I commenced the use of Dr. Libby's Pile Ointment; and the result is a perfect cure. I have no language at my command sufficient to express my gratitude.

CARNAGHAN'S ENTIRE STOCK OF MENS' AND BOYS' CLOTHING, TO BE DISPOSED OF.

SALES COMMENCING TUESDAY, JUNE 30, 1857

AS it intended to enlarge and improve our Store Room LATE IN JULY, the whole stock of GENTLEMEN AND BOYS' CLOTHING, FURNISHING GOODS &c. now on hands will be offered AT PRICES MUCH BELOW THE REGULAR RATES with the view of CLOSING OUT the whole before commencing the improvements. This it will be observed is not a mere pretext to get rid of old goods, as everything will be found NEW AND FASHIONABLE. But the contemplated alterations would necessarily deface the stock, and to obviate this it is proposed to clear out the whole at once and open the Fall Trade with an assortment altogether new.

A fine variety of piece goods for custom work exclusively will be made to order at a large discount.

The Health of American Women!

THE GRÆFENBURG FAMILY MEDICINES

MORE OF THESE MEDICINES ARE SOLD EVERY WEEK THAN OF ALL OTHER MEDICINES PUT TOGETHER.

In this country success is the result of merit, for the keen discernment of our countrymen is proverbial, and puts an eternal stop to ignorant pretensions.

We conceive that this unequaled success of the Graefenburg Medicines is owing to their undoubted superiority, than to any other cause, and we desire to call especial attention to one of the best among them,

MARSHALL'S UTERINE CATHOLICON

This remedy will certainly cure Falling of the Womb, Whites, Disordered Menstruation, Disease of Pregnancy, All troubles at the change of life, both with Young and old, and all the various kinds of weakness and nervous complaints caused by disordered uterine organs.

THE PRINCIPAL SYMPTOMS

indicating diseases for which the Catholicon is offered as a certain cure, are weakness in the back, tingling and pain between the shoulder-blades, extending all along down the spine, succeed by the end of the spine, leaving down pains in the uterine organs, shooting pains in the bowels, and into the hips, sympathetic pains in the breast, bulging in the pit of the stomach, nervous irritability of the bowels, sometimes with diarrhœa, and again with obstinate constipation, cold feet, capricious appetite, headache of all kinds, humming or beating in the ears, with roaring or whistling in the ears; dull pains in the head, with great nervous excitement, succeeded by complete prostration, languor and discouragement, disarrangement of the menstrual periods, with an acrid discharge between them, which are described in the publications of the Graefenburg Company.

In all cases of Palpitation of the Heart it acts like a charm. Many uterine complaints supposed to be heart disease, from the sympathetic disturbances connected with that organ, but the Catholicon should always be taken, and in nine cases out of ten it will be found that nothing is the matter with the heart, and that's cure will soon follow. It may still also relieve that feeling. Known as the heart rising in the mouth and turning over.

ALL OF THESE SYMPTOMS

are not present at any one time, but any of them indicate the presence of disease, and the necessity for

IMMEDIATE ACTION.

The remedy is prepared by one of the oldest and most skilful physicians of the day, and every one may be assured that they are taking a scientifical and well compounded medicine.

Experience has proved that the remedy will cure eighteen out of every twenty cases, and in most of the incurable cases were no, because of cause which had destroyed the reproductive powers of the system, or of severe mechanical injuries which had caused some delicate membranes, and thereby rendered a cure impossible.

The price of the article being but One Dollar, and a small portion being all that is within the reach of every person, all should have a fair trial at least.

The medicine is accompanied by full directions, enabling every one to medicate for their own cases, thus preventing the necessity of medical consultation, and what is more important, entirely doing away with medical examinations, which are justly looked upon by woman as a violation of their most sacred feelings, and to avoid which, will suffer excruciating pains, and suffer death rather than submit.

Females who would have their health restored, their spirits revived, their step elastic, their form developed, their cheeks rosy, their eyes sparkling, their minds active, and their whole system full of life and energy, should use the Catholicon.

Females who would have their hair restored to its original color, and prevented from falling off, should use the Catholicon.

Females who would have their skin clear, free from pimples, blotches and sallowness, should use the Catholicon.

Females who would have their complexion beautiful, should use the Catholicon.

Females who would have their form developed, their limbs rounded, their busts full, should use the Catholicon.
