READING MATTER ON EACH PAGE OF THIS PAPEL.

THE NEXT SPEAKER.—The question of who shall be the next Speaker of the National Legislature already affords a theme for discussion among the journalists of the Federal City—The composition of the House precludes the possibility of such another content as signalized the opening session of the last Congress.—From present appearance it its safe to conclude that the political-complexion of the House will be as follows:—Republicans, 93; Know Nottsings, 13; Locofocos, 128; giving the latter a clear majority of 22.

The intelligent Washington correspondent of the Carrier & Enquirer easy that the most prominent randidates of the pro-Slavery party for the Speakership will be Mr. Oan, of S. C., Mr. Horkers, of Va., Mr. Pirkers, of Mo., and J. Glancy Jones, of Pa.

It is said that Orr would have walked over the coarse had it not been for a fearful suspicion, which has obtained in the South that he is not trade on the Kansas question. His dip into the Treasury up to the clow in the grand Fortship. He is a sound border ruffina and will on that account command the votes of every Northern locofoce Esau that has wired into Congress by force of subserviency. For an ardent partisan in the wrong, give us a dough-face. He needs earnest protestation and ample suppleness of the knee to keep in good grace with his frowning masters. They ought to have Atchison as a candidate in order to test the virtues of the Republicans. Campbell of Ohio will probably be ousted by Valandighm, who contests the seat. The latter will go in on a test vote, and for the same reason that Titmous got a seat in Parliament—simply because he can count the Parliament—simply because he can

The man, it is said, to whom the eyes of the partv are turned is Hon. Frank Blair, of St. Loui Of course he will not be elected, but to a galtruth is sure of triumph, it will be glory enough Missouri, he is destined to take a complace in the great battle for right which is sure free men in this Republic.

MORE PROSCRIPTION ON ACCOUNT OF BIRTH -We have alluded once or twice to the fact that the late democratic convention in this county and nominated a Know Nothing over him. It of their love to foreigners, the latter, confid ing in their word, brought forward Dr. F. HEUBSCHMANN, of Milwaukee, as a candidat for Governor. But the natives thought that was and conferred the honor of a gubernatorial fit and pleasure.

WHERE IS THE MONEY !- In answer to the in Mr. Breslin in distributing the money that should River Valley Road, Ex-Secretary of the U.S. none other than Gov. Barstow. These are shining lights in the democratic party, and their example is a strong inducement, (is it not?) for cal associates in this county from getting control of our county affairs.

ONE OF THE FLORIDA WAR INVESTMENTS.—
The fourth mirelial at Pilatka, Fiz., recently discovered \$3,280 buried in the ground. It is supposed that the money belongs to a United States paymaster, who passed through the town, and who, on his arrival at Tampa, discovered a less of four thousand dollars. That, however, is but a trifle to the money Uncle, Sam has buried in Florida in the course of this war.

The Atlantic Telegraph.
The arrival of the U. S. frigates Ning Ningara and Surquehanna and H. B. M. frigate Agamemnon at Plymouth, was proviously reported by telegraph. No further information respecting the atention of the company is given. A meeting on the subject was to be held on the 19th of August. Mr. Banks will be elected Governor of Massachusetts and leave his seat in Congress vacant, as far as the Speakership is concerned.

The way aralleled length of the cable, and the vast depth to which it was sunk, have presented no chestacles to its telegraphic working; until the final disaster accurred, messages were flashed with the must be active to excess along 2,500 miles length of wire, a portion of which was sulmerged to the depth of very nearly two miles in the ocean. Another point relates to the rate at which the cable can be paid out. It has been conclusively proven that there is no obsta-cle to laying, it down at the rate of five miles pe-hour, in the greatest depth of water that exists, of the proposed line of submersion, between Ireland an Newfoundland.

The remark that it has been "conclusively proved that there is no obstacle to laying down to be beaten with him this time. Standing as the telegraph cable at the rate of five miles an he does the Representative of free principles in hour in the greatest depth of water," should manding have been qualified by a very important exception, viz: the under-ocean current, which i o rage until victory shall crown the efforts of this case, is "conclusively proven" to be a very formidable if not insurmountable obstacle.

The London Star, not a high authority, how ever, says it is estimated that the outside loss the Company will sustain in consequence of the oscribed a competent German, Mr. A. Hartje, that at least one half of the sunken cable will be
