

WEDNESDAY MORNING, SEPT. 29, 1907

READING MATTER OF THIS PAGE FOR 1907

The Cause of the Monetary Crisis

The quick financial doors are being swung open for the present crisis. One thinks it is the result of a violent contraction of discounts by the banks...

It had been fondly hoped that this schooner, (the lights of which were still seen by the rescuers after the wreck), had succeeded in picking up some of the unfortunate passengers...

The Chicago Press, in closing its report of the Edie Affair case says:

"The result, though not final in its effect, is practically a verdict for the Edie Affair case."
