The Protective Tariff Visdicates.—Gen. Duff Green, once the head and front of the anti-tariff interest in this country, has issued a circular to railroad companies, inviting their co-operation in an organization to promote the exclusion of British, a part of the means to accomplish which is the revisal of the Tariff and a return to the Protective policy. We have nothing to say, now, as to the general scheme of Mr. Green; but we are glad to note this glimmer of returning sense. The country for years has been going wild in buying abroad what we ought to have manufactured at home; and the result is seen in the fact that we are to-day, as a nation, standing upon the brink of national bankruptoy. The Free trade policy has brought this can be brought.

As another indication of sound judgment in this matter we quote the fellowing from the Prinnylranian, hitherto a Free Trade paper.

And not only so; for we find that in his speech at York the burden of it was the Slavery question! He tells Judge WILMOT, through the committee, that the slavery question is settled. and that he declines to meet him on the stump for fear of reviving its discussion; and straight way goes before the people to revive the discu

sion and agitation he professed to fear! Having thus shown, by his own subsecu conduct, that the two reasons he gave for declining Judge Wilmor's challenge were hollow and insincere, the only conclusion left is, that he was afraid to meet WILMOT on the stump, and merely used false reasons as a temporary shield behind which to hide.

Missouri Election.—Taking the returns as

It is the Republicans who are advocating the right of the people of and it is said that no work upon this science embrawho are advocating the right of the people of Kansas to govern themselves, and it is the Democratic party which denies and withholds from them that right. All that the free State men of Kansas ask is the right to govern themselves, and they dare the National administration to concede to them that right. The administration is the second of the profile of the p

there has been a suicide there. On Sunday night of last week Mrs. Matilda Kaltenbacher took poison in a fit of jealousy, growing out of the attentions of her husband to her sister. GOVERNOR WALLER'S QUANDARY .- In GOV. Walker's celebrated Topeka speech of June 9th, he made the following specific pledge:

"In October next, sot under the act of the late
Territorial Legislature, but under the have of Congress, you, the whole people of Kaneas, have a right
to elect a Delegate to Congress, and to elect a Territorial Legislature."

This was plain and explicit; and under it the people at once resolved to take part in the October election. But since then the Governor has nnounced that the election is to be held under "the act of the late Territorial legislature,"

But scarcely was this course resolved on when Gen. Packer was announced to speak at of that paper to Packer is daily becoming more democratic meetings throughout the State! He

THE Post says that a tax levied to pay interest on the railroad bonus is not "illegal," and therefore the seventh resolution of the locofoce county convention does not and cannot be made to mean repudiation. If it does not mean that, and does mean what the Post says, what, in the name of common sense, was the object in the name of common sense, was the object in the interest at any of the post of th passing it? was it to gull the public?

In a speech, at Memphis, Tenn., recently, Col. Mobertson Topp, said: "Truths make but slow progress with mankind owever obvious they may appear to others."

"Others" must mean "the rest of mankind. More ANTI-SLAVERY DISTURBANCE IN KEN-Fee, the celebrated anti-slavery preacher in Kentucky, went into Rockbridge county, the county from which he was driven two or three Missouri Electron.—Taking the returns as made up by the Border Ruffian office-holders, Stewart is elected by a small majority. The Democrat and Intelligencer agree in stating that Rollins has been chiselled out of his election by tampering with the returns, and changing the actual vote in distant counties. It is believed that frauds have been perpetrated in a dozen counties at least. The Cincinnati Gazette well says:

"The election in Missouri has resulted in the return of Stewart (the pro-slavery candidate) by about 400 majority; in other words, it is a drawn battle.—Who is Governor of Missouri, just at the proserve of opision there, is of great moment. No one can mistake that. Mr. Buchanan received about 10,000 majority against Fillmore. Rollins, who was not only an American, but an emancipationist, is just compared to the men have any interest in slaves.

majority against Fillmore. Rollins, who was not only an American, but an emancipationist, is just not elected.

"The circumstances of the election indicate its meaning with great force. When charged with being for emancipation, Rollins declared he had no objection, and indicated clearly enough that he was on the Anti-Slavery side. He was charged with being an emancipationist, an abolitionist, a Black Republican; in fine, with favoring and exciting all the borroors which are supposed to result from the abolition of slavery. Such a man would have raised an inturrection in Virginia; and how long is it since he or any man has dared to express an anti-slavery sentiment in Missouri?

The general aspect of affairs in Third street remains without essential change. Anxious inquiries, with reference to the affairs of the Trust Company, continue numerous, but no now light has been obtained. Several attachments were applied for, and one against the Trust Company building was obtained this morning. A motion to dissolve it will be heard on Monday. The Company continues to liquidate its liabilities as rapidly as a possible. We did not learn the extent of the settlements made to-day, but by the close of the week the indebtedness will probably have been reduced one million dollars. This will leave somewhat less than one million due to Cincinnati depositors.—Cin. Gazette, Saturday.

This sounds a good deal like the talk of past times, when the country was struggling to preserve the legislation which served to protect our manufacturing industry. That legislation, under the operation of a baleful political theory, was swept away, and now experience is demonstrating that our course has been suicidal. We must return to the old paths. We must have a fair election in decidence of specie to buy abroad what we can make at home.
