ent one of the Canal Commissioners, and Mr. Littlejohn was speaker of the Assembly at its late session. —M. I. Trib.

The failure of Reeves, About & Co., and Reeves, Back & Co., extensive manufacturers of Iron at, Phonixyille and that vicinity, in this State, though involving liabilities to the amount of \$800,000, is not likely to prove as disastrous as was at first supposed. Of the \$800,000 named, \$300,000 is represented to be secured by good and safficient collatoral securities, having only half a million to be provided for from the large assets of the firms. It is the expectation that the works will go on, and that the two thousand persons employed by them will be continued in their places. As an evidence of the magnitude of the business of these manufacturers, we are told that their payments for a considerable time have been \$10,000 per day, and to show how strenuously they exerted themselves to meet their engagements, they, a week or two ago entered the market, and raised \$100,000, at 2(2)2 per cent. a month, to meet the demand of their operatives, who had become somewhat importunate, by a rumor put in circulation that the firms were in a falling condition. The liabilities to workmen are now only for ten or twelved ays labor, whereas the payments susuly are thirty days behind. Within the last year the firms have paid over \$30,000 in interest, and the day before suspension three per cent. a month was offered, without being able to procure the requisite amounts. Beyond this offer it was felt to be unjust to their creditors to go. It was giving the property, justly liable to the claims of their creditors, to the money-lenders.

The immediate cause of the suspension, we believe, resulted from non compliance of engagements on the part of the New York and Erie Railroad Company. The announcement of the suspension of the time rereated considerable excitement yesterday, though we creditors to the Philadel-phia banks. Some of the country banks hold more than they care to have just now, though not enough probably to DAVID WILMOT.

not enough probably to put them to any material inconvenience.

Notwithstanding further mercantile disasters reported, the general feeling continues to be more quiet and hopeful for the future. The reaction from the interior is looked for with some apprehension, but there are no evidences of a panie. The failures announced pare Frederick G.
